Updates on Key Focus Areas

Published the 2020 Sustainability Report in October 2021

Product

- Work began early 2021 on a digital first approach for a sustainable product assortment strategy. The end results covers four categories of products and three families of business, apparel, home and beauty.
- Q3, launched a Sustainability Sitelet featuring category 1 products defined as those with sustainable attributes backed by third party certification. The assortment features both Market and Private Products.
- Current focus is on category 2, social purpose and category 3, sustainable innovations for 2022 expansion.

Human Rights

- Social Compliance sets policy, strategy, process, and provides transparency on compliance through targeted reporting.
- This year work began to centralize social compliance for Macy's, Bloomingdales and 3rd-party vendors providing private label products. A new service provider, Elevate, was selected to deliver consistent supply chain monitoring, remediation, and risk analysis.
- Q2, Macy's Engaged Article One, a leader in HR transformation, to uncover and mitigate human rights risk across the enterprise. The outcome will strengthen Macy's human rights policy and drive transformative change in all aspects of our business to deliver positive social impact.

Environment

- Q2, completed the Carbon Disclosure Report. Improvements were made to governance which now showcases oversight from Board of Directors down and third-party verification of the data used to produce the report.
- Leveraging the efforts for faster and more efficient customer fulfillment, there is focus on where there is also improved environmental impact of Macy's business operations and how to measure that impact.
- Partnering with a third-party energy consultant, develop road map for accelerating our renewable energy program. Since 2010, Macy's has reduced total energy consumption by more than 17.8% through LED lighting retrofits.
- Expanded free electric vehicle charging to 37 locations, powered ~1,714,040 electric miles and avoided 763,482 lbs. of CO2 in FY2020.

Sustainability Sitelet: Small Steps, Big Change

Lead Sustainable Change

- Serve as the champion for CEOAFRE's Business Diversity Initiative: Advancing Equity through Diverse Corporate Contracting and Procurement
- Be a catalyst for change in the fashion industry for supplier diversity

Compensation

Total Reward Strategies for Attraction and Retention

Our goal is to build a rewards strategy that encourages and recognizes performance. Here are some recent highlights:

- Due to the challenges of the pandemic and the contributions of our colleagues, we provided premium pay and implemented a COVID specific emergency pay policy as well as appreciation and thank you bonuses
- Free onsite COVID vaccine clinics offered in multiple locations
- Investments in pay for our frontline colleagues in stores and supply chain
- Annual incentive plan for 7,200+ professional colleagues tied to performance
- Path to Growth: Every job matters, and the Path to Growth Incentive plan recognizes the role our frontline colleagues play in driving our success. The quarterly incentive is tied directly to measurable goals and 97%+ of locations have received this reward in 2021 spring season.
- Macy's Make Magic Awards and Bloomingdale's Golden B & Best of the Best: These annual and bi-annual awards recognize individuals and teams who exhibit extraordinary effort and achieve extraordinary results
- Spot Bonus: Cash rewards for colleagues who go above and beyond in living our behaviors
- Commissions and new Top Seller programs for store colleagues

**We believe pay equity is fundamental to our culture, diversity and inclusion strategy.
In 2021, Macy's, Inc. achieved greater than 99% pay equity across gender and race.**

2020 and 2021 Context for Incentive Plan Designs

2020

- Macy's, Inc. began 2020 on a transformation path to stabilize profitability and position the Company for strong future growth, driven by our comprehensive multi-year Polaris strategy initially presented at Investor Day in February 2020. Within a few weeks, the COVID pandemic delivered a series of unprecedented challenges.
- The Compensation and Management Development (CMD) Committee took a prudent approach to plans in 2020 by:
 - Delaying setting plans to ensure goals aligned with short- and long-term strategies defined as a result of the pandemic,
 - Guarding against unintended consequences, including windfalls to executives, that could have occurred had plans been set at onset of pandemic, and
 - Appreciating the high degree of uncertainty in performance by designing plans with (1) established wider performance ranges and (2) reduced maximum payout opportunities in the short- and long-term incentives from the typical 200% to 125% and 150%, respectively.

2021

- Macy's, Inc. began 2021 with a business momentum from the fourth quarter of 2020 and a recommitment to the Polaris strategy in the backdrop of continued pandemic uncertainty.
 - High uncertainty regarding the vaccine availability and acceptance at the time of 2021 plan rollout,
 - Shifts in customer behavior – unknown which were temporary and which were long-lasting
- The CMD Committee designed 2021 incentive plans to reflect a gradual return to a more normalized business environment. The plans continue to showcase their purpose to motivate leadership while acknowledging the high uncertainty related to the pandemic.
- The macro and business environment are reflected in the design features including continued reduced maximum payout caps vs. the typical 200%, narrower performance curves, equity-mix while showcasing steps towards our usual financial metrics.

Compensation Programs Grounded in Strong Governance Practices

- ✓ Align pay with company performance
- ✓ Incentive plans use multiple metrics to reward performance for driving company strategy and align to stock price performance
- ✓ Leverage relative total shareholder return metric, with a cap if company performance is not positive and a maximum-value cap that limits payout to 400% of the target grant date value
- ✓ No dividend equivalents on unvested performance-based or time-based restricted stock (PRSUs or RSUs)
- ✓ Stock ownership guidelines
- ✓ Recoupment policy
- ✓ Double trigger vesting of equity awards
- ✓ No excise tax gross ups
- ✓ No option repricing/cash buyouts without shareholder approval
- ✓ Anti-pledging and hedging policies

Strong Alignment between Pay and Performance is at the Core of Compensation Program

Demonstrated in the design of our programs...

...and in the outcome of our programs

CEO 2020 Program Design

CEO Realized Compensation ('000s)

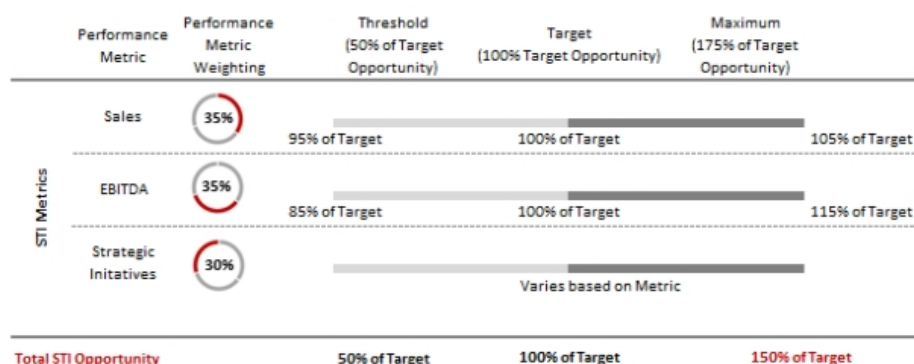

- There were no changes to the target compensation levels for any of our NEOs for 2021, including base salaries and target incentive opportunities
- Along with our shareholders, our CEO will realize gains as the stock price recovers
 - Since becoming CEO in 2017, Mr. Gennette has **only** sold Macy's stock to cover taxes due upon vesting

2021 Short-Term Incentive Plan

In alignment with the 2021 business plans, plan design focuses key financial metrics of Sales and EBITDA and strategic initiatives

- The design of the 2021 short-term incentive (STI) plan reflected a transition from the unique metrics in 2020 to more customary metrics of **Sales** and **EBITDA**
- The equally weighted Strategic metrics align with our focus of the year:
 - Gross Margin** to drive profitable sales
 - Omni-Net Promoter Score (NPS)** to provide strong customer focus as they returned to the stores or continued shopping online and
 - Culture Index** to motivate our leaders for championing the company culture in these uncertain times and driving ethnic diverse representation of 30% at the Senior Director+ level by 2025

- Each metric has an individual maximum opportunity of 175%; and balancing reward appropriately to risk, the total maximum opportunity is capped at 150% vs. the usual 200%

2021 Long-Term Incentive Plan

Plan design focuses on both stock price performance and achievement of a key long-term strategic metric

- Taking a longer view and as we get beyond the pandemic and business normalizes, we are focused on delivering on metrics that will cement our position as a digitally led omnichannel retailer
- For achievement of the above long-term strategic objective and to drive shareholder value, we focus on the following PRSU metrics:
 - **rTSR** focuses on long-term shareholder value and accountability for performance relative to the broader retail sector
 - We foresee digital penetration exceeding 40% and will drive for \$10+ billion in sales to come from digital channels by 2023. Hence, **2023 digital sales metric** has been added in the 2021 – 2023 LTI plan

PRSU Metrics

Performance Metric	Performance Metric Weighting	Threshold (50% of Target Opportunity)	75% of Target Opportunity	Target (100% Target Opportunity)	125% of Target Opportunity	Maximum (150%/200% of Target Opportunity for rTSR/Digital Sales, respectively)
Relative Total Shareholder Return	60%	25 th - < 35 th percentile	35 th - < 45 th percentile	45 th - < 60 th percentile	60 th - < 70 th percentile	≥ 70 th percentile
