Item 9. Regulation FD Disclosure

Federated Department Stores, Inc. ("Federated"), today posted the following weekly sales update on its Internet website:

"This is the update for the first week of December 2002 including sales from Sunday December 1st through Saturday December 7th. The fiscal month of December runs from December 1st through January 4th this year and the combined November/December period runs from November 3rd through January 4th.

Given the snow mid-week in the eastern part of the country, sales in the first week of December were difficult and hard to judge. Our guidance for the November/December period is for comp store sales to be at the low end of the range of flat to down -2.5%. If December comp store sales are flatish, we would achieve the low end of that range."

This release contains certain forward-looking statements that reflect current views of the financial performance and future events of Federated. Future results of the operations of Federated could differ materially from historical results or current expectations due to a variety of factors that affect Federated, including competitive pressures from specialty stores, general merchandise stores, manufacturers' outlets, off-price and discount stores, new and established forms of home shopping (including the Internet, mail-order catalogues and television) and general consumer spending levels, including the impact of the availability and level of consumer debt, and the effect of weather.
