SAVE THE WORLD AIR, INC. AND SUBSIDIARY (A DEVELOPMENT STAGE ENTERPRISE)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS NINE MONTHS ENDED SEPTEMBER 30, 2006 (UNAUDITED)

1. Organization and basis of presentation

Basis of presentation

The accompanying interim condensed consolidated financial statements are unaudited, but in the opinion of management of Save the World Air, Inc. (the Company), contain all adjustments, which include normal recurring adjustments, necessary to present fairly the financial position at September 30, 2006, the results of operations for the three and nine months ended September 30, 2006 and 2005, and cash flows for the nine months ended September 30, 2006 and 2005. The balance sheet as of December 31, 2005 is derived from the Company's audited financial statements.

Certain information and footnote disclosures normally included in financial statements that have been prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission, although management of the Company believes that the disclosures contained in these financial statements are adequate to make the information presented therein not misleading. For further information, refer to the financial statements and the notes thereto included in the Company's Annual Report on Form 10-KSB for the fiscal year ended December 31, 2005, as filed with the Securities and Exchange Commission.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expense during the reporting period. Actual results could differ from those estimates. The results of operations for the nine months ended September 30, 2006 are not necessarily indicative of the results of operations to be expected for the full fiscal year ending December 31, 2006.

SAVE THE WORLD AIR, INC. AND SUBSIDIARY (A DEVELOPMENT STAGE ENTERPRISE)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — Continued NINE MONTHS ENDED SEPTEMBER 30, 2006 (UNAUDITED)

1. Organization and basis of presentation — Continued

Description of business

Save the World Air, Inc. (the "Company") was incorporated in Nevada on February 18, 1998 under the name Mandalay Capital Corp. The Company changed its name to Save the World Air, Inc. on February 11, 1999 following the purchase of the worldwide exclusive manufacturing, marketing and distribution rights for the ZEFS technologies. Products incorporating the ZEFS technologies, when fitted to an internal combustion engine, are expected to reduce carbon monoxide hydrocarbons and nitrons oxide emissions. During the past three years, the Company has been acquiring new technologies, developing prototype products using the Company's technologies and conducting scientific tests regarding the technologies and prototype products. In 2003, the Company acquired worldwide intellectual property and patent rights to technologies which reduce carbon monoxide, hydrocarbons and nitrous oxide emissions in two- and four-stroke motorcycles, fuel-injection engines, generators and small engines. The Company has also developed prototype products and named them "CAT-MATE" technology.

Consolidation policy

The accompanying consolidated financial statements of Save the World Air, Inc. and Subsidiary include the accounts of Save the World Air, Inc. (the Parent) and its wholly owned subsidiary STWA Asia Pte. Limited, incorporated on January 17, 2006. To date, STWA Asia Pte. Limited has had no operating activity. As of September 30, 2006, the subsidiary held \$12,662 in cash. Intercompany transactions and balances have been eliminated in consolidation.

Development stage enterprise

The Company is a development stage enterprise as defined by Statement of Financial Accounting Standards (SFAS) No. 7, "Accounting and Reporting by Development Stage Enterprises." All losses accumulated since the inception of the Company have been considered as part of the Company's development stage activities.

The Company's focus is on research and development of proprietary devices that are designed to reduce harmful emissions, and improve fuel efficiency and engine performance on equipment and vehicles driven by internal combustion engines and has not yet generated any revenues. The technologies are called "ZEFS", "MK IV" and "CAT-MATE." The Company has completed the design, the development of production models and is currently marketing its products worldwide. Expenses have been funded through the sale of company stock, convertible notes and the exercise of warrants. The Company has taken actions to secure the intellectual property rights to the ZEFS, MK IV and CAT-MATE devices. In addition, the Company has initiated marketing efforts to international governmental entities in cooperation with the United Nations Environmental Programme ("UNEP") and various original equipment manufacturers ("OEMs"), to eventually sell or license the ZEFS, MK IV and CAT-MATE products and technologies.

SAVE THE WORLD AIR, INC. AND SUBSIDIARY (A DEVELOPMENT STAGE ENTERPRISE)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — Continued NINE MONTHS ENDED SEPTEMBER 30, 2006 (UNAUDITED)

Inventories

Inventories are valued at the lower of cost (first-in, first-out) or market and consist of finished goods.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Certain significant estimates were made in connection with preparing the Company's financial statements. Actual results could differ from those estimates.

Stock based compensation

On January 1, 2006, the Company adopted Statements of Financial Accounting Standards No. 123 (revised 2004), "Share-Based Payment," ("SFAS 123(R)") which requires the measurement and recognition of compensation expense for all share-based payment awards made to employees and directors based on estimated fair values. SFAS 123(R) supersedes the Company's previous accounting under Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB 25") for periods beginning in fiscal 2006. In March 2005, the Securities and Exchange Commission issued Staff Accounting Bulletin No. 107 ("SAB 107") relating to SFAS 123(R). The Company has applied the provisions of SAB 107 in its adoption of SFAS 123(R).

The Company adopted SFAS 123(R) using the modified prospective transition method, which requires the application of the accounting standard as of January 1, 2006, the first day of the Company's fiscal year 2006. The Company's financial statements as of and for the three and nine months ended September 30, 2006 reflect the impact of SFAS 123(R). In accordance with the modified prospective transition method, the Company's financial statements for prior periods have not been restated to reflect, and do not include, the impact of SFAS 123(R). There was no stock-based compensation expense related to employee or director stock options recognized during the nine months ended September 30, 2005. Stock-based compensation expense recognized under SFAS 123(R) for employee and directors for the three and nine months ended September 30, 2006 was \$594,718 and \$1,809,493, respectively. Basic and diluted loss per share for the three months ended September 30, 2006 would have been \$0.04 per share, if the Company had not adopted SFAS 123(R), compared to reported basic and diluted loss per share of \$0.05 per share. Basic and diluted loss per share for the nine months ended September 30, 2006 would have been \$0.18 per share, if the Company had not adopted SFAS 123(R), compared to reported basic and diluted loss per share of \$0.23 per share.

The following table illustrates the effect on net loss and loss per share if the Company had applied the fair value recognition provisions of SFAS 123 to stock-based awards granted under the Company's stock option plans for the three and nine months ended September 30, 2005. For purposes of this pro-forma disclosure, the fair value of the options is estimated using the Black-Scholes-Merton option-pricing formula ("Black-Scholes model") and amortized to expense over the options' requisite service periods (vesting periods).

SAVE THE WORLD AIR, INC. AND SUBSIDIARY (A DEVELOPMENT STAGE ENTERPRISE)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — Continued NINE MONTHS ENDED SEPTEMBER 30, 2006 (UNAUDITED)

	Three months ended September 30, 2005	Nine months ended September 30, 2005
Net loss as reported	\$ (1,211,658)	\$ (3,051,231)
Add: total fair value method stock-based employee based compensation expense	286,226	609,930
Less: deferred compensation amortization for below market employee options	(40,625)	(116,693)
Pro forma net loss	\$ (966,057)	\$ (2,557,994)
Net loss per share:		
As reported — basic and diluted	\$ (0.03)	\$ (0.08)
Pro forma — basic and diluted	\$ (0.02)	\$ (0.07)

SFAS 123(R) requires companies to estimate the fair value of share-based payment awards to employees and directors on the date of grant using an option-pricing model. The value of the portion of the award that is ultimately expected to vest is recognized as expense over the requisite service periods in the Company's Statements of Operations. Stock-based compensation expense recognized in the Statements of Operations for the second quarter of fiscal 2006 included compensation expense for share-based payment awards granted prior to, but not yet vested as of January 1, 2006 based on the grant date fair value estimated in accordance with the pro-forma provisions of SFAS 123 and compensation expense for the share-based payment awards granted subsequent to January 1, 2006 based on the grant date fair value estimated in accordance with the provisions of SFAS 123(R). For stock-based awards issued to employees and directors, stock-based compensation is attributed to expense using the straight-line single option method, which is consistent with how the prior-period pro formas were provided. As stock-based compensation expense recognized in the Statements of Operations for the second quarter of fiscal 2006 is based on awards ultimately expected to vest, it has been reduced for estimated forfeitures. SFAS 123(R) requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. In our pro-forma information required under SFAS 123 for the periods prior to fiscal 2006, the Company accounted for forfeitures as they occurred.

Prior to the adoption of SFAS 123(R), the Company accounted for stock-based awards to employees and directors using the intrinsic value method in accordance with APB 25. Under the intrinsic value method, the Company recognized share-based compensation equal to the award's intrinsic value at the time of grant over the requisite service periods using the straight-line method. Forfeitures were recognized as incurred.

SAVE THE WORLD AIR, INC. AND SUBSIDIARY (A DEVELOPMENT STAGE ENTERPRISE)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — Continued NINE MONTHS ENDED SEPTEMBER 30, 2006 (UNAUDITED)

The Company's determination of fair value of share-based payment awards to employees and directors on the date of grant using the Black-Scholes model, which is affected by the Company's stock price as well as assumptions regarding a number of highly complex and subjective variables. These variables include, but are not limited to our expected stock price volatility over the term of the awards, and actual and projected employee stock option exercise behaviors.

The Company has elected to adopt the detailed method provided in SFAS 123(R) for calculating the beginning balance of the additional paid-in capital pool ("APIC pool") related to the tax effects of employee stock-based compensation, and to determine the subsequent impact on the APIC pool and Statements of Cash Flows of the tax effects of employee stock-based compensation awards that are outstanding upon adoption of SFAS 123(R).

As of December 31, 2005, there was \$142,187 of total unrecognized compensation costs related to non-vested share-based compensation arrangements granted under the 2004 Stock Option Plan (see Note 9). This cost was written off against Additional Paid-in Capital when SFAS 123(R) was adopted.

The Company accounts for stock option and warrant grants issued to non-employees for goods and services using the guidance of SFAS No. 123 and Emerging Issues Task Force ("EITF") No. 96-18: "Accounting for Equity Instruments that are Issued to Other Than Employees for Acquiring, or in Conjunction with Selling, Goods or Services," whereby the fair value of such option and warrant grants is determined using the Black-Scholes option pricing model at the earlier of the date at which the non-employee's performance is completed or a performance commitment is reached.

Reclassifications

Certain reclassifications of 2005 amounts have been made to conform with the 2006 presentation.

2. Net loss per share

Basic earnings (loss) per share is computed by dividing net income (loss) available to common stockholders by the weighted average number of common shares outstanding during the period. Diluted earnings per share reflects the potential dilution, using the treasury stock method, that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the Company. In computing diluted earnings per share, the treasury stock method assumes that outstanding options and warrants are exercised and the proceeds are used to purchase common stock at the average market price during the period. Options and warrants may have a dilutive effect under the treasury stock method only when the average market price of the common stock during the period exceeds the exercise price of the options and warrants. For the nine months ended September 30, 2006 and 2005, the dilutive impact of outstanding stock options of 7,328,299 and 16,508,561 respectively, and outstanding warrants of 21,183,517 and 19,230,724 have been excluded because their impact on the loss per share is antidilutive.

SAVE THE WORLD AIR, INC. AND SUBSIDIARY (A DEVELOPMENT STAGE ENTERPRISE)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — Continued NINE MONTHS ENDED SEPTEMBER 30, 2006 (UNAUDITED)

3. Recent accounting pronouncements

Statement No. 154

In May 2005, the FASB issued Statement No. 154 ("SFAS 154") "Accounting Changes and Error Corrections — a replacement of APB Opinion No. 20 and FASB Statement No. 3." SFAS 154 changes the requirements for the accounting for and reporting of a change in accounting principle. APB Opinion 20 previously required that most voluntary changes in accounting principle be recognized by including in net income of the period of the change the cumulative effect of changing to the new accounting principle. SFAS 154 requires retrospective application to prior periods' financial statements of changes in accounting principle, unless it is impracticable to determine either the period-specific effects of the cumulative effect of the change. In the event of such impracticality, SFAS 154 provides for other means of application. In the event the Company changes accounting principles, it will evaluate the impact of SFAS 154.

Statement No. 157

FASB Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements, issued in September 2006, establishes a formal framework for measuring fair value under GAAP. It defines and codifies the many definitions of fair value included among various other authoritative literature, clarifies and, in some instances, expands on the guidance for implementing fair value measurements, and increases the level of disclosure required for fair value measurements. Although SFAS No. 157 applies to and amends the provisions of existing FASB and AICPA pronouncements, it does not, of itself, require any new fair value measurements, nor does it establish valuation standards. SFAS No. 157 applies to all other accounting pronouncements requiring or permitting fair value measurements, except for; SFAS No. 123 (R), share-based payment and related pronouncements, the practicability exceptions to fair value determinations allowed by various other authoritative pronouncements, and AICPA Statements of Position 97-2 and 98-9 that deal with software revenue recognition. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years.

Interpretation No. 48

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48 ("FIN 48"), "Accounting for Uncertainty in Income Taxes — an interpretation of FASB Statement No. 109," Accounting for Income Taxes". FIN 48 establishes that the financial statement effects of a tax position taken or expected to be taken in a tax return are to be recognized in the financial statements when it is more likely than not, based on the technical merits, that the position will be sustained upon examination. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company is currently assessing the impact this new standard will have on the consolidated results of operations, financial position, or cash flows.

4. Inventories

At September 30, 2006 inventories consist of \$3,719 of finished goods.

SAVE THE WORLD AIR, INC. AND SUBSIDIARY (A DEVELOPMENT STAGE ENTERPRISE)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — Continued NINE MONTHS ENDED SEPTEMBER 30, 2006 (UNAUDITED)

5. Certain relationships and related transactions

Advances from founding executive officer

All of the marketing and manufacturing rights for the ZEFS were acquired from founding officer Jeffery A. Muller, for 5,000,000 shares of common stock, \$500,000 and a \$10 royalty for each unit sold (see discussion below), pursuant to the Agreement entered into in December 1998, by and between the Company and Mr. Muller. Working capital advances in the amount of \$517,208 and payment in the amount of \$500,000 for marketing and distribution rights of the ZEFS are due to Mr. Muller. Such amounts are interest free and do not have any due dates for payment.

In January 2000, the Company entered into an agreement offering Mr. Muller and Lynne Muller, Mr. Muller's wife, the option to purchase 5,000,000 shares each at \$0.10 per share as consideration for work performed for the Company. Mrs. Muller subsequently transferred her option to Mr. Muller.

In connection with the Company's legal proceedings against Mr. Muller (see Note 11). The Company has canceled (i) the 8,047,403 shares of its common stock held by Mr. Muller and/or his affiliates, (ii) the options to acquire an additional 10,000,000 shares of the Company's common stock held by Mr. Muller personally and (iii) the \$1,017,208 of debt which Mr. Muller claimed was owed to him by the Company.

Loans from related parties

Masry & Vititoe, a law firm in which Edward Masry, the Company's former Chief Executive Officer, was a partner, had advanced \$0 and \$158,732 as of September 30, 2006 and December 31, 2005, respectively, to the Company for working capital purposes. Advances by Masry and Vititoe were unsecured, non-interest bearing, and are due on demand. In April 2006, the Company repaid advances due to Masry and Vititoe of \$158,732.

In 2005, Eugene Eichler, the Company's Chief Executive Officer, advanced \$45,000 to the Company for working capital purposes. These advances were unsecured, bearing interest at 6% per annum and were due on demand. In February 2006, these advances were converted into a convertible note (Note 7).

Interest expense recognized under related-party loans was immaterial for all periods presented Interest expense recognized under related-party loans for the period from inception (February 18, 1998) through September 30, 2006 was \$327.

Lease agreement

During 2003, the Company had entered into a sublease lease agreement with an entity to lease office space for its primary administrative facility. A director of the Company is an indirect owner of the entity.

SAVE THE WORLD AIR, INC. AND SUBSIDIARY (A DEVELOPMENT STAGE ENTERPRISE)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — Continued NINE MONTHS ENDED SEPTEMBER 30, 2006 (UNAUDITED)

In August 2005, the Company amended its sublease of a portion of a building in North Hollywood, California from an entity that is owned by a director of the Company. The lease term was from November 1, 2003 through October 16, 2005 and carried an option to renew for two additional years with a 10 percent increase in the rental rate. Monthly rent under this lease is \$3,740 per month under this lease as amended as of December 31, 2005. The Company exercised its option to renew the lease through October 15, 2007.

In January 2006, the Company amended the existing sublease agreement, as a result of taking more space and obtaining expanded support services. The sublease was amended to July 31, 2007 and carries an option to renew for two additional years with a 10 percent increase in the rental rate. Monthly rent is \$6,208 per month under this amended sublease.

During the three months ended September 30, 2006 and 2005, rent expense under the sublease was \$18,624 and \$10,200, respectively.

During the nine months ended September 30, 2006 and 2005, rent expense under the sublease was \$55,872 and \$23,800, respectively. Lease expense under the sublease prior to 2004 was immaterial.

6. Equity line of credit

In September 2006, the Company entered into what is sometimes termed an equity line of credit arrangement. Under the line of credit the Company may, but is not obligated to, put shares of common stock from time to time over a 36-month period, at a purchase price calculated at 97% of the lowest best closing bid for the Company's common stock for the five trading days following the put notice. The Company may draw up to \$10,000,000 under the line of credit. Because the price of the common stock fluctuates and the number of shares of common stock, if any, that the Company may issue, should exercise the put rights under the equity line of credit, will vary, the Company does not know how many shares, if any, will actually issue under the equity line of credit. As of September 30, 2006, the Company has registered and made available 7,000,000 shares of common stock for possible future draws under the line of credit.

As of September 30, 2006 the Company has not drawn down any portion of this commitment, leaving the entire \$10,000,000 available under the equity line of credit (see Note 13).

7. Convertible debentures

During the year ended December 31, 2005, the Company completed the first part of a private offering of its 9% Convertible Notes due at dates ranging between May 31, 2006 and July 31, 2006 (the "Notes") and Warrants to purchase shares of the Company's common stock which expire between August 31, 2007 and December 28, 2007 (the "Warrants"). The Notes are convertible at \$0.70 per share of common stock and the Warrants entitle the holder to purchase a number of shares of the Company's common stock equal to 150% of the number of shares of common stock into which the Note is convertible. The Warrants are exercisable at a price of \$1.00 per share.

SAVE THE WORLD AIR, INC. AND SUBSIDIARY (A DEVELOPMENT STAGE ENTERPRISE)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — Continued NINE MONTHS ENDED SEPTEMBER 30, 2006 (UNAUDITED)

During the year ended December 31, 2005, the Company issued Notes totaling \$1,576,378 and paid related transaction fees of \$123,196, resulting in net proceeds to the Company of \$1,453,182. In addition to the cash paid for transaction fees, 166,126 additional Warrants were issued to certain placement agents. These Warrants expire between August 31, 2007 and December 28, 2007 and are exercisable at a price of \$1.00 per share.

The aggregate value of the Warrants issued in connection with the offering and to the finder were valued at \$696,413 using the Black-Scholes option valuation model with the following assumptions; risk-free interest rate of 4.02% to 4.45%; dividend yield of 0%; volatility factors of the expected market price of common stock of 83.59%; and an expected life of two years (statutory term). The company also determined that the notes contained a beneficial conversion feature of \$756.768.

The value of the Warrants of \$696,413, the conversion option of \$756,768, and the transaction fees of \$123,196 are considered as debt discount and are being amortized over the life of the Notes. During 2005, \$318,759 of such discount has been amortized and included in the accompanying statements of operations. The remaining unamortized debit discount as of December 31, 2005 of \$1,257,619 has been netted against the convertible debentures in the accompanying balance sheet.

During the nine months ended September 30, 2006, the Company issued additional Notes totaling \$1,000,000 which included the conversion of \$45,000 of debt owed to the Company's Chief Financial Officer. The Company paid related transaction fees of \$89,500 resulting in net proceeds to the Company of \$865,500. In addition to the cash paid for transaction fees, 117,857 additional Warrants were issued to certain placement agents. These Warrants expire between August 31, 2007 and February 9, 2008 and are exercisable at a price of \$1.00 per share.

The aggregate value of the Warrants issued in connection with the offering and to the finder were valued at \$620,252 using the Black-Scholes option valuation model with the following assumptions; risk-free interest rate of 4.35% to 4.66%; dividend yield of 0%; volatility factors of the expected market price of common stock of 130.61%; and an expected life of two years (statutory term). The company also determined that the notes contained a beneficial conversion feature of \$290,248.

The value of the Warrants of \$620,252, the conversion option of \$290,248, and the transaction fees of \$89,500 are considered as debt discount and are being amortized over the life of the Notes.

For the three and nine months ended September 30, 2006, \$143,795 and 2,257,620 of the total discount has been amortized and included in the accompanying statement of operations.

During the three months ended September 30, 2006, \$1,127,658 of the Notes plus \$112 of interest were converted to 1,611,100 shares of stock at \$0.70 per share.

During the nine months ended September 30, 2006, all of the convertible notes in the amount of \$2,576,379 of the Notes were converted to 3,680,540 shares of stock at \$0.70 per share. In addition, \$3,707 of accrued interest was converted to 5,296 shares at \$0.70 per share.

SAVE THE WORLD AIR, INC. AND SUBSIDIARY (A DEVELOPMENT STAGE ENTERPRISE)

8. Capital stock

As of September 30, 2006, the Company has authorized 200,000,000 shares of its common stock, of which 39,317,620 shares were issued and outstanding.

During the year ended December 31, 2005, the Company issued 1,599,500 units of common stock, which consisted of one share of common stock and one warrant to acquire a share of common stock at an exercise price of \$1.50 per share, for net proceeds of \$1,490,660. The 1,599,500 warrants were issued to investors as part of an equity agreement and were not ascribed any value in the accompanying financial statements. Of the 1,599,500 shares issued, the Company issued 69,000 shares of common stock for which payment was previously received. The Company also issued 50,500 shares for the exercise of warrants, 50,000 of which payment was previously received.

The warrants issued above were part of a private offering of 2,872,000 units that began July 29, 2004 and concluded on July 22, 2005. The expiration date of each of the warrants was previously extended by one hundred eighty (180) days from its original expiration date. On February 6, 2006, the Company extended the expiration date for each of the warrants by an additional one hundred eighty-five (185) days, for a total extension of one year from its original expiration date.

During the year ended December 31, 2005, the Company agreed to issue 846,548 shares in settlement of accrued expenses of \$612,521. These shares were reflected as common stock to be issued in the accompanying December 31, 2005 financial statements, and were subsequently issued in 2006.

In April 2006, the Company sold an aggregate 473,000 shares of common stock and warrants to purchase 118,250 additional shares of common stock at \$2.60 per share, to two investors who are not "U.S. persons" as that term is defined in Rule 902 of Regulation S promulgated under the Securities Act of 1933, as amended. Gross proceeds to the Company in connection with these issuances were \$737,881 and net proceeds were \$667,803.

In May 2006, the Company sold an aggregate 873,018 shares of common stock and warrants to purchase 436,511 additional shares of common stock at \$2.70 per share, for an aggregate \$1,650,009 gross proceeds (\$1,435,508 net proceeds). In addition, warrants exercisable for 87,302 shares of the Company's common stock were issued to the Company's placement agent.

During the nine months ended September 30, 2006, individuals exercised outstanding warrants to purchase 2,118,452 shares of common stock for net proceeds of \$1,518,327.

SAVE THE WORLD AIR, INC. AND SUBSIDIARY (A DEVELOPMENT STAGE ENTERPRISE)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — Continued NINE MONTHS ENDED SEPTEMBER 30, 2006 (UNAUDITED)

9. Stock options and warrants

The Company currently issues stock options to employees, directors and consultants under the 2004 Stock Plan (the Plan). As of December 31, 2005, the Company could issue options under the Plan to acquire up to 5,000,000 shares of common stock. In February 2006, the board approved an amendment to the Plan, increasing the authorized shares by 2,000,000 shares to 7,000,000 shares. At September 30, 2006 and December 31, 2005, 2,921,701 and 1,741,439, respectively, were available to be granted under the Plan. Prior to 2004, the Company granted outside the Plan 3,250,000 options to officers of the Company that are still outstanding.

Employee options vest according to the terms of the specific grant and expire from 5 to 10 years from date of grant. Non-employee option grants to date are vested upon issuance. The weighted-average, remaining contractual life of employee options outstanding at September 30, 2006 and December 31, 2005 was 5.28 years and 5.26 years, respectively. Stock option activity for the nine months ended September 30, 2006 and the year ended December 31, 2005 was as follows, which includes 3,250,000 options granted outside the Plan:

	Weighted Avg. Options	Weighted Avg. Exercise Price
Options, January 1, 2004	13,250,000	0.11
Options granted	1,172,652	1.03
Options exercised	_	_
Options cancelled		
Options, December 31, 2004	14,422,652	0.18
Options granted	2,085,909	0.92

Intrinsic value of employee options

During 2004 and prior, certain employee options were granted with exercise prices less the than fair market value of the Company's stock at the date of grant. As the grants were to employees, the intrinsic value method, as allowed under APB No. 25, was used to calculate the related compensation expense. For the year ended December 31, 2004, the Company granted 1,172,652 options to certain employees, exercisable at amounts ranging from \$0.98 to \$1.27, vested over one year with a ten-year life, except for 78,740 options issued to an employee who is a 10 percent beneficial owner of the Company. The life of these options is 5 years. Options granted in 2004 were valued using the intrinsic method at \$248.891.

During the year ended December 31, 2005, certain employee options were granted with exercise prices less the than fair market value of the Company's stock at the date of grant. As the grants were to employees, the intrinsic value method was used to calculate the related compensation expense. For the year ended December 31, 2005, the Company granted 2,085,909 options to certain employees, exercisable at amounts ranging from \$0.85 to \$1.10, vested over one year with a ten-year life, except for 90,909 options issued to an employee who is a 10 percent beneficial owner of the Company. The life of these options is 5 years. Options granted in 2005 were valued using the intrinsic method at \$243,750.

During the nine months ended September 30, 2005, and during the year ended December 31, 2005, the Company recognized compensation expense by amortizing deferred compensation of \$116,693, and \$177,631, respectively.

SAVE THE WORLD AIR, INC. AND SUBSIDIARY (A DEVELOPMENT STAGE ENTERPRISE)

During the year ended December 31, 2005, the Company issued 10,000 warrants to an individual for settlement of a claim. The Company also issued 25,000 warrants to an individual in exchange for consulting services rendered. The warrants were valued at an aggregate amount of \$18,462 using the Black Scholes pricing model using 3-year and 5-year respective terms (statutory terms), 58.69% volatility, no annual dividends, and a discount rate of 3.55% and 4.13%, respectively.

SAVE THE WORLD AIR, INC. AND SUBSIDIARY (A DEVELOPMENT STAGE ENTERPRISE)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — Continued NINE MONTHS ENDED SEPTEMBER 30, 2006 (UNAUDITED)

During February 2006, the Company issued 250,000 performance based warrants to an outside consultant. These warrants are to be exercisable at \$.40 per share, are fully vested and exercisable immediately. These warrants were valued at \$401,130 using the Black-Scholes option valuation model with the following assumptions: risk-free interest rate of 4.59%, dividends yield of 0%, volatility factors of the expected market price common of 130.61%, and an expected life of five years.

In April 2006, the Company entered into a one-year agreement with an outside consultant to provide public relations services. The terms of the agreement calls for monthly payments of \$7,000. Additionally, the Company issued a five-year warrant to the consultant. The warrant is exercisable for up to 100,000 shares of common stock at an exercise price of \$2.30 per share and vests as to 8,333 shares per month commencing April 30, 2006. The shares issuable upon exercise of the warrant have piggyback registration rights. In August 2006, the Company terminated the agreement. The consultant earned 41,665 warrants and the remaining balance of 58,335 has forfeited.

10. Research and development

The Company has research and development facilities in Morgan Hill, California and Queensland, Australia. The Company has expanded research and development to include application of the ZEFS, MK IV and CAT-MATE technologies for diesel engines, motorbikes, boats, generators, lawnmowers and other small engines. The Company has purchased test vehicles, test engines and testing equipment. The Company has completed testing on products incorporating its ZEFS, MK IV and CAT-MATE technologies for multiple automobiles, trucks motorcycles, off-road vehicles and stationary engines, the results of which have been provided to RAND Corporation (RAND) for evaluation. RAND oversees the research and development facilities. The Company also uses third party research and development facilities in Los Angeles, California for the development of the ZEFS and CAT-MATE devices. The Company spent \$95,608 and \$452,571 for the three months ended September 30, 2006 and 2005, respectively. The Company spent \$274,713 and \$1,066,068 for the nine months ended September 30, 2006 and 2005, respectively.

11. Going concern

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. As reflected in the accompanying financial statements, the Company had a net loss of \$7,951,355 and a negative cash flow from operations of \$4,006,757 for the nine months ended September 30, 2006, and had a working capital deficiency of \$340,704 and a stockholders' equity of \$25,815 at September 30, 2006. These factors raise substantial doubt about its ability to continue as a going concern. The ability of the Company to continue as a going concern is dependent upon the Company's ability to raise additional funds and implement its business plan. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

12. Commitments and contingencies

Legal matters

On December 19, 2001, the SEC filed civil charges in the United States Federal District Court, Southern District of New York, against us, the Company's former President and then sole director Jeffrey A. Muller, and others, alleging that the Company and the other defendants were engaged in a fraudulent scheme to promote our stock. The SEC complaint alleged the existence of a promotional campaign using press releases, Internet postings, an elaborate website, and televised media events to disseminate false and materially misleading information as part of a fraudulent scheme to manipulate the market for stock in the corporation, which was then controlled by Mr. Muller. On March 22, 2002, the Company signed a consent to final judgment of permanent injunction and other relief in settlement of this action as against the corporation only, which the court approved on July 2, 2002. Under this settlement, the Company was not required to admit fault and did not pay any fines or restitution. The SEC's charges of fraud and stock manipulation continue against Mr. Muller and others.

On July 2, 2002, after an investigation by the Company's newly constituted board of directors, the Company filed a cross-complaint in the SEC action against Mr. Muller and others seeking injunctive relief, disgorgement of monies and stock and financial restitution for a variety of acts and omissions in connection with sales of the Company's stock and other transactions occurring between 1998 and 2002. Among other things, the Company alleged that Mr. Muller and certain others sold company stock without providing adequate consideration to the Company; sold insider shares without making proper disclosures and failed to make necessary filings required under federal securities laws; engaged in self-dealing and entered into various undisclosed related-party transactions; misappropriated for their own use proceeds from sales of the Company's stock; and entered into various undisclosed arrangements regarding the control, voting and disposition of their stock. The Company contends that it is entitled to a judgment canceling all of the approximately 8,716,710 shares of the Company's common stock that were previously obtained and controlled, directly or indirectly, by Mr. Muller; divesting and preventing any subsequent holders of the right to exercise options previously held by Mr. Muller for 10,000,000 shares of the Company's common stock, conversion of an existing preliminary injunction to a permanent injunction to prevent Mr. Muller from any involvement with the Company and a monetary judgment against Mr. Muller and others in the amount of several million dollars.

In the course of the litigation, the Company has obtained ownership control over Mr. Muller's claimed patent rights to the ZEFS device. Under a Buy-Sell Agreement between Mr. Muller and the Company dated December 29, 1998, Mr. Muller, who was listed on the ZEFS device patent application as the inventor of the ZEFS device, purported to grant us all international marketing, manufacturing and distribution rights to the ZEFS device. Those rights were disputed because an original inventor of the ZEFS device contested Mr. Muller's legal ability to have conveyed those rights.

SAVE THE WORLD AIR, INC. AND SUBSIDIARY (A DEVELOPMENT STAGE ENTERPRISE)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — Continued NINE MONTHS ENDED SEPTEMBER 30, 2006 (UNAUDITED)

In Australia, Mr. Muller entered into a bankruptcy action seeking to overcome the Company's claims for ownership of the ZEFS device. In conjunction with these litigation proceedings, a settlement agreement was reached whereby the \$10 per unit royalty previously due to Mr. Muller under his contested Buy-Sell Agreement was terminated and replaced with a \$.20 per unit royalty payable to the bankruptcy trustee. On November 7, 2002, under a settlement agreement executed with the Mr. Muller's bankruptcy trustee, the trustee transferred to the Company all ownership and legal rights to this international patent application for the ZEFS device.

Both the SEC and the Company have filed Motions for Summary Judgment contending that there are no material issues of fact in contention and as a matter of law, the Court should grant a judgment against Mr. Muller and the cross-defendants. Mr. Muller has filed a response contending the motions are without merit or substance.

Mr. Muller and several of the defendants filed a Motion to Dismiss the complaint filed by the Company and moved for summary judgment in their favor. On December 21, 2004, Judge George B. Daniels denied the cross-defendants' motion to dismiss the Company's cross-complaint, denied the request to vacate the July 2, 2002 preliminary injunction and denied the request for damages against the Company. The court also refused to grant a summary judgment in favor of the cross-defendants and dismissed Mr. Muller's claims against the Company for indemnification for his legal costs and for damages resulting from the litigation. Neither Mr. Muller nor any of the cross-defendants have filed any cross-claims against the Company and the Company is not exposed to any liability as a result of the litigation, except for possibly incurring legal fees and expenses should the Company lose the litigation.

On November 16, 2005, the Court granted the SEC's motion for summary judgment. In granting the motion, the Court has barred Mr. Muller from serving as an officer or director of a public company for a period of 20 years, ordered Mr. Muller to disgorge any shares of our stock that he still owns and directed the Company to cancel any issued and outstanding shares of our stock still owned by Mr. Muller. Mr. Muller was also ordered to disgorge to the SEC unlawful profits in the amount of \$7.5 million and a pay a civil penalty in the amount of \$100,000. Acting in accordance with the Court's order, the Company has canceled (i) 8,047,403 shares of its common stock held by Mr. Muller and/or his affiliates, (ii) options to acquire an additional 10,000,000 shares of the Company's common stock held by Mr. Muller personally and (iii) \$1,017,208 of debt which Mr. Muller claimed was owed to him by the Company.

In response to the November 16, 2005 decision by the Court, Muller filed a motion seeking to set aside the decision and order of the Court. On March 31, 2006, the Court issued a decision and order denying Muller's motion to set aside the decision on summary judgment issued against Muller on November 16, 2005.

SAVE THE WORLD AIR, INC. AND SUBSIDIARY (A DEVELOPMENT STAGE ENTERPRISE)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — Continued NINE MONTHS ENDED SEPTEMBER 30, 2006 (UNAUDITED)

On October 27, 2006, Magistrate Judge Frank Maas, Federal District Court of the Southern District of New York, issued an order granting summary judgment in favor of the Company. The ruling provided that all shares, options and any other obligations allegedly owed by the Company to Jeffrey A. Muller, its former Chairman, were to be disgorged. The ruling also confirmed an earlier decision issued on November 16, 2005 in favor of the SEC holding Mr. Muller liable for \$7.5 million in actual damages, imposing a \$100,000 fine and barring Muller from any involvement with a publicly traded company for 20 years. With prejudgment interest, this ruling brings the actual damages against Muller to over \$9 million. Additionally, the Court further clarified that the scope of its previous disgorgement order required the disgorgement of any shares of the Company's stock that Mr. Muller or any of his nominees directly or indirectly own or control. The Company has taken action to cancel over 3.6 million shares which had been issued to the offshore companies.

The Court also confirmed the appropriateness of an action previously taken by the Company to acquire the patent rights and to consolidate the manufacturing, marketing and distribution rights with its ownership of all rights to the existing patents.

Finally, the Court ruled that Mr. Muller had no claim to an alleged \$500,000 debt owed to him while damages of over \$9 million remain unpaid. The Court also ruled that other assets that were transferred by Mr. Muller to members of his family through various offshore corporations were also to be disgorged. Because the Court left unresolved an issue concerning claims against one Muller family member, it is expected that the Company will seek a modification of the order. With this exception, this order provides the complete relief requested by the Company in its motion for summary judgment.

In April 2005, Jeffrey A. Muller, the Company's former sole director and executive officer, filed a lawsuit in the Federal District Court for the Central District of California, seeking declaratory and injunctive relief and alleging unfair competition in connection with a claimed prior patent interest in the ZEFS device and stock option rights. In seeking declaratory relief, Mr. Muller is seeking to have the patent rights in the ZEFS device that were previously transferred to the Company by Mr. Muller's bankruptcy trustee declared null and void.

This lawsuit brought by Mr. Muller arises out of the same claims that are the subject of ongoing litigation in the Federal District Court for the Southern District of New York, in which the Company has previously obtained a preliminary injunction against Mr. Muller barring him from any involvement with the Company and preventing Mr. Muller, his agents or assigns, from exercising any claimed rights to the Company's assets or stock. Mr. Muller previously filed the same complaint in the Federal District Court for the Southern District of New York, which claim is pending dismissal. On December 28, 2004, Federal District Court Judge George B. Daniels issued a decision dismissing motions filed by Mr. Muller against the Company's cross-claims. The dismissal of those motions involved similar causes of action as those contained in Mr. Muller's recent lawsuit commenced in the Federal District Court for the Central District of California. Since the case in New York is still pending, the filing of the new lawsuit in California is subject to various defenses which should result in the dismissal of the new lawsuit.

SAVE THE WORLD AIR, INC. AND SUBSIDIARY (A DEVELOPMENT STAGE ENTERPRISE)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — Continued NINE MONTHS ENDED SEPTEMBER 30, 2006 (UNAUDITED)

On January 25, 2006, Mr. Muller's complaint, filed in the California District Court and transferred to the Federal Court in the Southern District of New York, was assigned to Judge George B. Daniels. It is expected that the Court will consolidate that complaint with the already pending claims encompassed within the Company's Motion for Summary Judgment. While the Company believes that it will have valid claims and defenses, there can be no assurance that an adverse result or outcome on the pending motions or a trial of this case would not have a material adverse effect on the Company's financial position or cash flow.

13. Subsequent events

As of the date of the filing of this report, we have drawn down \$123,818 of this commitment, leaving \$9,876,182 available under the equity line of credit, and for which we filed a registration statement, registering 7,000,000 shares, or approximately 17.8% of our issued and outstanding stock before any such issuances, with the SEC. The SEC declared the registration statement that we filed effective on October 30, 2006. As of the date of the filing of this report, we have issued to Dutchess 101,771 shares of our common stock in connection with drawdowns under the equity line of credit.

As of November 7, 2006, individuals exercised outstanding warrants, at prices ranging from \$0.50 per share, to purchase an additional 210,000 shares for an aggregate \$105,000 gross and net proceeds.

On November 9, 2006, Eugene E. Eichler resigned as Chief Executive Officer and Chief Financial Officer, due to a medical disability. Mr. Eichler's resignation as Chief Executive Officer takes effect on November 20, 2006 and his resignation as Chief Financial Officer takes effect on the earlier to occur of (i) the appointment of his successor or (ii) January 31, 2007. Mr. Eichler will continue to serve as a director of the Company.

Under the terms of Mr. Eichler's separation as an officer of the Company, he is entitled to be paid out the remainder of the cash portion of his employment agreement through December 31, 2007, in accordance with the Company's normal pay policies. Options granted to him in February 2006 have been accelerated and will fully vest on November 20, 2006; additionally, Mr.Eichler will have until November 20, 2007 to exercise such options. Mr. Eichler is also entitled to receive a stock option grant in 2007 equal to the lesser of (i) the number of stock options Mr. Eichler was granted in 2006 or (ii) the highest number of options granted to any of the then Chief Executive Officer, President or Chief Financial Officer on an annualized basis, on terms no less favorable as granted to such person; provided, however, that such options to be granted to Mr. Eichler shall be fully vested upon grant and shall be exercisable for one year from the date of grant. The Company and Mr. Eichler have waived any claims they may have against each other and have agreed to mutual indemnification.

On November 9, 2006, the Board of Directors named Bruce H. McKinnon, the Company's President, as Chief Executive Officer, effective November 20, 2006. Mr. McKinnon will retain the position of President. The Board of Directors also named John Richard Bautista III, the Company's Executive Vice President of Operations, as Chief Operating Officer, effective November 20, 2006.

Item 2. Management's Discussion and Analysis or Plan of Operations

This Quarterly Report on Form 10-QSB contains forward-looking statements. These forward-looking statements include predictions regarding our future:

- · revenues and profits;
- · customers;
- research and development expenses and efforts;
- · scientific test results:
- · sales and marketing expenses and efforts;
- · liquidity and sufficiency of existing cash;
- · pending and future financings;
- · the success of new product development;
- market acceptance and commercial viability of our existing and new products;
- · the outcome of pending or threatened litigation; and
- · the effect of recent accounting pronouncements on our financial condition and results of operations.

You can identify these and other forward-looking statements by the use of words such as "may," "will," "expects," "anticipates," "believes," "estimates," "continues," or the negative of such terms, or other comparable terminology. Forward-looking statements also include the assumptions underlying or relating to any of the foregoing statements.

Our actual results could differ materially from those anticipated in these forward-looking statements as a result of various factors, including those set forth under the heading "Risk Factors" in our Annual Report on Form 10-KSB for the year ended December 31, 2005. All forward-looking statements included in this document are based on information available to us on the date hereof. We assume no obligation to update any forward-looking statements.

Overview

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the Financial Statements and notes thereto included in Part I, Item 1 of this Form 10-QSB and the Financial Statements and notes thereto contained in our Annual Report on Form 10-KSB for the fiscal year ended December 31, 2005.

We are a development stage company that has not yet generated revenues. Historically, we devoted the bulk of our efforts to the completion of the design, the development of our production models and the promotion of our products in the marketplace worldwide. Our products, based on our ZEFSTM, MK IVTM and CAT-MATE® technologies, are designed to reduce harmful emissions and/or improve fuel efficiency and overall performance on equipment and vehicles driven by internal combustion engines.

We have taken actions to secure our intellectual property rights to the ZEFS, MK IV and CAT-MATE technologies. We are currently negotiating to secure a license covering certain United States and Canadian patents held by a third party. These patents include claims purporting to cover certain features incorporated in some of our products. We expect to complete these negotiations and execute a non-exclusive license agreement with this third party in the near future. In order to continue to secure our intellectual property rights in the future, we may be required to take further actions, including seeking other patent licenses and prosecuting or defending infringement claims.

During 2005 and continuing in 2006, we began to focus on the initial marketing of our products. We entered into the first agreements for the distribution of our products in late 2005 and early 2006. Our first two U.S. distributorship agreements with Team Phantom of Alaska and Motorcycle Products Consulting, or MPC, of California, provides for the sale of products incorporating our ZEFS technologies in the North American original equipment manufacturer, or OEM, and after-market for motorcycles through the distributors to certain named prospective purchasers.

In January 2006, we entered into our first international distributorship agreement, with Golden Allied Enterprises (Group) Co., Ltd., or GAE. The agreement provides that GAE will serve as our exclusive distributor for products incorporating our ZEFS or CAT-MATE technologies in the People's Republic of China. The agreement with GAE was conditioned upon our ZEFS-based products achieving EURO2 standards in tests to be conducted in Shanghai. These tests were conducted and passed in April 2006.

In July 2006, GAE placed its first order under the distributorship agreement, for 100,000 units, to be shipped in installments between now and July 2007. These products are in production and we anticipate that we will begin delivering products under the agreement to GAE commencing in November 2006, and will begin generating revenue in late 2006.

In April 2006, we entered into a product development agreement with Kwong Kee (Qing Xin) Environmental Exhaust Systems Company, Ltd., or Kwong Kee, in China. Kwong Kee, a manufacturer of mufflers and catalytic converters, will collaborate with us on product development based on our CAT-MATE technology. As part of our strategic alliance, Kwong Kee will make available its research and development facilities, testing equipment and product design and development support team.

In July 2006, we entered into an agreement with Quadrant Technology L.P., or Quadrant, pursuant to which Quadrant will provide product development services for our products. Under this agreement, Quadrant was also granted a right of first refusal to manufacture products incorporating our ZEFS or MKIV technologies.

Also in July 2006, we entered into an agreement with Marketing Matters, Inc. to provide exclusive agency services in the United States for advertising, marketing, industry and trade show promotion, as well as packaging design services. We entered into a separate agreement with SS Sales and Marketing Group, to provide marketing and promotional services in the western United States and western Canada for our products.

As part of our ongoing product development, we are in the process of launching two new product lines, ECO ChargR™ and MAG ChargR™, which we differentiate

based on their differing magnetic fluxes and their applications. ECO ChargR products will be more focused toward reduction in emissions and MAG ChargR products will be more focused toward performance and fuel economy. ECO ChargR products will tend to incorporate MK IV technology, but may incorporate ZEFS technologies, while MAG ChargR products will tend to incorporate ZEFS technologies, but may incorporate MK IV technology.

The ECO ChargR product line incorporates our ZEFS or MK IV technologies, and is intended specifically for the reduction of exhaust emissions in vehicle and small utility motors. These products will be marketed primarily to OEMs as well as pilot and government-mandated emissions programs.

The MAG ChargR product line incorporates our ZEFS or MK IV technologies, as well as other power enhancing features, to exploit the power and mileage improving attributes of our magnetic technologies. MAG ChargR will be marketed primarily to the consumer aftermarket for many vehicles, including but not limited to cars, trucks, motorcycles, scooters, all terrain vehicles (ATVs), snowmobiles, personal watercrafts and small utility motors.

In October 2006, subsequent to the end of the third quarter, we appointed PT Carbon Credit Indonesia, or PT CCI, to serve as our exclusive distributor for products incorporating our MAG ChargR, ECO ChargR and CAT-MATE technologies in Indonesia. Our wholly-owned subsidiary, STWA Asia Pte. Limited, and PT CCI have entered into a distribution agreement under which PT CCI has agreed to establish a letter of credit to support its initial order of 10,000 units, which order will be placed before November 30, 2006. The distribution agreement provides that PT CCI is required to purchase 600,000 units over a five-year period in order to remain the exclusive distributor of our products in Indonesia.

In addition, we are continuing our marketing efforts to international governmental entities in cooperation with the United Nations Environmental Programme (UNEP) and various OEMs and the aftermarket to sell or license products using our ZEFS and CAT-MATE technologies. We anticipate that these efforts will continue during the remainder of 2006.

In July 2004, we entered into a license agreement with Temple University, for a research project with Dr. Rongjia Tao as principal investigator. That project and the related products involve the development and commercialization of underwater and cold temperature applications for improving oil flow under different temperature and pressure conditions. Under the license agreement, we hold the worldwide exclusive rights to this technology. On May 14, 2004, we filed a patent application in Australia (Method and Apparatus for a Treatment of Fuel), which was subsequently assigned by us to Temple University as part of the license agreement. An additional patent application was recently filed covering several of the Gulf states. As a result of Dr. Tao's recent publicly-reported progress in reducing viscosity of crude oil with magnetic pulses, we believe that this technology may have commercial viability and we are pursuing partners, distributors and licensees in the United States, Gulf states region and Eastern Europe for products incorporating this technology.

Expenses have been funded primarily through the sale of stock and convertible debt. We have raised capital in 2006 and will need to raise additional capital in 2006, and possibly beyond, to fund our sales and marketing efforts, continuing research and development, and certain other expenses, until our revenue base grows sufficiently.

In September 2006, we entered into what is sometimes termed an equity line of credit arrangement with Dutchess Private Equities Fund, L.P., or Dutchess. Specifically, we entered into an investment agreement, pursuant to which Dutchess is committed to purchase up to \$10,000,000 of our common stock over the 36-month term of the investment agreement. We are not obligated to request any portion of the \$10,000,000. As of the date of the filing of this report, we have drawn down \$115,462 of this commitment, leaving \$9,884,538 available under the equity line of credit. See "Liquidity and Capital Resources" below.

Since February 2, 2006, our common stock has been quoted on the Over-the-Counter Bulletin Board under the symbol "ZERO".

Results of Operations

To date, we have not generated any revenues and our business continues in the development stage. We have focused our efforts on verifying and developing our technologies and products and commencing marketing efforts for their sale. We expect to begin generating revenue in the fourth quarter 2006.

General and administrative expenses were \$1,718,614 for the three-month period ended September 30, 2006, compared to \$730,817 for the three-month period ended September 30, 2005, an increase of \$987,797. This increase is attributable to increases in non-cash expenses in the amount of \$614,591 and increases in cash expenses in the amount of \$373,206. The non-cash increases are the revaluation of options and warrants amounting to \$572,931 and depreciation of \$41,660. Increases in cash expenses were made up of salaries, benefits and consulting fees of \$82,806; professional fees of \$104,084; marketing and exhibits of \$78,260; travel of \$52,129; rent and utilities of \$23,530 and \$32,397 of other office expenses.

General and administrative expenses were \$5,326,222 for the nine-month period ended September 30, 2006, compared to \$1,954,348 for the nine-month period ended September 30, 2005, an increase of \$3,371,874. This increase is attributable to increases in non-cash expenses in the amount of \$2,200,806 and increases in cash expenses in the amount of \$1,171,068. The non-cash increases are the revaluation of options and warrants amounting to \$2,106,465 and depreciation of \$94,341. Increases in cash expenses were made up of salaries, benefits and consulting fees of \$451,941; professional fees of \$276,700; marketing and exhibits of \$89,760; travel of \$111,201; rent and utilities of \$82,223; corporate expense of \$52,094 and \$107,149 of other office expenses.

Research and development expenses were \$95,608 for the three-month period ended September 30, 2006, compared to \$452,571 for the three-month period ended September 30, 2005, a decrease of \$356,963. This decrease is primarily due to a decrease in research expenses by RAND Corporation of \$324,277; a decrease in expenses at our

Australian R&D center of \$42,997, offset in part by increases in expenses of \$10,311 at our Morgan Hill R&D center.

Research and development expenses were \$274,713 for the nine-month period ended September 30, 2006, compared to \$1,066,068 for the nine-month period ended September 30, 2005, a decrease of \$791,355. This decrease is primarily due to a decrease in research expense by RAND Corporation of \$785,000; a decrease in expenses at our Australian R&D center of \$80,510, offset in part by increases in expenses of \$74,155 at our Morgan Hill R&D center.

Other income (expense) was \$(146,803) for the three-month period ended September 30, 2006, compared to \$(28,270) for the three-month period ended September 30, 2005, an increase of \$118,533. This increase is attributable to an increase in non-cash interest expense in the amount of \$121,729, offset by a decrease in cash interest expense of \$2,770 and an increase in other income of \$5,966.

Other income (expense) was \$(2,349,620) for the nine-month period ended September 30, 2006, compared to \$(28,839) for the nine-month period ended September 30, 2005, an increase of \$2,320,781. This increase is attributable to an increase in non-cash interest expense in the amount of \$2,235,554; an increase in cash interest expense of \$98,294, offset by an increase in other income of \$13,067.

We expect our operating expenses to increase during the balance of fiscal year 2006, primarily as a result of increases in marketing and sales activities.

We had a net loss of \$1,961,025, or \$0.05 per share for the three-month period ended September 30, 2006, compared to a net loss of \$1,211,658, or \$0.03 per share for the three-month period ended September 30, 2005. We had a net loss of \$7,951,355, or \$0.23 per share for the nine-month period ended September 30, 2006, compared to a net loss of \$3,051,231, or \$0.08 per share for the nine-month period ended September 30, 2005. We expect to incur additional net loss in the fiscal year ending December 31, 2006, primarily attributable to continued marketing-related expenditures without the benefit of any significant revenue for the remainder of the year.

Liquidity and Capital Resources

We have incurred negative cash flow from operations in the development stage since our inception in 1998. As of September 30, 2006, we had cash of \$433,496 and an accumulated deficit of \$28,197,429. Our negative operating cash flow since inception has been funded primarily through the sale of common stock, issuance of convertible debt, and, to a lesser degree, by proceeds we received from the exercise of options and warrants.

The financial statements accompanying this Report have been prepared on a going concern basis, which contemplates the realization of assets and settlement of liabilities and commitments in the normal course of our business. As reflected in the

accompanying financial statements, we had a net loss of \$1,961,025 and negative cash flow from operations of \$1,556,864 for the three-month period ended September 30, 2006, a net loss of \$7,951,355 and negative cash flow from operations of \$4,006,757 for the nine-month period ended September 30, 2006 and a stockholders equity of \$25,815 as of September 30, 2006. These factors raise substantial doubt about our ability to continue as a going concern. Our ability to continue as a going concern is dependent on our ability to raise additional funds and implement our business plan. The financial statements do not include any adjustments that might be necessary if we are unable to continue as a going concern.

As of September 30, 2006, our expenses ran, and are expected to continue to run, at a "burn rate" of approximately \$400,000 per month. Our current capital resources are limited and we will require additional capital in order to operate. We anticipate that at least a portion of our cash flow needs will be satisfied by the exercise of outstanding warrants to purchase our common stock, at variable prices, which are coming due at various times this year. In addition, we have entered into a \$10 million finance facility, sometimes referred to as an equity line of credit, with Dutchess, to provide funding for operations, the terms of which facility are described in more detail below.

In 2005, we sold an aggregate principal amount of \$1,501,378 of our 9% convertible subordinated notes (the "Investor Notes") due July 31, 2006, to certain investors. All of the Investor Notes in the aggregate principal amount of \$1,501,378 and \$3,707 of accrued interest were converted voluntarily by the holders of the Investor Notes into an aggregate 2,150,122 shares of our common stock, at a conversion price of \$0.70 per share. Of these amounts, subsequent to the end of the three-month period ended June 30, 2006 and prior to the maturity date of the Investor Notes, \$1,127,658 aggregate principal amount of Investor Notes (representing 100% of the outstanding principal amount of the then-outstanding notes) and \$112 of accrued interest, were converted voluntarily by the holders of the Investor Notes into 1,611,100 shares of our common stock, at a conversion price of \$0.70 per share.

In late 2005 and early 2006, we conducted an offering (the "Bridge Offering") and sold an aggregate \$1,075,000 principal amount of our 9% convertible subordinated notes (the "Bridge Notes") and issued warrants ("Bridge Warrants") to purchase up to 2,303,568 shares of our common stock at \$1.00 per share, to certain investors. Net proceeds to us from the sale of the Bridge Notes were \$935,250. All of the Bridge Notes were converted voluntarily by the holders of the Bridge Notes into 1,535,715 shares of our common stock (the "Bridge Shares"), at a conversion price of \$0.70 per share, on or prior to the maturity date of the Bridge Notes on May 31, 2006.

In 2006, we have raised capital through the sale of our common stock, to provide some of the funds necessary to continue to execute on our business plan. In April, 2006, we conducted an offering (the "Overseas Offering") and sold 473,000 shares of our common stock at \$1.56 per share and issued warrants to purchase up to 118,250 shares of our common stock at an exercise price of \$2.60 per share, to two overseas investors. We raised \$737,881 gross proceeds (\$667,803 net proceeds) in this offering.

In May 2006, we conducted an offering (the "PIPE Offering") and sold 873,018 shares of our common stock (the "PIPE Shares") at \$1.89 per share and issued warrants

(the "PIPE Warrants") to purchase up to 436,511 shares of our common stock at \$2.70 per share, through our exclusive placement agent, Spencer Clarke LLC of New York. We raised \$1,650,009 gross proceeds (\$1,435,508 net proceeds) in the PIPE Offering.

On June 28, 2006, we filed a registration statement to register the Bridge Shares and the PIPE Shares, and the shares of our common stock issuable upon exercise of the Bridge Warrants, the PIPE Warrants and warrants issued to Spencer Clarke LLC for various investment banking and other related services, including services in connection with the Bridge Offering, the Overseas Offering and the PIPE Offering. The registration statement was declared effective by the SEC on July 24, 2006.

During the three month period ended September 30, 2006, we also raised \$400,702 gross and net proceeds through the exercise of outstanding warrants.

In September 2006, to address our longer-term capital needs, we entered into what is sometimes referred to as an equity line of credit arrangement with Dutchess. Specifically, we entered into an investment agreement, pursuant to which Dutchess is committed to purchase up to \$10,000,000 of our common stock over the 36-month term of the investment agreement. We are not obligated to request any portion of the \$10,000,000.

Under the line of credit we may, but are not obligated to, put shares of our stock to Dutchess from time to time over a 36-month period, at a purchase price calculated at 97% of the lowest best closing bid for our common stock for the five trading days following our put notice to Dutchess. Because the price of our common stock fluctuates and the number of shares of our common stock, if any, that we may issue, should we exercise our put rights under the equity line of credit, will vary, we do not know how many shares, if any, we will actually issue under the equity line of credit. If we put more than the amount that would require us to issue the 7,000,000 shares that we have registered with the Securities and Exchange Commission (the "SEC"), we would be required to file a new registration statement with regard to the excess number of shares and have it declared effective by the SEC, before we could make further puts under the equity line of credit.

The actual number of shares that we may issue pursuant to the equity line of credit is not determinable as it is based on the market price of our common stock from time to time and the number of shares we desire to put to Dutchess. Under the terms of the equity line of credit, Dutchess may not own more than 4.99% of our issued and outstanding stock at any one time.

If we draw down on the equity line of credit, more shares will be sold into the market by Dutchess. These additional shares could cause our stock price to drop. In turn, if the stock price drops and we make more drawdowns on the equity line of credit, more shares will come into the market, which could cause a further drop in the stock price. You should be aware that there is an inverse relationship between our stock price and the number of shares to be issued pursuant to the equity line of credit. If our stock price declines, we will be required to issue a greater number of shares under the equity line of credit. We have no obligation to utilize the full amount available under the equity line of credit.

As of the date of the filing of this report, we have drawn down \$123,818 of this commitment, leaving \$9,876,182 available under the equity line of credit, and for which we filed a registration statement, registering 7,000,000 shares, or approximately 17.8% of our issued and outstanding stock before any such issuances, with the SEC. The SEC declared the registration statement that we filed effective on October 30, 2006. As of the date of the filing of this report, we have issued to Dutchess 101,771 shares of our common stock in connection with drawdowns under the equity line of credit.

We believe that exercises of in-the-money options and warrants, together with sales of our securities in other financings we have undertaken and may undertake in the future, will provide most of the proceeds needed to meet our capital requirements on a going forward basis. However, there can be no assurance that additional equity or debt financing will be available on terms favorable to us. If we are unable to obtain additional financing, we may be required to delay, reduce the scope of, or eliminate, our ongoing research and development programs, reduce our marketing and sales activities, or relinquish rights to technologies that we might otherwise seek to development or commercialize.

Critical Accounting Policies and Estimates

Our discussion and analysis of financial condition and results of operations is based upon our Financial Statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these Financial Statements and related disclosures requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, expenses, and related disclosure of contingent assets and liabilities. We evaluate, on an on-going basis, our estimates and judgments, including those related to the useful life of the assets. We base our estimates on historical experience and assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The methods, estimates and judgments we use in applying our most critical accounting policies have a significant impact on the results that we report in our Financial Statements. The SEC considers an entity's most critical accounting policies to be those policies that are both most important to the portrayal of a company's financial condition and results of operations and those that require management's most difficult, subjective or complex judgments, often as a result of the need to make estimates about matters that are inherently uncertain at the time of estimation. We believe the following critical accounting policies, among others, require significant judgments and estimates used in the preparation of our Financial Statements:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and

expenses during the reporting period. Certain significant estimates were made in connection with preparing our financial statements as described in Note 2 to Notes to Financial Statements. See Part I, Item 1, "Financial Statements". Actual results could differ from those estimates.

Stock-Based Compensation

On January 1, 2006, we adopted Statements of Financial Accounting Standards No. 123 (revised 2004), "Share-Based Payment," ("SFAS 123R"), which requires the measurement and recognition of compensation expense for all share-based payment awards made to employees and directors based on estimated fair values. SFAS 123R supersedes our previous accounting under Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB 25") for periods beginning in fiscal 2006. In March 2005, the Securities and Exchange Commission issued Staff Accounting Bulletin No. 107 ("SAB 107") relating to SFAS 123R. We have applied the provisions of SAB 107 in our adoption of SFAS 123R.

We adopted SFAS 123R using the modified prospective transition method, which requires the application of the accounting standard as of January 1, 2006, the first day of our 2006 fiscal year. Stock-based compensation expense recognized under SFAS 123R for employees and directors for the three and nine months ended September 30, 2006 was \$594,718 and \$1,809,493, respectively. Basic and diluted loss per share would have been \$(0.04) for the quarter ended September 30, 2006 and \$(0.18) for the nine months ended September 30, 2006, if we had not adopted SFAS 123R, compared to reported basic and diluted loss per share of \$(0.05) and \$(0.23) per share, respectively. As of September 30, 2006, there is \$900,173 of unrecognized compensation expense related to unvested options that are expected to vest through February 2007. The weighted average period over which this expense is to be recognized is approximately three months.

Recent Accounting Pronouncements

In May 2005, the FASB issued Statement No. 154, "Accounting Changes and Error Corrections — a replacement of APB Opinion No. 20 and FASB Statement No. 3" ("SFAS No. 154"). SFAS No. 154 changes the requirements for the accounting for and reporting of a change in accounting principle. APB Opinion 20 previously required that most voluntary changes in accounting principle be recognized by including in net income of the period of the change the cumulative effect of changing to the new accounting principle. SFAS No. 154 requires retrospective application to prior periods' financial statements of changes in accounting principle, unless it is impracticable to determine either the period-specific effects of the cumulative effect of the change. In the event of such impracticality, SFAS No. 154 provides for other means of application. In the event the Company changes accounting principles, it will evaluate the impact of SFAS No. 154.

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48 ("FIN 48"), "Accounting for Uncertainty in Income Taxes — an interpretation of FASB Statement No. 109," Accounting for Income Taxes". FIN 48 establishes that the financial statement effects of a tax position taken or expected to be taken in a tax return are to be recognized in the financial statements when it is more likely than not, based on the technical merits, that the position will be sustained upon

examination. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company is currently assessing the impact this new standard will have on the consolidated results of operations, financial position, or cash flows.

FASB Statement of Financial Accounting Standards No. 157, Fair Value Measurements ("SFAS No. 157"), issued in September 2006, establishes a formal framework for measuring fair value under GAAP. It defines and codifies the many definitions of fair value included among various other authoritative literature, clarifies and, in some instances, expands on the guidance for implementing fair value measurements, and increases the level of disclosure required for fair value measurements. Although SFAS No. 157 applies to and amends the provisions of existing FASB and AICPA pronouncements, it does not, of itself, require any new fair value measurements, nor does it establish valuation standards. SFAS No. 157 applies to all other accounting pronouncements requiring or permitting fair value measurements, except for; SFAS No. 123 (R), share-based payment and related pronouncements, the practicability exceptions to fair value determinations allowed by various other authoritative pronouncements, and AICPA Statements of Position 97-2 and 98-9 that deal with software revenue recognition. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years.

Item 3. Controls and Procedures

- (a) Evaluation of disclosure controls and procedures: Our management evaluated, with the participation of our Chief Executive Officer and Chief Financial Officer, the effectiveness of our disclosure controls and procedures as of the end of the period covered by this Quarterly Report on Form 10-QSB. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act") are not adequate to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms. We have developed, and have partially implemented, a plan to ensure that all information will be recorded, processed, summarized and reported on a timely basis. This plan is dependent, in part, upon reallocation of responsibilities among various personnel, hiring additional personnel and additional funding. We began to implement this plan during 2005, including the hiring in August 2005 of a Controller who is a Certified Public Accountant. It should also be noted that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote.
- (b) Changes in internal control over financial reporting: There was no change in our internal control over financial reporting that occurred during the period covered by this Quarterly Report on Form 10-QSB that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PARTII

Item 1. Legal Proceedings

On December 19, 2001, the SEC filed civil charges in the United States Federal District Court, Southern District of New York, against us, our former President and then sole director Jeffrey A. Muller, and others, alleging that we and the other defendants were engaged in a fraudulent scheme to promote our stock. The SEC complaint alleged the existence of a promotional campaign using press releases, Internet postings, an elaborate website, and televised media events to disseminate false and materially misleading information as part of a fraudulent scheme to manipulate the market for stock in our corporation, which was then controlled by Mr. Muller. On March 22, 2002, we signed a Consent to Final Judgment of Permanent Injunction and Other Relief in settlement of this action as against the corporation only, which the court approved on July 2, 2002. Under this settlement, we were not required to admit fault and did not pay any fines or restitution. The SEC's charges of fraud and stock manipulation continue against Mr. Muller and others.

On July 2, 2002, after an investigation by our newly constituted board of directors, we filed a cross-complaint in the SEC action against Mr. Muller and others seeking injunctive relief, disgorgement of monies and stock and financial restitution for a variety of acts and omissions in connection with sales of our stock and other transactions occurring between 1998 and 2002. Among other things, we alleged that Mr. Muller and certain others sold Company stock without providing adequate consideration to us; sold insider shares without making proper disclosures and failed to make necessary filing required under federal securities laws; engaged in self-dealing and entered into various undisclosed related-party transactions; misappropriated for their own use proceeds from sales of our stock; and entered into various undisclosed arrangement regarding the control, voting and disposition of their stock. On July 30, 2002, the U.S. Federal District Court, Southern District of New York, granted our application for a preliminary injunction against Mr. Muller and others, which prevented Mr. Muller and other cross-defendants from selling, transferring, or encumbering any assets and property previously acquired from us, from selling or transferring any of our stock that they may own or control, or from taking any action to injure us or our business and from having any direct contact with our shareholders. The injunctive order also prevents Mr. Muller from engaging in any effort to exercise control over our corporation and from serving as an officer or director of our company. While we believe that we have valid claims, there can be no assurance that an adverse result or settlement would not have a material adverse effect on our financial position or cash flow.

In the course of the litigation, we have obtained ownership control over Mr. Muller's claimed patent rights to the ZEFS device. Under a Buy-Sell Agreement between Mr. Muller and dated December 29, 1998, Mr. Muller, who was listed on the ZEFS devise patent application as the inventor of the ZEFS device, purported to grant us all international marketing, manufacturing and distribution rights to the ZEFS device. Those rights were disputed because an original inventor of the ZEFS device contested Mr. Muller's legal ability to have conveyed those rights.

In Australia, Mr. Muller entered into a bankruptcy action seeking to overcome our claims for ownership of the ZEFS device. In conjunction with these litigation proceedings, a settlement agreement was reached with the bankruptcy trustee whereby the \$10 per unit royalty previously due to Mr. Muller under his contested Buy-Sell Agreement was terminated and replaced with a \$.20 per unit royalty payable to the bankruptcy trustee. On November 7, 2002, under a settlement agreement executed with Mr. Muller's bankruptcy trustee, the trustee transferred to us all ownership and legal rights to this international patent application for the ZEFS device.

Both the SEC and we filed Motions for Summary Judgment contending that there are no material issues of fact in contention and as a matter of law, the Court should grant a judgment against Mr. Muller and the cross-defendants.

Mr. Muller and several of the defendants filed a Motion to Dismiss the complaint filed by us and moved for summary judgment in their favor. On December 28, 2004, Judge George B. Daniels, denied the cross-defendants' motion to dismiss our cross-complaint, denied the defendants' request to vacate the July 2, 2002 preliminary injunction and denied their request for damages against us. The court also refused to grant a summary judgment in favor of the cross-defendants and dismissed Mr. Muller's claims against us for indemnification for his legal costs and for damages resulting from the litigation. Neither Mr. Muller nor any of the cross-defendants have filed any cross-claims against us and we are not exposed to any liability as a result of the litigation, except for possibly incurring legal fees and expenses should we lose the litigation.

On November 16, 2005, the Court granted the SEC's motion for summary judgment. In granting the motion, the Court has barred Mr. Muller from serving as an officer or director of a public company for a period of 20 years, ordered Mr. Muller to disgorge any shares of our stock that he still owns and directed the Company to cancel any issued and outstanding shares of our stock still owned by Mr. Muller. Mr. Muller was also ordered to disgorge to the SEC unlawful profits in the amount of \$7.5 million and a pay a civil penalty in the amount of \$100,000. Acting in accordance with the ruling and decision of the Court, we have canceled (i) 8,047,403 shares of its common stock held by Mr. Muller and/or his affiliates, (ii) options to acquire an additional 10,000,000 shares of our common stock held by Mr. Muller personally and (iii) \$1,017,208 of debt which Mr. Muller claimed was owed to him by the Company.

In response to the November 16, 2005 decision by the Court, Muller filed a motion seeking to set aside the Decision and Order of the Court. On March 31, 2006, the Court issued a Decision and Order denying Muller's Motion to set aside the Decision on Summary Judgment issued against Muller on November 16, 2005.

On October 27, 2006, Magistrate Judge Frank Maas, Federal District Court of the Southern District of New York, issued an order granting summary judgment in favor of the Company. The ruling provided that all shares, options and any other obligations allegedly owed by the Company to Jeffrey A. Muller, its former Chairman, were to be disgorged. The ruling also confirmed an earlier decision issued on November 16, 2005 in favor of the SEC holding Mr. Muller liable for \$7.5 million in actual damages, imposing a \$100,000 fine and barring Muller from any involvement with a publicly traded company for 20 years. With prejudgment interest, this ruling brings the actual damages

against Muller to over \$9 million. Additionally, the Court further clarified that the scope of its previous disgorgement order required the disgorgement of any shares of the Company's stock that Mr. Muller or any of his nominees directly or indirectly own or control. The Company has taken action to cancel over 3.6 million shares which had been issued to the offshore companies.

The Court also confirmed the appropriateness of an action previously taken by the Company to acquire the patent rights and to consolidate the manufacturing, marketing and distribution rights with its ownership of all rights to the existing patents.

Finally, the Court ruled that Mr. Muller had no claim to an alleged \$500,000 debt owed to him while damages of over \$9 million remain unpaid. The Court also ruled that other assets that were transferred by Mr. Muller to members of his family through various offshore corporations were also to be disgorged. Because the Court left unresolved an issue concerning claims against one Muller family member, it is expected that the Company will seek a modification of the order. With this exception, this order provides the complete relief requested by the Company in its motion for summary judgment.

In April 2005, Jeffrey A. Muller, the Company's former sole director and executive officer, filed a complaint against us in the Federal District Court for the Central District of California, seeking declaratory and injunctive relief and alleging unfair competition in connection with a claimed prior patent interest in the ZEFS device and stock option rights. In seeking declaratory relief, Mr. Muller is seeking to have the patent rights in the ZEFS device that were previously transferred to us by Mr. Muller's bankruptcy trustee declared null and void.

This lawsuit brought by Mr. Muller arose out of the same claims that are the subject of ongoing litigation in the Federal District Court for the Southern District of New York, in which we have previously obtained a preliminary injunction against Mr. Muller barring him from any involvement with the Company and preventing Mr. Muller, his agents or assigns, from exercising any claimed rights to our assets or stock. Mr. Muller previously filed the same complaint in the Federal District Court for the Southern District of New York, which claim is still pending. On December 28, 2004, Federal District Court Judge George B. Daniels issued a decision dismissing motions filed by Mr. Muller against our cross-claims. The dismissal of those motions involved similar causes of action as those contained in Mr. Muller's recent lawsuit commenced in the Federal District Court for the Central District of California. Since the case in New York is still pending, we believe that the filling of the new lawsuit in California is subject to various defenses which should result in the dismissal of the new lawsuit.

On January 25, 2006, Mr. Muller's complaint, filed in the California District Court and transferred to the Federal Court in the Southern District of New York, was assigned to Judge George B. Daniels. It is expected that the Court will consolidate that complaint with the already pending claims encompassed within our Motion for Summary Judgment. While we believe that we have valid claims and defenses, there can be no assurance that an adverse result or outcome on the pending motions or a trial of this case would not have a material adverse effect on our financial position or cash flow.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the three-month period ended September 30, 2006, holders of our Investor Notes converted an aggregate 1,611,100 shares of common stock in connection with the conversion of \$1,127,658 aggregate principal amount of our Investor Notes plus \$112 of interest. Of this amount, as of September 30, 2006, we had not yet issued 66,654 shares of common stock in connection with the conversion of \$46,658 aggregate principal amount of our Investor Notes. In addition, during the three-month period ended September 30, 2006, we issued 14,603 shares of common stock in connection with the conversion of \$10,000 aggregate principal amount of our Investor Notes plus \$222 of interest, which had been converted on or before June 30, 2006. The Company did not receive any proceeds in connection with the conversion of the Investor Notes. The issuances of the shares of common stock upon conversion of Investor Notes and Bridge Notes described above were made in reliance on the exemptions from registration set forth in Section 4(2) of the Securities Act or Regulation D promulgated thereunder.

During the three-month period ended September 30, 2006, we issued 373,202 shares of common stock in connection with the exercise of outstanding warrants, for which we received \$400,702 gross and net proceeds. Subsequent to the end of the three-month period ended September 30, 2006 and through November 7, 2006, we issued 210,000 shares of common stock in connection with exercise of outstanding warrants, for which we received \$105,000 gross and net proceeds. The issuances of the shares of common stock upon the exercise of the warrants described above were made in reliance on the exemptions from registration set forth in Section 4(2) of the Securities Act or Regulation D promulgated thereunder.

Item 3. Defaults Upon Senior Securities

None

Item 4. Submission of Matters to a Vote of Security Holders

None

Item 5. Other Information

On November 9, 2006, Eugene E. Eichler resigned as Chief Executive Officer and Chief Financial Officer, due to a medical disability. Mr. Eichler's resignation as Chief Executive Officer takes effect on November 20, 2006 and his resignation as Chief Financial Officer takes effect on the earlier to occur of (i) the appointment of his successor or (ii) January 31, 2007. Mr. Eichler will continue to serve as a director of the Company.

Under the terms of Mr. Eichler's separation as an officer of the Company, he is entitled to be paid out the remainder of the cash portion of his employment agreement through December 31, 2007, in accordance with the Company's normal pay policies. Options granted to him in February 2006 have been accelerated and will fully vest on November 20, 2006; additionally, Mr. Eichler will have until November 20, 2007 to exercise such options. Mr. Eichler is also entitled to receive a stock option grant in 2007 equal to the lesser of (i) the number of stock options Mr. Eichler was granted in 2006 or

(ii) the highest number of options granted to any of the then Chief Executive Officer, President or Chief Financial Officer on an annualized basis, on terms no less favorable as granted to such person; provided, however, that such options to be granted to Mr. Eichler shall be fully vested upon grant and shall be exercisable for one year from the date of grant. The Company and Mr. Eichler have waived any claims they may have against each other and have agreed to mutual indemnification.

On November 9, 2006, the Board of Directors named Bruce H. McKinnon, the Company's President, as Chief Executive Officer, effective November 20, 2006. Mr. McKinnon will retain the position of President. The Board of Directors also named John Richard Bautista III, the Company's Executive Vice President of Operations, as Chief Operating Officer, effective November 20, 2006.

Item 6. Exhibits

Certification of Chief Executive Officer of Quarterly Report Pursuant to Rule 13(a)-15(e) or Rule 15(d)-15(e)	
Certification of Chief Financial Officer of Quarterly Report Pursuant to 18 U.S.C. Section 1350	
Certification of Chief Executive Officer and Chief Financial Officer of Quarterly Report pursuant to Rule 13(a)-15(e) or Rule 15(d)-15(e)	47
Сє	ertification of Chief Executive Officer and Chief Financial Officer of Quarterly Report pursuant to Rule 13(a)-

SIGNATURES

In accordance with Section 13 or 15(d) of the Exchange Act, the Registrant has caused this Report to be signed on its behalf by the undersigned, hereunto duly authorized.

SAVE THE WORLD AIR, INC.

EXHIBIT INDEX

Exhibit No.	Description
31.1	Certification of Chief Executive Officer of Quarterly Report Pursuant to Rule 13(a)-15(e) or Rule 15(d)-15(e)
31.2	Certification of Chief Financial Officer of Quarterly Report Pursuant to 18 U.S.C. Section 1350
32	Certification of Chief Executive Officer and Chief Financial Officer of Quarterly Report pursuant to Rule 13(a)-15(e) or Rule 15(d)-15(e)

CERTIFICATION OF CHIEF EXECUTIVE OFFICER PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002 AND RULES 13A-14 AND 15D-14 UNDER THE SECURITIES EXCHANGE ACT OF 1934

I, Eugene E. Eichler, certify that:

- 1. I have reviewed this Quarterly Report on Form 10-QSB of Save the World Air, Inc.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report:
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
- (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
- (b) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
- (c) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
- (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
- (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION OF PERIODIC FINANCIAL REPORT BY THE CHIEF EXECUTIVE OFFICER AND CHIEF FINANCIAL OFFICER PURSUANT TO SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

Solely for the purposes of complying with 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, we, the undersigned Chief Executive Officer and Chief Financial Officer of Save the World Air, Inc. (the "Company"), hereby certify, based on our knowledge, that the Quarterly Report on Form 10-QSB of the Company for the quarter ended June 30, 2006 (the "Report") fully complies with the requirements of Section 13(a) of the Securities Exchange Act of 1934 and that the information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
