**NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**1 ACCOUNTING POLICIES AND ESTIMATES**

**a) Basis of Presentation**

The accompanying unaudited condensed financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”) for interim financial information with the instructions to Form 10-Q and Rule 8-03 of Regulation S-X. Accordingly, these unaudited condensed financial statements do not include all of the information and disclosures required by U.S. GAAP for complete financial statements. In the opinion of management, the accompanying unaudited condensed financial statements include all adjustments (consisting only of normal recurring adjustments), which we consider necessary, for a fair presentation of those financial statements. The results of operations and cash flows for the nine months ended September 30, 2018 may not necessarily be indicative of results that may be expected for any succeeding quarter or for the entire fiscal year. The information contained in this quarterly report on Form 10-Q should be read in conjunction with our audited financial statements included in our annual report on Form 10-K as of and for the year ended December 31, 2017 as filed with the Securities and Exchange Commission (the “SEC”).

Significant accounting policies are described in Note 2 to the consolidated financial statements included in Item 8 of our annual report on Form 10-K as of December 31, 2017.

The preparation of unaudited consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions, which are evaluated on an ongoing basis, that affect the amounts reported in the unaudited consolidated financial statements and accompanying notes. Management bases its estimates on historical experience and on various other assumptions that it believes are reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the amounts of revenues and expenses that are not readily apparent from other sources. Actual results could differ from those estimates and judgments. In particular, significant estimates and judgments include those related to: the estimated useful lives for plant and equipment, the fair value of warrants and stock options granted for services or compensation, estimates of the probability and potential magnitude of contingent liabilities, derivative liabilities, the valuation allowance for deferred tax assets due to continuing operating losses, those related to revenue recognition and the allowance for doubtful accounts.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the unaudited consolidated financial statements, which management considered in formulating its estimate could change in the near-term due to one or more future confirming events. Accordingly, the actual results could differ significantly from our estimates.

All amounts referred to in the notes to the unaudited consolidated financial statements are in United States Dollars (\$) unless stated otherwise.

**b) Principles of Consolidation**

The unaudited consolidated financial statements include the financial statements of the Company and its subsidiaries in which it has a majority voting interest. All significant inter-company accounts and transactions have been eliminated in the unaudited consolidated financial statements. The entities included in these unaudited consolidated financial statements are as follows:

Pledge Petroleum Corp – Parent Company  
Nova’s Energy USA Inc. (wholly owned).

**1 ACCOUNTING POLICIES AND ESTIMATES (continued)**

**c) Recent Accounting Pronouncements**

In August 2018, the FASB issued ASU 2018-13, Fair Value Measurement (Topic 820) Changes to the Disclosure Requirements for Fair Value Measurement.

The amendments in this Update modify the disclosure requirements on fair value measurements in Topic 820, Fair Value Measurement.

**Removals**

The following disclosure requirements were removed from Topic 820:

1. The amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy
2. The policy for timing of transfers between levels
3. The valuation processes for Level 3 fair value measurements
4. For nonpublic entities, the changes in unrealized gains and losses for the period included in earnings for recurring Level 3 fair value measurements held at the end of the reporting period.

**Modifications**

The following disclosure requirements were modified in Topic 820:

1. In lieu of a rollforward for Level 3 fair value measurements, a nonpublic entity is required to disclose transfers into and out of Level 3 of the fair value hierarchy and purchases and issues of Level 3 assets and liabilities.
2. For investments in certain entities that calculate net asset value, an entity is required to disclose the timing of liquidation of an investee's assets and the date when restrictions from redemption might lapse *only* if the investee has communicated the timing to the entity or announced the timing publicly.
3. The amendments clarify that the measurement uncertainty disclosure is to communicate information about the uncertainty in measurement as of the reporting date.

**Additions**

The following disclosure requirements were added to Topic 820; however, the disclosures are not required for nonpublic entities:

1. The changes in unrealized gains and losses for the period included in other comprehensive income for recurring Level 3 fair value measurements held at the end of the reporting period
2. The range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements. For certain unobservable inputs, an entity may disclose other quantitative information (such as the median or arithmetic average) in lieu of the weighted average if the entity determines that other quantitative information would be a more reasonable and rational method to reflect the distribution of unobservable inputs used to develop Level 3 fair value measurements.

In addition, the amendments eliminate *at a minimum* from the phrase *an entity shall disclose at a minimum* to promote the appropriate exercise of discretion by entities when considering fair value measurement disclosures and to clarify that materiality is an appropriate consideration of entities and their auditors when evaluating disclosure requirements.

The amendments in this Update are effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. The amendments on changes in unrealized gains and losses, the range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements, and the narrative description of measurement uncertainty should be applied prospectively for only the most recent interim or annual period presented in the initial fiscal year of adoption. All other amendments should be applied retrospectively to all periods presented upon their effective date. Early adoption is permitted upon issuance of this Update. An entity is permitted to early adopt any removed or modified disclosures upon issuance of this Update and delay adoption of the additional disclosures until their effective date.

The impact of this ASU on the Company's financial statements is not expected to be material.

**PLEDGE PETROLEUM CORP.**  
**NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**1 ACCOUNTING POLICIES AND ESTIMATES (continued)**

**c) Recent Accounting Pronouncements (continued)**

In August, the FASB issued ASU 2018-15, Intangibles – Goodwill and Other Internal – Use Software (Subtopic 350-40).

The amendments in this Update align the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software (and hosting arrangements that include an internal use software license). The accounting for the service element of a hosting arrangement that is a service contract is not affected by the amendments in this Update.

The amendments in this Update require an entity (customer) in a hosting arrangement that is a service contract to follow the guidance in Subtopic 350-40 to determine which implementation costs to capitalize as an asset related to the service contract and which costs to expense. Costs to develop or obtain internal-use software that cannot be capitalized under Subtopic 350-40, such as training costs and certain data conversion costs, also cannot be capitalized for a hosting arrangement that is a service contract. Therefore, an entity (customer) in a hosting arrangement that is a service contract determines which project stage (that is, preliminary project stage, application development stage, or postimplementation stage) an implementation activity relates to. Costs for implementation activities in the application development stage are capitalized depending on the nature of the costs, while costs incurred during the preliminary project and postimplementation stages are expensed as the activities are performed.

The amendments in this Update also require the entity (customer) to expense the capitalized implementation costs of a hosting arrangement that is a service contract over the term of the hosting arrangement. The term of the hosting arrangement includes the non-cancellable period of the arrangement plus periods covered by (1) an option to extend the arrangement if the customer is reasonably certain to exercise that option, (2) an option to terminate the arrangement if the customer is reasonably certain not to exercise the termination option, and (3) an option to extend (or not to terminate) the arrangement in which exercise of the option is in the control of the vendor. The entity also is required to apply the existing impairment guidance in Subtopic 350-40 to the capitalized implementation costs as if the costs were long-lived assets. The amendments in this Update clarify that the capitalized implementation costs related to each module or component of a hosting arrangement that is a service contract are also subject to the guidance in Subtopic 360-10 on abandonment.

The amendments in this Update also require the entity to present the expense related to the capitalized implementation costs in the same line item in the statement of income as the fees associated with the hosting element (service) of the arrangement and classify payments for capitalized implementation costs in the statement of cash flows in the same manner as payments made for fees associated with the hosting element. The entity is also required to present the capitalized implementation costs in the statement of financial position in the same line item that a prepayment for the fees of the associated hosting arrangement would be presented.

The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2019, and interim periods within those fiscal years. For all other entities, the amendments in this Update are effective for annual reporting periods beginning after December 15, 2020, and interim periods within annual periods beginning after December 15, 2021. Early adoption of the amendments in this Update is permitted, including adoption in any interim period, for all entities.

The amendments in this Update should be applied either retrospectively or prospectively to all implementation costs incurred after the date of adoption.

The impact of this ASU on the Company's financial statements is not expected to be material.

**PLEDGE PETROLEUM CORP.**  
**NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**1 ACCOUNTING POLICIES AND ESTIMATES (continued)**

**c) Recent Accounting Pronouncements**

In October 2018, the FASB issued ASU 2018-17, Consolidation (Topic 810), Targeted Improvements to Related Party Guidance for Variable Interest Entities.

Under the amendments in this Update, a private company (reporting entity) may elect not to apply Variable Interest Entity (“VIE”) guidance to legal entities under common control (including common control leasing arrangements) if both the parent and the legal entity being evaluated for consolidation are not public business entities. The accounting alternative provides an accounting policy election that a private company will apply to all current and future legal entities under common control that meet the criteria for applying this alternative. In other words, the alternative cannot be applied to select common control arrangements that meet the criteria for applying this accounting alternative. If the alternative is elected, a private company should continue to apply other consolidation guidance, particularly the voting interest entity guidance, unless another scope exception applies.

Under the accounting alternative, a private company should provide detailed disclosures about its involvement with and exposure to the legal entity under common control. Effectively, the amendments in this Update expand the private company alternative provided by Accounting Standards Update No. 2014-07, *Consolidation (Topic 810): Applying Variable Interest Entities Guidance to Common Control Leasing Arrangements*, not to apply the VIE guidance to qualifying common control leasing arrangements. Because the private company accounting alternative in this Update applies to all common control arrangements that meet specific criteria and not just leasing arrangements, the amendments in Update 2014-07 are superseded by the amendments in this Update.

**Decision-Making Fees**

Indirect interests held through related parties in common control arrangements should be considered on a proportional basis for determining whether fees paid to decision makers and service providers are variable interests. This is consistent with how indirect interests held through related parties under common control are considered for determining whether a reporting entity must consolidate a VIE.

For entities other than private companies, the amendments in this Update are effective for fiscal years beginning after December 15, 2019, and interim periods within those fiscal years. The amendments in this Update are effective for a private company for fiscal years beginning after December 15, 2020, and interim periods within fiscal years beginning after December 15, 2021. All entities are required to apply the amendments in this Update retrospectively with a cumulative-effect adjustment to retained earnings at the beginning of the earliest period presented. Early adoption is permitted.

The impact of this ASU on the Company’s financial statements is not expected to be material.

Any new accounting standards, not disclosed above, that have been issued or proposed by FASB that do not require adoption until a future date are not expected to have a material impact on the financial statements upon adoption.

**PLEDGE PETROLEUM CORP.**  
**NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**1 ACCOUNTING POLICIES AND ESTIMATES (continued)**

**d) Use of Estimates**

The preparation of unaudited consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions, which are evaluated on an ongoing basis, that affect the amounts reported in the unaudited consolidated financial statements and accompanying notes. Management bases its estimates on historical experience and on various other assumptions that it believes are reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the amounts of revenues and expenses that are not readily apparent from other sources. Actual results could differ from those estimates and judgments. In particular, significant estimates and judgments include those related to: the estimated useful lives for plant and equipment, the fair value of warrants and stock options granted for services or compensation, estimates of the probability and potential magnitude of contingent liabilities, derivative liabilities and; the valuation allowance for deferred tax assets due to continuing operating losses.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the unaudited consolidated financial statements, which management considered in formulating its estimate could change in the near-term due to one or more future confirming events. Accordingly, the actual results could differ significantly from our estimates.

**e) Contingencies**

Certain conditions may exist as of the date the financial statements are issued, which may result in a loss to the Company, but which will only be resolved when one or more future events occur or fail to occur. The Company's management assesses such contingent liabilities, and such assessment inherently involves an exercise of judgment.

If the assessment of a contingency indicates that it is probable that a material loss has been incurred and the amount of the liability can be estimated, then the estimated liability would be accrued in the Company's financial statements. If the assessment indicates that a potential material loss contingency is not probable but is reasonably possible, or is probable but cannot be estimated, then the nature of the contingent liability, together with an estimate of the range of possible loss if determinable and material would be disclosed. Loss contingencies considered to be remote by management are generally not disclosed unless they involve guarantees, in which case the guarantee would be disclosed.

**f) Cash and Cash Equivalents**

The Company considers all highly liquid investments with original maturities of three months or less at the time of purchase to be cash equivalents. At September 30, 2018 and December 31, 2017, the Company had no cash equivalents.

The Company assesses credit risk associated with cash by periodically evaluating the credit quality of its primary financial institution. The balance at times may exceed federally insured limits. At September 30, 2018, the Company had cash balances of \$160,067, of which all are covered by the federally insured limits.

**g) Related parties**

Parties are considered to be related to the Company if the parties that, directly or indirectly, through one or more intermediaries, control, are controlled by, or are under common control with the Company, or own in aggregate, on a fully diluted basis 5% or more of the Company's stock. Related parties also include principal owners of the Company, its management, members of the immediate families of principal owners of the Company and its management and other parties with which the Company may deal if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests. The Company discloses all related party transactions. All transactions are recorded at fair value of the goods or services exchanged. Property purchased from a related party is recorded at the cost to the related party and any payment to or on behalf of the related party in excess of the cost is reflected as a distribution to related party.

**PLEDGE PETROLEUM CORP.**  
**NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**2 GOING CONCERN**

The Company has cash balances of \$160,067 as of September 30, 2018, which is not sufficient to meet current expenses for at least the next twelve month period from November 14, 2018. On March 23, 2018, after obtaining approval of the majority shareholder and the majority of the minority of the shareholders the Company sold substantially all of its assets for \$650,000 and simultaneously therewith the entire shareholding of the majority shareholder, Ervington, was purchased by the Company for gross proceeds of \$8,500,000. Substantial doubt exists about the Company's ability to continue as a going concern, there are no immediate plans to raise additional funding through equity or debt issuances and the ability to conclude a suitable acquisition without additional resources is uncertain.

**3 PREPAID EXPENSES**

Prepaid expenses consisted of the following:

**7 NET LOSS PER SHARE**

Basic loss per share is based on the weighted-average number of common shares outstanding during each period. Diluted loss per share is based on basic shares as determined above plus common stock equivalents, including convertible preferred shares and convertible notes as well as the incremental shares that would be issued upon the assumed exercise of in-the-money stock options using the treasury stock method. The computation of diluted net loss per share does not assume the issuance of common shares that have an anti-dilutive effect on net loss per share. For the three months and nine months ended September 30, 2018 and 2017, all stock options, unvested restricted stock awards, warrants, convertible preferred stock and convertible notes were excluded from the computation of diluted net loss per share. Dilutive shares which could exist pursuant to the exercise of outstanding stock instruments and which were not included in the calculation because their affect would have been anti-dilutive are as follows:

	<b>Three and nine months ended September 30, 2018</b>	<b>Three and nine months ended September 30, 2017</b>

### **Overview and Financial Condition**

#### ***Recent Developments***

On March 23, 2018, upon the closing of the Asset Purchase Agreement and the Share Repurchase Agreement, Ivan Persiyonov resigned as director and Chief Executive Officer of the Company and Mr. John Zotos was appointed as the Company’s interim Chief Executive Officer.

On May 2, 2018, Christopher Headrick was appointed as a director.

On May 31, 2018, Mr. Zotos was also appointed as the Company’s interim Chief Financial Officer.

#### ***Our Company***

During the 2017 year, our management, at the direction of the Board of Directors, evaluated, considered, and brought forward various opportunities to acquire producing oil fields; however, an oil field meeting the criteria acceptable to the Board of Directors (which criteria include among other things, low general and administrative costs, ability to generate cash flow and ability to fully utilize the Plasma Pulse Technology (“PPT”)) had not been found. As a result, and in lieu of a potential dissolution, on March 23, 2018, we sold substantially all of our assets, including all pertinent intellectual property rights comprising our business of implementing plasma pulse technology (the “Asset Sale”), to Norma Investments Limited (“Norma”), the parent company of Ervington Investments Limited (“Ervington”), the then holder of a majority of our outstanding voting securities, for \$650,000 pursuant to an Asset Purchase Agreement (the “Asset Purchase Agreement”) with Norma, dated February 12, 2018 (the “Asset Purchase Agreement”). In connection with the Asset Sale, we also repurchased all of our outstanding securities held by Ervington for \$8,500,000 (the “Share Repurchase”) pursuant to a Share Purchase Agreement with Ervington, dated February 12, 2018 (the “Share Purchase Agreement”).

At this point, the Board is re-evaluating its business plan and strategy and has reduced operating expenses, including staffing, in order to preserve capital, while the Board evaluates its options including the possible acquisition of a technology and an oilfield services business, of which two of our current directors own a minority equity interest.

We have financed our operations primarily from sales of our securities, both debt and equity, and to a lesser extent revenue from operations and we expect to continue to obtain required capital in a similar manner. We have incurred an accumulated deficit of \$19,855,794 through September 30, 2018 and there can be no assurance that we will be able to achieve profitability.

### ***Management Discussion and Analysis of financial condition***

Our discussion and analysis of our financial condition and results of operations are based upon our unaudited consolidated financial statement as of September 30, 2018 and 2017, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of any contingent liabilities at the financial statement date and reported amounts of revenue and expenses during the reporting period. On an on-going basis we review our estimates and assumptions. Our estimates are based on our historical experience and other assumptions that we believe to be reasonable under the circumstances. Actual results are likely to differ from those estimates under different assumptions or conditions.

The increase is primarily due to an increase in technical consulting fees of \$119,250 due to a technical consultant employed to analyze potential future business opportunities, offset by a decrease in merger and acquisition related consulting expenses of \$19,236.
- General and administrative expenses were \$388,415 and \$223,558 for the nine months ended September 30, 2018 and 2017, respectively, an increase of \$164,857 or 73.7%. The increase primarily consists of the following; (i) an increase in director's fees of \$90,000 due to an arrangement reached with our current directors who are paid a monthly fee for services provided; (ii) an increase in meals and entertainment of \$9,904 due to expenses incurred by our directors in seeking new business opportunities; (iii) an increase in travel expenses of \$14,118 due our directors seeking new business opportunities; and (iv) an increase in stock based compensation of \$123,601 due to restricted stock awards to our directors during the current period and option expense in the prior period; offset by (v) a reduction in rent of \$9,573 due to relocation to cheaper premises; (vi) a reduction in insurance expense of \$14,325 due to lower premiums on reduced insurance exposure; (vii) a reduction in franchise taxes of \$843; and (viii) a reduction in salary expense of \$58,896 due to the resignation of our CEO in the prior period.
- Depreciation, amortization and impairment charges was \$3,787 and \$4,128 for the nine months ended September 30, 2018 and 2017, respectively, a decrease of \$341 or 8.3%.

**Other income**

Other income was \$14,658 and \$0 for the nine months ended September 30, 2018 and 2017, respectively, an increase of \$14,658 or 100.0%. The increase represents a reversal of a royalty expense which is no longer due.

**Net loss**

We incurred a net loss of \$741,461 and \$463,186, for the nine months ended September 30, 2018 and 2017, respectively, an increase of \$278,275 or 60.0%, which consists primarily of the increase in total expenses discussed above.

**Undeclared Series B and Series C preferred stock dividends**

A deemed preferred stock dividend of \$26,926 and \$468,214 has been disclosed for the nine months ended September 30, 2018 and 2017. This amount represents the dividends that are due, but remain undeclared, to Series B stock holders and Series B and C preferred stock holders in the prior period.

**Net loss available to common stockholders**

We incurred a net loss available to common stockholders of \$768,387 and \$931,400 for the nine months ended September 30, 2018 and 2017, respectively, a decrease of \$163,013 or 17.5% which consists of the various items discussed above.

**Liquidity and Capital Resources**

Although we had cash balances of \$160,067 as of September 30, 2018, we have a history of annual losses from operations since inception and we have primarily funded our operations through sales of our unregistered equity securities. We have recently disposed of substantially all of our assets for \$650,000 and simultaneously therewith acquired the entire shareholding of Ervington, for gross proceeds of \$8,500,000. We are actively looking to acquire businesses in a similar field which may require substantial cash. As of September 30, 2018, we had not generated sufficient additional revenue from operations to pursue our business strategy, to respond to new competitive pressures or to take advantage of opportunities that may arise. These factors raised substantial doubt about our ability to continue as a going concern. As a result, our independent registered public accounting firm included an explanatory paragraph in its report on our consolidated financial statements as of and for the year ended December 31, 2017 with respect to this uncertainty. We anticipate that our current cash and cash equivalents will not be sufficient to meet our operating needs for at least the next twelve months. However, if we should require additional capital, we may consider multiple alternatives, including, but not limited to, additional equity financings and/or debt financings. There can be no assurance that we will be able to complete any such transactions on acceptable terms or otherwise.

To date, our primary sources of cash have been funds raised from the sale of our securities and the issuance of convertible and non-convertible debt. No additional funds were raised during the current financial period.

We have incurred an accumulated deficit of \$19,855,794 through September 30, 2018 and incurred a negative cash flow from operations of \$588,334 for the nine months ended September 30, 2018.

There is substantial doubt about the company's ability to continue as a going concern.

**Off Balance Sheet Arrangements**

There are no off balance sheet arrangements.

**Item 3. Quantitative and Qualitative Disclosures About Market Risks**

None.

**Item 4. Controls and Procedures****(a) Evaluation of disclosure controls and procedures**

Pursuant to Rule 13a-15(b) under the Securities Exchange Act of 1934 ("Exchange Act"), the Company carried out an evaluation, with the participation of the Company's management, including the Company's interim Chief Executive Officer ("CEO"), who also serves as our interim principal financial and accounting officer, of the effectiveness of the Company's disclosure controls and procedures (as defined under Rule 13a-15(e) under the Exchange Act) as of the end of the period covered by this report. Based upon that evaluation, the Company's interim CEO who also serves as our interim principal financial and accounting officer concluded that due to a lack of segregation of duties and insufficient controls over review and accounting for certain complex transactions, that the Company's disclosure controls and procedures as of September 30, 2018 were not effective to ensure that information required to be disclosed by the Company in the reports that the Company files or submits under the Exchange Act, was recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including the Company's interim CEO, as appropriate, to allow timely decisions regarding required disclosure. Once we acquire a new business, we intend to retain additional individuals to remedy the ineffective controls. However, we cannot assure you that our internal control over financial reporting, as modified, will enable us to identify or avoid material weaknesses in the future.

**(b) Changes in Internal Control over Financial Reporting**

There has been no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) that occurred during our fiscal quarter ended September 30, 2018 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
