Summary Terms

The Notes:

- The Notes are designed for investors who are seeking exposure to the Russell 1000 Growth Index (Bloomberg index symbol “RLG”) (the “Index”), who anticipate that the level of the Index will increase from the starting value of the Index on the pricing date to the ending value of the Index determined on the valuation dates shortly prior to the maturity date of the Notes. Investors must be willing to forego interest payments on the Notes and willing to accept a repayment that may be less than the original public offering price per unit of the Notes and that will not exceed the limit described in the attached offering document.
- There will be no payments on the Notes prior to the maturity date and ML&Co. cannot redeem the Notes prior to the maturity date.
- There is no principal protection on these Notes and therefore there is no minimum amount due at maturity. The return on the Notes is capped.
- The Notes are made available to each investor outside of the United States in a minimum initial investment of US\$50,000 (US\$75,000 for residents of the European Economic Area), and subject to any other restrictions, as may be applicable to an investor under the private offering rules of any jurisdiction outside of the United States.
- ML&Co. has applied to have the Notes listed on the American Stock Exchange under the trading symbol “GOC”. If approval of this application is granted, the Notes will be listed on the American Stock Exchange at the time of such approval. ML&Co. makes no representation, however, that the Notes will be listed, or, if listed, will remain listed for the entire term of the Notes.

- The Notes will be senior unsecured debt securities of Merrill Lynch & Co., Inc., and part of a series entitled “Medium-Term Notes, Series C”. The Notes will have the CUSIP No.:
- The settlement date for the Notes is expected to be October , 2007.

Payment on the maturity date:

- The amount an investor receives on the maturity date will be based upon the direction of and percentage change in the level of the Index from the starting value of the Index on the pricing date to the ending value of the Index determined on certain valuation dates shortly before the maturity date of the Notes. If the level of the Index:
 - has increased, on the maturity date an investor will receive a payment per unit equal to \$10.00 plus an amount equal to \$10.00 multiplied by triple the percentage increase of the Index, up to a maximum total payment between \$11.20 and \$11.60 per unit, as described in the attached offering document.
 - has decreased or has not increased, on the maturity date an investor will receive a payment per unit based upon that percentage decrease and as a result, an investor may receive less, and possibly significantly less, than the \$10.00 original public offering price per unit.
- The actual maximum total payment on the Notes will be determined on the pricing date and set forth in the final offering document made available in connection with sales of the Notes.

The Notes, the subject of the attached offering document (the “Offering Document”), have not been approved for public sale in any jurisdiction outside of the United States. As such, the Notes are made available to investors outside of the United States only in accordance with applicable private offering rules.
