APPROVAL 1: REVERSE STOCK SPLIT

General

Our board of directors and the shareholders holding a majority of our issued and outstanding Common Stock approved an amendment to our Certificate of Incorporation, as amended, to effect a reverse stock split which combines the outstanding shares of our common stock into a lesser number of outstanding shares. Our board of directors will have the sole discretion to effect the amendment and reverse stock split at any time prior to June 30, 2016, and to fix the specific ratio for the combination, provided that the ratio would be not less than 1-for-2 and not more than 1-for-3. Our board of directors will also have discretion to abandon the amendment prior to its effectiveness. Our board of directors is hereby providing you with information regarding the reverse stock split as approved by our stockholders.

Our board of directors and majority shareholder have approved an additional reverse stock split in order to again provide for meeting minimum Nasdaq requirements for listing (such as a minimum stock price of \$4.00) in addition to the 1:1000 reverse split which we effected in October 2015, and the board and our majority shareholder have determined that it is in the best interests of our shareholders in general to provide our board with the flexibility to effect the reverse split if needed in a ratio of 1-for-2 to 1-for-3.

The reverse stock split proposal permits (but not require) our board of directors to effect a reverse stock split of our outstanding common stock at any time by a ratio of not less than 1-for-2 and not more than 1-for-3 with the specific ratio to be fixed within this range by our board of directors in its sole discretion. We believe that enabling our board of directors to fix the specific ratio of the reverse stock split within the stated range will provide us with the flexibility to implement it in a manner designed to maximize the anticipated benefits for our stockholders. In fixing the ratio, our board of directors may consider, among other things, factors such as: the historical trading price and trading volume of our common stock; the number of shares of our common stock outstanding; the then-prevailing trading price and trading volume of our common stock; the anticipated impact of the reverse stock split on the trading market for our common stock; and prevailing general market and economic conditions.

The reverse stock split, as approved by our stockholders, will become effective upon the filing of the amendment to our Certificate of Incorporation, as amended, with the Secretary of State of the State of Delaware, or at the later time set forth in the amendment. The filing may occur any time after 20 days from the date of completion of mailing of this Information Statement to our shareholders of record as of December 24, 2015. The exact timing of the amendment will be determined by our board of directors based on its evaluation as to if and when such action will be the most advantageous to our company and our stockholders. In addition, our board of directors reserves the right, notwithstanding stockholder approval and without further action by the stockholders, to abandon the amendment and the reverse stock split if, at any time prior to the effectiveness of the filing of the amendment with the Secretary of State of the State of Delaware, our board of directors, in its sole discretion, determines that it is no longer in our best interest and the best interests of our stockholders to proceed.

The proposed form of amendment to our Certificate of Incorporation, as amended, to effect the reverse stock split is attached as Appendix A to this Information Statement. Any amendment to our Certificate of Incorporation, as amended, to effect the reverse stock split will include the reverse stock split ratio fixed by our board of directors, within the range approved by our stockholders.

Reasons for Proposed Amendment

Our board of directors' primary reason for approving and recommending the reverse stock split is to increase the per share price of our common stock to meet the listing requirements of the NASDAQ Capital Market ("NASDAQ"). Our board of directors believes that attaining and maintaining the listing of our common stock on NASDAQ is in the best interests of our company and its stockholders. As of December 15, 2015, our common stock has traded on the OTC Market's electronic interdealer quotation QB system ("OTCQB") in a 52 week closing price range from \$2.00 to \$6.60 per share. NASDAQ requires a minimum closing price of \$3.00 per share in connection with the initial listing application. We are also required to meet additional conditions to list our common stock on NASDAQ and there is no guarantee that we will be able to meet those conditions. We will submit an application to list our common stock on NASDAQ at such time as determined prudent by our board of directors.

In addition, if our common stock were listed on NASDAQ, our board of directors believes that the liquidity in the trading of our common stock could be significantly enhanced, which could result in an increase in the trading price. However, despite approval of the reverse stock split by our stockholders and the implementation thereof by our board of directors, there is no assurance that our minimum bid price would be or remain following the reverse stock split over NASDAQ's minimum bid price requirement, and our common stock could fail to attain the minimum bid price requirement necessary to be listed on NASDAQ.

Our board of directors further believes that an increased stock price may encourage investor interest and improve the marketability of our common stock to a broader range of investors. We believe that the reverse stock split will make our common stock more attractive to a broader range of institutional and other investors, as we have been advised that the current market price of our common stock may affect its acceptability to certain institutional investors, professional investors and other members of the investing public. Many brokerage houses and institutional investors have internal policies and practices that either prohibit them from investing in low-priced stocks or tend to discourage individual brokers from recommending low-priced stocks to their customers. In addition, some of those policies and practices may function to make the processing of trades in low-priced stocks economically unattractive to brokers. Moreover, because brokers' commissions on low-priced stocks generally represent a higher percentage of the stock price than commissions on higher-priced stocks, the current average price per share of our common stock can result in individual stockholders paying transaction costs representing a higher percentage of their total share value than would be the case if the share price were substantially higher. We believe that the reverse stock split will make our common stock a more attractive and cost effective investment for many investors, which should enhance the liquidity available to the holders of our common stock. Accordingly, we believe that approval of the reverse stock split is in our company's and our stockholders' best interests.

Reducing the number of outstanding shares of our common stock through the reverse stock split is intended, absent other factors, to increase the per share market price of our common stock. However, other factors, such as our financial results, general market conditions and the market perception of our company, may adversely affect the market price of our common stock. As a result, there can be no assurance that the reverse stock split, if completed, will result in the intended benefits described above, that the market price of our common stock will increase following the reverse stock split or that the market price of our common stock will not decrease in the future. Additionally, we cannot assure you that the market price per share of our common stock after a reverse stock split will increase in proportion to the reduction in the number of shares of our common stock outstanding before the reverse stock split. Accordingly, the total market capitalization of our common stock after the reverse stock split may be lower than the total market capitalization before the reverse stock split.

The reverse stock split alone would have no effect on our authorized capital stock, and the total number of authorized shares (2,000,000,000) would remain the same as before the reverse stock split. This would have the effect of increasing the number of shares of our common stock available for issuance, which our board of directors believes is important to provide us with flexibility and as many alternatives as possible to obtain financing. We have no specific plans, arrangements or understandings, whether written or oral, to issue any of the shares that will be newly available following the reverse stock split. Our board of directors is also mindful about the potential dilutive effect on existing stockholders. For the reasons discussed in this proposal, our board of directors has approved and recommended a range of reverse stock split ratios to address NASDAQ's listing price requirement in a more targeted fashion.

Determination of Ratio

The ratio of the reverse stock split, if approved and implemented, will be a ratio of not less than 1-for-2 and not more than 1-for-3, as determined by our board of directors in its sole discretion. Our board of directors believes that stockholder approval of a range of potential exchange ratios, rather than a single exchange ratio, is in the best interests of our stockholders because it provides our board of directors with the flexibility to achieve the desired results of the reverse stock split and because it is not possible to predict market conditions at the time the reverse stock split would be implemented.

Our board of directors would carry out a reverse stock split only upon its determination that a reverse stock split would be in the best interests of our stockholders at that time. Our board of directors would then set the ratio for the reverse stock split in an amount it determines is advisable and in the best interests of the stockholders considering relevant market conditions at the time the reverse stock split is to be implemented. In determining the ratio, following receipt of stockholder approval, our board of directors may consider, among other things:

- the historical and projected performance of our common stock;
- prevailing market conditions;
- general economic and other related conditions prevailing in our industry and in the marketplace;
- the projected impact of the selected reverse stock split ratio on trading liquidity in our common stock and our ability to list our common stock on NASDAQ;
- our capitalization (including the number of shares of our common stock issued and outstanding);
- the prevailing trading price for our common stock and the volume level thereof; and

The purpose of asking for authorization to implement the reverse stock split at a ratio to be determined by our board of directors, as opposed to a ratio fixed in advance, is to give our board of directors the flexibility to take into account then-current market conditions and changes in price of our common stock and to respond to other developments that may be deemed relevant when considering the appropriate ratio.

Potential Effects of Proposed Amendment

If our board of directors effects the reverse stock split, the reverse stock split will affect all holders of our common stock uniformly, other than those stockholders who receive special treatment upon consummation of the reverse stock split. Our board of directors and shareholders approved if our board deems it necessary, at or before the time we file our amendment to our Certificate of Incorporation, special treatment of stockholders holding less than a number of shares of our common stock equal to the product of 100 multiplied by the consequent term of the reverse stock split ratio, but at least 100 shares of our common stock, to prevent those stockholders from holding less than 100 shares after the reverse stock split. For example, if our board of directors determines to effectuate a reverse stock split at a ratio of 1-for-2, holders of fewer than 200 shares of our common stock but at least 100 shares of our common stock (as applicable, “Eligible Holders”) would receive 100 shares of our common stock after the reverse stock split. The special treatment would be afforded to preserve round lot stockholders (i.e., holders owning at least 100 shares).

The following table sets forth the effect of a 1-for-2 reverse stock split and the special treatment potentially being afforded to Eligible Holders (which will only be effected if our board of so directors so determines before we file our amendment to our Certificate of Incorporation):

Number of Shares Held by Stockholder Prior to Reverse Stock Split	Number of Shares Held by Stockholder After Reverse Stock Split
Less than 100 shares	1 share
100 shares to 200 Shares	100 shares
201 shares	101 shares
400 shares	200 shares
2,000 shares	1,000 shares
4,000 shares	2,000 shares

The reverse stock split will not affect any stockholder’s percentage ownership interest in our company, except for a nominal increase in percentage ownership interest that will accrue to Eligible Holders (if our board determines to effect round lot treatment) and except that as described below in “Fractional Shares,” record holders of our common stock otherwise entitled to a fractional share as a result of the reverse stock split because they hold a number of shares not evenly divisible by the reverse stock split ratio will automatically be entitled to receive an additional fraction of a share of our common stock to round up to the next whole share. In addition, the reverse stock split will not affect any stockholder’s proportionate voting power except for a nominal increase that will accrue to Eligible Holders (if our board determines to effect round lot treatment) (subject to the treatment of fractional shares).

The reverse stock split will not change the terms of our common stock. After the reverse stock split, the shares of our common stock will have the same voting rights and rights to dividends and distributions and will be identical in all other respects to our common stock now authorized. Our common stock will remain fully paid and non-assessable.

After the effective time of the reverse stock split, we will continue to be subject to the periodic reporting and other requirements of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). The reverse stock split is not intended as, and will not have the effect of, a “going private transaction” as described by Rule 13e-3 under the Exchange Act.

If we fail to meet the requirements specified in NASDAQ’s listing standards, our common stock will continue to be quoted on the OTCQB under the symbol “OPXS.”

After the effective time of a reverse stock split, the post-split market price of our common stock may be less than the pre-split price multiplied by the reverse stock split ratio. In addition, a reduction in number of shares of our common stock outstanding may impair the liquidity for our common stock, which may reduce the value of our common stock.

The availability of a substantial number of authorized but un-reserved shares of our common stock resulting from the reverse stock split, under various scenarios, may be construed as having an anti-takeover effect by permitting the issuance of shares of our common stock to purchasers who might oppose a hostile takeover bid or oppose any efforts to amend or repeal certain provisions in our Certificate of Incorporation or bylaws as then in effect. The proposal to effectuate the reverse stock split did not result from our knowledge of any specific effort to accumulate our securities or to obtain control of us by means of a merger, tender offer, proxy solicitation in opposition to management or otherwise, and our board of directors did not authorize the reverse stock split to increase the authorized shares of our common stock to enable us to frustrate any efforts by another party to acquire a controlling interest or to seek representation on our board of directors.

Beneficial Holders of Common Stock

Upon the implementation of the reverse stock split, we intend to treat shares held by stockholders through a bank, broker or other nominee in the same manner as registered stockholders whose shares are registered in their names. Banks, brokers or other nominees will be instructed to effect the reverse stock split for their beneficial holders holding our common stock in "street name." However, these banks, brokers or other nominees may have different procedures than registered stockholders for processing the reverse stock split. Stockholders who hold shares of our common stock with a bank, broker or other nominee and who have any questions in this regard are encouraged to contact their banks, brokers or other nominees.

Registered "Book-Entry" Holders of Common Stock

Certain of the registered holders of our common stock may hold some or all of their shares electronically in book-entry form with our transfer agent. These stockholders do not have stock certificates evidencing their ownership of our common stock. They are, however, provided with statements reflecting the number of shares registered in their accounts. Stockholders who hold shares electronically in book-entry form with our transfer agent will not need to take action to receive evidence of their shares of post-reverse stock split common stock.

Holders of Certificated Shares of Common Stock

Stockholders holding shares of our common stock in certificated form will be sent a transmittal letter by our transfer agent after the effective time of the reverse stock split. The letter of transmittal will contain instructions on how a stockholder should surrender his, her or its certificate(s) representing shares of our common stock (the "Old Certificates") to our transfer agent in exchange for certificates representing the appropriate number of shares of post-reverse stock split common stock (the "New Certificates"). No New Certificates will be issued to a stockholder until such stockholder has surrendered all Old Certificates, together with a properly completed and executed letter of transmittal, to our transfer agent. No stockholder will be required to pay a transfer or other fee to exchange his, her or its Old Certificates. Stockholders will then receive a New Certificate(s) representing the number of shares of our common stock to which they are entitled as a result of the reverse stock split. Until surrendered, we will deem outstanding Old Certificates held by stockholders to be cancelled and only to represent the number of shares of post-reverse stock split Common Stock to which these stockholders are entitled. Any Old Certificates submitted for exchange, whether because of a sale, transfer or other disposition of stock, will automatically be exchanged for New Certificates. If an Old Certificate has a restrictive legend on its reverse side, the New Certificate will be issued with the same restrictive legend on its reverse side.

STOCKHOLDERS SHOULD NOT DESTROY ANY STOCK CERTIFICATE(S) AND SHOULD NOT SUBMIT ANY STOCK CERTIFICATE(S) UNTIL REQUESTED TO DO SO.

Fractional Shares

We will not issue fractional shares in connection with the reverse stock split. Instead, stockholders who otherwise would be entitled to receive fractional shares because they hold a number of shares not evenly divisible by the reverse stock split ratio will automatically be entitled to receive an additional fraction of a share of our common stock to round up to the next whole share.

Effect of the Reverse Stock Split on Outstanding Convertible Debt, Stock Options, Warrants, and Employee Plans

Based upon the reverse stock split ratio, proportionate adjustments are generally required to be made to the per share exercise or conversion price and the number of shares issuable upon the exercise or conversion of all outstanding options, warrants or convertible debt securities entitling the holders to acquire shares of our common stock. This would result in approximately the same aggregate price being required to be paid under such options, warrants or convertible debt securities upon exercise or conversion, as applicable, and approximately the same value of shares of our common stock being delivered upon such exercise or conversion immediately following the reverse stock split as was the case immediately preceding the reverse stock split. The number of shares reserved for issuance pursuant to these securities will be reduced proportionately based upon the reverse stock split ratio.

Accounting Matters

The proposed amendment to our Certificate of Incorporation, as amended, will not affect the par value of our common stock. As a result, at the effective time of the reverse stock split, the stated capital on our balance sheet attributable to our common stock will be reduced in the same proportion as the reverse stock split ratio, and the additional paid-in capital account will be credited with the amount by which the stated capital is reduced. The per share net income or loss and net book value of our common stock will be reclassified for prior periods to conform to the post-reverse stock split presentation.

Certain Federal Income Tax Consequences of the Reverse Stock Split

The following summary describes certain material U.S. federal income tax consequences of the reverse stock split to holders of our common stock. Unless otherwise specifically indicated herein, this summary addresses the U.S. federal income tax consequences only to a beneficial owner of our common stock that is a United States person as defined in the Internal Revenue Code of 1986, as amended (the "Code"), or a U.S. holder. This summary does not address all of the tax consequences that may be relevant to any particular stockholder, including tax considerations that may apply to certain special classes of taxpayers under the Code.

As a result, stockholders should seek advice on the tax consequences of the reverse stock split based on their particular circumstances from an independent tax advisor.

If a partnership (or other entity classified as a partnership for U.S. federal income tax purposes) is the beneficial owner of our common stock, the U.S. federal income tax treatment of a partner in the partnership will generally depend on the status of the partner and the activities of the partnership. Partnerships that hold our common stock, and partners in such partnerships, should consult their own tax advisors regarding the U.S. federal income tax consequences of the reverse stock split.

U.S. Holders

The reverse stock split is intended to qualify as a "reorganization" under Section 368 of the Internal Revenue Code of 1986, as amended (the "Code"). Assuming the reverse stock split qualifies as a reorganization, a U.S. holder generally will not recognize gain or loss upon the exchange (or deemed exchange) of shares pursuant to the reverse stock split. The aggregate tax basis of the new shares received in the reverse stock split will be the same as the aggregate tax basis in the old shares exchanged. The holding period for the new shares will include the period during which the old shares surrendered in the reverse stock split were held.

Non-U.S. Holders

A non-U.S. holder is a beneficial owner of our common stock that is not a U.S. holder. Generally, non-U.S. holders will not recognize any gain or loss upon the reverse stock split.

Dissenters' Rights

Under the Delaware General Corporation Law, stockholders will not be entitled to dissenters' rights with respect to the proposed amendment to our Certificate of Incorporation, as amended, to effect the reverse stock split, and we do not intend to independently provide stockholders with such rights.

Certain Relationships and Related Transactions¹

Relationship between Optex Systems, Inc. (Texas), Irvine Sensors Corporation and Longview and Alpha

Longview and Alpha were owed certain debt by Irvine Sensors Corporation including debt evidenced by (i) a December 29, 2006 Term Loan and Security Agreement executed by Irvine Sensors Corporation and Longview and Alpha, and (ii) a series of secured promissory notes purchased by them and issued to them on December 29, 2006, July 19, 2007 and November 28, 2007. As of August 24, 2008, the total amount due under all of the described notes was approximately \$18.4 million. Optex Systems, Inc. (Texas), which was and is a wholly owned subsidiary of Irvine Sensors Corporation, was a guarantor of all of those notes, and pursuant to related security agreements Longview and Alpha had a validly perfected, fully enforceable security interest in all personal property of Optex Systems, Inc. (Texas). On September 19, 2008, pursuant to an Assignment and Stock/Note Issuance Agreement, Alpha and Longview transferred and assigned to Optex Systems, Inc. (Delaware) which assumed, \$15 million of their respective interests and rights in the aforesaid notes and obligations to Optex Systems, Inc. (Delaware) in exchange for \$9 million of equity and \$6 million of debt.

Acquisition of Assets of Optex Systems, Inc. (Texas) by Optex Systems, Inc. (Delaware) on October 14, 2008

On October 14, 2008, in a purchase transaction that was consummated via public auction, Optex Systems, Inc. (Delaware) purchased all of the assets of Optex Systems, Inc. (Texas) in exchange for \$15 million of Irvine Sensors Corporation debt owned by it and the assumption of approximately \$3.8 million of certain Optex Systems, Inc. (Texas) liabilities. The \$15 million of Irvine Sensors Corporation debt was contributed by Longview and Alpha to Optex Systems, Inc. (Delaware) in exchange for a \$6 million note payable from Optex Systems, Inc. (Delaware) and a \$9 million equity interest in Optex Systems, Inc. (Delaware). Longview and Alpha owned Optex Systems, Inc. (Delaware) until February 20, 2009, when Longview sold 100% of its interests in Optex Systems, Inc. (Delaware) to Sileas, as discussed below. In referring to these transactions, Optex Systems, Inc. (Delaware) is considered to be the successor entity to Optex Systems, Inc. (Texas), the predecessor entity.

Secured Promissory Notes and Common Shares Issued in connection with Purchase by Optex Systems, Inc. (Delaware)

In connection with the public sale of the Optex Systems, Inc. (Texas) assets to Optex Systems, Inc. (Delaware), Optex Systems, Inc. (Delaware) delivered to each of Longview and Alpha a Secured Promissory Note due September 19, 2011 in the principal amounts of \$5,409,762 and \$540,976, respectively. Each Note bears simple interest at the rate of 6% per annum, and the interest rate upon an event of default increases to 8% per annum. After 180 days from the issue date, the principal amount of the Notes and accrued and unpaid interest thereon may be converted into Optex Systems, Inc. (Delaware) common stock at a conversion price of \$1.80 per share (pre-split and pre-reorganization price). The Notes may be redeemed prior to maturity at a price of 120% of the then outstanding principal amount plus all accrued and unpaid interest thereon. The obligations of Optex Systems, Inc. (Delaware) under the Notes are secured by a lien against all of the assets of Optex Systems, Inc. (Delaware) in favor of Longview and Alpha. In addition, Optex Systems, Inc. (Delaware) issued common stock to each of Longview and Alpha in the quantities of 45,081,350 and 4,918,650, respectively. On October 30, 2008, Alpha sold its Optex Systems, Inc. (Delaware) common stock to Arland Holding, Ltd. On February 20, 2009, Longview sold its Note to Sileas (see below).

¹ All share numbers in this section are stated in pre 1:1000 reverse split numbers as these are historical numbers.

Acquisition by Sileas of Longview's Interests in Optex Systems, Inc. (Delaware) on February 20, 2009

On February 20, 2009, Sileas purchased 100% of the equity and debt interest held by Longview, representing 90% of Optex Systems, Inc. (Delaware), in a private transaction. The primary reason for the acquisition was to eliminate shareholder control of Optex Systems Holdings by Longview and to limit any perception of control over the day-to-day operations of Optex Systems Holdings, whether or not such control actually existed. While Longview makes investments in a variety of companies, it strives to invest passively and leave the day-to-day operations of the companies in its investment portfolio to the management teams of those companies. In addition, the acquisition allowed Optex Systems Holdings to avoid potential conflicts of interest or other related business issues that might have adversely affected Optex Systems Holdings' operations as a result of Longview's investments in other companies.

The purchase price for the acquisition was \$13,524,405. Sileas issued a purchase money note to Longview for the full amount of the purchase price in exchange for 45,081,350 shares of common stock of Optex Systems Holdings (representing 90% of the outstanding shares) and transfer to Sileas of a note dated December 2, 2008, issued by Optex Systems Holdings to Longview in the principal amount of \$5,409,762. No contingent consideration is due the seller in the transaction. The obligations of Sileas under the Note are secured by a security interest in Optex Systems Holdings' common and preferred stock owned by Sileas that was granted to Longview pursuant to a Stock Pledge Agreement delivered by Sileas to Longview and also by a lien on all of the assets of Sileas. On March 27, 2009, Sileas and Alpha (which owned the balance of the \$6,000,000 of the notes) exchanged the \$6,000,000 aggregate principal amount of notes, plus accrued and unpaid interest thereon, for 1,027 shares of Optex Systems, Inc. (Delaware) Series A preferred stock.

Sileas has no operations or business activities other than holding the stock and notes described above and has no revenues, and it holds no assets other than the stock and notes described above. The management of Sileas believes that the value of its common stock and preferred stock holdings in Optex Systems Holdings will increase over time. Sileas plans to repay Longview, no later than the maturity date, through some combination of a recapitalization of Sileas equity and debt and partial or full liquidation of its interests in Optex Systems Holdings. Sileas will be limited by the extent of the stock price of Optex Systems Holdings and limitations on ability to resell the stock it owns in Optex Systems Holdings.

Secured Promissory Note Due February 20, 2016/Longview Fund, LP

As a result of the transaction described above between Sileas and Longview on February 20, 2009, Sileas, the new majority owner of Optex Systems, Inc. (Delaware), executed and delivered to Longview, a Secured Promissory Note due February 20, 2012 in the principal amount of \$13,524,405. The Note bears simple interest at the rate of 4% per annum, and the interest rate upon an event of default increases to 10% per annum. In the event that a Major Transaction occurs prior to the maturity date resulting in the Borrower receiving Net Consideration with a fair market value in excess of the principal and interest due under the terms of this Secured Note, then in addition to paying the principal and interest due, Sileas shall also pay an amount equal to 90% of the consideration. "Major Transaction" refers to a transaction whereby Optex Systems, Inc. (Delaware) would consolidate or merge into or sell or convey all or substantially all of its assets to a third party entity for more than nominal consideration, and "Net Consideration" refers to the fair market value of the consideration received in connection with a Major Transaction less all outstanding liabilities of Optex Systems, Inc. (Delaware).

On November 22, 2011 Sileas Corp and Longview Fund, LP entered into an amendment to the Secured Promissory Note that extended the maturity date for an additional two year period ending on February 20, 2014. In exchange for the extension, Sileas Corp agreed to pay Longview Fund an extension fee equal to 2% of the principal amount of this Secured Note. As a result of the agreement, the principal amount of the Note was increased \$270 thousand to \$13.8 million as of November 22, 2011.

Rule 409(b) states: "(b) The registrant shall include a statement either showing that unreasonable effort or expense would be involved or indicating the absence of any affiliation with the person within whose knowledge the information rests and stating the result of a request made to such person for the information."

We made requests of counsel representing Sustut's directors and officers to obtain additional information into the principles behind their determination that the securities of the registrant issued in the March 30, 2009 share exchange represented "fair market value" to acquire the business operations of Optex Systems, Inc. (Delaware), and they were not able to provide any information. We confirm that we have no affiliation with Sustut's former counsel, Anslow & Jacklin, who was our only source of information regarding the prior history of Sustut and that the result of our request was that they stated they had no information and were not able to obtain further information. on this issue.

We have not been able to provide further background as to how the merger consideration was determined beyond the fact that it was determined by negotiation between Sustut and Optex Systems, Inc. (Delaware). Thus, we have invoked Rule 409(b) which states: “(b) The registrant shall include a statement either showing that unreasonable effort or expense would be involved or indicating the absence of any affiliation with the person within whose knowledge the information rests and stating the result of a request made to such person for the information.”

HOLDINGS, INC.

CERTIFICATE of AMENDMENT of
CERTIFICATE of INCORPORATION
OF
OPTEX SYSTEMS HOLDINGS, INC.

The corporation organized and existing under and by virtue of the General Corporation Law of the State of Delaware does hereby certify:

FIRST: That at a meeting of the Board of Directors of Optex Systems Holdings, Inc., (the "Corporation") resolutions were duly adopted setting forth proposed amendment of the Certificate of Incorporation of the Corporation, declaring said amendment to be advisable and requesting consent of the stockholders of the Corporation to adopt said amendment. The resolution setting forth the proposed amendment is as follows:

RESOLVED, that the Certificate of Incorporation of the Corporation be amended by changing Article thereof numbered ____ which is amended by:

AMENDMENT 1: adding the following paragraph at the end thereof:

"Upon the Effective Date of this Certificate of Amendment, each ____ shares of Common Stock issued and outstanding on the Effective Date (the "Old Common Stock") shall be converted into one (1) share of Common Stock, respectively (the "New Common Stock"), subject to the treatment of fractional share interests as described below. A holder of ____ shares shall be entitled to receive, upon surrender of a stock certificate or stock certificates representing such Old Common Stock (the "Old Certificates," whether one or more) to the Corporation for cancellation, a certificate or certificates (the "New Certificates," whether one or more) representing the number of whole shares of the New Common Stock into which and for which the shares of the Old Common Stock formerly represented by such Old Certificates so surrendered are reclassified under the terms hereof. No certificates representing fractional share interests in New Common Stock will be issued, and no such fractional share interest will entitle the holder thereof to vote, or to any rights of a stockholder of the Corporation. In lieu of such fractional shares, each holder of Common Stock who or that would otherwise have been entitled to a fraction of a share of such common stock upon surrender of such holder's Old Certificates will be entitled to receive one whole share of such common stock. If more than one Old Certificate shall be surrendered at one time for the account of the same stockholder, the number of full shares of New Common Stock for which New Certificates shall be issued shall be computed on the basis of the aggregate number of shares represented by the Old Certificates so surrendered. In the event that the Corporation determines that a holder of Old Certificates has not tendered all his or her certificates for exchange, the Corporation shall carry forward any fractional share until all certificates of that holder have been presented for exchange such that any stockholder will not be entitled to receive more than one share of New Common Stock in lieu of fractional shares. [In order to preserve all round lots, holders of 100 shares to ____ shares before the Reverse Split shall have 100 shares after the Reverse Split. From and after the Effective Date, the amount of capital represented by the shares of the New Common Stock into which and for which the shares of the Old Common Stock are reclassified under the terms hereof shall be the same as the amount of capital represented by the shares of Old Common Stock so reclassified, until thereafter reduced or increased in accordance with applicable law".]

SECOND: That thereafter, pursuant to resolution of its Board of Directors, the Company received the requisite consent of its stockholders to adopt said amendment by written consent in lieu of a meeting.
