Summary Terms

The Notes:

- The Notes are designed for investors who believe that the closing level of the S&P 500 Index (index symbol “SPX”) (the “Market Measure”) will remain within the range described below on each market measure business day during the valuation period. The Valuation Period is the period from, but not including, the pricing date to, and including, the valuation date shortly prior to the maturity date of the Notes, as more fully described in the Offering Document.
- The range will be:
 - a value equal to 14.5% to 18.5% above the closing level of the Market Measure on the pricing date, and
 - a value equal to 14.5% to 18.5% below the closing level of the Market Measure on the pricing date.
- The actual range will be determined on the pricing date and set forth in the final Offering Document made available in connection with sales of the Notes.
- The Notes will have 100% principal protection on the maturity date.
- Because Merrill Lynch & Co., Inc. will make no payments on the Notes prior to the maturity date, investors must be willing to forego periodic payments of interest.
- The Notes will not be redeemable prior to the maturity date.
- The Notes are made available to each investor outside of the United States in a minimum initial investment of US\$50,000 (US\$100,000 for residents of the European Economic Area) or other amounts as permitted by local jurisdictions, and subject to any other restrictions, as may be applicable to an investor under the private offering rules of any jurisdiction outside of the United States.

- We have applied to have the Notes listed on NYSE Arca under the trading symbol “SVC”. If approval of this application is granted, the Notes will be listed on NYSE Arca at the time of such approval. We make no representation, however, that the Notes will be listed, or, if listed, will remain listed for the entire term of the Notes.
- The Notes will be senior unsecured debt securities of Merrill Lynch & Co., Inc., denominated and payable in United States dollars, and part of a series entitled “Medium-Term Notes, Series C.” The Notes will have the CUSIP No. .
- The settlement date for the Notes is expected to be October , 2008.

Payment on the maturity date:

- The amount an investor receives on the maturity date per unit will be based on whether the closing levels of the Market Measure remain within the prescribed range on each market measure business day during the Valuation Period. If the closing level of the Market Measure:
 - is outside the prescribed range on any market measure business day during the Valuation Period, an investor will receive the \$10 principal amount per unit; or
 - remains within the prescribed range on each market measure business day during the Valuation Period, an investor will receive the \$10 principal amount per unit plus a contingent supplemental payment equal to \$1.00.
- In no case will an investor receive an amount which will be greater than \$11 per unit of the Notes at maturity, which will represent an appreciation of 10.00% over the \$10 principal amount per unit of the Notes.

The Notes, the subject of the attached offering document (the “Offering Document”), have not been approved for public sale in any jurisdiction outside of the United States. As such, the Notes are made available to investors outside of the United States only in accordance with applicable private offering rules.
