UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
WASHINGTON, D.C. 20549

FORM 10-QSB

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2007

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_.

Sustut Exploration, Inc.  
(Exact name of registrant as specified in Charter)

Delaware

333-143215

(State or other jurisdiction of  
incorporation or organization)

(Commission File No.)

(IRS Employee Identification No.)

1420 5<sup>th</sup> Avenue #220  
Seattle, Washington 98101  
(Address of Principal Executive Offices)

(206) 274-5321  
(Issuer Telephone number)

(Former Name or Former Address if Changed Since Last Report)

Check whether the issuer (1) has filed all reports required to be filed by Section 13 or 15(d) of the Exchange Act during the preceding 12 months (or for such shorter period that the issuer was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant is a shell company as defined in Rule 12b-2 of the Exchange Act.  
Yes  No

State the number of shares outstanding of each of the issuer's classes of common equity, as of November 12, 2007: 16,059,000 shares of common stock.

**(an exploration stage company)**

**NOTES TO FINANCIAL STATEMENTS**

**AS OF SEPTEMBER 30, 2007**

**NOTE 1 - OPERATIONS AND BASIS OF PRESENTATION**

Sustut Exploration, Inc. (the Company), an exploration stage company, was incorporated on April 11, 2006 in the State of Delaware. The Company is an exploration stage mineral company. On May 5, 2006 the Company became actively engaged in acquiring mineral properties and raising capital. The Company did not have any significant exploration operations or activities from inception; accordingly, the Company is deemed to be in the development stage.

The Company's fiscal year end is December 31.

On May 5, 2006, the Company acquired one mineral claim located near Smithers, British Columbia, Canada. The property consists of one mineral claim and is contiguous hard rock mineral.

The Company's financial statements have been presented on the basis that it is a going concern, which contemplates the realization of the mineral properties and other assets and the satisfaction of liabilities in the normal course of business. The Company has incurred losses from inception to September 30, 2007. The Company has not realized economic production from its mineral properties as of September 30, 2007. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management continues to actively seek additional sources of capital to fund current and future operations. There is no assurance that the Company will be successful in continuing to raise additional capital, establishing probable or proven reserves, or determining if the mineral properties can be mined economically. These financial statements do not include any adjustments that might result from the outcome of these uncertainties.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Revenue and Cost Recognition**

The Company uses the accrual basis of accounting for financial statement reporting. Revenues and expenses are recognized in accordance with Generally Accepted Accounting Principles for the industry. Certain period expenses are recorded when obligations are incurred.

**SUSTUT EXPLORATION, INC.**  
**(an exploration stage company)**

**NOTES TO FINANCIAL STATEMENTS**

**AS OF SEPTEMBER 30, 2007**

Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, and disclosure of contingent liabilities at the date of the financial statements, and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those results.

Accounts Receivable, deposits, Accounts Payable and accrued Expenses

Accounts receivable have historically been immaterial and therefore no allowance for doubtful accounts has been established. Normal operating refundable Company deposits are listed as Other Assets. Accounts payable and accrued expenses consist of trade payables created from the normal course of business.

Non-mining Property and Equipment

Property and equipment purchased by the Company are recorded at cost. Depreciation is computed by the straight-line method based upon the estimated useful lives of the respective assets. Expenditures for repairs and maintenance are charged to expense as incurred as are any items purchased which are below the Company's capitalization threshold of \$1,000.

For assets sold or otherwise disposed of, the cost and related accumulated depreciation are removed from accounts, and any related gain or loss is reflected in income for the period.

Income Taxes

The Company accounts for income taxes using the liability method which requires recognition of deferred tax liabilities and assets for the expected future tax consequences of events that have been included in the financial statements or tax returns. Deferred tax assets and liabilities are determined based on the difference between the financial statements and tax basis of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. The Company's management determines if a valuation allowance is necessary to reduce any tax benefits when the available benefits are more likely than not to expire before they can be used.

Stock Based Compensation

The Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 123(R), "Accounting for Stock-Based Compensation," (SFAS 123(R)). SFAS 123(R) requires that companies recognize compensation expense for grants of stock, stock options, and other equity instruments based on fair value. The Company has adopted SFAS 123(R) in accounting for stock-based compensation.

**SUSTUT EXPLORATION, INC.**  
**(an exploration stage company)**

**NOTES TO FINANCIAL STATEMENTS**

**AS OF SEPTEMBER 30, 2007**

Cash and Cash Equivalents, and Credit Risk

For purposes of reporting cash flows, the Company considers all cash accounts with maturities of 90 days or less and which are not subject to withdrawal restrictions or penalties, as cash and cash equivalents in the accompanying balance sheet.

The portion of deposits in a financial institution that insures its deposits with the FDIC up to \$100,000 per depositor in excess of such insured amounts are not subject to insurance and represent a credit risk to the Company.

Foreign Currency Translation and Transactions

The Company's functional currency is the US dollar. No material translations or transactions have occurred. Upon the occurrence of such material transactions or the need for translation adjustments, the Company will adopt Financial Accounting Standard No. 52 and other methods in conformity with Generally Accepted Accounting Principles.

Earnings Per Share

In February 1997, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 128 (SFAS 128), "Earnings Per Share". SFAS 128 replaces the presentation of primary earnings per share with a presentation of basic earnings per share based upon the weighted average number of common shares for the period.

**NOTE 3 - AFFILIATES AND RELATED PARTIES**

Significant relationships with (1) companies affiliated through common ownership and/or management, and (2) other related parties are as follows:

The Company has ownership of the Don 1-2 claims which were placed in trust with the Company's President.

The Company has stock-based compensation with directors of the Company as disclosed in Footnote No. 7.

**NOTE 4 - MINERAL PROPERTIES**

The Company's net investment in mineral properties include one claim as described in footnote number 1 have all costs related to the claim have be expended in accordance with Generally Accepted Accounting Principles for the industry . Currently the Company does not have proven reserves by a geological study and will begin to capitalize amortizable property once reserves have been proven.

**SUSTUT EXPLORATION, INC.**  
**(an exploration stage company)**

**NOTES TO FINANCIAL STATEMENTS**

**AS OF SEPTEMBER 30, 2007**

**NOTE 5 - INCOME TAXES**

The Company has available net operating loss carryforwards of \$97,583 for financial statement and federal income tax purposes. These loss carryforwards expire if not used by the year 2026 and 2007. The Company's management has decided a valuation allowance in the amount of approximately \$17,600 is necessary to reduce any tax benefits of using the net operating losses to offset future tax liabilities. The future available benefits are more likely than not to expire before they can be used based on current uncertainties.

**NOTE 6 - CLAIM AGREEMENT**

On May 5, 2006, the Company entered into an agreement with Richard Simpson of Vancouver, BC to acquire one rock mineral claim covering 445.70 hectares. The agreement called for a 100% interest in the claims subject to a 2.5% Net Smelter Royalty (NSR) for a total of \$25,000. 1.5% of the NSR can be acquired for \$1.0 million within 12 months from commencement of commercial production. Advance royalties of \$20,000 shall be paid annually commencing January 17, 2010. The purchase of the claim required payment of \$55,000 on May 15, 2006 and a further \$20,000 on or before May 15, 2008

**NOTE 7 - SHAREHOLDERS' EQUITY**

**Common Stock**

The Company has authorized two hundred million (200,000,000) shares of common stock with a par value of \$.001.

Upon incorporation the Company issued 10,000,000 common shares to directors of the Company as compensation in the amount of \$10,000, or \$0.001 per share.

During April 2006 the Company undertook a Section 4(2) registration under the Securities Act of 1933 to raise \$60,000 in the issuance of 6,000,000 shares of common stock for the purpose of acquisition and exploration of mining properties. The Company's management considers this offering to be exempt under the Securities Act of 1933.

During February 2007, the Company undertook a Section 4(2) registration under the Securities Act of 1933 to raise \$17,700 in the issuance of 59,000 shares of common stock at \$.30 per share. The Company's management considers this offering to be exempt under the Securities Act of 1933.

During March 2007, the Company cancelled the issuance of 1,000 shares of common stock at \$.30 per share.

**SUSTUT EXPLORATION, INC.**  
**(an exploration stage company)**

**NOTES TO FINANCIAL STATEMENTS**

**AS OF SEPTEMBER 30, 2007**

During July 2007, the Company has reissued 1,000 shares of common stock at \$0.30 per share that were cancelled during March 2007.

**NOTE 8 - COMMITMENTS AND CONTINGENCIES**

The Company's claim will revert back to the seller within no less than a 10 day period if the Company fails to make the advance royalty payments per the sales contract commencing 5 years from the date of the agreement.

Management is not aware of any contingent matters that could have a material adverse effect on the Company's financial condition, results of operations, or liquidity.

**NOTE 9 - LITIGATION, CLAIMS AND ASSESSMENTS**

From time to time in the normal course of business the Company will be involved in litigation. The Company's management has determined any asserted or unasserted claims to be immaterial to the financial statements.

## **ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

*This report contains certain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Exchange Act of 1934, as amended, which are based on management's exercise of business judgment as well as assumptions made by and information currently available to, management. When used in this document, the words "may", "will", "anticipate", "believe", "estimate", "expect", "intend" and words of similar import, are intended to identify any forward-looking statements. You should not place undue reliance on these forward-looking statements. These statements reflect our current view of future events and are subject to certain risks and uncertainties as described in this Report on Form 10-QSB as well as other periodic reports, filed with the Securities and Exchange Commission, and as noted below. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, our actual results could differ materially from those anticipated in these forward-looking statements. We undertake no obligation, and do not intend, to update, revise or otherwise publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date hereof, or to reflect the occurrence of any unanticipated events. Although we believe that our expectations are based on reasonable assumptions, we can give no assurance that our expectations will materialize.*

The following discussion and analysis provides information which management believes is relevant to an assessment and understanding of our results of operations and financial condition. On September 30, 2007 we had \$13,617 in cash in the bank. We estimate that in order to carry forward over the next 12 months we will need approximately \$32,500 to pay for office expenses and our "phase 1" exploration program. Based upon our present capital, we do not have enough capital to pay for the \$30,000 that is necessary to complete our planned "phase 1" exploration program. We need to spend a minimum of \$4.00 per hectare in exploration work or pay the equivalent to the Province of BC Ministry of Finance and a \$0.40 filing fee per hectare annually to maintain our claim. Based upon the one claim that the company has that totals 447 hectares we would need to pay a minimum of \$1966.80 annually to maintain our claim. Our estimated annual office expenses are approximately \$2,500. If we do not raise additional capital we will be unable to pay the further \$20,000 that is owed by May 15, 2008 as per our agreement with Richard Simpson the seller of our property.

We will need to raise additional funds through private debt or the sale of equities to meet our capital requirements. We have no present loans or arrangements to cover our capital requirements. If we do not raise additional capital we will not be able to implement our business plan. We can only conduct our "phase 1" exploration program from mid May to mid October only due to inclement weather conditions. If we do not raise the \$30,000 needed for the "phase 1" program by the end of September 2007, we will have to wait until mid May 2008 to commence the program.

The accompanying financial statements have been prepared assuming that the company will continue as a going concern. As discussed in the notes to the financial statements, the company has experienced losses since inception. Our financial situation raises substantial doubt about its ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

The following discussion and analysis contains forward-looking statements, which involve risks and uncertainties. Our actual results may differ significantly from the results, expectations and plans discussed in these forward-looking statements.

### **Organization**

We were organized as a Delaware Corporation on April 11, 2006 for the purpose of locating and developing a copper-gold exploration property in the Province of British Columbia.

---

## Overview

On May 5, 2006 we entered into an option agreement with Richard Simpson to acquire a 100% interest in the “Willowvale Project”. The property was acquired from Richard Simpson by paying him \$55,000 on May 5, 2006. The company must pay advance royalties of \$20,000 annually commencing on January 17, 2010. Upon commercial production, the property will be subject to a 2.5% Net Smelter Royalty (“NSR”). 1.5% of the “NSR” can be acquired for \$1.0 million within 12 months from commencement of commercial production.

If Sustut fails to make the advance royalty payments on the five year anniversary of the claims, as described in the agreement with Richard Simpson the company agrees to transfer the claim back to Richard Simpson within no less than a 10 day period.

The Willowvale Project consists of one claim totaling 447 hectares. The property is owned 100% by Terry Hughes as President in trust for Sustut Exploration Inc. The claims are located in the Omineca Mining Division, NTS map sheet 94D/10E. The property is 4.5km east of the Sustut River in the Province of British Columbia, Canada. The property is owned by the Province of British Columbia, which grants the mineral claim.

Currently we are not aware of any native land claim that might affect our title to the mineral claim. Although we are unaware of any situation that would threaten our claim, it is possible that a native land claim could be made in the future. The Canadian federal and provincial government’s policy at this time is to consult with all the potentially affected native bands and other stakeholders in the area of any proposed commercial production. If we should encounter a situation where a native band or group claims an interest in our claim, we may choose to provide compensation to the affected party in order to continue with our exploration work. If such an option is not available we may have to relinquish our interest in the willow project.

The British Columbia government released “The BC Mining Plan” in January 2005 to help ensure the mining industry that Province is committed to remain competitive in the global mineral exploration sector. British Columbia currently has nine operating mines, of which six produce copper-gold. The exploration expenditures in BC topped \$100 million in 2004 according to the BC Mine Plan.

The B.C. Mine Plan outlines the following:

- B.C. Mineral potential is good
- B.C. Has untapped reserves of metals
- Competitive taxes
- Streamlined regulatory requirements
- Electricity rates are among the lowest in North America
- Highly skilled work force
- Well developed infrastructure

The plan addresses a range of factors that set the stage for a healthy mining industry that delivers community benefits and is sustainable for years to come.

The Canadian Federal Government and the Provinces offer very attractive tax breaks for investors in exploration companies. The Federal and Provincial Tax Credits are a tax advantage investment that is made into a company carrying out grassroots exploration work in Canada. The mining company enters into an agreement with an investor and “flow-through mining expenditure” is incurred by the company and the individual can claim over 100% of that investment off earned income. The B.C. Government will grant in addition to the Federal 15% tax credit a further 20% non-refundable tax credit for qualified investments made in new B.C. mineral exploration. Hence, an investor who is taxed at the highest marginal rate would receive a 141% tax deduction from earned income. The company must be publicly trading in order to deal with this tax advantage investment.

---

## The next twelve months

The companies plan of operations over the next twelve months is to raise additional capital to complete the planned “phase 1” exploration program. The following is an exploration budget that is outlined in the summary geology report that was prepared for the company by George Nicholson, P.Geol.

Item Description	Cost Estimate
Helicopter support (6 hrs x \$1,000/hr)	\$6,000
Labour (2 tech. x 7 days @ \$350/day)	\$4,900
Sample Analyses (100 soil + 50 rock @ \$30/sample)	\$4,500
Room and board	\$2,000
Mob./Demob. + truck + fuel	\$3,000
Report and drafting	\$5,000
10% contingency	\$2,500
<b>Total</b>	<b>\$27,900</b>
	<b>ROUNDED = \$30,000</b>

At present, we do not have sufficient cash on hand to complete the filing of this prospectus and meeting our exploration, general and administration expenses and we must raise more capital by May 15, 2008 to carry out further exploration programs to maintain our interest in the WILLOW claim. If we are unable to raise sufficient capital to meet our obligations we could lose our interest in the properties or a portion thereof.

We plan to raise a minimum of \$30,000 to continue minimum exploration of our properties during the next 12 months through a private placement of debt, convertible securities, or common equity. If we are successful in raising the necessary capital, we may have to significantly dilute the current shareholders. We plan to initially offer the debt or equity to our current shareholders and management. If we are not successful in raising the required capital, we will offer our debt or equity to new investors. At present, we have no specific plans regarding a debt or equity offering, but intend to actively commence raising the required capital during the fall of 2007. As an alternative to raising capital through the selling of debt or equity, we will attempt to negotiate a joint venture with an industry partner. If the company is required to enter into a joint venture, we could end up with a minority interest in our properties. We have not contacted another party in the industry regarding a joint venture. There is no assurance we will raise the necessary capital, therefore there is a significant risk that the company may have to abandon or reduce the size of our property.

## Off-Balance Sheet Arrangements

We have no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to stockholders.

---

### **Item 3. Controls and Procedures**

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) and Rule 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended (Exchange Act), as of September 30, 2007. Based on this evaluation, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in the reports we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that our disclosure and controls are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

There were no changes (including corrective actions with regard to significant deficiencies or material weaknesses) in our internal controls over financial reporting that occurred during the third quarter of fiscal 2007 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

### **Recent Accounting Pronouncements**

In September 2006, the FASB issued SFAS No. 157, "*Fair Value Measurements*". The objective of SFAS 157 is to increase consistency and comparability in fair value measurements and to expand disclosures about fair value measurements. SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. SFAS 157 applies under other accounting pronouncements that require or permit fair value measurements and does not require any new fair value measurements. The provisions of SFAS No. 157 are effective for fair value measurements made in fiscal years beginning after November 15, 2007. The adoption of this statement is not expected to have a material effect on the Company's future reported financial position or results of operations.

In February 2007, the Financial Accounting Standards Board (FASB) issued SFAS No. 159, "*The Fair Value Option for Financial Assets and Financial Liabilities - Including an Amendment of FASB Statement No. 115*". This statement permits entities to choose to measure many financial instruments and certain other items at fair value. Most of the provisions of SFAS No. 159 apply only to entities that elect the fair value option. However, the amendment to SFAS No. 115 "*Accounting for Certain Investments in Debt and Equity Securities*" applies to all entities with available-for-sale and trading securities. SFAS No. 159 is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. Early adoption is permitted as of the beginning of a fiscal year that begins on or before November 15, 2007, provided the entity also elects to apply the provision of SFAS No. 157, "*Fair Value Measurements*". The adoption of this statement is not expected to have a material effect on the Company's financial statements.

---

### **Critical Accounting Policies**

Our financial statements and related public financial information are based on the application of accounting principles generally accepted in the United States (“GAAP”). GAAP requires the use of estimates; assumptions, judgments and subjective interpretations of accounting principles that have an impact on the assets, liabilities, revenues and expense amounts reported. These estimates can also affect supplemental information contained in our external disclosures including information regarding contingencies, risk and financial condition. We believe our use of estimates and underlying accounting assumptions adhere to GAAP and are consistently and conservatively applied. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ materially from these estimates under different assumptions or conditions. We continue to monitor significant estimates made during the preparation of our financial statements.

Our significant accounting policies are summarized in Note 1 of our financial statements. While all these significant accounting policies impact our financial condition and results of operations, we view certain of these policies as critical. Policies determined to be critical are those policies that have the most significant impact on our financial statements and require management to use a greater degree of judgment and estimates. Actual results may differ from those estimates. Our management believes that given current facts and circumstances, it is unlikely that applying any other reasonable judgments or estimate methodologies would cause effect on our consolidated results of operations, financial position or liquidity for the periods presented in this report.

### **Off Balance Sheet Arrangements**

We have no off-balance sheet arrangements.

President, Chief Executive Officer and Chief Financial  
Officer

**OFFICER'S CERTIFICATION PURSUANT TO  
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Terry Hughes, certify that:

1. I have reviewed this Quarterly Report on Form 10-QSB of Sustut Exploration, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (c) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's fourth fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
