Bank of America reports third quarter earnings of $3.76 billion, or $.91 per share

Successful brand rollout continues across Northeast

Fleet merger transition on target

Consumer bank momentum continues

CHARLOTTE — Bank of America Corporation today reported third quarter earnings of $3.76 billion, or $.91 per share (diluted), compared to earnings of $2.92 billion, or $.96 per share, a year ago. Under purchase accounting rules, year-ago results do not include the impact of FleetBoston Financial Corporation, which was acquired on April 1, 2004.

Return on common equity in the third quarter was 15.56 percent.

In addition to the impact of Fleet, the company's net income improvement was driven by continued momentum in consumer banking, merger-driven cost savings, lower provision expense and gains on the sale of debt securities.

Third quarter earnings included merger and restructuring charges of $221 million pre-tax, which reduced earnings by 4 cents per share. These included $156 million for the Fleet merger and $65 million for severance related to the infrastructure initiative announced last week.

For the first nine months of 2004, Bank of America earned $10.29 billion, or $2.76 per share, compared to $8.08 billion, or $2.65 per share, a year earlier.

"Business momentum remains strong," said Kenneth D. Lewis, president and chief executive officer. "Our results show we are attracting and deepening customer relationships across the franchise. This is evident from the growth in consumer accounts and card usage to the improvement in market penetration in corporate banking products to the significant growth in Premier Banking relationships. We are also particularly pleased with the progress in integrating Fleet, where we are meeting, or exceeding, the plans we announced last fall."

"We are beginning to tap into the wealth in the Northeast; GCIB is gaining market share in key product lines and should gain strength as we invest more than $600 million into the business. Commercial is seeing positive growth trends and the consumer business remains our workhorse."

Fleet Merger Highlights from the Quarter

- The company opened 87,000 net new consumer checking accounts in the former Fleet franchise during the quarter, more than double the 42,000 in the prior quarter.
- In the Northeast, the company opened 81,000 net new consumer savings accounts, compared to 37,000 in the prior quarter.
- Product sales in the six new Manhattan banking centers averaged 12 sales per associate per day, which is twice the average rate across the franchise.
- 399 Premier banking client managers were added, 50 percent in New England and 50 percent in the New York City area.
- To date, 621 Fleet banking centers, or more than a third of the total, have been re-branded.
- Attesting to the convenience of the national network, “legacy” Bank of America and Fleet customers have begun to make cross-footprint transactions in increasing volumes. In the last week of September alone, customers completed 25,000 cross-footprint transactions, 60 percent of which were performed by “legacy” Bank of America customers in former Fleet banking centers.

Third Quarter Business Highlights

To provide a meaningful period-to-period comparison and one that is more reflective of ongoing operations, this section’s highlights are calculated by combining Bank of America and Fleet results on a pro forma basis for the applicable comparisons.

- The company announced a new national business designed to serve the needs of ultra high net worth individuals and families.
- Retail deposits grew 11 percent to $399.6 billion.
- The number of consumer checking accounts grew by net 537,000 during the quarter. Year to date, the company has increased accounts by 1,515,000 and is on target to exceed its goal of 2.0 million for the year.
- The number of consumer savings accounts grew by net 624,000 during the quarter. Year to date, the company has increased accounts by 1,876,000 and is on target to exceed its goal of 2.0 million for the year.
- The company opened 1.6 million new credit card accounts during the quarter. This growth was driven by targeted direct mail marketing campaigns, strong co-brand programs and effective cross selling of cards in banking centers.

More

- During the quarter, the company opened 38 new banking centers, bringing total openings to 83 for the year.
- Customers continued to expand their use of debit cards. Both purchase volumes and total transactions increased 19 and 18 percent, respectively, from a year ago.
- Online banking active users increased 5 percent, to 11.8 million. Of those users, 4.8 million use bill pay. During the quarter, bill pay volume increased 10 percent.
- In the first nine months of the year, the company became the top U.S. deal manager in commercial mortgage-backed securities.
- In the first nine months of the year, the company's market share in syndicated loans increased to 20.0 percent. High yield debt market share increased to 12.2 percent.

Third Quarter Financial Summary

These are GAAP-reported results, which exclude Fleet results in the year-ago period.

Revenue

Revenue on a fully taxable-equivalent basis grew to $12.73 billion from $9.92 billion the previous year.

Net interest income on a fully taxable-equivalent basis was $7.84 billion compared to $5.48 billion a year earlier. In addition to the impact of Fleet, this increase was driven by the impact of higher asset/liability management portfolio and rate levels, consumer loan growth and domestic deposit growth. These increases were partially offset by the impact of lower large corporate and foreign loan balances in addition to lower trading-related margins and mortgages held-for-sale.

Noninterest income was $4.90 billion compared to $4.45 billion a year earlier. In addition to the impact of Fleet, these results were driven by record card income, higher service charges, investment and brokerage income and equity investment gains, offset by a loss of $250 million in mortgage banking income, which resulted from lower origination volume and a writedown of mortgage servicing rights.

During the quarter, the company realized $732 million in securities gains as it repositioned its mortgage-backed securities to reduce mortgage prepayment risk.

Efficiency

Noninterest expense was $6.99 billion compared to $5.08 billion a year ago, driven by the addition of Fleet. Pre-tax cost savings from the merger were $309 million during the quarter.

Credit Quality

Overall credit quality continued to improve. Both net charge-offs and nonperforming assets continued to decline. All major commercial asset quality indicators showed positive trends and consumer asset quality remained stable as credit card charge-offs grew in line with card portfolio growth.

- Provision for credit losses was $650 million, down from $789 million in the second quarter of 2004 and $651 million a year earlier.
- Net charge-offs were 0.57 percent of average loans and leases, or $719 million, down from 0.67 percent, or $829 million, in the second quarter and 0.86 percent of loans and leases, or $776 million, a year earlier.
- Nonperforming assets were 0.55 percent of total loans, leases and foreclosed properties, or $2.84 billion, as of September 30, 2004. This compared to 0.64 percent, or $3.18 billion, on June 30, 2004 and 0.98 percent, or $3.66 billion, on September 30, 2003.
- The allowance for loan and lease losses stood at 1.70 percent of loans and leases, or $8.72 billion, on September 30, 2004. This compared to 1.76 percent or $8.77 billion on June 30, 2004 and 1.68 percent or $6.26 billion on September 30, 2003. As of September 30, 2004, the allowance for loan and lease losses represented 343 percent of nonperforming loans and leases, compared to 305 percent on June 30, 2004 and 183 percent on September 30, 2003.

Capital Management

Total shareholders' equity was $98.0 billion on September 30, 2004, compared to $50.4 billion a year ago. This represented 9 percent of period-end assets of $1.09 trillion. The Tier 1 Capital Ratio was 8.08 percent, compared to 8.20 percent on June 30, 2004 and 8.25 percent a year ago.

During the quarter, Bank of America paid a cash dividend of $.45 per share, a 12.5 percent increase from the prior quarter's dividend. The company also issued 26.8 million shares primarily related to employee options and stock ownership plans and repurchased 40.4 million shares. Average common shares issued and outstanding were 4.05 billion in the third quarter compared to 4.06 billion in the second quarter and 2.98 billion a year earlier. The company's stock split 2-for-1 on August 27, 2004.

More

Business Segment Results

Effective April 1, 2004, the company reorganized its business segments. What was formerly Consumer and Commercial Banking has been separated into two segments — Consumer and Small Business Banking; and Commercial Banking. Wealth and Investment Management has added Premier Banking and the NYSE Specialist firm. Global Corporate and Investment Banking is relatively unchanged and Corporate Other includes Latin America, equity investments, liquidating businesses and treasury.

Consumer and Small Business Banking

Consumer and Small Business Banking earned $1.68 billion on total revenue of $7.03 billion.

During the quarter, successful execution of the company's customer relationship strategy continued to provide momentum for this business. Product sales per associate continued to grow as customer relationships deepened. This trend was reflected in continued solid growth in checking and savings accounts. Home equity and credit cards balances increased significantly during the quarter. Credit card purchase volume increased and the number of cardholders continued to grow.

Revenue and profit were negatively impacted by a loss of $250 million in mortgage banking income, which resulted from lower origination volume and a writedown of mortgage servicing rights. Results were also impacted by higher provision expense due to growth in the credit card portfolio.

Commercial Banking

Commercial Banking earned $824 million on total revenue of $1.82 billion.

During the quarter, service charges and investment banking fees grew as the company recorded lower provision and personnel expense. Loans continued to grow modestly.

Global Corporate and Investment Banking

Global Corporate and Investment Banking earned $475 million on total revenue of $2.06 billion.

A slow economy, flattening yield curve, normal summer slowdown and continued geo-political risk impacted results. Investment banking results, while lower than the second quarter, were above year-ago levels, reflecting the company's continuing platform build-out. Growth in loan syndications and advisory services drove investment banking fees.

Trading results were below the record set in second quarter and lower than a year ago. A flattening yield curve and tightening credit spreads created a difficult trading environment. Offsetting this was continued strong demand for commercial mortgage-backed and asset-backed securities. Provision expense was negative for the fourth straight quarter, reflecting continued improvement in credit quality.

More

Wealth and Investment Management

Wealth and Investment Management earned $469 million on total revenue of $1.57 billion.

The segment benefited from its diversified business model with significant increases in loans and deposits in the Private Bank and Premier Banking. This more than offset lower brokerage fees, which reflected lower retail trading in the debt and equity markets.

Net interest income grew 12 percent during the quarter as deposits in this segment increased 14 percent, reflecting strong deposit efforts by Premier Banking and the Private Bank. Loans increased 3 percent during the quarter. Assets under management were $430 billion, which was down from the prior quarter.

Corporate Other

Corporate Other earned $314 million. Principal Investing continued to show improvements, reporting cash gains of $257 million in the third quarter offset by $59 million in impairments and $27 million in mark-to-market adjustments. Latin America earned $151 million on total revenue of $264 million, primarily due to lower provision.

Note: *Marc D. Oken, chief financial officer, will discuss third quarter results in a conference call at 9:30 a.m. (Eastern Time) today. The call can be accessed via a webcast available on the Bank of America Web site at http://www.bankofamerica.com/investor/.*

Reconciliation to GAAP financial measures

Supplemental financial data presented on an operating basis is a basis of presentation not defined by GAAP (generally accepted accounting principles) that excludes merger and restructuring charges. We believe that the exclusion of the merger and restructuring charges, which represent incremental costs to integrate FleetBoston's operations, provides a meaningful period-to-period comparison and is more reflective of normalized operations.

Shareholder value added (SVA) is a key measure of performance not defined by GAAP that is used in managing our growth strategy orientation and strengthening our focus on generating long-term growth and shareholder value. SVA is used in measuring the performance of our different business units and is an integral component for allocating resources. Each business segment has a goal for growth in SVA reflecting the individual segment's business and customer strategy.

Other companies may define or calculate supplemental financial data differently. See the Tables below for supplemental financial data and corresponding reconciliation to GAAP financial measures for year-to-date ended September 30, 2004 and 2003, and the quarters ended September 30, 2004, June 30, 2004, March 31, 2004, December 31, 2003 and September 30, 2003.

(1) *There is no generally accepted definition of emerging markets. The definition that we use includes all countries in Asia Pacific excluding Japan, Australia and New Zealand; and all countries in Central and Eastern Europe excluding Greece.*

(2) *Includes acceptances, SBLCs, commercial letters of credit and formal guarantees.*

(3) *Amounts outstanding for Other Latin America and Other Asia Pacific have been reduced by $192 and $14, respectively, at September 30, 2004 and $173 and $13, respectively, at December 31, 2003. Such amounts represent the fair value of U.S. Treasury securities held as collateral outside the country of exposure.*

(4) *Cross-border resale agreements are presented based on the domicile of the counterparty because the counterparty has the legal obligation for repayment. For regulatory reporting under Federal Financial Institutions Examinations Council (FFIEC) guidelines, cross-border resale agreements are presented based on the domicile of the issuer of the securities that are held as collateral.*

(5) *Cross-border exposure includes amounts payable to the Corporation by borrowers with a country of residence other than the one in which the credit is booked, regardless of the currency in which the claim is denominated, consistent with FFIEC reporting rules.*

(6) *Local country exposure includes amounts payable to the Corporation by borrowers with a country of residence in which the credit is booked, regardless of the currency in which the claim is denominated. Management subtracts local funding or liabilities from local exposures as allowed by the FFIEC. Total amount of local country exposure funded by local liabilities at September 30, 2004 was $14,136 compared to $5,336 at December 31, 2003. Local country exposure funded by local liabilities at September 30, 2004 in Latin America and Asia Pacific was $8,285 and $5,851, respectively, of which $3,652 was in Brazil, $1,555 in Argentina, $1,145 in Chile, $3,073 in Hong Kong and $1,128 in Singapore. There were no other countries with local country exposure funded by local liabilities greater than $1.0 billion.*

(7) *The Corporation has certain risk mitigation instruments associated with Brazil exposure, including insurance contracts, other trade-related transfer risk mitigation and third party funding. Ability to file a claim under insurance policies may vary with the country's current political and economic environment.*

(8) *Includes $1,800 related to Grupo Financiero Santander Serfin acquired in the first quarter of 2003.*
