Form 10-Q Update & First Quarter Fiscal Year 2019 Revenue Expectations

On December 6, 2018, the Company consummated its previously announced business combination pursuant to which it acquired the company formerly named Concrete Pumping Holdings, Inc. and Industrea Acquisition Corp., a special purpose acquisition company (the “Business Combination”). The accounting treatment for the Business Combination requires the Company to reflect in its financial statements the allocation of the purchase price paid in the Business Combination to the assets acquired and liabilities assumed, based on their estimated fair values as of the Business Combination closing date.

In connection therewith, the Company determined that it needs additional time to complete certain accounting processes related to the Business Combination in order to finalize its first quarter financial statements. Accordingly, the Company expects to file a Form 12b-25 with the Securities and Exchange Commission today indicating that the Company expects to file its quarterly report on Form 10-Q for the three months ended January 31, 2019 on or before March 18, 2019, which is within the extension period under Rule 12b-25 of the Securities Exchange Act of 1934, as amended.

In connection with the filing of Form 12b-25, the Company is providing its preliminary, unaudited revenue for the three months ended January 31, 2019 and anticipates revenue to be approximately \$58 million, an increase of 12% compared to \$52 million for the three months ended January 31, 2018.

About Concrete Pumping Holdings

CPH is the leading provider of concrete pumping services and concrete waste management services in the fragmented U.S. and U.K. markets, operating under the only established, national brands in both markets (Brundage-Bone and Camfaud, respectively). The Company's large fleet of specialized pumping equipment and trained operators position it to deliver concrete placement solutions that facilitate substantial labor cost savings to customers, shorten concrete placement times, enhance worksite safety and improve construction quality. CPH is also the leading provider of concrete waste management services in the U.S. market, operating under the only established, national brand – Eco-Pan. Highly complementary to its core concrete pumping service, Eco-Pan provides a full-service, cost-effective, regulatory-compliant solution to manage environmental issues caused by concrete washout. As of October 31, 2018, CPH provides concrete pumping services in the U.S. from a footprint of 80 locations across 22 states, concrete pumping services in the U.K. from 28 locations, and route-based concrete waste management services from 13 locations in the U.S. For more information, please visit www.concretepumpingholdings.com or CPH's brand websites at www.brundagebone.com, www.camfaud.co.uk, or www.eco-pan.com.
