Bank of America reports quarterly earnings of \$4.13 billion, or \$1.02 per share

Double digit revenue growth across all business segments

Investment banking, trading results increase

Efficiency ratio remains below 50 percent

Strong performance in card services

Average retail deposits up 10%

CHARLOTTE — Bank of America Corporation today reported that third quarter net income rose 10 percent to \$4.13 billion from \$3.76 billion a year earlier. Per share earnings increased 12 percent to \$1.02 per share (diluted) from \$0.91 per share. Return on average common equity in the third quarter was 16.33 percent.

Excluding merger and restructuring charges of \$120 million pre-tax, equal to 2 cents per share, the company earned \$1.04 per share.

Improved results were driven by a 16 percent increase in revenue, reflecting continued success in growth initiatives in all of Bank of America's major business segments. Revenue growth was driven primarily by increases in noninterest income, including continued strength in card results, service fees, a rebound in mortgage banking income, improved trading account profits and higher equity investment gains.

The growth in revenue, coupled with a 4 percent increase in noninterest expense, produced significant positive operating leverage of 12 percentage points.

For the first nine months of 2005, Bank of America earned \$13.12 billion, or \$3.22 per share (diluted), compared to \$10.29 billion, or \$2.76 per share, a year earlier.

"We had across the board increases in the business segments that make up our total revenue," said Kenneth D. Lewis, chairman and chief executive officer. "This is a tribute to the power and balance of our franchise, the talent and energy of our associates and the continued improvements to the customer experience using Six Sigma and other processes. Combined with continued excellent expense control, we continue to produce significant positive operating leverage that is producing value for our shareholders."

Business Highlights

- The bank added a record 635,000 net new retail checking accounts in the quarter and 294,000 net new savings accounts. Total checking and savings accounts now are more than 51 million.
- Total average retail deposit balances increased nearly \$38 billion, or 10 percent, from a year ago to more than \$434 billion, driven by increased sales of checking products such as My Access and Campus Edge from both banking store and online sales channels.
- Average loans and leases grew 7 percent from a year ago to \$539.5 billion.
- Average managed consumer credit card outstandings rose 9 percent to a record \$59.8 billion, as the company added 1.5 million new consumer credit card accounts in the quarter.
- First mortgage loans originated in the third quarter rose to \$27.5 billion, \$10.9 billion higher than the third quarter of 2004, as borrowers took advantage of a favorable rate environment during the quarter.
- Debit card activity grew substantially from the same period last year, as purchase volumes soared 28 percent and revenue increased 29 percent to \$421 million.
- Trading-related revenue climbed to \$800 million in the third quarter from \$584 million in the third quarter of 2004, boosted by improved results in equities and fixed income and interest rate-related trading.
- Investment banking income on a consolidated basis increased 19 percent from a year ago due to substantial increases in equity underwriting and advisory services fees.
- Assets under management grew 6 percent in Global Wealth and Investment Management from a year earlier.
- Based on assets under management weighted over 3 years, 70 percent of Columbia Management Group's funds (equity, fixed, money market funds) are in the top 25th percentile of Lipper's overall rankings of the mutual fund industry.¹
- 53 percent of Columbia Management's equity and fixed income funds are rated 4 or 5 stars by Morningstar as of September 30, 2005.²

Customer Highlights

- Bank of America recently introduced its *Keep the Change*[™] program, which provides a free savings feature tied to a debit card. When customers sign up for Keep the Change, the amount of every purchase they make with a Bank of America debit card is automatically rounded up to the nearest whole dollar and the difference is transferred from their checking accounts into their savings accounts at the end of the day. Bank of America will match 100 percent of the Keep the Change transfers for the first three months. After that the bank will contribute five percent of contributions each year, with a maximum match of \$250 annually.
- Bank of America introduced a new convenient nationwide service that allows customers to make remittances to Mexico for free. Called SafeSend[®], the new free feature is available to anyone who has a Bank of America personal checking account. Earlier this year, Bank of America became the first major financial institution in the United States to offer free remittances when it introduced the product in Chicago.
- Bank of America was named best consumer Internet bank in the United States by Global Finance magazine as part of its “World’s Best Internet Banks” competition. Global Finance magazine also gave Bank of America awards for the best information security initiatives, best bill pay and presentment, as well as best online consumer credit in North America. Bank of America is the leading online banking site, with 14.3 million active online banking customers, 7.0 million active bill pay customers, and more than 1.4 billion visits annually to bankofamerica.com.
- While Bank of America has limited operations in Louisiana, Alabama and Mississippi, the bank has developed special product and service programs to assist customers affected by Hurricane Katrina within the federal disaster area, as designated by FEMA. These programs include payment deferrals for credit cards, mortgages, home equity lines of credit, and auto/boat/RV loans. Bank of America and its associates have given in excess of \$4 million to aid the victims of Hurricane Katrina. Bank of America also previously announced a \$100 million Community Development Banking goal to rebuild affordable housing and revitalize neighborhoods in Gulf Coast areas devastated by Hurricanes Katrina and Rita.

Third Quarter 2005 Financial Summary

Revenue

Revenue on a fully taxable-equivalent basis grew 16 percent to \$14.81 billion from \$12.76 billion the previous year.

Net interest income on a fully taxable-equivalent basis was \$7.97 billion, up almost 2 percent from \$7.84 billion a year earlier, as the impact of continued success in growing loans and deposits was dampened by continued relatively low long-term interest rates and a flatter yield curve. Specifically, the increase in net interest income was driven by growth in consumer and middle-market business loans, higher domestic deposit levels, and a larger asset-liability management portfolio. These increases were partially offset by margin compression resulting from a flattening yield curve and a lower trading-related net interest income contribution. Net interest income was up almost 2 percent from the second quarter of 2005. The net interest yield in the third quarter was 2.80 percent, down 1 basis point from the second quarter and 50 basis points from a year earlier.

Noninterest income rose 39 percent to \$6.83 billion from \$4.92 billion a year earlier. These results were driven by higher card income, equity investment gains and trading account profits. Mortgage banking income rebounded from a \$250 million loss the previous year related to writedowns associated with mortgage servicing rights.

During the quarter, the company realized \$29 million in debt securities gains compared to \$732 million in the third quarter of 2004.

Efficiency

With strong revenue growth and continued expense control, the efficiency ratio for the third quarter of 2005, including merger and restructuring charges, improved to 49.20 percent (48.39 percent excluding merger and restructuring charges). Noninterest expense increased 4 percent to \$7.29 billion compared to \$7.02 billion a year ago, due primarily to increases in revenue-related incentive compensation resulting from improved performance. Full year 2005 cost savings from the merger with FleetBoston Financial Corporation are estimated to be \$1.85 billion.

Credit Quality

Credit quality was generally stable, however the rate of improvement in commercial credit quality slowed. Charge-offs and provision expense rose. The company took \$209 million in previously-reserved-for charge-offs associated with the domestic airline industry. Consumer loan reserves increased, reflecting growth and seasoning in the credit card portfolio including returning securitizations. A \$50 million reserve was established for estimated losses associated with Hurricane Katrina.

- Provision for credit losses was \$1.16 billion, up from \$875 million in the second quarter of 2005 and \$650 million a year earlier.
- Net charge-offs were \$1.15 billion, or 0.84 percent of average loans and leases. This compared to \$880 million, or 0.68 percent, in the second quarter of 2005 and \$719 million, or 0.57 percent of average loans and leases, in the third quarter of 2004.
- Nonperforming assets decreased to \$1.60 billion, or 0.29 percent of total loans, leases and foreclosed properties, at September 30, 2005. This compared to \$1.90 billion, or 0.36 percent, at June 30, 2005 and \$2.84 billion, or 0.55 percent, at September 30, 2004.
- The allowance for loan and lease losses was \$8.33 billion, or 1.50 percent of loans and leases, at September 30, 2005. This compared to \$8.32 billion, or 1.57 percent, at June 30, 2005 and \$8.72 billion, or 1.70 percent, at September 30, 2004.

Capital Management

Total shareholders' equity was \$101.3 billion at September 30, 2005. Period-end assets grew to \$1.25 trillion. The Tier 1 Capital Ratio was 8.21 percent, compared to 8.06 percent at June 30, 2005 and 8.08 percent a year ago.

During the quarter, Bank of America paid a cash dividend of \$0.50 per share. The company also issued 7.0 million shares, primarily related to employee stock options and ownership plans, and repurchased 10.6 million shares. Period-ending common shares issued and outstanding were 4.01 billion in the third quarter, compared to 4.02 billion in the second quarter of 2005 and 4.05 billion in the third quarter of 2004.

Continued strong growth in the card business, significant increases in home equity loans, a rebound in mortgage banking, and continuing account growth which has led to market share gains in retail deposits, drove Global Consumer and Small Business Banking's 25 percent increase in net income. Revenue rose 12 percent.

Card income rose more than 21 percent to \$1.4 billion as a result of increased customer activity, growth in managed outstandings and the impact of the National Processing Corporation acquisition in the fourth quarter of 2004. Provision expense increased primarily due to higher card charge-offs resulting from growth and seasoning of the portfolio.

The bank's mortgage unit benefited from an improved interest rate environment in the quarter along with a reduced cost structure for originating and servicing first mortgages and home equity loans. Average outstandings on home equity loans across all business units increased 31 percent to \$65.7 billion from the third quarter of 2004. Results were significantly better than a year ago, primarily due to a writedown of mortgage servicing rights in the third quarter of 2004.

Global Business and Financial Services benefited in the quarter from continued strong loan growth across all business lines, including the purchase of loans from General Motors Acceptance Corporation. Net income declined as provision expense increased. Revenue grew more than 13 percent.

Average loans and leases in Global Business and Financial Services grew more than \$19 billion from the third quarter of 2004, or 12 percent, as commercial activity continued to increase. Middle market business loans and leases grew more than 10 percent with strong growth across all geographic regions.

Revenue growth was driven by strong net interest income on loans and deposits in Commercial Real Estate and Business Banking.

Provision expense increased \$315 million, primarily due to a slower rate of improvement in commercial credit quality and higher net charge-offs.

Strong trading results and increased market share gains in investment banking for Global Capital Markets and Investment Banking drove revenue 12 percent higher. Net income declined as provision increased and expenses rose as the company continued to invest in the business.

Trading-related results benefited from increased profits in fixed income, equities, interest rate and foreign exchange products.

Investment banking income was up 17 percent, driven by increased activity in equity underwriting and advisory services.

During the quarter, Banc of America Securities achieved significant gains in market share as tabulated by Thomson Financial. Year-to-date, the unit increased its market share in underwriting investment grade debt to 8 percent and rose in rankings to 4th from 8th for the first nine months of 2004. Banc of America Securities maintained its number one ranking in high yield debt underwriting for the year, and maintained top five underwriting rankings in syndicated loans, leveraged loans, and mortgage-backed securities.

Global Wealth and Investment Management increased net income by 22 percent from third quarter 2004 as increased asset management fees, higher loan volume and migration of deposits to Premier Banking from Consumer Banking drove results.

Asset management fees increased 7 percent from the third quarter of 2004 as the unit experienced 6 percent growth in assets under management. Growth in assets under management was mainly due to net inflows of \$3.6 billion and the positive impact of \$24.2 billion in increased market values.

Sales of brokerage services to Premier clients, the mass affluent sector, continued to grow, with 30 percent currently using these investment services in addition to banking products, up from 25 percent at the end of 2004.

All Other

All Other reflected \$124 million of net income for the quarter, the same as the third quarter of 2004. Equity Investment gains were \$564 million in the third quarter of 2005 compared to \$182 million in the third quarter of 2004. All Other also included debt securities gains related to asset/liability management of \$13 million, compared to \$614 million in the third quarter of 2004.

Note: Al de Molina, chief financial officer, will discuss third quarter results in a conference call at 10 a.m. (Eastern Time) today. The call can be accessed via a webcast available on the Bank of America Web site at <http://www.bankofamerica.com/investor/>.

Third Quarter 2005

This information is preliminary and based on company data available at the time of the presentation. It speaks only as of the particular date or dates included in the accompanying pages. Bank of America does not undertake an obligation to, and disclaims any duty to, correct or update any of the information provided. Any forward-looking statements in this information are subject to the forward-looking language contained in Bank of America's reports filed with the SEC pursuant to the Securities Exchange Act of 1934, which are available at the SEC's website (www.sec.gov) or at Bank of America's website (www.bankofamerica.com). Bank of America's future financial performance is subject to risks and uncertainties as described in its SEC filings.

Third Quarter 2005

- Earnings of \$4.1 billion or \$1.02 per diluted share grew 12% over results in 3Q04 but fell 4% versus 2Q05 results. Excluding merger and restructuring charges of \$120 million, \$80 million after tax, earnings were \$1.04 per diluted share.
- Revenue increased at a double digit pace in all business segments versus 3Q04
 - Global Consumer & Business Banking increased 13%
 - Global Wealth & Investment Management increased 14%
 - Global Business & Financial Services increased 13%
 - Global Capital Markets & Investment Banking increased 12%
- Revenue on an FTE basis of \$14.8 billion grew 4% compared to 2Q05 and 16% over 3Q04
- Net interest income improved 1.7% versus 2Q05 while the net interest yield declined 1 bp to 2.80%
 - Increasing loan and deposit levels drove the improvement offsetting compression from the flattening yield curve.
 - Retail deposits grew another \$6.4 billion or 1% versus 2Q05
 - Average loans grew 4% (excluding residential mortgages held for asset liability management purposes)
- Noninterest income improved 7% from 2Q05 with continuing consumer strength aided by good market sensitive revenue.
 - Service charges grew 8% versus 2Q05 while credit card income increased 6% in the quarter.
 - Trading-related revenue improved 14% and investment banking climbed 21%.
 - Equity investment gains showed continued strength reaching \$668 million in 3Q05 versus \$492 million in 2Q05.
- Securities gains recognized in 3Q05 were \$29 million versus \$325 million in 2Q05.
- Noninterest expense, excluding merger and restructuring charges, of \$7.2 billion increased 4% versus 2Q05 and resulted in an efficiency ratio of 48%.
 - Personnel costs rose 5% driven by revenue growth and higher legal costs were offset by lower marketing expenses.
- Provision expense was \$1,159 million versus the \$1,145 million net charge-offs recorded in the quarter
 - Charge-offs include \$209 million domestic airline exposure reserved in prior periods.
 - Also contributing to decreased commercial reserves was improvement in the risk profile of Argentine exposure.
 - Partially offsetting these reductions in commercial reserves was increased consumer reserves for card portfolio growth, including securitizations returning to the balance sheet, and continued portfolio seasoning.
 - A \$50 million reserve was established for estimated losses associated with Hurricane Katrina.
- Tier 1 ratio rose to 8.21% versus 2Q05 ratio at 8.06%.
- Continuing momentum in business lines:
 - 8.5 million product sales.
 - Number of *net new checking accounts* grew by 635,000.
 - Number of *net new savings accounts* grew by 294,000.
 - Opened 1.5 million new credit card accounts.
 - 1.1 million of retail product sales delivered through the Ecommerce channel, up 79% versus 3Q04.
 - Active online banking users increased to 14.3 million while bill payers reached 7 million.
 - Bill payers are now paying \$33 billion worth of bills per quarter with bill presenters growing to more than 300.
 - Assets under management ended the quarter at \$457 billion reflecting increases from market valuations as well as net inflows.
- Fleet merger all but completed.
- MBNA integration underway as closing is expected in January 2006.

Bank of America Corporation

Reconciliation to GAAP financial measures

Supplemental financial data presented on an operating basis is a basis of presentation not defined by accounting principles generally accepted in the United States (GAAP) that excludes merger and restructuring charges. We believe that the exclusion of merger and restructuring charges, which represent events outside our normal operations, provides a meaningful period-to-period comparison and is more reflective of normalized operations.

Shareholder value added (SVA) is a key measure of performance not defined by GAAP that is used in managing our growth strategy orientation and strengthening our focus on generating long-term growth and shareholder value. SVA is used to evaluate the Corporation's use of equity (i.e. capital) at the individual unit level and is an integral component in the analytics for resource allocation. Using SVA as a performance measure places specific focus on whether incremental investments generate returns in excess of the costs of capital associated with those investments. Each business segment has a goal for growth in SVA reflecting the individual segment's business and customer strategy.

Other companies may define or calculate supplemental financial data differently. See the Tables below for supplemental financial data and corresponding reconciliations to GAAP financial measures for the quarters ended September 30, 2005, June 30, 2005, March 31, 2005, December 31, 2004 and September 30, 2004, and the nine months ended September 30, 2005 and 2004.

(1) This table presents a non-GAAP financial measure. The impact of interest rate risk management derivatives is shown separately. Interest income and interest expense amounts, and the yields and rates have been adjusted. Management believes this presentation is useful to investors because it adjusts for the impact of our hedging decisions and provides a better understanding of our hedging activities.

(2) Interest income excludes the impact of interest rate risk management contracts, which increased(decreased) interest income on time deposits placed and other short-term investments \$(2) million, federal funds sold and securities purchased under agreements to resell \$(73) million, securities \$(1) million, residential mortgage \$(1) million, commercial - domestic \$919 million, commercial - foreign \$2 million and other earning assets \$(123) million in the nine months ended September 30, 2005. Interest expense excludes the impact of interest rate risk management contracts which increased(decreased) interest expense on NOW and money market deposit accounts \$18 million, consumer CDs and IRAs \$467 million, negotiable CDs, public funds and other time deposits \$70 million, banks located in foreign countries \$196 million, federal funds purchased, securities sold under agreements to repurchase and other short-term borrowings \$571 million and long-term debt \$(614) million in the nine months ended September 30, 2005.

Interest income excludes the impact of interest rate risk management contracts, which increased(decreased) interest income on federal funds sold and securities purchased under agreements to resell \$346 million, securities \$(16) million, residential mortgage \$13 million, commercial - domestic \$1,757 million, commercial - foreign \$7 million and other earning assets \$(203) million in the nine months ended September 30, 2004. ⁽¹⁾ There is no generally accepted definition of emerging markets. The definition that we use includes all countries in Latin America excluding Cayman Islands and Bermuda; all countries in Asia Pacific excluding Japan, Australia and New Zealand; and all countries in Central and Eastern Europe excluding Greece.

⁽²⁾ Includes acceptances, standby letters of credit, commercial letters of credit and formal guarantees.

⁽³⁾ Derivative assets are reported on a mark-to-market basis and have not been reduced by the amount of collateral applied. Derivative asset collateral totaled \$13 million and \$361 million at September 30, 2005 and December 31, 2004.

⁽⁴⁾ Amounts outstanding for Other Latin America and Other Asia Pacific have been reduced by \$35 million and \$15 million at September 30, 2005 and \$196 million and \$14 million at December 31, 2004. Such amounts represent the fair value of U.S. Treasury securities held as collateral outside the country of exposure.

⁽⁵⁾ Cross-border resale agreements are presented based on the domicile of the counterparty because the counterparty has the legal obligation for repayment. For regulatory reporting under Federal Financial Institutions Examination Council (FFIEC) guidelines, cross-border resale agreements are presented based on the domicile of the issuer of the securities that are held as collateral.

- ⁽⁶⁾ *Includes \$2.5 billion investment in CCB made in the third quarter of 2005.*
- ⁽⁷⁾ *Cross-border exposure includes amounts payable to the Corporation by borrowers or counterparties with a country of residence other than the one in which the credit is booked, regardless of the currency in which the claim is denominated, consistent with FFIEC reporting rules.*
- ⁽⁸⁾ *Local country exposure includes amounts payable to the Corporation by borrowers with a country of residence in which the credit is booked, regardless of the currency in which the claim is denominated. Management subtracts local funding or liabilities from local exposures as allowed by the FFIEC. Total amount of available local liabilities funding local country exposure at September 30, 2005 was \$19.9 billion compared to \$17.2 billion at December 31, 2004. Local liabilities at September 30, 2005 in Latin America and Asia Pacific was \$10.6 billion and \$9.2 billion, of which \$5.0 billion was in Brazil, \$4.2 billion in Hong Kong, \$2.5 billion in Singapore, \$2.0 billion in Argentina, \$1.5 billion in Chile, \$1.3 billion in Mexico, \$0.8 billion in Uruguay and \$0.6 billion each in India and Korea. There were no other countries with available local liabilities funding local country exposure greater than \$0.5 billion.*
- ⁽⁹⁾ *The Corporation has risk mitigation instruments associated with certain exposures for Brazil, including structured trade related transfer risk mitigation of \$865 million and \$950 million, third party funding of \$382 million and \$286 million, and linked certificates of deposit of \$66 million and \$125 million at September 30, 2005 and December 31, 2004. The resulting total foreign exposure net of risk mitigation was \$2.5 billion and \$2.2 billion at September 30, 2005 and December 31, 2004.*
- ⁽¹⁰⁾ *Other Latin America, Other Asia Pacific, and Central and Eastern Europe include countries each with total foreign exposure of less than \$300 million.*
