CLEARTRONIC, INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
June 30, 2015

NOTE 1 - ORGANIZATION

Cleartronic, Inc. (the "Company") was incorporated in Florida on November 15, 1999.

The Company, through one of its wholly owned subsidiaries VoiceInterop, Inc., designs, builds and installs unified group communication solutions, including unique hardware and customized software, for public and private enterprises and markets those services and products under the VoiceInterop brand name.

In March 2015, the Company amended its Licensing Agreement with Collabria LLC of Tampa, Florida ("Collabria"). The Agreement grants the Company master distribution rights to market, sell and support Collabria's command and control software, trade-named ReadyOp. ReadyOp software is designed for fast, efficient access to information and for communication with multiple persons, groups and agencies. This agreement will remain in effect for an initial term of five years unless either the Company or Collabria sooner terminates the agreement. Upon expiration of the agreement, the Company's only obligation to Collabria shall be the payment of all outstanding obligations to Collabria. In September 2014, the Company formed ReadyOp Communications, Inc. (a Florida corporation), as a wholly owned subsidiary to facilitate the marketing of ReadyOp software. According to the terms of the agreement ReadyOp Communications will pay Collabria a royalty for all ReadyOp software sold. The Company's two operating subsidiaries are Voiceinterop and ReadyOp Communications.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

PRINCIPLES OF CONSOLIDATION

The accompanying unaudited interim consolidated financial statements contain the consolidated accounts of Cleartronic, Inc. and its subsidiaries, VoiceInterop, Inc. and ReadyOp Communications, Inc. All material intercompany transactions and balances have been eliminated.

BASIS OF PRESENTATION

The accompanying unaudited interim consolidated financial statements have been prepared in accordance with United States generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q of Regulation S-K. They may not include all information and footnotes required by United States generally accepted accounting principles for complete financial statements. However, except as disclosed herein, there have been no material changes in the information disclosed in the notes to the financial statements for the year ended September 30, 2014 included in the Company's Annual Report on Form 10-K filed with the United States Securities and Exchange Commission. The unaudited interim consolidated financial statements should be read in conjunction with those financial statements included in the Form 10-K. In the opinion of management, all adjustments considered necessary for a fair presentation, consisting solely of normal and recurring adjustments have been made. Operating results for the nine months ended June 30, 2015 are not necessarily indicative of the results that may be expected for the fiscal year ending September 30, 2015.

USE OF ESTIMATES

In preparing the financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and operations for the reporting period. Although these estimates are based on management's knowledge of current events and actions it may undertake in the future, they may ultimately differ from actual results.

ACCOUNTS RECEIVABLE

The Company provides an allowance for uncollectible accounts based upon a periodic review and analysis of outstanding accounts receivable balances. Uncollectible receivables are charged to the allowance when deemed uncollectible. Recoveries of accounts previously written off are used to credit the allowance account in the periods

in which the recoveries are made.

The Company has an Accounts Receivable Purchase and Security Agreement with Bridgeport Capital Resources of Birmingham, AL. Under the terms of the agreement the Company sells certain acceptable accounts receivable to Bridgeport Capital at a discount to the receivable face value. Discounts can range between 2.25 and 6.25 percent depending on the length of time the receivable remains outstanding. At June 30, 2015 the Company had no invoices assigned to the factor.

LICENSING AGREEMENT

In March 2015, the Company amended its Licensing Agreement with Collabria, which will remain in effect for an initial term of five years unless either the Company or Collabria sooner terminates the agreement. The amendment reduces the royalty to be paid on a sale from 80% to 20%. As consideration for entering into the agreement and the reduction of the stated royalty, the Company issued Collabria 25,000,000 shares of restricted common stock valued at \$.08 per share (Note 6). The Company amortizes this licensing agreement over its remaining life on a straight line basis. The Company amortized \$100,000 for the three and nine months ended June 30, 2015.

The Company evaluates licensing rights for impairment when an event occurs or circumstances change such that it is reasonably possible that impairment may exist.

CONCENTRATION OF CREDIT RISK

The Company currently maintains cash balances at one FDIC-insured banking institution. Deposits held in noninterest-bearing transaction accounts are insured up to a maximum of \$250,000 at all FDIC-insured institutions.

RESEARCH AND DEVELOPMENT COSTS

The Company expenses research and development costs as incurred. For the three months ending June 30, 2015 and 2014, the Company had \$0 and \$3,000, respectively, in research and development costs from continuing operations. For the nine months ending June 30, 2015 and 2014, the Company had \$3,027 and \$6,000, respectively, in research and development costs from continuing operations.

REVENUE RECOGNITION AND DEFERRED REVENUES

Unified group communication solutions consist of three elements to be provided to customers: software licenses and equipment purchased from third-party vendors, proprietary hardware that is manufactured on contract to required specifications and installation and integration of the hardware and software into the cohesive communication source.

The Company's revenue recognition policies are in accordance with Accounting Standards Codification 605-10 "Revenue Recognition" (ASC 605-10). Revenue is recognized when persuasive evidence of an arrangement exists, delivery has occurred or services have been rendered, the contract price is fixed or determinable, and collectability is reasonably assured. No right of return privileges are granted to customers after shipment. The Company recognizes revenue for the elements separately as the sales of the equipment and software, installation and integration, and support services represent separate earnings processes that are generally specified under separate agreements.

Revenue from the resale of equipment utilized in unified group communication solutions is recognized when shipped. For software licenses, the Company does not provide any services that are considered essential to the functionality of the software, and therefore revenue is recognized upon delivery of the software, provided (1) there is evidence of an arrangement, (2) collection of the fee is considered probable and (3) the fee is fixed and determinable.

The Company also provides support to customers under separate contracts varying from one to five years. The Company's obligations under its service contracts vary by the length of the contract. In all cases the Company is the primary obligor to provide first level support to the client. If the contract has less than one year of service and support remaining on the contract it is classified as a current liability, if longer it is classified as a non-current liability.

EARNINGS PER SHARE

Basic income (loss) per common share is calculated using the weighted average number of shares outstanding during the periods reported. Diluted earnings per share include the weighted average effect of all dilutive securities

outstanding during the periods presented. Diluted per share loss is the same as basic per share loss when there is a loss from continuing operations. Accordingly, for purposes of dilutive earnings per share, the Company excluded the effect of warrants and options.

As of June 30, 2015 and 2014, we had outstanding options and warrants exercisable for an aggregate of 167 and 167 shares of common stock, respectively. As of June 30, 2015 and 2014, we had 40,750 and 474,000 shares of Series A Convertible Preferred stock outstanding convertible into 4,075,000 and 47,400,000, common shares, respectively. As of June 30, 2015 and 2014, we had 2,570,655 and 2,370,655 shares of Series C Convertible Preferred stock outstanding which are convertible into 12,853,275 and 11,853,275 shares of common stock, respectively. As of June 30, 2015 and 2014, we had 670,904 and 0 shares of Series D Convertible Preferred stock outstanding convertible into 3,354,520 and 0 common shares, respectively. As of June 30, 2015, we had one convertible note outstanding in the principal amount of \$43,000. The convertible note is convertible into shares of common stock at a discount to the current market price of the stock. There were no convertible notes outstanding on June 30, 2014.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company adopted ASC topic 820, "Fair Value Measurements and Disclosures" (ASC 820), formerly SFAS No. 157 "Fair Value Measurements," effective January 1, 2009. ASC 820 defines "fair value" as the price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There was no impact relating to the adoption of ASC 820 to the Company's consolidated financial statements.

ASC 820 also describes three levels of inputs that may be used to measure fair value:

- Level 1: Observable inputs that reflect unadjusted quoted prices for identical assets or liabilities traded in active markets.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: Inputs that are generally observable. These inputs may be used with internally developed methodologies that result in management's best estimate of fair value.

Financial instruments consist principally of cash, accounts receivable, prepaid expenses and other current assets, accounts payable, accrued expenses and deferred revenue. The carrying amounts of such financial instruments in the accompanying condensed consolidated balance sheet approximate their fair values due to their relatively short-term nature. The fair value of long-term debt is based on current rates at which the Company could borrow funds with similar remaining maturities. The carrying amounts approximate fair value. It is management's opinion that the Company is not exposed to any significant currency or credit risks arising from these financial instruments.

The Company revalues its derivative liability at every reporting period and recognizes gains or losses in the interim condensed consolidated statement of operations that are attributable to the change in the fair value of the derivative liability. The Company has no other assets or liabilities measured at fair value on a recurring basis.

INVENTORY

Inventory consists of components held for assembly and finished goods held for resale or to be utilized for installation in projects. Inventory is valued at lower of cost or market on a first-in, first-out basis. The Company's policy is to record a reserve for technological obsolescence or slow-moving inventory items. For the nine months ending June 30, 2015 and 2014, the Company had a reserve of \$ 0 and \$2,492, respectively.

EQUITY INSTRUMENTS ISSUED TO PARTIES OTHER THAN EMPLOYEES FOR ACQUIRING GOODS OR SERVICES

The Company accounts for equity instruments issued to parties other than employees for acquiring goods or services under guidance of section 505-50-30 of the FASB ASC. Pursuant to FASB ASC Section 505-50-30, all transactions in which goods or services are the consideration received for the issuance of equity instruments are accounted for based on the fair value of the consideration received or the fair value of the equity instrument issued, whichever is more reliably measurable. The measurement date used to determine the fair value of the equity instrument issued is the earlier of the date on which the performance is complete or the date on which it is probable that performance will occur.

DERIVATIVE INSTRUMENTS

The Company evaluates its convertible debt, warrants or other contracts to determine if those contracts or embedded components of those contracts qualify as derivatives to be separately accounted for in accordance with paragraph 810-10-05-4 of the FASB Accounting Standards Codification and paragraph 815-40-25 of the FASB Accounting Standards Codification. The result of this accounting treatment is that the fair value of the embedded derivative is marked-to-market each balance sheet date and recorded as a liability. In the event that the fair value is recorded as a liability, the change in fair value is recorded in the Statement of Operations as other income or expense. Upon conversion or exercise of a derivative instrument, the instrument is marked to fair value at the conversion date and then that fair value is reclassified to equity.

In circumstances where the embedded conversion option in a convertible instrument is required to be bifurcated and there are also other embedded derivative instruments in the convertible instrument that are required to be bifurcated, the bifurcated derivative instruments are accounted for as a single, compound derivative instrument.

The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is re-assessed at the end of each reporting period. Equity instruments that are initially classified as equity that become subject to reclassification are reclassified to liability at the fair value of the instrument on the reclassification date. Derivative instrument liabilities will be classified in the balance sheet as current or non-current based on whether or not net-cash settlement of the derivative instrument is expected within 12 months of the balance sheet date.

ADVERTISING COSTS

Advertising costs are expensed as incurred. The Company had advertising costs of \$2,222 during the three months ended June 30, 2015, and \$2,291 during the three months ended June 30, 2014. For the nine months ending June 30, 2015 and 2014, the Company had \$4,916 and \$6,374 in advertising costs, respectively.

NOTE 3 - GOING CONCERN

The Company's financial statements are prepared using accounting principles generally accepted in the United States of America applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has not yet established an ongoing source of revenues sufficient to cover its operating costs and allow it to continue as a going concern. The ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses until it becomes profitable. If the Company is unable to obtain adequate capital, it could be forced to cease operations.

In order to continue as a going concern, the Company will need, among other things, additional capital resources. Management is currently seeking funding from significant shareholders and outside funding sources sufficient to meet its minimal operating expenses. However, management cannot provide any assurances that the Company will be successful in accomplishing any of its plans.

The ability of the Company to continue as a going concern is dependent upon its ability to successfully accomplish the plans described in the preceding paragraph and eventually secure other sources of financing and attain profitable operations. The accompanying condensed consolidated financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

NOTE 4 - NOTES PAYABLE TO STOCKHOLDERS

In January 2015, the Company entered into a promissory note for \$25,000 with a stockholder. The note bears an 8% interest rate, is unsecured and is due on January 29, 2016.

In February 2015, the Company entered into a promissory note for \$15,000 with a stockholder. The note bears an 8% interest rate, is unsecured and is due on February 22, 2016.

As further discussed in Note 6, in March 2015, a noteholder forgave \$135,012 in notes payable and \$59,608 in accrued interest in exchange for 389,241 shares of Series D Convertible Preferred stock.

Interest expense on the notes payable to stockholders was \$12,980 and \$17,160 for the nine months ended June 30, 2015 and 2014, respectively and \$2,454 and \$5,062 for the three months ended June 30, 2015 and 2014, respectively.

NOTE 5 - CONVERTIBLE PROMISSORY NOTES

In May 2015, the Company entered into a Securities Purchase Agreement with a private investor in connection with the issuance of a 8% convertible promissory note in the amount of \$43,000. The note matures on February 11, 2016. The note is convertible into shares of the Company's common stock at the greater of; (i) the variable conversion price (58% multiplied by the market price) that is equal to the average of the three (3) lowest closing bid prices of the Common Stock during the ten (10) trading day period prior to the date of conversion or (ii) the fixed conversion price of \$.00005. The Note also contains a prepayment option whereby the Company may make payments to the holder based on the length of time the Note has been outstanding, upon three (3) trading days' prior written notice to the holder.

During the first 30 days, the Company may make a payment to the holder equal to 115% of the then outstanding unpaid principal and interest, from days 31 until 60 days, the Company may make a payment to the holder equal to 120% of the then outstanding unpaid principal and interest, from days 61 until 90 days, the Company may make a payment to the holder equal to 125% of the then outstanding unpaid principal and interest, from days 91 until 120 days the Company may make a payment to the holder equal to 130% of the then outstanding unpaid principal and interest, from days 121 until 150 days, the Company may make a payment to the holder equal to 135% of the then outstanding unpaid principal and interest, from days 151 until 180 days, the Company may make a payment to the holder equal to 140% of the then outstanding unpaid principal and interest, after 180 days, the Company has no right of prepay. In the event of default before the maturity dates, the payment is immediately due, in the amount of 22% of the outstanding unpaid principal, along with interest and any penalties.

Beneficial Conversion Feature

In connection with the convertible note entered into in May 2015, the Company determined that a beneficial conversion feature existed on the date the note was issued. The beneficial conversion feature related to this note was valued as the difference between the effective conversion price (computed by dividing the relative fair value allocated to the convertible note by the number of shares the note is convertible into) and the fair value of the common stock multiplied by the number of shares into which the note may be converted.

In accordance with ASC 470 "Debt with Conversion and other Options", the intrinsic value of the beneficial conversion features were recorded as a debt discount with a corresponding amount to additional paid in capital. The debt discount is amortized to interest expense over the life of the instrument. The Company recorded beneficial conversion features related to the December convertible note financing of \$31,000. Amortization of the discount from the beneficial conversion feature included in interest expense was \$6,888, for the three months ended June 30, 2015.

In June 2015, the convertible note holder converted \$38,000 in principal and \$1,520 in accrued interest into 1,432,859 shares of common stock. Upon conversion, the remaining discount on the note payable was recognized as interest totaling \$15,287.

The Company had no convertible promissory notes outstanding as of June 30, 2014.

NOTE 6 - EQUITY

Common stock issued for conversion of preferred stock

In October 2014, a shareholder converted 20,000 shares of Series A Convertible Preferred stock into 2,000,000 shares of common stock.

In November 2014, a shareholder converted 10,000 shares of Series A Convertible Preferred stock into 1,000,000 shares of common stock.

In December 2014, a shareholder converted 12,500 shares of Series A Convertible Preferred stock into 1,250,000 shares of common stock.

In March 2015, the Company entered into a new employment agreement with the Company's CEO, Larry M. Reid. Under the agreement, Mr. Reid agreed to remit 2.0 billion shares of common stock back to the Company in exchange for 200,000 shares of Series C Convertible Preferred stock with a fair value of \$252,000 as well as compensation stated in the agreement. The common stock remitted to the Company was recorded as a treasury acquisition for the value of the Series C preferred stock and the net present value of Mr. Reid's salary over a five years using a discount rate of 5%, totaling approximately \$627,000. The treasury stock was subsequently retired and recorded to additional paid-in capital.

There were no dividends payable on Series A Convertible Preferred Stock at June 30, 2015.

NOTE 7 - RELATED PARTY TRANSACTIONS

The Company leases its office space from another entity that is also a stockholder. Rent expense paid to the related party was \$10,284 and \$12,362 for the three months ended June 30, 2015 and 2014, respectively and \$33,389 and \$39,185 for the nine months ended June 30, 2015 and 2014, respectively.

NOTE 8 - SUBSEQUENT EVENTS

In May 2009, the FASB issued accounting guidance now codified as FASB ASC Topic 855, "*Subsequent Events*," which establishes general standards of accounting for, and disclosures of, events that occur after the balance sheet date but before financial statements are issued or are available to be issued. FASB ASC Topic 855 is effective for interim or fiscal periods ending after June 15, 2009. Accordingly, the Company adopted the provisions of FASB ASC Topic 855 on June 30, 2009. Management has evaluated subsequent events for the period from June 30, 2015 the date of these condensed consolidated financial statements, through the date of the filing of August 19, 2015 and there have been no material subsequent events during that period.

Item 2. Management's Discussion and Analysis of Financial Condition and results of Operations.

FORWARD-LOOKING STATEMENTS

The information set forth in this Management's Discussion and Analysis contains certain "forward-looking statements," including, among others (i) expected changes in our revenues and profitability, (ii) prospective business opportunities, and (iii) our strategy for financing our business. Forward-looking statements are statements other than historical information or statements of current condition. Some forward-looking statements may be identified by use of terms such as "believes," "anticipates," "intends," or "expects." These forward-looking statements relate to our plans, objectives, and expectations for future operations. Although we believe that our expectations with respect to the forward-looking statements are based upon reasonable assumptions within the bounds of our knowledge of our business and operations, in light of the risks and uncertainties inherent in all future projections, the inclusion of forward-looking statements in this prospectus should not be regarded as a representation that our objectives or plans will be achieved. In light of the risks and uncertainties, there can be no assurance that actual results, performance, or achievements will not differ materially from any future results, performance, or achievements expressed or implied by such forward-looking statements. The foregoing review of important factors should not be construed as exhaustive. We undertake no obligation to release publicly the results of any future revisions we may make to forward-looking statements to reflect events or circumstances after the date of this prospectus or to reflect the occurrence of unanticipated events.

Overview

Cleartronic, Inc. (the "Company," formerly GlobalTel IP, Inc.) was incorporated in Florida on November 15, 1999. The Company operates through two wholly owned subsidiaries, VoiceInterop, Inc. and ReadyOp Communications, Inc.

VoiceInterop, Inc., designs, builds sells and installs unified group communication solutions for public and private enterprises. VoiceInterop also manufactures and markets a line of IP Gateways under the trade name AudioMate AM360. These gateways are sold direct to enterprises by the Company and indirectly through authorized dealers in North America and a number of foreign countries.

ReadyOp Communications, Inc. is a new subsidiary formed in September 2014, to market, sell and support ReadyOp software through a Software License Agreement with Collabria LLC of Tampa, Florida. The agreement was amended in March 2015 and grants the Company master distribution rights to use, market, sell, license and support Collabria's emergency notification command and control software, trade-named *ReadyOp*TM. *ReadyOp*TM software is designed for fast, efficient access to information and for communication with multiple persons, groups and agencies.

FOR THE THREE MONTHS ENDED JUNE 30, 2015 COMPARED TO THE THREE MONTHS ENDED JUNE 30, 2014

Revenues

Revenues increased to \$106,184 for the three months ended June 30, 2015 as compared to \$38,742 for the three months ended June 30, 2014. The primary reason for this increase was the \$62,000 in sales generated by ReadyOp software and ReadyOp hardware in the three months ended June 30, 2015 as compared to \$0 sales in the three months ended June 30, 2014. Revenue from Maintenance Agreements increased to approximately \$14,204 from approximately \$10,204 for the three month periods ended June 30, 2015 and 2014, respectively.

Cost of Revenues

Cost of revenues was \$38,252 for the three months ended June 30, 2015 as compared to \$21,637 for the three months ended June 30, 2014. The increase was primarily due to increased costs associated with ReadyOp hardware and software and the purchase of materials for pending projects. Gross profits were \$67,932 and \$17,105 for the three months ended June 30, 2015 and 2014, respectively. The primary reason for the improvement in gross profit margin is the lower costs associated with the sale of ReadyOp software and also the lower costs associated with continuing maintenance agreements.

Operating Expenses

Operating expenses increased approximately 210% to approximately \$185,065 for the three months ended June 30, 2015 compared to \$59,615 for the three months ended June 30, 2014.

For the three months ended June 30, 2015, selling expenses increased approximately 89% to \$9,795 from \$5,180 for the three months ended June 30, 2014 because of increased commissions. General and administrative expenses increased by \$23,835 or approximately 46% primarily caused by an increase in professional fees associated with marketing, investor relations, legal and management consulting services. Research and development expenses were \$0 for the three months ended June 30, 2015 as compared to \$3,000 for the three months ended June 30, 2014, due to no capital invested in product development. Amortization expenses increased by \$100,000 due to quarterly amortization expense of the license agreement with Collabria LLC.

13

Loss from Operations

The Company's net loss from operations decreased to \$117,134 during the three months ended June 30, 2015 as compared to \$42,510 for the three months ended June 30, 2014. The primary reason for this increase was due to an increase in amortization cost of \$100,000.

Net Loss

Net loss per common share was increased to \$0.00080 from \$0.00003 for the three months ended June 30, 2015 and 2014, respectively.

FOR THE NINE MONTHS ENDED JUNE 30, 2015 COMPARED TO THE NINE MONTHS ENDED JUNE 30, 2014

Revenues

Revenues from operations were \$209,606 for the nine months ended June 30, 2015 as compared to \$158,990 for the nine months ended June 30, 2014. The increase was primarily due to sales of ReadyOp software and hardware generated by our operating subsidiary ReadyOp Communications, Inc.

Cost of Revenues

Cost of revenues was \$88,447 for the nine months ended June 30, 2015, as compared to \$74,910 for the nine months ended June 30, 2014. This slight increase was due primarily to higher costs associated with manufacturing VoiceInterop hardware products. Gross profits were \$121,159 and \$84,080 for the nine months ended June 30, 2015 and 2014, respectively. The increase in gross profits was primarily due to the higher gross margins generated by sales of ReadyOp software and hardware.

Operating Expenses

Operating expenses increased by \$100,129 for the nine months ended June 30, 2015 to \$362,228 compared to \$262,099 for the nine months ended June 30, 2014. This increase was due to an amortization expense increase of \$100,000 and increased use of outside consultants. Selling expenses increased to \$31,184 for the nine months ended June 30, 2015 compared with \$20,793 for the nine months ended June 30, 2014. This increase was primarily due to higher rates of commissions paid on ReadyOp software. Administrative expenses decreased to \$228,017 from \$235,306 for the nine months ended June 30, 2015 and 2014, respectively. Research and development expense decreased from \$6,000 to \$3,027 for the nine month ended June 30, 2014 and 2015, respectively and amortization expense increased \$100,000 in the nine months ended June 30, 2015.

14

Loss from Operations

The Company's net loss increased to \$241,069 during the nine months ended June 30, 2015 as compared to a loss of \$178,019 for the nine months ended June 30, 2014. The primary reason for this increase was the \$100,000 in amortization expense associated with the Collabria license agreement incurred in the nine months ended June 30, 2015.

Net Loss

Net loss per common share increased to \$0.00058 from \$0.00012 for the nine months ended June 30, 2015 and 2014, respectively. The increased loss was primarily due to a loss incurred on debt conversion of approximately \$489,000 and \$100,000 in amortization expense recorded in the nine months ended June 30, 2015.

LIQUIDITY AND CAPITAL RESOURCES

Net cash used in operating activities was \$157,307 for the nine months ended June 30, 2015 compared to \$211,330 for the nine months ended June 30, 2014. This decrease was mainly attributable to the increase in prepaid expenses, accounts payable and customer deposits for nine months ended June 30, 2015.

Net cash provided by financing activities was \$158,990 for the nine months ended June 30, 2015 compared to \$209,000 for the nine months ended June 30, 2014. The decrease was primarily due to less proceeds received from the issuance of common stock and preferred stock offset by the proceeds from convertible notes payable and notes payable to stockholders.

Our obligations are being met on a month-to-month basis as cash becomes available. We have made a concentrated effort to restructure the company through the issuance of Preferred stock in exchange for cancellation of debt, issuance of stock in lieu of cash paid for services and exchanging preferred stock for common stock. We believe that this restructure will put the Company in a better position to secure an acquisition or consummate a merger with a private company. There can be no assurance that the Company's efforts in this restructure will be successful or that present flow of cash will be sufficient to meet current and future obligations.

We have incurred losses since our inception and continue to require additional capital to fund operations and development. As such, our ability to pay our already incurred obligations is mostly dependent on the Company being able to have substantially increased revenues and raising substantial additional capital through the sale of its equity or debt securities. There can be no assurance that the Company will be successful in accomplishing any of the foregoing.

We believe that in order to fund our business plan, we will need approximately \$1 million in new equity or debt capital. In the past, in addition to revenues and deferred revenues, we have obtained funds from the private sale of our debt and equity securities. We intend to continue to seek private financing from existing stockholders and others.

The costs to operate our current business are approximately \$30,000 per month. In order for us to cover our monthly operating expenses, we would have to generate revenues of approximately \$75,000 per month. Accordingly, in the absence of revenues, we will need to secure \$30,000 in equity or debt capital each month to cover our overhead expenses. In order to remain in business for one year without any revenues we would need to secure \$360,000 in equity or debt capital. If we are unsuccessful in securing sufficient capital or revenues, we would have to cease business in approximately 90 days.

FORWARD-LOOKING STATEMENTS

The information set forth in this Management's Discussion and Analysis contains certain "forward-looking statements," including, among others (i) expected changes in the Company's revenues and profitability, (ii) prospective business opportunities and (iii) its strategy for financing its business. Forward-looking statements are statements other than historical information or statements of current condition. Some forward-looking statements may be identified by use of terms such as "believes," "anticipates," "intends" or "expects." These forward-looking statements relate to the Company's plans, objectives and expectations for future operations. Although the Company believes that its expectations with respect to the forward-looking statements are based upon reasonable assumptions within the bounds of its knowledge of its business and operations, in light of the risks and uncertainties inherent in all future projections, the inclusion of forward-looking statements in this prospectus should not be regarded as a representation that the Company's objectives or plans will be achieved. In light of the risks and uncertainties, there can be no assurance that actual results, performance or achievements will not differ materially from any future results, performance or achievements expressed or implied by such forward-looking statements. The foregoing review of important factors should not be construed as exhaustive. The Company undertakes no obligation to release publicly the results of any future revisions it may make to forward-looking statements to reflect events or circumstances after the date of this prospectus or to reflect the occurrence of unanticipated events.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Not applicable.

Item 4. Controls and Procedures.

An evaluation was conducted by the registrant's Chief Executive Officer (CEO) and Principal Financial Officer ("PFO") of the effectiveness of the design and operation of the registrant's disclosure controls and procedures as of

June 30, 2015. Based on that evaluation, the CEO and PFO concluded that the registrant's controls and procedures were effective as of such date to ensure that information required to be disclosed in the reports that the registrant files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. If the registrant develops new business or engages or hires a Chief Financial Officer or similar financial expert, the registrant intends to review its disclosure controls and procedures.

Management is aware that there is a lack of segregation of duties due to the small number of employees dealing with general administrative and financial matters. However, at this time management has decided that considering the abilities of the employees now involved and the control procedures in place, the risk associated with such lack of segregation is low and the potential benefits of adding employees to clearly segregate duties do not justify the substantial expenses associated with such increases. Management may reevaluate this situation as circumstances dictate.

There was no change in the registrant's internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rule 13a-15 or Rule 15d-15 under the Securities Exchange Act of 1934 that occurred during the registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 4T. Controls and Procedures.

Reference is made to the response to Item 4 above.

PART II - OTHER INFORMATION

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

In November 2014, a shareholder purchased 2,500,000 shares of common stock for \$25,000 cash.

In March 2015, the Company entered into a new employment agreement with the Company's CEO. As additional consideration for entering into the agreement the Company's CEO cancelled 2,000,000 shares of the Company's common stock in exchange for the issuance of 200,000 shares of the Company's Series C Convertible Preferred stock.

In March 2015, the Company issued a shareholder 281,663 shares of the Company's Series D Convertible Preferred stock in lieu of payment of \$141,831.53 accrued dividends due the shareholder.

In March 2015, the Company issued a shareholder 270,024 shares of the Company's Series D Convertible Preferred stock as payment in full for \$135,012.41 in notes payable due the shareholder.

In March 2015, the Company issued a shareholder 119,217 shares of the Company's Series D Convertible Preferred stock in lieu of payment of \$59,608.62 accrued interest due the shareholder.

In March 2015, the Company issued a private corporation, Collabria LLC, 25,000,000 shares of the Company's common stock as consideration for Collabria amending a license agreement which now grants the Company master distribution rights to Collabria's ReadyOp™ communications software.

In May 2015, the Company's two investors purchased 216,500 shares of common stock for \$12,990 in cash.

There were no principal underwriters utilized in the sale or issuance of the aforementioned stock.

The registrant claimed exemption from the registration provisions of the Securities Act of 1933 with respect to the securities pursuant to Section 4(2) thereof inasmuch as no public offering was involved. The shares were not offered or sold by means of: (i) any advertisement, article, notice or other communication published in any newspaper, magazine or similar medium, or broadcast over television or radio, (ii) any seminar or meeting whose attendees have been invited by any general solicitation or general advertising, or (iii) any other form of general solicitation or advertising and the purchases were made for investment and not with a view to distribution. Each of the purchasers was, at the time of the purchaser's respective purchase, an accredited investor, as that term is defined in Regulation D under the Securities Act of 1933, and had access to sufficient information concerning the registrant and the offering.
