- (a) With the exception of the Company's investments in Langham Creek LLC, Turning Point Brands, Inc. and Lone Star Brewery Development, Inc., all of the Company's investments are qualifying assets under Section 55(a) of the Investment Company Act of 1940, as amended (the "1940 Act"). The Company may not acquire any non-qualifying assets unless, at the time of acquisition, qualifying assets represent at least 70% of the Company's total assets. As of December 31, 2017, non-qualifying assets totaled 17.0% of the Company's total assets.
- (b) Under the 1940 Act, the Company would be deemed to "control" a portfolio company if the Company owned more than 25% of its outstanding voting securities and/or held the power to exercise control over the management or policies of the portfolio company. The Company would be deemed an "affiliated person" of a portfolio company if the Company owned 5% or more of the portfolio company's outstanding voting securities. As of December 31, 2017, the Company is an "affiliated person" of Langham Creek LLC by virtue of its ownership of voting securities of Langham Creek LLC.

As of December 31, 2017, the Company is deemed to be an "affiliated person" of and deemed to "control" Lone Star Brewery Development, Inc. The following table presents certain information with respect to investments in portfolio companies of which the Company was deemed to be an affiliated person of and deemed to control as of December 31, 2017:

# PARKVIEW CAPITAL CREDIT, INC. NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS (in thousands, except share information)

#### NOTE A - ORGANIZATION AND BASIS OF PRESENTATION

Parkview Capital Credit, Inc. (the "Company"), was legally formed on November 25, 2014 ("Inception") as a Maryland corporation and commenced its principal operations on April 24, 2015, commensurate with the raising of \$20,000 through the sale of 2,000,000 shares of its common stock. The Company is an externally managed, non-diversified, closed-end management investment company that has elected to be regulated as a business development company ("BDC") under the 1940 Act, as amended (the "1940 Act"), and elected to be treated for federal income tax purposes as a regulated investment company ("RIC") under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"), beginning with the tax year ended June 30, 2017.

The Company is an investment company that follows the specialized accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standard Codification ("ASC") Topic 946 "Financial Services Investment Companies."

The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with U.S. generally accepted accounting principles ("GAAP"). Additionally, the accompanying unaudited financial statements of the Company and related financial information as of and for the three and nine months ended September 30, 2018 and 2017 have been prepared pursuant to the requirements for reporting in Article 10 of Regulation S-X. Accordingly, certain disclosures accompanying annual financial statements prepared in accordance with GAAP are omitted. In the opinion of management, the unaudited financial results included herein contain all adjustments, consisting solely of normal recurring accruals, considered necessary for the fair presentation of financial statements for the periods included herein. The current period's results of operations will not necessarily be indicative of results that ultimately may be achieved for the fiscal year ending December 31, 2018.

#### NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reclassifications: Prior period financial statement amounts have been reclassified to conform to the current period presentation.

<u>Use of Estimates</u>: The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income Taxes: The Company has elected to be regulated as a BDC under the 1940 Act. The Company has also elected to be treated as a RIC under Subchapter M of the Code, beginning with the tax year ended June 30, 2017. As a RIC, the Company generally is not required to pay corporate level federal income taxes on any ordinary income or capital gains that it distributes to its stockholders as dividends. To qualify as a RIC, the Company must, among other things, meet certain source-of-income and asset diversification requirements. In addition, to qualify for RIC tax treatment, the Company must distribute to its stockholders, for each taxable year, at least 90% of its "investment company taxable income" for that year, which is generally its ordinary income plus the excess of its realized net short-term capital gains over its realized net long-term capital losses. As a result, any tax liability related to income earned and distributed by the Company represents obligations of the Company's common stockholders and will not be reflected in the financial statements of the Company for the years in which it qualifies as a RIC.

Although the Company may not be subject to federal income taxes as a RIC, it may choose to retain a portion of its calendar year income. If so, the Company may be subject to a 4% excise tax on the amount retained.

The Company evaluates tax positions taken or expected to be taken in the course of preparing its financial statements to determine whether the tax positions are "more-likely-than-not" to be sustained by the applicable tax authority. Tax positions not deemed to meet the "more-likely-than-not" threshold are reversed and recorded as a tax benefit or expense in the current year. All penalties and interest associated with income taxes are included in income tax expense. Conclusions regarding tax positions are subject to review and may be adjusted at a later date based on factors including, but not limited to, on-going analyses of tax laws, regulations and interpretations thereof. All tax years are open for examination.

Revenue Recognition: Interest income, adjusted for amortization of premiums and accretion of discounts, is recorded on an accrual basis. Discounts or premiums are accreted or amortized, respectively, using the effective interest method as interest income. Dividend income is recognized on an accrual basis to the extent that the Company expects to collect such amount. Loan origination fees, original issue discount and market discount are capitalized and amortized as interest income over the respective term of the loan. The Company records prepayment premiums on loans and securities as fee income when it receives such amounts.

The Company places investments on non-accrual status when there is reasonable doubt that interest income will be collected. The Company considers many factors relevant to an investment when placing it on or removing it from non-accrual status including, but not limited to, the delinquency status of the investment, economic and business conditions, the overall financial condition of the underlying investment, the value of the underlying collateral, bankruptcy status, if any, and any other facts or circumstances relevant to the investment. If there is reasonable doubt that the Company will receive any previously accrued interest, then the interest income will be written-off. Payments received on non-accrual investments may be recognized as income or applied to principal depending upon the collectability of the remaining principal and interest. Non-accrual investments may be restored to accrual status when principal and interest become current and are likely to remain current based on management's judgment.

The Company has loans and preferred securities in its portfolio that contain payment-in-kind ("PIK") provisions. PIK represents interest or dividends that are accrued and recorded as interest or dividend income at the contractual rates, increases the loan or preferred equity principal on the respective capitalization dates, and is generally due at maturity. For the three and nine months ended September 30, 2018, the Company recognized PIK income of \$92 and \$262, respectively. For the three and nine months ended September 30, 2017, the Company recognized PIK income of \$93 and \$487, respectively.

Realized gains or losses on investments are measured by the difference between the net proceeds from the disposition and the amortized cost basis of the investment, without regard to unrealized gains or losses previously recognized. The Company reports changes in fair value of investments that are measured at fair value as a component of the net change in unrealized appreciation on investments in the statements of operations.

<u>Earnings per Share</u>: Basic earnings per share is computed by dividing earnings available to common stockholders by the weighted average number of shares outstanding during the period. Other potentially dilutive shares of common stock, and the related impact to earnings, are considered when calculating earnings per share on a diluted basis.

<u>Investments</u>: Investment transactions are accounted for on a trade-date basis. The Company considers trade date for investments not traded on a recognized exchange, or traded in the over-the-counter markets, to be the date on which the Company receives legal or contractual title to the asset and bears the risk of loss.

Investments in certain senior loans generate a fixed spread over floating base rates such as LIBOR or the U.S. Prime Rate. These floating base rates generally reset either monthly, quarterly or semi-annually.

<u>Valuation of Portfolio Securities</u>: The Company determines the net asset value per share of its common stock quarterly. The net asset value per share equals the value of the Company's total assets minus liabilities and any preferred stock outstanding divided by the total number of shares of common stock outstanding. The Company's investments are valued at the end of each fiscal quarter.

Substantially all of the Company's investments are expected to be in loans that do not have readily ascertainable market prices. Investments for which market quotations are readily available are valued at such market quotations, which are generally obtained from an independent pricing service or multiple broker-dealers or market makers. In order to assist the Board in determining the fair value of assets that are not publicly traded or whose market prices are not readily available, Parkview Advisors, LLC (the "Advisor") provides the Board with portfolio company valuations, which are based on relevant inputs, which may include but are not limited to, indicative dealer quotes, values of like securities, recent portfolio company financial statements and forecasts, and valuations prepared by third party valuation services. The Company has retained independent valuation firms to assist the Board by performing certain limited third-party valuation services. In connection with each valuation determination, investment professionals from the Advisor prepare portfolio company valuations using sources and/or proprietary models, depending on the availability of information, on the Company's assets and the type of asset being valued, all in accordance with the Company's valuation policy. The participation of the Advisor in the valuation process could result in a conflict of interest, since the base management fee is based on the Company's gross assets.

Valuation of fixed income investments, such as loans and debt securities, depends upon a number of factors, including prevailing interest rates for like securities, expected volatility in future interest rates, call features, put features and other relevant terms of the debt. For investments without readily available market prices, the Company may incorporate these factors into discounted cash flow models to arrive at fair value. Other factors that may be considered include the borrower's ability to adequately service its debt, the fair market value of the borrower in relation to the face amount of its outstanding debt and the quality of collateral securing its debt investments.

The Company's equity interests in portfolio companies for which there is no liquid public market are valued at fair value. The Board, in its determination of fair value, may consider various factors, such as multiples of EBITDA, cash flows, net income, revenues or, in limited instances, book value or liquidation value. All of these factors may be subject to adjustments based upon the particular circumstances of a portfolio company or the actual investment position. For example, adjustments to EBITDA may take into account compensation to previous owners or acquisition, recapitalization, restructuring or other related items.

The Advisor's management team, any approved independent third-party valuation specialists and the Board may also consider private merger and acquisition statistics, public trading multiples discounted for illiquidity and other factors, valuations implied by third-party investments in the portfolio companies or industry practices in determining fair value. The Advisor's management team, any approved independent third-party valuation specialists and the Board may also consider the size and scope of a portfolio company and its specific strengths and weaknesses, and may apply discounts or premiums, where and as appropriate, due to the higher (or lower) financial risk and/or the smaller size of portfolio companies relative to comparable firms, as well as such other factors as the Board, in consultation with the Advisor's management team and any approved independent third-party valuation specialists may consider relevant in assessing fair value. Generally, the value of the equity interests in public companies for which market quotations are readily available will be based upon the most recent closing public market price. Portfolio securities that carry certain restrictions on sale are typically valued at a discount from the public market value of the security.

When the Company receives warrants or other equity securities at nominal or no additional cost in connection with an investment in a debt security, the cost basis in the investment will be allocated between the debt securities and any such warrants or other equity securities received at the time of origination. The Board subsequently values these warrants or other equity securities received at their fair value.

The Company periodically benchmarks the bid and ask prices received from the third-party pricing services and/or dealers, as applicable, against the actual prices at which it purchases and sells investments. Based on the results of the benchmark analysis and the experience of management in purchasing and selling these investments, the Company believes that these prices are reliable indicators of fair value. However, because of the private nature of this marketplace (meaning actual transactions are not publicly reported), the Company believes that these valuation inputs are classified as Level 3 within the fair value hierarchy. The Company also uses independent valuation firms to assist the Board in determining fair value for securities for which it cannot obtain prevailing bid and ask prices through third-party pricing services or independent dealers, or where the Board otherwise determines that the use of such other methods is appropriate. The Company periodically benchmarks the valuations provided by the independent valuation firms against the actual prices at which the Company purchases and sells investments. The audit committee and Board review and approve the valuation determinations made with respect to these investments in a manner consistent with the Company's valuation policy.

Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the investment portfolio may differ from the values that would have been used had a readily available market value existed for such investments, and the differences could be material.

<u>Fair Value of Financial Instruments</u>: The carrying amounts of certain of the Company's financial instruments, including cash and cash equivalents, receivables, accounts payable and accrued expenses, approximate fair value due to their short-term nature.

Recent Accounting Pronouncements: In February 2018, the FASB issued Accounting Standards Update ("ASU") 2018-03, "Technical Corrections and Improvements to Financial Instruments — Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities" ("ASU 2018-03"), which addresses certain aspects of recognition, measurement, presentation and disclosure of financial instruments, ASU 2018-03 became effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years beginning after June 15, 2018. The Company notes that this standard did not have any impact on its financial statements.

In August 2018, the FASB issued ASU 2018-13 "Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement" ("ASU 2018-13"), which addresses changes in unrealized gains and losses, the range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements, and the narrative description of measurement uncertainty that should be applied prospectively for only the most recent interim or annual period presented in the initial fiscal year of adoption. ASU 2018-13 will be effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. The Company is currently evaluating the impact this standard will have on its financial statements.

<u>Distributions</u>: Distributions to the Company's stockholders are recorded as of the record date. The Company intends to distribute at least 90% of its investment company taxable income on an annual basis in order to maintain its qualification as a RIC and to distribute net realized capital gains, if any, at least annually.

The determination of the tax attributes of the distributions is made at the end of the tax year based upon the taxable income for the full tax year and the distributions paid during the full tax year. Distributions paid to stockholders during 2017 were reported as ordinary income. The Company may fund its cash distributions to stockholders from any sources of funds legally available to it, including proceeds from the sale of shares of the Company's common stock, borrowings, net investment income from operations, capital gains proceeds from the sale of assets, non-capital gains proceeds from the sale of assets, and dividends or other distributions paid to the Company on account of preferred and common equity investments in portfolio companies. The Company has not established limits on the amount of funds it may use from available sources to make distributions. During certain periods, the Company's distributions may exceed its earnings. As a result, it is possible that a portion of the distributions the Company makes may represent a return of capital. A return of capital generally is a return of a stockholder's investment rather than a return of earnings or gains derived from the Company's investment activities. Each year a statement on Form 1099-DIV identifying the sources of the distributions (i.e., paid from ordinary income, paid from net capital gains on the sale of securities, and/or a return of capital, which is a nontaxable distribution) will be mailed to the Company's stockholders. There can be no assurance that the Company will be able to pay distributions at a specific rate or at all.

#### NOTE C - RELATED PARTY TRANSACTIONS

Advisory Agreement

Pursuant to the Investment Advisory Agreement with the Advisor (the "Advisory Agreement"), the Advisor provides credit analysis, structuring capability and transactional experience. The fees associated with the Advisory Agreement consist of a base management fee and incentive fees. The Advisor is owned by SKW Financial, LLC, an entity controlled by the Company's Chief Executive Officer.

The management fee is calculated at an annual rate of 2.00% of the end-of-period gross assets payable monthly in arrears if the Company's gross assets are less than \$250,000; 1.75% of the end-of period gross assets if the Company's gross assets are equal to or greater than \$250,000 but less than \$750,000; and, 1.50% of the end-of period gross assets if the Company's gross assets are equal to or greater than \$750,000. For purposes of calculating the management fee, the term "gross assets" includes any assets acquired with the proceeds of leverage. As a result, the Advisor will benefit when the Company incurs debt or uses leverage. The Advisory Agreement provides that the management fee is calculated based on the average value of gross assets at the end of the two most recently completed months. The Company has clarified its management fee calculation so that the management fee is calculated by averaging the value of the Company's gross assets at the end of the two most recently completed quarters, and appropriately adjusting for any share issuances occurring during any month of the current quarter. Management fees for any partial month are appropriately prorated.

In order to meet the diversification tests required to qualify as a RIC, the Company acquires short-term U.S. Treasury Bills. The following purchases of short-term U.S. Treasury bills had the effect of increasing management fees payable to the Advisor, all of which were waived by the Advisor:

Date acquired		
Impact in 2018	_	
September 27, 2018	\$	27,991
June 28, 2018	\$	26,993
March 29, 2018	\$	22,000
December 28, 2017	\$	19,499
Impact in 2017		
September 27, 2017	\$	14,998
June 29, 2017	\$	13,000
March 29, 2017	\$	12,500
December 29, 2016	\$	12,000

For the three and nine months ended September 30, 2018, the Company incurred management fees of \$344 and \$960, respectively, gross of the fee waiver of \$139 and \$363, respectively. For the three and nine months ended September 30, 2017, the Company incurred management fees of \$269 and \$755, respectively, gross of the fee waiver of \$71 and \$195, respectively.

The incentive fee is divided into two parts: (i) an incentive fee on income and (ii) an incentive fee on capital gains.

The incentive fee on income is calculated and payable quarterly in arrears based upon the Company's "pre-incentive fee net investment income" for the immediately preceding quarter. The incentive fee on income is subject to a hurdle rate, measured quarterly and expressed as a rate of return on adjusted capital at the beginning of the most recently completed calendar quarter, of 1.75% (7.0% annualized), subject to a "catch up" feature. For the three and nine months ended September 30, 2018 and 2017, the Company did not incur any incentive fees on income.

The incentive fee on capital gains is determined and payable in arrears as of the end of each calendar year (or upon termination of the Investment Advisory Agreement). This fee equals 20% of realized capital gains on a cumulative basis from inception, calculated as of the end of the applicable period, computed net of all realized capital losses and unrealized capital depreciation on a cumulative basis, less the aggregate amount of any previously paid capital gains incentive fees. For the three and nine months ended September 30, 2018 and 2017, the Company did not incur any incentive fees on capital gains.

During the three months ended September 30, 2018 and 2017, the Company reimbursed the Advisor \$45 and \$43, respectively, for amounts owed by the Company to third party providers of services paid by the Advisor on the Company's behalf and reimbursements for Company-related travel. During the nine months ended September 30, 2018 and 2017, the Company reimbursed the Advisor \$128 and \$115, respectively, for amounts owed by the Company to third party providers of services paid by the Advisor on the Company's behalf and reimbursements for Company-related travel. There was \$2 accrued to the Advisor as of December 31, 2017. There was no accrual to the Advisor as of September 30, 2018.

#### License Agreement

On March 11, 2015, the Company entered into a license agreement (the "License Agreement") with the Advisor, pursuant to which the Company was granted a non-exclusive license to use the name "Parkview." Under the License Agreement, the Company has a right to use the "Parkview" name and logo, as long as the Advisor or one of its affiliates remains the Company's investment adviser. Other than with respect to this limited license, the Company has no legal right to the "Parkview" name or logo.

#### NOTE E – FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is defined as the price that the Company would receive upon selling an investment or paying to transfer a liability in an orderly transaction to a market participant in the principal or most advantageous market for the investment. Accounting guidance emphasizes that valuation techniques maximize the use of observable market inputs and minimize the use of unobservable inputs. Inputs refer broadly to the assumptions that market participants would use in pricing an asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances. The valuation hierarchical levels are based upon the transparency of the inputs to the valuation of the investment as of the measurement date. The three levels are defined as follows:

Level 1 — Valuations based on quoted prices in active markets for identical assets or liabilities at the measurement date.

Level 2 — Valuations based on inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable at the measurement date. This category includes quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in non-active markets including actionable bids from third parties for privately held assets or liabilities, and observable inputs other than quoted prices such as yield curves and forward currency rates that are entered directly into valuation models to determine the value of derivatives or other assets or liabilities.

Level 3 — Valuations based on inputs that are unobservable and where there is little, if any, market activity at the measurement date.

The inputs for the determination of fair value may require significant management judgment or estimation and are based upon management's assessment of the assumptions that market participants would use in pricing the assets or liabilities. These investments include debt and equity investments in private companies or assets valued using the market or income approach and may involve pricing models whose inputs require significant judgment or estimation because of the absence of any meaningful current market data for identical or similar investments. The inputs in these valuations may include, but are not limited to, capitalization and discount rates, beta and EBITDA multiples. The information may also include pricing information or broker quotes, which include a disclaimer that the broker would not be held to such a price in an actual transaction. The non-binding nature of consensus pricing and/or quotes accompanied by disclaimer would result in classification as Level 3 information, assuming no additional corroborating evidence.

Pricing inputs and weightings applied to determine value require subjective determination. Accordingly, valuations do not necessarily represent the amounts that may eventually be realized from sales or other dispositions of investments.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following table presents the fair value measurements of the investment portfolio, by major class according to the fair value hierarchy, as of September 30, 2018:

#### NOTE F - SIGNIFICANT SUBSIDIARIES

In accordance with Rules 3-09 and 4-08(g) of Regulation S-X, the Company must determine which of its unconsolidated controlled portfolio companies, if any, are considered "significant subsidiaries." In evaluating these investments, there are three tests utilized to determine if any of the Company's controlled investments are considered significant subsidiaries: the asset test, the income test and the investment test. Rule 3-09 of Regulation S-X requires separate audited financial statements of an unconsolidated subsidiary in an annual report if any of the three tests exceed 20%. Rule 4-08(g) of Regulation S-X requires summarized financial information in an annual report if any of the three tests exceeds 10%. After performing this analysis, the Company determined that for the year ended December 31, 2017, one of its portfolio companies, Lone Star Brewery Development, Inc. ("Lone Star"), is a significant subsidiary. Accordingly, unaudited financial information for the three and nine months ended September 30, 2018 has been included below. Since Lone Star was not acquired by the Company until June 29, 2017, the Company has only provided unaudited financial information for the period from June 29, 2017 through September 30, 2017.

On February 16, 2018, Lone Star entered into a loan agreement (the "Loan Agreement") with BI 28 LLC (the "Lender"), a subsidiary of BridgeInvest. In connection with the Loan Agreement, the Lender required that the Company guarantee the performance of Lone Star under the terms of the Loan Agreement. On February 8, 2018, the Board of Directors of the Company authorized the Company to enter into a Guaranty, whereby the Company agreed to guarantee to the Lender the performance of Lone Star under the Loan Agreement. The loan has an 18-month term, which term can be extended by an additional six months. Assuming the loan has a duration of two years, the Company's aggregate obligation as a result of its 100% ownership of Lone Star would be \$14,300, which includes interest payments and repayment of principal.

In connection with the refinancing of Lone Star's debt, the Company entered into a Forbearance Letter Agreement (the "Letter Agreement") with Lone Star's senior lender, Princeton Capital Corporation ("Princeton") for a maximum period of two years. During this period, Princeton agreed to forbear from exercising and enforcing certain rights and remedies which it is entitled to and to accept a payoff equal to \$7,500,000 plus 25% of the net sales proceeds/value of Lone Star if by December 31, 2018 or \$8,000,000 plus 25% of the net sales proceeds/value of Lone Star if on or after January 1, 2019. In return, Lone Star refinanced out NCC Financial, LLC, the prior senior lender to Lone Star, with BI 28, LLC, as the new lender in the amount of \$11,000,000. In addition, Lone Star put \$3,248,000 into the project and paid Princeton a forbearance fee at closing of \$50,000. In connection with the Letter Agreement, Princeton made a partial release of lien on an approximate three-acre tract of land to a lender with a lien that was senior to Princeton's lien.

#### NOTE G - FINANCIAL HIGHLIGHTS

The following is a schedule of financial highlights of the Company for the nine months ended September 30, 2018 and 2017:

	Sept	September 30,

- (a) Per share data was derived by using the weighted average shares outstanding during the applicable period.
- (b) The issuance of common stock on a per share basis reflects the incremental net asset value change as a result of the issuance of shares of common stock. The issuance of common stock at a price that is greater than the net asset value per share results in an increase in net asset value per share.
- (c) The total return for the nine months ended September 30, 2018 and 2017 was calculated by taking the increase in net assets resulting from operations of the Company for the period divided by the average net assets during the period.
- (d) The financial information has not been annualized in computing ratios and may not be indicative of full year results.
- (e) The effect of the management fee waiver discussed in Note C is 0.92% and 0.52% for the nine months ended September 30, 2018 and 2017, respectively.

#### NOTE H - COMMITMENTS AND CONTINGENCIES

The Company has a Senior Secured Loan – First Lien investment in Ebony Media Holdings, LLC for a total commitment of \$1,000. As of September 30, 2018, the Company has an unfunded commitment of \$25 which would be paid out of operating cash.

#### NOTE I – SUBSEQUENT EVENTS

Management performed an evaluation of the Company's activity through the date the financial statements were issued and has determined that there have been no events that have occurred that would require adjustments to the Company's disclosures in the financial statements, except for the following:

As previously stated in this report, the initial maturity date of the Company's first lien senior secured loan to Medi-fare Drug & Pharmaceutical Compounding, LLC ("Medi-fare") was May 25, 2018. On June 1, 2018, the Company sent Medi-fare a notice of default under the Loan Agreement (defined below) and extended a 120-day cure period to Medi-fare during which the Company received default interest and Medi-fare was to present a plan for repayment of the principal amount of the loan. Upon expiration of the cure period, due to a continuing conflict between the owners of Medi-fare, the loan was still in default and no repayment plan was presented to the Company.

In connection with the execution of the Senior Secured First Lien Note and Warrant Purchase and Security Agreement, by and between Medi-fare and the Company, dated May 25, 2016 ("Loan Agreement"), and to provide additional guarantees and security for the benefit of the Company, Medi-fare's owners ("Pledgors") executed a Pledge Agreement and Securities Control Agreement, dated May 25, 2016 ("Pledge Agreement"), granting the Company an option to transfer the Pledgors' membership units to the Company in the event of uncured default under the Loan Agreement.

In order to protect its position in Medi-fare and as a result of the continuing default, on October 30, 2018, the Company provided notice to Medi-fare's owners and management of the exercise of its rights under the Loan Agreement and the Pledge Agreement, and transferred 100% of Medi-fare's outstanding membership units to the Company. As a result of this exercise, the Company became a 100% equity owner of Medi-fare.

The exercise of the Company's rights under the Pledge Agreement was not related to Medi-fare's operating results, which remain profitable, or its business prospects. In addition, prior to the default of the first lien senior secured loan, Medi-fare was current in its payments pursuant to the Loan Agreement and paid the Company default interest following the default of such loan. To preserve and maintain the current status quo of Medi-fare, the Company notified Medi-fare that, for the time being, management shall remain in place, and is expected to continue to operate the business in the same manner as prior to the change in ownership. Further, the Company notified Medi-fare that no changes or alterations to staffing would be made without the Company's advice and written consent. The Company also retained consultants to assist Medi-fare in its operations and is conducting a search for one or more individuals to take over the day-to-day management of Medi-Fare.

#### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

#### **Forward Looking Statements**

This report contains forward looking statements that involve substantial risks and uncertainties. These forward looking statements are not historical facts, but rather are based on current expectations, estimates and projections about us, our prospective portfolio investments, our industry, our beliefs, and our assumptions. Words such as "anticipates," "expects," "intends," "plans," "believes," "seeks," "estimates," "would," "should," "targets," "projects," and variations of these words and similar expressions are intended to identify forward looking statements. These statements are not guarantees of future performance and are subject to risks, uncertainties, and other factors, some of which are beyond our control and are difficult to predict, that could cause actual results to differ materially from those expressed or forecasted in the forward looking statements including, without limitation:

- The effect of an economic downturn on our portfolio companies' ability to continue to operate, which could lead to the loss of some or all of our investments in such portfolio companies;
- a contraction of available credit, which could impair our lending and investment activities;
- interest rate volatility, which could adversely affect our results, particularly if we elect to use leverage as part of our investment strategy;
- our future operating results;
- our business prospects and the prospects of our portfolio companies;
- our contractual arrangements and relationships with third parties;
- the ability of our portfolio companies to achieve their objectives;
- competition with other entities for investment opportunities;
- the speculative and illiquid nature of our investments;
- the use of borrowed money to finance a portion of our investments;
- the adequacy of our financing sources and working capital;
- the costs associated with being a public entity;
- the loss of key personnel;
- the timing of cash flows, if any, from the operations of our portfolio companies;
- the ability of our Advisor to locate suitable investments for us and to monitor and administer our investments;
- our ability to attract and retain highly talented professionals that can provide services to our Advisor;
- our ability to qualify and maintain our qualification as a RIC under Subchapter M of the Code and as a BDC; and
- the effect of legal, tax and regulatory changes.

Although we believe that the assumptions on which these forward looking statements are based are reasonable, some of those assumptions are based on the work of third parties and any of those assumptions could prove to be inaccurate; as a result, the forward looking statements based on those assumptions also could prove to be inaccurate. In light of these and other uncertainties, the inclusion of a projection or forward looking statement in this report should not be regarded as a representation by us that our plans and objectives will be achieved. You should not place undue reliance on these forward looking statements, which apply only as of the date of this report. We do not undertake any obligation to update or revise any forward looking statements, or any other information contained herein, except as required by applicable law. The safe harbor provisions of Section 21E of the Securities Exchange Act of 1934, or the Exchange Act, which preclude civil liability for certain forward looking statements are not applicable to us since we are a BDC under the 1940 Act. As used herein, the terms "we," "our" and "us" refer to Parkview Capital Credit, Inc.

#### Overview

We were incorporated under the laws of the State of Maryland on November 25, 2014. We have elected to be regulated as a BDC under the 1940 Act and treated as a RIC, for federal income tax purposes. As such, we are required to comply with various regulatory requirements, such as the requirement to invest at least 70% of our assets in "qualifying assets," source of income limitations, asset diversification requirements, and the requirement to distribute annually at least 90% of our investment company taxable income.

All amounts presented are in thousands, except share data.

#### Revenues

We generate revenues in the form of interest income from the debt securities we hold and dividends and capital appreciation on either direct equity investments or equity interests obtained in connection with originating loans, such as options, warrants or conversion rights. The debt we invest in will typically not be rated by any rating agency, but if it were, it is likely that such debt would be below investment grade. We intend to structure our debt investments with interest payable quarterly, semi-annually or annually, but we may structure certain investments with terms to provide for longer interest payment periods or to allow interest to be paid by adding amounts due to the principal balance of the loan, resulting in deferred cash receipts. In addition, we may also generate revenue in the form of commitment, loan origination, structuring or diligence fees, fees for providing managerial assistance to our portfolio companies, and possibly consulting fees. Certain of these fees may be capitalized and amortized as additional interest income over the life of the related loan.

#### Expenses

All of the investment professionals and staff of our Advisor, when and to the extent engaged in providing us with investment advisory and management services, and the base compensation, bonus and benefits, and the routine overhead expenses, of such personnel allocable to such services, are provided and paid for by our Advisor.

We bear all other costs and expenses of our operations, administration and transactions, including, but not limited to, those relating to:

- organization expenses;
- calculating our net asset value (including the cost and expenses of any independent valuation firms);
- expenses, including travel expense, incurred by our Advisor, its investment professionals, or payable to third parties, performing due diligence on prospective portfolio companies;
- the costs of the offerings of common shares and other securities, if any;
- the base management fee and any incentive fee;
- certain costs and expenses relating to distributions paid on our shares;

- administration reimbursements payable under our Advisory Agreement;
- debt service and other costs of borrowings or other financing arrangements;
- the allocated costs incurred by our Advisor in providing managerial assistance to those portfolio companies that request it;
- amounts payable to third parties relating to, or associated with, making or holding investments;
- transfer agent and custodial fees;
- · costs of hedging;
- commissions and other compensation payable to brokers or dealers;
- federal, state and local taxes;
- independent director fees and expenses;
- costs of preparing financial statements and maintaining books and records and filing reports or other documents with the SEC (or other regulatory bodies) and other reporting and compliance costs, including registration and listing fees, and the compensation of professionals responsible for the preparation of the foregoing;
- the costs of any reports, proxy statements or other notices to our stockholders (including printing and mailing costs), the costs of any
  stockholders' meetings and the compensation of investor relations personnel responsible for the preparation of the foregoing and
  related matters;
- our fidelity bond;
- directors and officers/errors and omissions liability insurance, and any other insurance premiums;
- indemnification payments;
- · direct costs and expenses of administration, including audit and legal costs; and
- all other expenses reasonably incurred by us in connection with making investments and administering our business.

From time to time, our Advisor may pay amounts owed by us to third-party providers of goods or services. We will subsequently reimburse our Advisor for such amounts paid on our behalf. In addition, we reimburse the Advisor for the allocable portion of the compensation paid by the Advisor (or its affiliates) to our chief compliance officer and chief financial officer (based on the percentage of time such individuals devote, on an estimated basis, to the business and affairs of the Company). All of these expenses are ultimately borne by our stockholders.

#### Portfolio and Investment Activity

The fair value of our investments was approximately \$36,625 (excluding \$27,991 held in U.S. Treasury Bills) and \$35,556 (excluding \$14,998 held in U.S. Treasury Bills) in 8 and 12 portfolio companies as of September 30, 2018 and 2017, respectively. Our investment activity (including U.S. Treasury Bills) for the nine months ended September 30, 2018 and 2017 is as follows (information presented herein is at amortized cost unless otherwise indicated):

	Nine Months Ended September 30,

As of September 30, 2018, and 2017, the investments in our portfolio were purchased at a weighted average price of 100.0% and 99.5% of par value, respectively. The weighted average yields, based on the amortized cost and fair value of our portfolio as of September 30, 2018, were 11.1% and 11.3%, respectively, and as of September 30, 2017, were 11.3%, and 11.0%, respectively.

Our investment in Action Resources is on non-accrual. Action Resources represents approximately 6.6% of our portfolio at fair value as of September 30, 2018.

#### **Direct Origination**

We intend to leverage our Advisor's industry relationships to directly source investment opportunities. Such investments are originated or structured for us or made by us and are not generally available to the broader market. These investments may include both debt and equity components. We believe directly originated investments may offer higher returns and more favorable protections than broadly syndicated transactions. The following tables present certain selected information regarding the direct originations entered into during the nine months ended September 30, 2018 and the year ended December 31, 2017:

#### Portfolio Composition by Strategy and Industry

Although our primary focus is to invest in directly originated transactions, in certain circumstances we will also invest in the broadly syndicated loan and high yield markets. Broadly syndicated loans and bonds are generally more liquid than our directly originated investments and provide a complement to our less liquid strategies.

The table below summarizes the composition of our investment portfolio by strategy and enumerates the percentage, by fair value, of the total portfolio assets in such strategies:

	<b>September 30, 2018</b>			<b>December 31, 2017</b>		
	Percentage				Percentage	
Portfolio Composition by Strategy	Fai	ir Value	of Portfolio	Fair Value	of Portfolio	
Direct Origination	\$	35,264	55%	\$ 29,84	3 54%	
Broadly Syndicated		1,361	2%	5,50	5 10%	
U.S. Government Securities		27,991	43%	19,49	9 36%	
	\$	64,616	100%	\$ 54,84	7 100%	

Refer to "Part I. Financial Information, Item 1. Financial Statements – Note D – Investment Portfolio" of this quarterly report on Form 10-Q for a description of investments by industry classification and the percentage, by fair value, of the total portfolio assets in such industries.

#### Portfolio Asset Quality

In addition to various risk management and monitoring tools, our Advisor uses an investment rating system to characterize and monitor the expected level of returns on each investment in our portfolio. Our Advisor uses an investment rating scale of 1 to 5. The following is a description of the conditions associated with each investment rating:

#### Investment

Rating	Summary Description
1	Investment exceeding expectations and/or capital gain expected.
2	Performing investment generally executing in accordance with the portfolio company's business plan—full return of principal and interest expected. Each investment is initially rated 2.
3	Performing investment requiring closer monitoring.
4	Underperforming investment—some loss of interest or dividend possible, but still expecting a positive return on investment.
5	Underperforming investment with expected loss of interest and some principal.

The following table shows the distribution of our investments on the 1 to 5 investment rating scale at fair value as of September 30, 2018 and December 31, 2017:

	Septembe	er 30, 2018	<b>December 31, 2017</b>		
Investment Rating	Fair Value	Percentage of Portfolio	Fair Value	Percentage of Portfolio	
1	\$ -		\$ -		
2	48,069	74%	42,018	77%	
3	12,265	19%	8,806	16%	
4	-	-	-	-	
5	4,282	7%	4,023	7%	
Total	\$ 64,616	100%	\$ 54,847	100%	

The amount of the portfolio in each grading category may vary substantially from period to period resulting primarily from changes in the composition of the portfolio as a result of new investment, repayment and exit activities. In addition, changes in the grade of investments may be made to reflect our expectation of performance and changes in investment values.

#### Recent Accounting Pronouncements

#### Results of Operations

#### Three Months Ended September 30, 2018 and 2017

#### **Investment Income**

For the three months ended September 30, 2018 and 2017, total investment income totaled \$982 and \$949, respectively, of which \$511 and \$670, respectively, was attributable to portfolio interest (excluding PIK interest) earned on our first and second lien senior secured loans, \$347 and \$167, respectively, was attributable to dividend income earned, and \$14 and \$19, respectively, was attributable to amortization of loan origination fees received. For the three months ended September 30, 2018 and 2017, \$18 and \$0, respectively, of our interest income was attributable to default interest received on the Medi-fare Drug & Pharmaceutical Compounding LLC first lien senior secured loan that went into default.

For the three months ended September 30, 2018 and 2017, \$92 and \$93, respectively, of our total investment income constituted PIK interest. As of September 30, 2018, four of our portfolio companies paid all or a portion of their interest payments in the form of PIK interest, including our position in Action Resources, which was restructured so that the entire position is payable in PIK interest. Action Resources was placed on non-accrual during the quarter ended June 30, 2017 and accordingly, our investment income does not include any PIK interest related to Action Resources for the three months ended September 30, 2018. The increase in investment income was primarily due to the dividend income pertaining to the increased number of preferred shares that we own of Lone Star Brewery Development, Inc.

#### **Operating Expenses**

Total operating expenses were \$654 for the three months ended September 30, 2018 and consisted of base management fees of \$344 (less a fee waiver of \$139), professional fees of \$227 and other general and administrative expenses of \$222. Total operating expenses were \$622 for the three months ended September 30, 2017 and consisted of base management fees of \$269 (less a fee waiver of \$71), professional fees of \$200 and other general and administrative expenses of \$224. We did not incur any incentive fees for the three months ended September 30, 2018 or 2017. The increase in operating expenses was primarily driven by our shift to self-originated investments, which require additional management and oversight compared to syndicated loans. Our operating expenses were 1.65% and 1.66% of our average net assets for the three months ended September 30, 2018 and 2017, respectively. As we continue to execute our strategy and grow our portfolio, we expect our operating expenses as a percentage of our average net assets to decrease. Professional fees include legal, audit, compliance, valuation, technology and other professional fees incurred related to our management. Other general and administrative expenses include custody, printer fees, research, subscriptions and other costs.

In order to meet the diversification tests required to qualify as a RIC, we acquired the following in face value of short-term U.S. Treasury Bills. The purchases had the effect of increasing management fees payable to the Advisor, all of which were waived by the Advisor.

Date acquired	mount cquired
Impact in 2018	
September 27, 2018	\$ 27,991
June 28, 2018	\$ 26,993
Impact in 2017	
September 27, 2017	\$ 14,998
June 29, 2017	\$ 13,000

These transactions had the effect of increasing management fees payable to the Advisor in an amount of \$139 and \$71 for the three months ended September 30, 2018 and 2017, respectively, all of which was also waived by the Advisor.

#### **Net Investment Income**

Our net investment income totaled \$328 and \$327, respectively (\$.08 and \$.08 per weighted average shares outstanding), for the three months ended September 30, 2018 and 2017.

#### **Net Realized Gain on Investments**

For the three months ended September 30, 2018 and 2017 we had net realized gains of \$7 and \$9, respectively, resulting from the sale of investments in our portfolio.

#### **Net Unrealized (Depreciation) Appreciation on Investments**

Net change in unrealized (depreciation) appreciation on investments reflects the net change in the fair value of our investment portfolio. For the three months ended September 30, 2018 and 2017, we had net unrealized (depreciation) appreciation on our portfolio of (\$14) and \$307, respectively.

#### **Changes in Net Assets from Operations**

For the three months ended September 30, 2018 and 2017, we recorded a net increase in net assets resulting from operations of \$321 and \$643, (\$0.08 and \$0.16 per weighted average shares outstanding), respectively.

#### Nine Months Ended September 30, 2018 and 2017

#### Investment Income

For the nine months ended September 30, 2018 and 2017, total investment income totaled \$2,914 and \$2,878, respectively, of which \$1,573 and \$1,994, respectively, was attributable to portfolio interest (excluding PIK interest) earned on our first and second lien senior secured loans, \$947 and \$309, respectively, was attributable to dividend income earned and \$49 and \$88, respectively, was attributable to amortization of loan origination fees received. For the nine months ended September 30, 2018 and 2017, \$83 and \$0, respectively, of our interest income was attributable to default interest received on the Medi-fare Drug & Pharmaceutical Compounding LLC first lien senior secured loan.

For the nine months ended September 30, 2018 and 2017, \$262 and \$487, respectively, of our total investment income constituted PIK interest. As of September 30, 2018, four of our portfolio companies paid all or a portion of their interest payments in the form of PIK interest, including our position in Action Resources, which was restructured so that the entire position is payable in PIK interest. Action Resources was placed on non-accrual during the quarter ended June 30, 2017 and accordingly, our investment income does not include any PIK interest related to Action Resources since the quarter ended March 31, 2017. The increase in investment income was primarily due to the dividend income pertaining to the increased number of preferred shares that we own of Lone Star Brewery Development, Inc.

#### **Operating Expenses**

Total operating expenses were \$1,880 for the nine months ended September 30, 2018, and consisted of base management fees of \$960 (less a fee waiver of \$363), professional fees of \$672 and other general and administrative expenses of \$611. Total operating expenses were \$1,790 for the nine months ended September 30, 2017, and consisted of base management fees of \$755 (less a fee waiver of \$195), professional fees of \$626 and other general and administrative expenses of \$604. We did not incur any incentive fees for the nine months ended September 30, 2018 or 2017. The increase in operating expenses was primarily driven by our shift to self originated investments, which require additional management and oversight compared to syndicated loans. Our operating expenses were 4.75% and 4.77% of our average net assets for the nine months ended September 30, 2018 and 2017, respectively. As we continue to execute our strategy and grow our portfolio, we expect our operating expenses as a percentage of our average net assets to decrease. Professional fees include legal, audit, compliance, valuation, technology and other professional fees incurred related to our management. Other general and administrative expenses include custody, printer fees, research, subscriptions and other costs.

In order to meet the diversification tests required to qualify as a RIC, we acquired the following in face value of short-term U.S. Treasury Bills. The purchases had the effect of increasing management fees payable to the Advisor, all of which were waived by the Advisor.

Date acquired	Amount Acquired
Impact in 2018	
September 27, 2018	\$ 27,991
June 28, 2018	\$ 26,993
March 29, 2018	\$ 22,000
December 28, 2017	\$ 19,499
<u>Impact in 2017</u>	
September 27, 2017	\$ 14,998
June 29, 2017	\$ 13,000
March 29, 2017	\$ 12,500
December 29, 2016	\$ 12,000

These transactions had the effect of increasing management fees payable to the Advisor in an amount of \$363 and \$195 for the nine months ended September 30, 2018 and 2017, respectively, all of which were also waived by the Advisor.

#### **Net Investment Income**

Our net investment income totaled \$1,034 and \$1,088, respectively (\$0.26 and \$0.28 per weighted average shares outstanding), for the nine months ended September 30, 2018 and 2017.

#### **Net Realized Gain on Investments**

For the nine months ended September 30, 2018 and 2017 we had net realized gain of \$53 and \$2, respectively, resulting from the sale of investments in our portfolio.

#### **Net Unrealized Appreciation on Investments**

Net change in unrealized appreciation on investments reflects the net change in the fair value of our investment portfolio. For the nine months ended September 30, 2018 and 2017, we had net unrealized appreciation on our portfolio of \$882 and \$419, respectively.

#### **Changes in Net Assets from Operations**

For the nine months ended September 30, 2018 and 2017, we recorded a net increase in net assets resulting from operations of \$1,969 and \$1,509, (\$0.49 and \$0.39 per weighted average shares outstanding), respectively.

#### Hedging

We may, but are not required to, enter into interest rate, foreign exchange or other derivative agreements to hedge interest rate, currency, credit or other risks, but we do not generally intend to enter into any such derivative agreements for speculative purposes. Such hedging activities, which would be in compliance with applicable legal and regulatory requirements, may include the use of futures, options and forward contracts. We would bear the costs incurred in connection with entering into, administering and settling any such derivative contracts. There can be no assurance any hedging strategy we employ will be successful. Since inception, we have not entered into any hedging transactions. We have not employed any hedging activities since inception.

#### Financial Condition, Liquidity and Capital Resources

As of September 30, 2018, we had cash and cash equivalents of approximately \$1,083. We raise capital through a private offering of our shares in order to acquire a portfolio of debt and equity investments consistent with our investment objective and strategy. We generate cash flows from fees, interest and dividends earned from our investments as well as principal repayments and proceeds from sales of our investments. We anticipate additional principal repayments from certain of our investments in the near term. The decrease in cash of \$1,022 during the nine months ended September 30, 2018 was primarily driven by our additional investments in Lone Star Brewery Development, Inc, Ebony Media Holdings, LLC and Langham Creek LLC, offset by the sale of our investments in American Bath Group, LLC and Lionbridge Technologies, Inc. and paydowns of investments in Medi-fare Drug & Pharmaceutical Compounding, LLC. Prior to deploying the capital we raise in our private offering of shares, we intend to invest in cash equivalents, U.S. government securities, repurchase agreements and high quality debt instruments maturing in one year or less from the time of investment, consistent with our BDC election and our intent to be taxed as a RIC.

We may borrow funds to make investments, to the extent we determine that additional capital would allow us to take advantage of additional investment opportunities, if the market for debt financing presents attractively priced debt financing opportunities, or if our board of directors determines that leveraging our portfolio would be in our best interests. To date, we have not incurred any leverage.

#### Critical Accounting Policies

Our financial statements are prepared in conformity with GAAP, which requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Critical accounting policies are those that require the application of management's most difficult, subjective, or complex judgments, often because of the need to make estimates about the effect of matters that are inherently uncertain and that may change in subsequent periods. In preparing the financial statements, management has made estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. In preparing the financial statements, management has utilized available information, including our past history, industry standards and the current economic environment, among other factors, in forming its estimates and judgments, giving due consideration to materiality. Actual results may differ from these estimates. In addition, other companies may utilize different estimates, which may impact the comparability of our results of operations to those of companies in similar businesses. Refer to "Part I. Financial Information, Item 1. Financial Statements – Note B – Summary of Significant Accounting Policies" of this quarterly report on Form 10-Q for a description of the summary of significant accounting policies.

#### **Contractual Obligations**

We have entered into an agreement with our Advisor to provide us with investment advisory services. Refer to "Part I. Financial Information, Item 1. Financial Statements – Note C – Related Party Transactions – Advisory Agreement" for a discussion of the fees payable pursuant to the Advisory Agreement.

At an in person meeting held on August 8, 2018, the Board, including all of the directors that are not interested persons, as defined in Section 2(a)(19) of the 1940 Act, of the Company and the Advisor, unanimously voted to approve the continuation and renewal of the Advisory Agreement through August 13, 2019.

In reaching a decision to approve the continuation and renewal of the Advisory Agreement, the Board, assisted by the advice of counsel, requested and received information from the Advisor that the Board believed relevant, including, among other things, the following: (1) the nature, extent and quality of services performed by the Advisor, including the investment performance of the Company and the Advisor, as compared to similarly-structured registered investment companies and business development companies; (2) the costs of providing services to the Company; (3) the profitability of the relationship between the Company and the Advisor; (4) comparative information on fees and expenses borne by other comparable registered investment companies and business development companies; (5) the extent to which economies of scale would be realized as the Company grows and whether fee levels reflect these economies of scale for the benefit of the Company's investors; and (6) various other factors.

The Board's decision to renew the Advisory Agreement was not based on any single factor, but rather was based on a comprehensive consideration of the information provided to the Board as well as other information received in meetings throughout the year. Among other factors, the Board considered and evaluated the following information:

Nature, Extent and Quality of Services and Performance

The Board reviewed and considered the nature, extent and quality of the services provided by the Advisor under the Advisory Agreement. Among other things, the Board reviewed the most recent Form ADV for the Advisor as well as information about the background and experience of the staff and personnel of the Advisor primarily responsible for the day-to-day portfolio management of the Company. The Board also evaluated the ability of the Advisor to attract and retain high-caliber professional employees. In addition, the Board reviewed information about the Advisor's investment process, its financial stability, investment and risk management programs and legal and compliance programs of the Advisor.

The Board also reviewed and considered the Company's performance results in terms of both (1) changes in the net asset value of the Company and (2) total returns to stockholders, for the period from the Company's inception through a recent date, and considered such performance in light of the Company's investment objective, strategies and risks. The Board also considered and discussed these results in comparison to the performance results of similarly-structured business development companies. The Board noted that the relative performance of the Company and comparable companies was affected by the Company's lower capital base.

Investment Advisory Fee Rates and Total Expense Ratio

The Board then reviewed and considered the advisory fee rates, including the base management fee and incentive fees, payable by the Company to the Advisor under the Advisory Agreement and the total expense ratio of the Company during the last year. Additionally, the Board received and considered information comparing the advisory fee rates and total expense ratio of the Company with those of comparable companies (on an annualized basis).

The Board noted that the Company's advisory fee rates generally were comparable to and within the range of those paid by comparable companies. In reviewing such information, the Board noted that the Company's investment strategy is in most cases different from that pursued by comparable companies and requires a different set of skills to implement. The Board additionally considered that the comparisons of the total expense ratios to comparable companies were not as meaningful, as the Company's total assets are significantly less than the assets of many of the comparable companies.

Based on its review, the Board concluded that each of the Company's advisory fee rates and total expense ratio is fair and reasonable in light of the services provided to the Company and other factors considered.

#### Profitability

The Board also considered a profitability analysis of the Advisor with respect to the Company and the changes in such profitability over time. The Board concluded that, in light of the costs of providing investment advisory services to the Company, the Advisor's profitability was not excessive.

#### Economies of Scale

The Board also considered information regarding whether the Advisory Agreement adequately addresses economies of scale with respect to providing advisory services to the Company. The Board considered that the costs associated with managing a larger pool of investments in portfolio companies in which the Company invests would be expected to require additional investment resources, including personnel, but these resources may not be significant in light of the Advisor's current personnel and resources Based on the foregoing, the Board concluded that there is an opportunity for the Company to realize significant economies of scale in future periods.

#### Other Benefits

The Board considered other benefits to the Advisor derived from its relationship with the Company. Based on information provided by the Advisor, the Board concluded that these benefits were not material.

Based on the information reviewed and the discussions detailed above, the Board reached a determination, through the exercise of its business judgment, that the compensation payable to the Advisor pursuant to the Advisory Agreement was fair and reasonable in light of the services to be provided to the Company by the Advisor and other factors considered and that the Company should continue to benefit from, the nature, extent and quality of services provided to the Company by the Advisor.

#### Off-Balance Sheet Arrangements

We currently have no off-balance sheet arrangements, including risk management of commodity pricing or other hedging practices.

#### Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We are subject to financial market risks, including changes in interest rates. As of September 30, 2018, our portfolio primarily consisted of investments paying fixed rates of interest. In addition, in the future we may seek to borrow funds in order to make additional investments. If we borrow funds to make additional investments, our net investment income will depend, in part, upon the difference between the rate at which we borrow funds and the rate at which we invest those funds. As a result, we would be subject to risks relating to changes in market interest rates. In periods of rising interest rates when we have debt outstanding, our cost of funds would increase, which could reduce our net investment income, especially to the extent we continue to hold fixed rate investments. If deemed prudent, we may use interest rate risk management techniques in an effort to minimize our exposure to interest rate fluctuations. These techniques may include various interest rate hedging activities to the extent permitted by the 1940 Act. Adverse developments resulting from changes in interest rates or hedging transactions could have a materially adverse effect on our business, financial condition and results of operations.

A rise in the general level of interest rates can be expected to lead to higher interest rates applicable to a portion of our debt investments, especially to the extent that we hold variable rate investments. However, as of September 30, 2018, 3.4% of our portfolio, excluding our US Government Securities, paid variable rates of interest. An increase in interest rates for any variable rate investments that we hold could make it easier for us to meet or exceed our incentive fee return, as defined in our Advisory Agreement, and may result in a substantial increase in our net investment income, and also to the amount of incentive fees payable to our Advisor with respect to our increasing pre-incentive fee net investment income.

#### Item 4. Controls and Procedures.

An evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Exchange Act) was carried out by us under the supervision and with the participation of our chief executive officer, who serves as our principal executive officer, and our chief financial officer, who serves as our principal financial officer. Based upon that evaluation, our chief executive officer and chief financial officer concluded that, as of September 30, 2018, our disclosure controls and procedures were effective to ensure (i) that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (ii) that such information is accumulated and communicated to management, including our chief executive officer and chief financial officer, in order to allow timely decisions regarding required disclosure.

Our management, including our chief executive officer and chief financial officer, conducted an evaluation of the effectiveness of our internal control over financial reporting. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in Internal Control - Integrated Framework (2013). There were no changes in our internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) or 15d-15(f)) that occurred during the quarter ended September 30, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

#### PART II. OTHER INFORMATION

#### Item 1. Legal Proceedings.

Although we may, from time to time, be involved in litigation arising out of our operations in the normal course of business or otherwise, neither we nor the Advisor is currently a party to any pending material legal proceedings, nor, to our knowledge, is any material legal proceeding threatened against us or against the Advisor.

#### Item 1A. Risk Factors.

There have been no material changes from the risk factors previously disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2017, filed with the SEC on April 2, 2018, except as noted below.

The Guaranty we entered into in connection with the refinancing of Lone Star's senior debt could materially and adversely affect our liquidity, which could harm our operating results.

On February 16, 2018, Lone Star entered into a loan agreement (the "Loan Agreement") with BI 28 LLC (the "Lender"), a subsidiary of BridgeInvest. In connection with the Loan Agreement, the Lender required that the Company guarantee the performance of Lone Star under the terms of the Loan Agreement. On February 8, 2018, the Board of Directors of the Company authorized the Company to enter into a Guaranty, whereby the Company agreed to guarantee to the Lender the performance of Lone Star under the Loan Agreement. The loan has an 18-month term, which term can be extended by an additional six months. Assuming the Loan has a duration of two years, the Company's aggregate obligation as a result of its 100% ownership of Lone Star would be \$14,300, which includes interest payments and repayment of principal. If Lone Star defaults under the Loan Agreement, the Lender could avoid judicial procedures and declare all amounts outstanding under the Guaranty immediately due and payable, and require us to fulfill our obligations to make such payments.

### <u>CERTIFICATION OF PRINCIPAL FINANCIAL OFFICER</u> PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

- I, Charles Jacobson, certify that:
- 1. I have reviewed this Quarterly Report on Form 10-Q of Parkview Capital Credit, Inc.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
