NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1 ACCOUNTING POLICIES AND ESTIMATES

a) Basis of Presentation

The accompanying unaudited condensed financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("U.S. GAAP") for interim financial information with the instructions to Form 10-Q and Rule 8-03 of Regulation S-X. Accordingly, these unaudited condensed financial statements do not include all of the information and disclosures required by U.S. GAAP for complete financial statements. In the opinion of management, the accompanying unaudited condensed financial statements include all adjustments (consisting only of normal recurring adjustments), which we consider necessary, for a fair presentation of those financial statements. The results of operations and cash flows for the three months and nine months ended September 30, 2017 may not necessarily be indicative of results that may be expected for any succeeding quarter or for the entire fiscal year. The information contained in this quarterly report on Form 10-Q should be read in conjunction with our audited financial statements included in our annual report on Form 10-K as of and for the year ended December 31, 2016 as filed with the Securities and Exchange Commission (the "SEC").

Significant accounting policies are described in Note 2 to the consolidated financial statements included in Item 8 of our annual report on Form 10-K as of December 31, 2016.

The preparation of unaudited consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions, which are evaluated on an ongoing basis, that affect the amounts reported in the unaudited consolidated financial statements and accompanying notes. Management bases its estimates on historical experience and on various other assumptions that it believes are reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the amounts of revenues and expenses that are not readily apparent from other sources. Actual results could differ from those estimates and judgments. In particular, significant estimates and judgments include those related to: the estimated useful lives for plant and equipment, the fair value of warrants and stock options granted for services or compensation, estimates of the probability and potential magnitude of contingent liabilities, derivative liabilities, the valuation allowance for deferred tax assets due to continuing operating losses, those related to revenue recognition and the allowance for doubtful accounts.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the unaudited consolidated financial statements, which management considered in formulating its estimate could change in the near-term due to one or more future confirming events. Accordingly, the actual results could differ significantly from our estimates.

All amounts referred to in the notes to the unaudited consolidated financial statements are in United States Dollars ($) unless stated otherwise.

b) Principles of Consolidation

The unaudited consolidated financial statements include the financial statements of the Company and its subsidiaries in which it has a majority voting interest. All significant inter-company accounts and transactions have been eliminated in the unaudited consolidated financial statements. The entities included in these unaudited consolidated financial statements are as follows:

Pledge Petroleum Corp (formerly Propell Technologies Group, Inc.) – Parent Company
Novas Energy USA Inc. (wholly owned)
Novas Energy North America, LLC (60% owned) – Discontinued operation.

c) Recent Accounting Pronouncements

In July 2017, the FASB issued Accounting Standards Update No. ("ASU") 2017-11, Earnings Per Share (Topic 260), Distinguishing Liabilities from Equity (Topic 480) and Derivatives and Hedging (Topic 815). The amendments in this Update provide guidance about:

1. Accounting for certain financial instruments with down round features

2. Replacement of the indefinite deferral for mandatorily redeemable financial instruments of certain non-public entities and certain non-controlling interests

The amendments in Part I of this Update change the classification analysis of certain equity-linked financial instruments (or embedded features) with down round features. When determining whether certain financial instruments should be classified as liabilities or equity instruments, a down round feature no longer precludes equity classification when assessing whether the instrument is indexed to an entity's own stock. The amendments also clarify existing disclosure requirements for equity-classified instruments. As a result, a freestanding equity-linked financial instrument (or embedded conversion option) no longer would be accounted for as a derivative liability at fair value as a result of the existence of a down round feature. For freestanding equity classified financial instruments, the amendments require entities that present earnings per share (EPS) in accordance with Topic 260 to recognize the effect of the down round feature when it is triggered. That effect is treated as a dividend and as a reduction of income available to common shareholders in basic EPS. Convertible instruments with embedded conversion options that have down round features are now subject to the specialized guidance for contingent beneficial conversion features (in Subtopic 470-20, Debt—Debt with Conversion and Other Options), including related EPS guidance (in Topic 260).

The amendments in Part II of this Update recharacterize the indefinite deferral of certain provisions of Topic 480 that now are presented as pending content in the Codification, to a scope exception. Those amendments do not have an accounting effect.

The amendments in Part I of this Update are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. Early adoption is permitted for all entities, including adoption in an interim period. If an entity early adopts the amendments in an interim period, any adjustments should be reflected as of the beginning of the fiscal year that includes that interim period. The amendments in Part 1 of this Update should be applied in either of the following ways: 1. Retrospectively to outstanding financial instruments with a down round feature by means of a cumulative-effect adjustment to the statement of financial position as of the beginning of the first fiscal year and interim period(s) in which the pending content that links to this paragraph is effective 2. Retrospectively to outstanding financial instruments with a down round feature for each prior reporting period presented in accordance with the guidance on accounting changes in paragraphs 250-10-45-5 through 45-10.

The amendments in Part II of this Update do not require any transition guidance because those amendments do not have an accounting effect.

1 ACCOUNTING POLICIES AND ESTIMATES (continued)

c) Recent Accounting Pronouncements (continued)

The Company is currently evaluating the impact this ASU will have on its consolidated financial In August 2017, the FASB issued ASU 2017-12, Derivatives and Hedging, an amendment to Topic 815. The amendments in this Update better align an entity's risk management activities and financial reporting for hedging relationships through changes to both the designation and measurement guidance for qualifying hedging relationships and the presentation of hedge results. To meet that objective, the amendments expand and refine hedge accounting for both nonfinancial and financial risk components 2 and align the recognition and presentation of the effects of the hedging instrument and the hedged item in the financial statements. The amendments in this Update require an entity to present the earnings effect of the hedging instrument in the same income statement line item in which the earnings effect of the hedged item is reported.

The amendments in this Update are effective for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. Early application is permitted in any interim period after issuance of the Update. All transition requirements and elections should be applied to hedging relationships existing (that is, hedging relationships in which the hedging instrument has not expired, been sold, terminated, or exercised or the entity has not removed the designation of the hedging relationship) on the date of adoption. The effect of adoption should be reflected as of the beginning of the fiscal year of adoption. The Company is currently evaluating the impact this ASU will have on its consolidated financial statements.

In September 2017, the FASB issued ASU 2017-13, Revenue Recognition (Topic 605), Revenue from Contracts with Customers (Topic 606), Leases (Topic 840), and Leases (Topic 842). The amendments in this ASU deals with the transition and effective dates of implementing to ASU 2014-09, Revenue from contracts with customers, ASU 2016-08, Revenue from contracts with customers, principal versus agent considerations, ASU 2016-10, revenues from contacts with customers; identifying performance obligations and licensing, ASU 2016-12, revenues from contacts with customers, narrow scope improvements and practical expedients, 2016-20, technical corrections and improvements and ASU 2017-05, other income, gains and losses from the derecognition of non-financial assets.

The transition provisions require adoption of Topic 606 for annual reporting periods commencing after December 15, 2017 and the adoption of Topic 842 for annual reporting periods beginning after December 15, 2018 for public business entities, if the requirements of a public business entity as defined in ASU 2017-122 are not met, may adopt Topic 606 for annual reporting periods commencing after December 15, 2018 and for Topic 842 for annual reporting periods commencing after December 15, 2019. Early adoption is permitted of both Topics. The Company is currently evaluating the impact this ASU will have on its consolidated financial statements.

Any new accounting standards, not disclosed above, that have been issued or proposed by FASB that do not require adoption until a future date are not expected to have a material impact on the financial statements upon adoption.

1 ACCOUNTING POLICIES AND ESTIMATES (continued)

d) Use of Estimates

The preparation of unaudited consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions, which are evaluated on an ongoing basis, that affect the amounts reported in the unaudited consolidated financial statements and accompanying notes. Management bases its estimates on historical experience and on various other assumptions that it believes are reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the amounts of revenues and expenses that are not readily apparent from other sources. Actual results could differ from those estimates and judgments. In particular, significant estimates and judgments include those related to: the estimated useful lives for plant and equipment, the fair value of warrants and stock options granted for services or compensation, estimates of the probability and potential magnitude of contingent liabilities, derivative liabilities, the valuation allowance for deferred tax assets due to continuing operating losses, those related to revenue recognition and the allowance for doubtful accounts.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the unaudited consolidated financial statements, which management considered in formulating its estimate could change in the near-term due to one or more future confirming events. Accordingly, the actual results could differ significantly from our estimates.

e) Contingencies

Certain conditions may exist as of the date the financial statements are issued, which may result in a loss to the Company, but which will only be resolved when one or more future events occur or fail to occur. The Company's management assesses such contingent liabilities, and such assessment inherently involves an exercise of judgment.

If the assessment of a contingency indicates that it is probable that a material loss has been incurred and the amount of the liability can be estimated, then the estimated liability would be accrued in the Company's financial statements. If the assessment indicates that a potential material loss contingency is not probable but is reasonably possible, or is probable but cannot be estimated, then the nature of the contingent liability, together with an estimate of the range of possible loss if determinable and material would be disclosed. Loss contingencies considered to be remote by management are generally not disclosed unless they involve guarantees, in which case the guarantee would be disclosed.

f) Cash and Cash Equivalents

The Company considers all highly liquid investments with original maturities of three months or less at the time of purchase to be cash equivalents. At September 30, 2017 and December 31, 2016, respectively, the Company had no cash equivalents.

The Company assesses credit risk associated with cash by periodically evaluating the credit quality of its primary financial institution. The balance at times may exceed federally insured limits. At September 30, 2017, the Company had cash balances of $8,755,803, which exceeded the federally insured limits by $8,450,408.

1 ACCOUNTING POLICIES AND ESTIMATES (continued)

g) Related parties

Parties are considered to be related to the Company if the parties that, directly or indirectly, through one or more intermediaries, control, are controlled by, or are under common control with the Company, or own in aggregate, on a fully diluted basis 5% or more of the Company's stock. Related parties also include principal owners of the Company, its management, members of the immediate families of principal owners of the Company and its management and other parties with which the Company may deal if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests. The Company discloses all related party transactions. All transactions are recorded at fair value of the goods or services exchanged. Property purchased from a related party is recorded at the cost to the related party and any payment to or on behalf of the related party in excess of the cost is reflected as a distribution to related party.

h) Reclassification

Certain reclassifications have been made to the prior year financial statement numbers to conform to the current presentation of the financial statements.

2 GOING CONCERN

The Company has cash balances of $8,755,803 as of September 30, 2017, which is sufficient to meet current expenses for at least the next twelve month period, however the Board of Directors are considering various options as to the future direction of the Company, including the possible sale of its technology and PPT assets. The Company formed a special committee to investigate a possible share buyback of the majority stockholder, Ervington Investments Limited, and/or a possible dissolution of the Company.

Due to uncertainties surrounding the Company's ability to realize the full value of its assets, the Company cannot make any assurances regarding the amount available for distribution to its stockholders.

The Company has made certain projections relating to the amount of cash it expects to have to distribute to its stockholders upon dissolution of the Company. These projections generally relate to the amount of liabilities which must be satisfied before the Company is dissolved and the amount its preferred stockholders is expected to receive for their equity interest. The above projections are subject to multiple variables, including the timing of a dissolution affecting the amount of dividends payable and the amount of liabilities owed at the time of dissolution. Based upon current estimates, if the Company were to dissolve this quarter, no assurance can be given that common stockholders or subordinate preferred stockholders will receive any such distribution.

3 DISCONTINUED OPERATIONS

On October 4, 2016, Novas Energy USA, Inc. ("Novas USA"), a wholly owned subsidiary of the Company, delivered a notice to Technovita Technologies USA, Inc. ("Technovita") electing to dissolve its joint venture with Technovita (the "Joint Venture"), effective November 1, 2016, pursuant to Section 11.1(b) of the Operating Agreement of Novas Energy North America, LLC ("NENA"), dated October 22, 2015 (the "Operating Agreement"), by and among Novas USA and Technovita.

Licenses

Novas licenses the “Plasma-Pulse Technology” (“the Technology”) from Novas Energy Group Limited, the Licensor, pursuant to the terms of an exclusive perpetual royalty bearing license it entered into in January 2013, which was amended during March 2014.

On July 19, 2016, the Company received a notice from Licensor purporting to effectively terminate the License Agreement for non-payment of required royalties, asserting, among other things, that as of June 30, 2016, Novas owed Licensor a pro rata amount of $1,458,333 for the Licensed Plasma Pulse Technology for the United States and Mexico, of which $1,000,000 was alleged to be in arrears. Novas has recently been contacted by Licensor with a request for settlement discussions; however, there can be no assurance that such discussions will occur or what the outcome of any such discussions will be. The Company and Novas believe that there is no legal basis for Licensor to terminate the License Agreement and intend to vigorously defend against any attempt by Licensor to enforce a termination of the License Agreement. Further, we believe that Licensor has failed to materially perform its obligations under the License Agreement, and that such failures on Licensor’s part may impact what, if any, payments are due under the License Agreement by Novas to Licensor.

Overview and Financial Condition

Recent Developments

We have entered into an Asset Purchase Agreement (the "Asset Purchase Agreement") with an affiliate (the "Purchaser") of Ervington Investment Limited ("Ervington"), the current holder of a majority of our outstanding voting securities, pursuant to which we have agreed to sell to the Purchaser substantially all of our assets, including all pertinent intellectual property rights, comprising our business of implementing our plasma pulse technology, for $650,000 (the "Asset Sale"). The Asset Purchase Agreement provides, among other things, that the Asset Sale is conditioned on its approval by holders of a majority of our voting securities, exclusive of the securities held by Ervington (a "majority of the minority").

We have also entered into an agreement with Ervington (the "Share Repurchase Agreement") to repurchase all of our outstanding securities held by Ervington for $8,500,000 (the "Share Repurchase"), which repurchase will occur at the same time as the Asset Sale. The repurchase will constitute a change of control and upon consummation of the repurchase Ivan Persiyanov will resign from all positions he holds as an officer and director of our company and our subsidiaries. After the completion of the Asset Sale, we expect to cease all activities related to our existing business while evaluating other business opportunities, which include potentially acquiring an oilfield services business, of which two of our current directors (Messrs. Huemoeller and Zotos) own a minority equity interest. We have not entered into an agreement with any potential acquisition candidate and have only been in the early stages of discussion.

The purchase price for the shares being repurchased and assets being sold together with documents necessary to effect the Asset Sale pursuant to the Asset Purchase Agreement and the Share Repurchase pursuant to the Share Repurchase Agreement, including, but not limited to, a bill of sale for the assets being sold, an assignment of intellectual property rights, stock certificates and stock powers for the shares to be repurchased from Ervington, and the resignation of Ivan Persiyanov, have been placed in escrow pending the approval of the Asset Sale by a majority of the minority and will be released at the subsequent closing of the transactions contemplated by the Asset Purchase Agreement and Share Repurchase Agreement.

Our Company

Since July 2015, when we closed the final tranche of our private placement of the sale of our Series C Preferred Stock and raised an additional $9,750,000, we shifted our operational focus from being a direct provider of well services based upon plasma pulse technology to actively seeking to acquire producing oil fields to generate revenues and the development of untapped hydrocarbon reserves. As a result, in August 2015, our Board of Directors and shareholders approved through the formation of a joint venture, the exclusive sublicense to our majority owned subsidiary Novas Energy North America, LLC ("NENA") of our rights to use certain plasma pulse technology that we had licensed from Novas Energy Group Limited (the "Licensor") pursuant to the terms of an exclusive license agreement (the "License Agreement"), for treatment of vertical wells in the United States (hereafter, the "Licensed Plasma Pulse Technology"). We retained the right to use the Licensed Plasma Pulse Technology for treatment of our own assets located in the United States as well as treatment of assets outside of the United States. The Licensed Plasma Pulse Technology refers to the process and apparatus of Licensor for its plasma pulse technology as covered by Licensor's patent rights. Although we were indirectly engaged in the oil recovery business through NENA and directly through our treatment of oil wells in Mexico, it was not our foundational business strategy. In October 2016, we terminated the joint venture due to its failure to meet certain milestones. including its generation of minimal revenue.

During the past year, our management, at the direction of the Board of Directors, has evaluated, considered, and brought forward various opportunities to acquire producing oil fields; however, to date, an oil field meeting the criteria acceptable to the Board of Directors (which

criteria include among other things, low general and administrative costs, ability to generate cash flow and ability to fully utilize the PPT) has not been found. At this point, the Board is reevaluating its business plan and strategy and has reduced operating expenses, including staffing, in order to preserve capital, while the Board evaluates its options including the possible sale of our technology and PPT assets. A special committee of the Board of Directors has been formed to review and evaluate a potential sale of the Company's assets and the potential purchase of the Company's securities held by Ervington Investments Limited, and/or a possible dissolution of the Company.

We have financed our operations primarily from sales of our securities, both debt and equity, and to a lesser extent revenue from operations and we expect to continue to obtain required capital in a similar manner. We have incurred an accumulated deficit of $18,975,627 through September 30, 2017 and there can be no assurance that we will be able to achieve profitability.

Management Discussion and Analysis of financial condition

Our discussion and analysis of our financial condition and results of operations are based upon our unaudited consolidated financial statement as of September 30, 2017 and 2016, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of any contingent liabilities at the financial statement date and reported amounts of revenue and expenses during the reporting period. On an on-going basis we review our estimates and assumptions. Our estimates are based on our historical experience and other assumptions that we believe to be reasonable under the circumstances. Actual results are likely to differ from those estimates under different assumptions or conditions.

Liquidity and Capital Resources.
Although we have cash balances of $8,755,803 as of September 30, 2017, we have a history of annual losses from operations since inception and we have primarily funded our operations through sales of our unregistered equity securities. We have recently suspended our operations and reduced our operating expenses as the Board of Directors are considering various options as to the future direction of the Company, including a possible dissolution. Should the Board of Directors decide to dissolve our company, due to uncertainties about whether we are able to realize the full value of our assets, we cannot make any assurances regarding the amount available for distribution to our shareholders. We have made certain projections relating to the amount of cash we expect to have to distribute to our shareholders upon dissolution. These projections generally relate to the amount of liabilities which must be satisfied before our company is dissolved, the amount we expect preferred stockholders to receive for their equity interest. Each of the above projections is subject to multiple variables, including the timing of a dissolution affecting the amount of dividends payable and the amount of liabilities owed at the time of dissolution. Based upon current estimates, if we were to dissolve this quarter, no assurance can be given that common shareholders or subordinate preferred shareholders will receive any such distribution.

To date, our primary sources of cash have been funds raised from the sale of our securities and the issuance of convertible and non-convertible debt. No additional funds were raised during the current financial period.

We have incurred an accumulated deficit of $18,975,627 through September 30, 2017 and incurred negative cash flow from continuing operations of $413,953 for the nine months ended September 30, 2017.

Our primary commitments include the minimum commitments under the license agreements. Based upon our current plans, we believe that our cash will be sufficient to enable us to meet our anticipated operating needs for at least the next twelve months, subject to any business strategy decisions taken by the Board of Directors.

Our minimum commitments under the License Agreement for the next five years (assuming the License Agreement remains in effect and the $500,000 annual royalty payment with respect to the United States territory is not required to be paid), is summarized as follows:

	Amount
2017	$ 500,000
2018	500,000
2019	500,000
2020	500,000
2021	500,000
	$ 2,500,000

Item 3. Quantitative and Qualitative Disclosures About Market Risks

None.

Item 4. Controls and Procedures

(a) **Evaluation of disclosure controls and procedures**
Pursuant to Rule 13a-15(b) under the Securities Exchange Act of 1934 ("Exchange Act"), the Company carried out an evaluation, with the participation of the Company's management, including the Company's Chief Executive Officer ("CEO"), who also serves as our principal financial and accounting officer, of the effectiveness of the Company's disclosure controls and procedures (as defined under Rule 13a-15(e) under the Exchange Act) as of the end of the period covered by this report. Based upon that evaluation, the Company's CEO who also serves as our principal financial and accounting officer concluded that due to a lack of segregation of duties and insufficient controls over review and accounting for certain complex transactions, that the Company's disclosure controls and procedures as of September 30, 2017 were not effective to ensure that information required to be disclosed by the Company in the reports that the Company files or submits under the Exchange Act, was recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including the Company's CEO, as appropriate, to allow timely decisions regarding required disclosure. If the Company continues its operations it intends to retain additional individuals to remedy the ineffective controls. However, we cannot assure you that our internal control over financial reporting, as modified, will enable us to identify or avoid material weaknesses in the future.

(b) **Changes in Internal Control over Financial Reporting**
There has been no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) that occurred during our fiscal quarter ended September 30, 2017 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Part II. OTHER INFORMATION

Item 1. Legal Proceedings

None.

Item 1A. Risk Factors

The following information updates, and should be read in conjunction with, the information disclosed in Part1, Item 1A, "Risk Factors" contained in our Annual Report on Form 10-K filed with the SEC on August 7, 2017. Except as disclosed below, there have been no material changes to the risk factors in our Annual Report on Form 10-K filed with the SEC on August 7, 2017.

We may not be profitable.

We expect to incur operating losses for the foreseeable future. For the nine months ended September 30, 2017 we have net revenues of $25,000 and for the year ended December 31, 2016 and 2015, we had net revenues of $0 and $91,000 from our plasma pulse oil recovery business. For the nine months ended September 30, 2017 and the year ended December 31, 2016 we have sustained a net loss of $463,186 and $4,118,967, respectively. To date, we have not acquired any oil wells, we have not generated significant revenue from the Licensed Plasma Pulse Technology and we have generated insufficient revenue from our operations in Mexico. Our ability to become profitable depends on our ability to find acquisition candidates or assets that generate revenue, to have successful operations and generate and sustain sales, while maintaining reasonable expense levels, all of which are uncertain in light of our limited operating history in our current line of business and our recent changes in business strategy.

Our consolidated financial statements have been prepared assuming that we will continue as a going concern.

We have incurred recurring operating losses and had a net loss for the nine months ended September 30, 2017 and the year ended December 31, 2016. We have also suspended our business operations. These conditions raise substantial doubt about our ability to continue as a going concern. The consolidated financial statements for the nine months ended September 30, 2017 do not include any adjustments that might result from the outcome of this uncertainty.

We had intended to become an exploitation and production stage company but to date have not found any suitable oil wells to acquire, therefore we are reevaluating our business plan and strategy, making it difficult to evaluate our company.

We intended to use the proceeds from the sale of our Series C Preferred Stock to acquire oil fields and intend to become an exploitation and production stage company; however, to date we have not found an oil field meeting the criteria acceptable to the Board (which criteria include among other things, low general and administrative costs, ability to generate cash flow and ability to fully utilize the PPT). Our Board is reevaluating its business plan and strategy and has suspended operations and reduced operating expenses, including staffing, in order to preserve capital, while the Board evaluates its options including the possible sale of our technology and PPT assets, forming a special committee to investigate a possible share buyback of the majority shareholder, Ervington Investments, and/or a possible dissolution of the Company. Until such time as the Board determines its strategy, it will be difficult for an investor to evaluate our business. If the special committee determines to proceed with the sale of the Company's technology and PPT assets, it may consider acquiring other assets and entering into new businesses for which there can be no assurance of successful operation.

3. **CLOSING.** This closing of the transactions contemplated by this Agreement (the "Closing") shall be consummated without further action of the Parties hereto at 10:00 a.m. New York City time on the day following the date of the Special Meeting of Stockholders of the Seller (the "Company Stockholder Meeting") or any adjournment thereof at which the holders of a majority of the outstanding voting securities of the Seller other than those securities held by Ervington approve the sale of the Purchased Assets to the Buyer pursuant to the terms hereof (the "Majority of the Minority Vote"). Contemporaneously with the execution and delivery hereof, the parties hereto and Ervington have placed the following in escrow with Delaware Trust Company, as escrow agent (the "Escrow Agent") pursuant to an escrow agreement among the Escrow Agent, the Seller and Ervington (the "Escrow Agreement"): (i) the share certificates evidencing the 3,137,500 shares of Series A-1 convertible preferred stock, the 4,500,000 shares of Series C preferred stock and the 64,302,467 shares of common stock of the Seller owned by Ervington (collectively, the "Shares") together with stock powers executed by Ervington transferring ownership of such certificates to the Seller; (ii) a Bill of Sale transferring the Purchased Assets to Buyer, (iii) an assignment of patents agreement transferring to the Buyer all of Seller's interest in patent number 2017-04545; (iv) the written resignation of Ivan Persiyanov as a director of the Seller and all of its subsidiaries and as an officer of the Seller and its subsidiaries, effective by its terms as of the Closing; and (v) $7,850,000 in immediately available funds from Seller (representing the purchase price due to Ervington under the Share Repurchase Agreement less the Purchase Price due hereunder for the Purchased Assets). This Agreement shall automatically terminate and be of no further force and effect without any action on the part of the parties hereto if the Majority of the Minority Vote is not obtained by May 13, 2018; provided, that such date shall automatically be extended to June 27, 2018 without any action on the part of either party hereto if the SEC (as defined below) notifies the Seller that it will be reviewing and/or providing comments on the Company Proxy Statement (as defined below) and the parties hereto shall promptly notify the Escrow Agent in writing of such automatic extension; provided, further, that Article 8 shall survive any such termination and that no such termination shall relieve any party from any liability or damages arising out of such party's fraud or willful or material breach prior to such termination, in which case the non-breaching party shall be entitled to all rights and remedies available at law or in equity. Upon the termination of this Agreement for any reason, including pursuant to the previous sentence, pursuant to the terms of the Escrow Agreement, the items referenced in clauses (ii), (iii) and (v) of this Section 3 shall be returned to the Seller and the items referenced in clauses (i) and (iv) shall be returned to Ervington.

5.1 Acknowledgement. The Seller has made no representations or warranties as to the Assets of the Seller, except as specifically set forth in this Agreement.

5.2 Authority. The Buyer has full authority or capacity to execute and to perform this Agreement in accordance with its terms; the execution and delivery of this Agreement and the consummation of the transactions contemplated hereby does not and will not result in a breach, violation or default or give rise to an event which, with the giving of notice or after the passage of time, or both, would result in a breach, violation or default of any of the terms or provisions or of the Articles of Organization, Operating Agreement, any statute, indenture, mortgage, deed of trust, loan agreement or other material agreement, instrument or restriction to which the Buyer is a party or by which the Buyer or its assets may be materially bound or affected, or any order, rule or regulation of any court or governmental agency or body having jurisdiction over the Buyer; and no further authorization or approval, whether of governmental bodies or otherwise, is necessary in order to enable the Buyer to enter into and perform the same; and this Agreement constitutes a valid and binding obligation enforceable against the Buyer in accordance with its terms.

5.3 Access To Data. The Buyer has had full access to all pertinent data and information regarding the Seller's plasma pulse technology business operations and, as such, has received all the information it considers necessary or appropriate for deciding whether to purchase the Purchased Assets.

5 . 4 Brokers or Finders. No broker, finder or investment banker is entitled to any brokerage, finder's or other fee or commission in connection with the sale of the Purchased Assets to Buyer based upon arrangements made by or on behalf of Buyer.

5.5. Notice of Termination. The Buyer acknowledges that Novas Energy Group Limited has sent a notice of termination to the Seller with respect to its license agreement with the Seller and that the Seller may not have any rights to transfer under such license.

6 . **INDEMNIFICATION**. Seller shall indemnify and hold harmless Buyer, Ervington and their respective officers, directors and stockholders (each an "Indemnified Party"), from and against any and all demands, claims, actions or causes of action, judgments, assessments, losses, liabilities, damages or penalties and reasonable attorneys' fees and related disbursements from creditors or shareholders of the Seller suffered by such Indemnified Party incident to, resulting from or arising out of the preparation or performance under this Agreement or incident to any claims, actions or liabilities arising as a result of the conduct of the Business by the Seller.

7. **COVENANTS.**

7.1 Restrictive Covenants.

(a) Confidentiality. From and after the date hereof, the Seller will, and will cause its affiliates to, refrain from using or disclosing, and will take all commercially reasonable steps to prevent unauthorized use or disclosure of, any Confidential Information. In the event that a Seller reasonably believes after consultation with counsel that such Seller or affiliate is required by applicable law to disclose any Confidential Information, such Seller or affiliate may disclose only such Confidential Information as may be legally required, provided that it (i) provides the Buyer with prompt notice before such disclosure so that the Buyer may attempt to obtain a protective order or other assurance that confidential treatment will be accorded to such Confidential Information and (ii) cooperates with the Buyer in attempting to obtain such order or assurance. "Confidential Information" means all information of a confidential or proprietary nature (whether or not specifically labeled or identified as "confidential"), in any form or medium, of the Company related to the Business or its customers, suppliers, distributors or other business relations, including all information concerning finances, customer information, supplier information, products, services, prices, organizational structure and internal practices, forecasts, sales and other financial results, records and budgets, and business, marketing, development, sales and other commercial strategies, unpatented inventions, ideas, methods and discoveries, trade secrets, know-how, unpublished patent applications and other confidential intellectual property, designs, specifications, documentation, components, source code, object code, schematics, drawings, protocols and processes.

(b) Non-Competition. The Seller covenants and agrees that during the period beginning on the date hereof and ending upon the fifth (5th) anniversary of such date (the "Term") the Seller and its affiliates will not, directly or indirectly, engage or participate in any manner (as an owner, equity holder, financing source, director, manager, officer, employee, agent, representative, consultant, service provider or otherwise) in any business that is or may reasonably be considered to be competitive with the Business or any presently contemplated expansions or extensions thereof, anywhere in the world.

(c) Non-Disparagement. Each party hereby covenants and agrees that during the Term neither it nor its affiliates will, directly or indirectly, make any derogatory or disparaging statement or communication regarding the other party or any of the other party's affiliates or the Business or any of their respective employees.

(d) Blue-Pencil. If any court of competent jurisdiction shall at any time deem the term of any particular restrictive covenant contained in this Section 7.1 too lengthy, the geographic area covered too extensive or the scope too broad, the other provisions of this Section 7.1 shall nevertheless stand, the term shall be deemed to be the longest period permissible by law under the circumstances, the geographic area covered shall be deemed to comprise the largest territory permissible by law under the circumstances and the scope shall be as broad as permissible by law under the circumstances. The court in each case shall reduce the term, geographic area and or scope covered to permissible duration, size or breadth.

(e) Acknowledgements; Remedies. The Seller acknowledges and agrees that (i) the covenants and agreements set forth in this Section 7.1 were a material inducement to the Buyer to enter into this Agreement and to perform its obligations hereunder, (ii) the Buyer and its stakeholders would not obtain the benefit of the bargain set forth in this Agreement as specifically negotiated by the parties hereto if the Seller or any of their respective affiliates breached the provisions of this Section 7.1, (iii) any breach of the provisions of this Section 7.1 by the Seller or any of its respective affiliates would result in a significant loss of goodwill by the Buyer, (iv) the consideration paid by the Buyer to the Seller hereunder is sufficient consideration to make the covenants and agreements set forth herein enforceable, (v) the length of time, scope and geographic coverage of the covenants set forth in this Section 7.1 is reasonable given the benefits the Seller will directly or indirectly receive hereunder, (vi) the Seller is familiar with all the restrictive covenants contained in this Section 7.1 and is fully aware of its obligations hereunder, and (vii) the Seller will not challenge the reasonableness of the time, scope, geographic coverage or other provisions of this Section 7.1 in any proceeding, regardless of who initiates such proceeding. The Seller further acknowledges and agrees that irreparable injury will result to the Buyer if the Seller or any of its affiliates breaches any of the terms of this Section 7.1, and that in the event of an actual or threatened breach by the Seller or any of its affiliates of any of the provisions contained in this Section 7.1, the Buyer will have no adequate remedy at law. The Seller accordingly agrees that in the event of any actual or threatened breach by the Seller or any of its affiliates of any of the provisions contained in this Section 7.1, the Buyer shall be entitled to injunctive and other equitable relief without (i) the posting of any bond or other security, (ii) the necessity of showing actual damages and (iii) the necessity of showing that monetary damages are an inadequate remedy. Nothing contained herein shall be construed as prohibiting the Buyer from pursuing any other remedies available to it for such breach or threatened breach, including the recovery of any damages that it is able to prove. The Seller shall cause its affiliates to comply with this Section 7.1, and shall be liable for any breach by any of its affiliates of this Section 7.1. In the event of a breach or violation by the Seller or any of its affiliates of this Section 7.1, the Term shall be extended by a period of time equal to the period of time during which such person or entity violates the terms of this Section 7.1.

7 . 2 Transfer Taxes. All transfer, documentary, sales, use, registration, stamp and other taxes and fees (including any penalties and interest thereon) incurred in connection with the transactions contemplated by this Agreement (together, "Transfer Taxes") shall be paid by the Seller when due, and the Seller shall, at its expense, file all necessary tax returns and other documentation with respect to all such Transfer Taxes.

7 . 3 Publicity. None of the Seller, the Buyer or any of their respective affiliates shall issue any press release or make any public announcement or filing (including any filing with the U.S. Securities and Exchange Commission (the "SEC")) concerning this Agreement or the transactions contemplated herein without obtaining the prior written approval of the other parties hereto, which approval will not be unreasonably withheld or delayed, unless the content of such press release, public announcement or filing is substantially consistent in form and substance with the disclosures set forth in the preliminary Company Proxy Statement (as defined below) as initially filed with the SEC or as subsequently approved by the Buyer; provided that the party intending to make such release shall use its commercially reasonable efforts to consult with the other party with respect to the timing and content thereof.

7.4 Proxy Statement; Company Stockholders Meeting.

(a) On the date hereof, the Seller filed the preliminary proxy statement in connection with the transactions contemplated hereby (the "Company Proxy Statement") with the SEC. The Seller shall not file any amendment or supplement to the Company Proxy Statement without providing the Buyer a reasonable opportunity to review and comment thereon (which comments shall be reasonably considered by the Seller). Each of the Seller and the Buyer shall use its reasonable best efforts to resolve, and each party agrees to consult and cooperate with the other parties in resolving, all SEC comments with respect to the Company Proxy Statement as promptly as practicable after receipt thereof and to cause the Company Proxy Statement in definitive form to be cleared by the SEC and mailed or made available to the Seller's shareholders as promptly as reasonably practicable following filing with the SEC. The Seller agrees to consult with the Buyer (and reasonably consider any comments provided by the Buyer) prior to responding to SEC comments with respect to the Company Proxy Statement and, to the extent reasonably practicable, permit the Buyer and its outside counsel to participate in all meetings, telephone conferences and other substantive communications with the SEC relating to the Company Proxy Statement. Each of the Seller and the Buyer agrees to correct any information provided by it for use in the Company Proxy Statement which shall have become false or misleading and the Seller shall promptly, to the extent required by applicable law, prepare and mail or make available to its stockholders an amendment or supplement setting forth such correction. The Seller shall as soon as reasonably practicable (i) notify the Buyer of the receipt of any comments from the SEC with respect to the Company Proxy Statement and any request by the SEC for any amendment to the Company Proxy Statement or for additional information and (ii) provide the Buyer with copies of all written correspondence between the Seller and its representatives, on the one hand, and the SEC, on the other hand, with respect to the Company Proxy Statement or the transactions contemplated hereby.

(b) The Seller shall, as soon as practicable following the date on which the Seller is informed that the SEC has no further comments on the preliminary Company Proxy Statement, duly set a record date for, call, give notice of, convene and hold the Company Stockholders Meeting. The Company shall not make any change to the recommendation by the Special Committee of the Company's Board of Directors of the transactions contemplated hereby and use its reasonable best efforts to (i) solicit from its stockholders proxies in favor of the adoption of this Agreement and the transactions contemplated by this Agreement, and (ii) take all other action necessary or advisable to secure the Majority of the Minority Vote. Promptly following the filing of the Company Proxy Statement in definitive form, the Buyer shall deliver to the Company the executed proxy of Ervington voting all of the Shares at the Company Stockholders Meeting in favor of the transactions contemplated by this Agreement in the same form as is contained in the Company Proxy Statement, which proxy shall be deemed irrevocable and coupled with an interest until the earlier of the Closing and the termination of this Agreement pursuant to its terms. Furthermore, the Buyer shall not take any action with the purpose of adversely affecting the Company's solicitation of stockholders proxies in favor of the adoption of this Agreement and the transactions contemplated by this Agreement or securing the Majority of the Minority Vote. If, at any time following the dissemination of the Company Proxy Statement, either the Seller or the Buyer reasonably determines in good faith (after consulting with the other) that a quorum or the Majority of the Minority Vote is unlikely to be obtained at the Company Stockholders Meeting, then the Seller shall have the right to adjourn or postpone the Company Stockholders Meeting from time to time; provided that no such adjournment or postponement shall delay the Company Stockholders Meeting by more than thirty (30) days from the currently scheduled date. During any such period of adjournment or postponement, the Seller shall continue in all respects to comply with its obligations under this Section 7.4.

7.5 Releases.

(a) The Seller, on the Seller's own behalf and on behalf of its heirs, successors, trustees, executors, administrators, assigns and any other person or entity that may claim by, through or under the Seller (collectively, the "Seller Releasing Parties"), hereby (i) irrevocably waives, releases and discharges the Buyer and its affiliates (including Ervington) and each of their respective present and former managers, directors, officers, employees, agents and representatives (collectively, the "Buyer Released Parties") from any and all liabilities of any kind or nature whatsoever in respect of any cause, matter or thing relating to any of the Buyer Released Parties occurring or arising on or prior to the date of this Agreement, except for any rights or obligations under this Agreement or the Stock Purchase Agreement, and (ii) agrees that no Seller Releasing Party will bring or voluntarily participate in or assist any legal proceeding that relates to any matter released pursuant to clause (i) of this Section 7.4(a).

(b) The Buyer, on the Buyer's own behalf and on behalf of its heirs, successors, trustees, executors, administrators, assigns and any other person or entity that may claim by, through or under the Buyer (collectively, the "Buyer Releasing Parties"), hereby (i) irrevocably waives, releases and discharges the Seller and its affiliates and each of their respective present and former managers, directors, officers, employees, agents and representatives (collectively, the "Seller Released Parties") from any and all liabilities of any kind or nature whatsoever in respect of any cause, matter or thing relating to any of the Seller Released Parties occurring or arising on or prior to the date of this Agreement, except for any rights or obligations under this Agreement or the Stock Purchase Agreement, and (ii) agrees that no Buyer Releasing Party will bring or voluntarily participate in or assist any legal proceeding that relates to any matter released pursuant to clause (i) of this Section 7.4(b).

SHARE REPURCHASE AGREEMENT

SHARE REPURCHASE AGREEMENT (the "Agreement") made as of this 12th day of February, 2018, by and between Ervington Investments Ltd, a company organized under the laws of Cyprus (the "Seller") and Pledge Petroleum Corp., a Delaware corporation (the "Company").

WITNESSETH:

WHEREAS, the Seller owns (i) 64,302,467 shares of common stock of the Company; (ii) 4,500,000 shares of Series C Preferred Stock of the Company; and (iii) 3,137,500 shares of Series A-1 Preferred Stock of the Company (collectively, the "Shares"), and the Company desires to purchase from the Seller, and Seller desires to sell, the Shares upon the terms and conditions hereinafter set forth herein.

NOW, THEREFORE, in consideration of the mutual covenants and promises herein contained and upon the terms and conditions hereinafter set forth, the parties hereto, intending to be legally bound, agree as follows:

1. **PURCHASE AND SALE OF THE STOCK.**

Upon the terms and conditions herein contained, at the Closing (as hereinafter defined), the Seller hereby sells, assigns and transfers to the Company and the Company hereby purchases from the Seller all rights of the Seller in and to the Shares, as of the date of the Closing, free and clear of all liens, claims, pledges, mortgages, restrictions, obligations, security interests and encumbrances of any kind, nature and description (collectively, "Liens") other than any Liens (a) arising under federal or state securities laws or (b) any Liens created by or through the Company ("Permitted Liens").

2. **CONSIDERATION.**

The purchase price to be paid by the Company to the Seller in connection with the purchase and sale of the Shares (the "Purchase Price") is Eight Million Five Hundred Thousand Dollars ($8,500,000.00).

3. **CLOSING.**

The parties hereto have heretofore placed the Shares together with stock powers duly executed by the Seller and the Purchase Price in escrow pending the closing the transactions contemplated by this Agreement with Delaware Trust Company as escrow agent (the "Escrow Agent") under a separate escrow agreement, dated as of the date hereof (the "Escrow Agreement"). The Seller has also delivered to the Company the written resignation of Ivan Persiyanov as a director of the Company and all of its subsidiaries and as an officer of the Company and its subsidiaries effective by its terms as of the Closing (as defined below) (the "Resignation Documents"). The closing of the transactions contemplated by this Agreement (the "Closing") shall take place simultaneously with the consummation of the transactions contemplated by that certain Asset Purchase Agreement annexed hereto as Exhibit A (the "Asset Purchase Agreement" and such transactions, the "Asset Sale"). The concurrent consummation of the Asset Sale is a condition precedent to the Closing. At the Closing, pursuant to the terms of the Escrow Agreement (a) the Resignation Documents shall become effective in accordance with their terms and be released to the Company, (b) the Purchase Price shall be released to the Seller by wire transfer of immediately available funds (less the $650,000 due to the Company under the Asset Purchase Agreement in respect of the Asset Sale that the Company instructed be paid to the Seller pursuant to Section 2 of the Asset Purchase Agreement) and (c) the Shares together with the duly executed stock powers shall be released to the Company. The Seller acknowledges and agrees that (i) it shall have no rights to any distribution of Company assets upon the consummation of the Asset Sale and that all of its rights as a shareholder of the Company shall cease immediately upon the Closing and (ii) immediately upon the Closing, (A) all accrued dividends shall be forgiven and are no longer owed and (B) the Investor's Rights Agreement and Stockholder's Rights Agreement entered into on February 19, 2015 will terminate in their entirety. This Agreement shall automatically terminate and be of no further force and effect without any action on the part of the parties hereto concurrently with any termination of the Asset Purchase Agreement in accordance with its terms; provided that Article 6 shall survive any such termination and that no such termination shall relieve any party from any liability or damages arising out of such party's fraud or willful or material breach prior to such termination, in which case the non-breaching party shall be entitled to all rights and remedies available at law or in equity. Upon the termination of this Agreement for any reason, including pursuant to the previous sentence, pursuant to the terms of the Escrow Agreement, the Purchase Price shall be returned to the Seller and the Resignation Documents and the Shares (and stock powers) shall be returned to the Buyer.

4.3 Authority. Seller has full authority or capacity to execute and to perform this Agreement in accordance with its terms; the execution and delivery of this Agreement and the consummation of the transactions contemplated hereby does not and will not result in a breach, violation or default or give rise to an event which, with the giving of notice or after the passage of time, or both, would result in a breach, violation or default of any of the terms or provisions or of any indenture, agreement, judgment, decree or other instrument or restriction to which Seller is a party or by which Seller may be bound or affected; and no further authorization or approval, whether of governmental bodies or otherwise, is necessary in order to enable Seller to enter into and perform the same; and this Agreement constitutes a valid and binding obligation enforceable against Seller in accordance with its terms.

4.4 No Conflict. The execution and delivery of this Agreement, and the consummation of the transactions contemplated hereby, will not result in a breach, violation or default or give rise to an event which with the giving of notice or after the passage of time, or both, would result in a breach, violation or default of any of the terms or provisions of the Seller's Certificate of Incorporation, By-Laws or of any statute, indenture, mortgage, deed of trust, loan agreement or other material agreement, instrument or restriction to which the Seller is a party or by which the Seller or its assets may be materially bound or affected, or any order, rule or regulation of any court or governmental agency or body having jurisdiction over the Seller.

4.5 Litigation. There are no actions, suits, proceedings or investigations pending or, to the best of Seller's knowledge, threatened against or affecting the Shares, business or properties of the Seller whether at law or in equity or admiralty or before or by any federal, state, municipal or other governmental department, commission, board, agency, court or instrumentality, domestic or foreign that would reasonably be expected to prohibit or restrain the ability of Seller to enter into this Agreement or consummate the transactions hereby.
