BANK OF AMERICA CORPORATION
Medium-Term Senior Note, Series K
SUPPLEMENTAL PAYMENT AMOUNT RIDER

General

This Note is part of a series of medium-term notes entitled "Medium-Term Notes, Series K" issued under the Indenture, as described in the Prospectus dated April 14, 2004 and Prospectus Supplement dated April 15, 2004 and is designated as the Bank of America Corporation Minimum Return Equity Appreciation Growth LinkEd Securities "Index EAGLES[®]," due June 28, 2010 Linked to the S&P 500[®] Index. Certain capitalized terms used herein have the meanings ascribed to them in the Prospectus and the Prospectus Supplement.

Payment at Maturity; Supplemental Redemption Amount

At maturity, the holder of the Note will receive the principal amount of the Note. The holder of the Note also will receive the Supplemental Redemption Amount, which will not be less than a total of 6.00% of the principal amount of the Note at maturity. This minimum amount is called the "Minimum Supplemental Redemption Amount." The Supplemental Redemption Amount will be based on the performance of the S&P 500[®] Index during the term of this Note and will be determined by the Calculation Agent in the manner described below.

The Calculation Agent will determine the Supplemental Redemption Amount, which will not be less than the Minimum Supplemental Redemption Amount, by reference to the periodic returns of the S&P 500[®] Index during the following 24 "Reference Periods":

2004/05	2005/06	2006/07
06/22/04-09/22/04	06/22/05-09/22/05	06/22/06-09/22/06

09/22/07-12/22/07	09/22/08-12/22/08	09/22/09-12/22/09
12/22/07-03/22/08	12/22/08-03/22/09	12/22/09-03/22/10
03/22/08-06/22/08	03/22/09-06/22/09	03/22/10-06/22/10

This Note was priced on June 22, 2004, or the "Pricing Date." The Pricing Date is the first day of the first Reference Period.

The last day of each Reference Period is referred to as a "Reset Date." On the Pricing Date, the Calculation Agent determined the closing level of the S&P 500[®] Index to be 1,134.41. On each Reset Date, the Calculation Agent will determine the "Periodic Return" of the S&P 500[®] Index for the Reference Period then ended by applying the following formula. The result will be rounded to the nearest ten-thousandth of a decimal place and then expressed as a percentage:

$$\frac{\text{Ending Level} - \text{Starting Level}}{\text{Starting Level}}$$

The "Starting Level" for the initial Reference Period is the closing level of the S&P 500[®] Index on the Pricing Date, or 1,134.41, and the "Starting Level" for each subsequent Reference Period is the Ending Level for the immediately preceding Reference Period. The "Ending Level" for each Reference Period is the closing level of the S&P 500[®] Index on the applicable Reset Date, or if that day is not a Business Day (as defined above), the closing level of the S&P 500[®] Index on the next following Business Day. The "closing level" of the S&P 500[®] Index

on any Business Day means the level of the S&P 500[®] Index at the regular official weekday close of any and all relevant exchanges and/or markets.

On the Pricing Date, the Corporation set a cap of 9.00%, or the "Return Cap," which limits any increases in the Periodic Return of the S&P 500[®] Index to that rate. For any Reference Period in which the Periodic Return is greater than the Return Cap, the Periodic Return for that Reference Period will be deemed to be the Return Cap.

After the close of the market on the last Reset Date, the Calculation Agent will determine the Supplemental Redemption Amount, which will not be less than the Minimum Supplemental Redemption Amount, payable to the holder at maturity based on the following formula:

$$\text{Principal Amount} \times \text{Index Return}$$

The "Index Return" is the compounded value of the 24 Periodic Returns computed in the following manner and expressed as a percentage, rounded to the nearest ten-thousandth of a decimal place:

$$[\text{The product of } (1.00 + \text{the Periodic Return}) \text{ for each Reference Period}] - 1.00$$

The Supplemental Redemption Amount will be calculated after the close of the market on the last Reset Date. The period of time between the last Reset Date and the maturity date is not part of a Reference Period, and, therefore, changes in the S&P 500[®] Index during that period will not affect the Supplemental Redemption Amount payable to the holder at maturity. If these calculations produce a Supplemental Redemption Amount that is less than the Minimum Supplemental Redemption Amount, the Corporation will pay the holder of this Note at maturity a Supplemental Redemption Amount equal to the Minimum Supplemental Redemption Amount.

Event of Default

Upon the occurrence of an Event of Default (as defined in the Indenture), the holder of this Note only will be entitled to receive the principal amount of the Note, and will not be entitled to payment of the Supplemental Redemption Amount.

Market Disruption

Each of the following will be a "Market Disruption Event" if, in the sole opinion of the Calculation Agent, that event materially affects the S&P 500[®] Index:

- (a) the suspension, material limitation, or absence of the trading of a material number of stocks included in the S&P 500[®] Index;
- (b) the suspension or material limitation of the trading of stocks on one or more stock exchanges on which stocks included in the S&P 500[®] Index are quoted;
- (c) the suspension or material limitation of the trading of (a) options or futures relating to the S&P 500[®] Index on any options or futures exchanges or (b) options or futures generally; or
- (d) the imposition of any exchange controls with respect to any currencies involved in determining the total amount payable on this Note at maturity.

For the purpose of this definition of Market Disruption Event:

- (a) a limitation on the number of hours or days of trading will not be a Market Disruption Event if it results from an announced change in the regular business hours of any exchange;
- (b) a limitation on trading imposed by reason of the movements in price exceeding the levels permitted by any relevant exchange will be a Market Disruption Event;
- (c) a decision to permanently discontinue trading in the relevant futures or options contracts will not constitute a Market Disruption Event; and
- (d) an absence of trading on a securities exchange or quotation system will not include any time when that exchange or quotation system is closed for trading under ordinary circumstances.

If a Market Disruption Event occurs or is continuing on a day that would otherwise be a Reset Date, then the Calculation Agent instead will use the closing level of the S&P 500[®] Index on the first Business Day after that day on which no Market Disruption Event occurs or is continuing. In no event, however, will any Reset Date be postponed by more than five Business Days. If any Reset Date is postponed to the last possible day, but a Market Disruption Event occurs or is continuing on that day, that day nevertheless will be the Reset Date, and the

Calculation Agent will make a good faith estimate of the closing level of the S&P 500[®] Index based upon its assessment of the level of the S&P 500[®] Index at that time. If the last scheduled Reset Date is postponed due to a Market Disruption Event, the Maturity Date for this Note also will be postponed by the same number of Business Days.

Discontinuance of the S&P 500[®] Index; Alteration of Method of Calculation

If S&P[®] discontinues publication of the S&P 500[®] Index and S&P[®] or another entity publishes a successor or substitute index that the Calculation Agent determines, in its sole discretion, is comparable to the discontinued S&P 500[®] Index (the new index being referred to as a "Successor Index"), then the relevant closing levels shall be determined by reference to the Successor Index at the close of trading on the New York Stock Exchange, the American Stock Exchange, The Nasdaq National Market, or the relevant exchange or market for the Successor Index.

If the Calculation Agent selects a Successor Index, the Calculation Agent immediately shall notify the Corporation and the Trustee, and the Trustee will provide written notice of a change to the holders of this Note within three Business Days of selection.

If S&P[®] discontinues publication of the S&P 500[®] Index, and the Calculation Agent determines that no Successor Index is available, then the Calculation Agent will notify the Corporation and the Trustee and shall calculate the appropriate closing levels. These calculations by the Calculation Agent will be in accordance with the formula for and method of calculating the S&P 500[®] Index last in effect prior to that discontinuance. If a Successor Index is selected or the Calculation Agent calculates a level as a substitute for the S&P 500[®] Index, that Successor Index or level will be substituted for the S&P 500[®] Index for all purposes.

If at any time the method of calculating the S&P 500[®] Index or a Successor Index, or the level of that index, is changed in a material respect, or if the S&P 500[®] Index or a Successor Index in any other way is modified so that it does not, in the opinion of the Calculation Agent, fairly represent the level of the S&P 500[®] Index or the Successor Index had those changes or modifications not been made, then, from and after that time, the Calculation Agent will notify the Corporation and the Trustee. The Calculation Agent will make those calculations and adjustments as, in the good faith judgment of the Calculation Agent, may be necessary in order to arrive at a level of a stock index comparable to the S&P 500[®] Index or the Successor Index, as the case may be, as if those changes or modifications had not been made, and calculate the closing levels with reference to the S&P 500[®] Index or the Successor Index, as adjusted. Accordingly, if the method of calculating the S&P 500[®] Index or a Successor Index is modified so that the level of such index is a fraction of what it would have been if it had not been modified (e.g., due to a split in the index), then the Calculation Agent shall adjust the index in order to arrive at a level of the S&P 500[®] Index or the Successor Index as if it had not been modified (e.g., as if the split had not occurred).

Role of the Calculation Agent

The Calculation Agent has the sole discretion to make all determinations regarding this Note, including determinations regarding the Index Return, the Supplemental Redemption Amount, Market Disruption Events, Successor Indices, and Business Days. Absent manifest error, all determinations of the Calculation Agent will be final and binding on the holder of this Note and the Corporation, without any liability on the part of the Calculation Agent.

The Corporation has initially appointed its affiliate, Banc of America Securities LLC, as the Calculation Agent, but the Corporation may change the Calculation Agent at any time without notifying the holder of this Note.
