CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein includes forward-looking statements (as defined in Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act) that involve substantial risks and uncertainties. All statements other than statements of historical facts contained in this prospectus supplement, the accompanying prospectus and documents incorporated by reference into this prospectus supplement and accompanying prospectus or free writing prospectus, including statements regarding our future results of operations and financial position, business strategy and plans and our objectives for future operations, are forward-looking statements. Forward-looking statements may be identified by the use of words such as “may,” “expect,” “intend,” “anticipate,” “believe,” “estimate,” “continue,” “plan” and other words or phrases of similar meaning. The forward-looking statements are based on our current views with respect to future events and financial performance. These forward-looking statements are subject to a number of risks, uncertainties and assumptions, including those described in the section entitled “Risk Factors” in this prospectus supplement and the accompanying prospectus or in our most recent annual report on Form 10-K and subsequent quarterly reports on Form 10-Q and in our other filings with the SEC that are incorporated by reference in this prospectus supplement or the accompanying prospectus. Although we believe that the assumptions underlying the forward-looking statements are reasonable, any of the assumptions could prove inaccurate and, therefore, there can be no assurance that the forward-looking information will prove to be accurate. In light of the significant uncertainties inherent in the forward-looking information included herein, the inclusion of such information should not be regarded as a representation by us or any other person that the objectives or plans of our company will be achieved. The forward-looking statements relate only to events as of the date on which the statements are made. We do not undertake any obligation to publicly release the results of any revisions to these forward-looking statements. We cannot assure you that actual results will be consistent with these forward looking-statements. These forward-looking statements are subject to risks, uncertainties and assumptions, including, among other factors:

- our history of losses and that we may not be able to remain viable if we are unable to increase revenue, or raise capital, as needed if support from our controlling shareholder does not continue;
- the future issuance of additional shares of common stock and/or preferred stock could dilute existing stockholders;
- we are a “controlled company” within the meaning of the rules of NASDAQ and, as a result, are exempt from certain corporate governance requirements that offer protections to stockholders of other NASDAQ-listed companies;
- our majority stockholder controls the outcome of all matters submitted for stockholder action, including the composition of our board of directors and the approval of significant corporate transactions;
- the risk that demand for our LED light bulbs fails to emerge as anticipated and the potential failure to make adjustments to our operating plan necessary as a result of any failure to forecast accurately;
- the risk that we will not be able to successfully integrate our acquisitions, including our recent acquisitions of Tri-State DE LLC, Relume Technologies, Inc., Seesmart Technologies, Inc. and Value Lighting, Inc., resulting in losses and impairments;
- competition from larger companies in each of our product areas;
- dependence on suppliers and third-party manufacturers; and
- the risk that we may not be able to adequately protect our intellectual property rights or that infringement claims by others may subject us to significant costs even if the claims are invalid and that an adverse outcome in litigation could subject us to significant liabilities, require us to license disputed rights from others or require us to cease marketing or using certain products or technologies.

PROSPECTUS SUPPLEMENT SUMMARY

The following summary highlights information contained elsewhere or incorporated by reference in this prospectus supplement. This summary is not complete and does not contain all of the information that should be considered before investing in our common stock. Before making an investment decision, investors should carefully read the entire prospectus supplement and the accompanying prospectus, including the information incorporated by reference in this prospectus supplement and the accompanying prospectus, paying particular attention to the risks referred to under the headings “Cautionary Statements Regarding Forward-Looking Statements,” “Risk Factors” and our financial statements and the notes to those financial statements. Unless the context requires otherwise or we specifically indicate otherwise, the information in this prospectus supplement assumes that the underwriters do not exercise their over-allotment option.

Overview

We design, manufacture, market and sell high-performance, commercial grade, light-emitting diode, or LED, replacement lamps, LED fixtures and LED-based signage, channel-letter and contour lighting products, as well as conventional lighting products. We sell these products under the Value Lighting, Seesmart, Array, CMG, Lumifluent and Relume brand names. Our products incorporate many proprietary and innovative features. We believe that our product offering and patented designs provide opportunities for significant savings in energy and maintenance costs without compromising the environment. We generate revenue by selling lighting products for use in the commercial market segment, which include vertical markets such as federal, state and local governments, industrial and commercial facilities, multifamily real estate construction, hospitality, institutional, educational, healthcare and signage markets. We market and distribute our products globally through networks of distributors, independent sales agencies and representatives, electrical supply companies, as well as internal marketing and sales forces.

Our operations are comprised of two reportable segments for financial reporting purposes: Lighting Fixtures and Lamps and Lighting Signage and Media. The Lighting Fixtures and Lamps reportable segment includes the Seesmart business, the Relume business, the LIT business, the Tri-State business and the Value Lighting business. The Lighting Signage and Media reportable segment is comprised of the Lumifluent business. Effective January 1, 2014 the Media business of Relume, included in the Lighting Fixtures and Lamps segment since the acquisition of Relume, was transferred to Lumifluent and is now included in the Lighting Signage and Media reportable segment.

Preferred Share Exchange

In connection with the consummation of the offering, RVL I LLC (“RVL”), the beneficial owner of a majority of our issued and outstanding common stock and of all of our issued and outstanding series of preferred stock, has agreed to enter into an exchange agreement pursuant to which it will convert all such preferred stock for an aggregate of 36,300,171 shares of common stock, conditioned on the consummation of the offering of common stock hereunder (the “Preferred Share Exchange”). As a result, each series of preferred stock will be eliminated, and no shares of preferred stock will remain issued or outstanding. RVL, together with its affiliate Aston Capital, LLC (“Aston Capital”), will beneficially own an aggregate of 83,253,863 shares (approximately 68%) of our common stock, before giving effect to the offering of common stock hereunder, and will therefore retain substantial influence over our management and affairs and over all matters requiring stockholder approval, even following the consummation of the offering of common stock hereunder. See the risk factor entitled “We are a ‘controlled company’ and you will be limited in your ability to influence our corporate matters.” under “Risk Factors” on page S-4 of this prospectus supplement.

The consummation of the Preferred Share Exchange is conditioned on the approval by NASDAQ of the listing of the shares of common stock to be issued in the Preferred Share Exchange and on our compliance, if necessary, with NASDAQ Listing Rule 5635 and Rule 14c-2 under the Exchange Act. RVL has agreed to deliver a written consent, if necessary, approving issuance of common stock in the Preferred Stock Exchange. However, there can be no assurances that such consent would be sufficient under applicable NASDAQ rules, or that NASDAQ would otherwise approve the listing of such shares. Until such approvals are obtained, or in the event that any such approvals are not obtained, all outstanding shares of preferred stock will remain outstanding in accordance with their existing terms.

The amount of common stock to be issued to RVL in the Preferred Share Exchange was approved by an independent audit committee of the Company’s board of directors following its review of a third party valuation analysis.

Selected Risk Factors

Our business is subject to numerous risks which are highlighted in the section entitled “Risk Factors” immediately following this prospectus summary, including the following:

- our history of losses and anticipated future losses and the inability to remain viable if we are unable to increase revenue or raise capital as needed;
- the future issuance of additional shares of common stock and/or preferred stock could dilute existing stockholders;
- we are a “controlled company” within the meaning of the rules of NASDAQ and, as a result, are exempt from certain corporate governance requirements that offer protections to stockholders of other NASDAQ-listed companies;
- our majority stockholder controls the outcome of all matters submitted for stockholder action, including the composition of our board of directors and the approval of significant corporate transactions;

- the risk that demand for our LED light bulbs fails to emerge as anticipated and the potential failure to make adjustments to our operating plan necessary as a result of any failure to forecast accurately;
- the risk that we will not be able to successfully integrate our acquisitions, including our recent acquisitions of Tri-State DE LLC, Relume Technologies, Inc., Seesmart Technologies, Inc. and Value Lighting, Inc. resulting in losses and impairments;

Table of Contents

- competition from larger companies in each of our product areas;
- dependence on suppliers and third-party manufacturers; and
- the risk that we may not be able to adequately protect our intellectual property rights or that infringement claims by others may subject us to significant costs even if the claims are invalid and that an adverse outcome in litigation could subject us to significant liabilities, require us to license disputed rights from others or require us to cease marketing or using certain products or technologies.

- 970,500 additional shares of our common stock reserved for future issuance under our 2013 equity incentive plan; and

Unless otherwise indicated, the information in this prospectus supplement assumes the underwriters do not exercise their over-allotment option to purchase additional shares of common stock from us.

RISK FACTORS

Investing in our common stock involves a high degree of risks. Before deciding to purchase our common stock, you should carefully consider the risks and other information we include or incorporate by reference in this prospectus supplement and the accompanying prospectus, including, in particular the discussion of risks and uncertainties under the heading “Risk Factors” contained in our Annual Report on Form 10-K for the fiscal year ended December 31, 2013, which is incorporated by reference in this prospectus supplement, and under similar headings in our subsequently filed quarterly reports on Form 10-Q and annual reports on Form 10-K, as well as the other risks and uncertainties described below and in the other documents incorporated by reference in this prospectus supplement and the accompanying prospectus, and which may be amended, supplemented or superseded from time to time by other reports we file with the SEC in the future. See the sections entitled “Where You Can Find More Information” and “Incorporation of Certain Information by Reference” in this prospectus supplement. The risks and uncertainties we have described are not the only ones facing our company. Additional risks and uncertainties not currently known to us or that we currently deem immaterial may also affect our business operations.

Risks Related to this Offering and Our Common Stock

We are a “controlled company” and you will be limited in your ability to influence corporate matters.

RVL, together with its affiliate of Aston Capital, an entity controlled by our Chairman and Chief Executive Officer, Robert V. LaPenta, will beneficially own approximately 68% of our outstanding capital stock after giving effect to the Preferred Stock Exchange described under the heading “Prospectus Supplement Summary—Preferred Share Exchange” above but before giving effect to the offering of common stock hereunder. Mr. LaPenta as well as three of our other directors (James DePalma, Robert V. LaPenta, Jr. and Robert A. Basil, Jr.) are each members of Aston Capital and officers of each of RVL and Aston Capital. As a result of its beneficial ownership of our outstanding capital stock, RVL and Aston Capital have significant influence over our management and affairs and over all matters requiring stockholder approval, including any change-of-control transaction, such as a merger or other sale of our company or all or substantially all of our assets, for the foreseeable future. This concentrated control limits your ability to influence some corporate matters and could result in some corporate actions that our other stockholders do not view as beneficial, such as failure to approve change of control transactions that could offer holders of our common stock a premium over the market value of our company. As a result, the market price of our common stock could be adversely affected.

The market price of our common stock may be volatile, which could result in substantial losses for investors holding our shares.

The trading price of our common stock following this offering may fluctuate substantially. The price of our common stock in the market after this offering may be higher or lower than the price paid, depending on many factors, some of which are beyond our control and may not be related to our operating performance. These fluctuations could cause you to lose part or all of your investment in our common stock. Factors that could cause fluctuations in the trading price of our common stock include, but are not limited to:

- general fluctuations in stock market prices and volume;
- variations in our quarterly results of operations and our inability to meet analysts’ quarterly or annual estimates or targets of our performance;
- issuances of new or updated research reports by securities analysts;
- changes in market valuations of similar companies;
- changes in expectations as to our future financial performance, including financial estimates by securities analysts and investors;
- failure to complete significant sales;
- announcements by us or our competitors of significant products, contracts, acquisitions or strategic partnerships;
- changes in governmental regulations;

Table of Contents

- future sales of shares of our common stock into the public market, particularly by our controlling stockholder, directors or executive officers to the extent not restricted under applicable securities laws; and
- general domestic or international economic, market and political conditions.

These factors may adversely affect the trading price of our common stock, regardless of our actual operating performance and could prevent you from selling your common stock at or above the offering price. In addition, the stock markets may experience extreme price and volume fluctuations that may be unrelated or disproportionate to a company's operating performance.

Future sales of our common stock in the public market, particularly by our controlling stockholder, directors or executive officers, could cause the price of our stock to decline.

Sales of a substantial number of shares of our common stock in the public market following the applicable contractual lock-ups of our directors and executive officers or by our controlling stockholder, or the perception that such sales could occur, could cause the market price of our common stock to decline below the offering price or limit our future ability to raise capital through an offering of equity securities. All of the shares of our common stock expected to be outstanding upon the consummation of this offering will be freely tradable without restriction or further registration under the federal securities laws, except with respect to applicable volume, manner of sale and other limitations under Rule 144 of the Securities Act of 1993, as amended, or the Securities Act. As of September 30, 2014, we had 451,520 and 289,187 shares of our common stock reserved for issuance upon the exercise of outstanding options and warrants, respectively. As of September 30, 2014, we had 26,940,794 shares of common stock reserved for issuance upon the conversion of our preferred stock, excluding accrued but unpaid dividends thereon. In addition, as of September 30, 2014, we had 970,500 shares of our common stock reserved for future grant and issuance under our 2013 equity incentive plan. An increase in the number of shares of our common stock in the public market could adversely affect prevailing market prices and could impair our ability to raise capital through the sale of our equity securities. In addition, the issuance of any additional securities could, among other things, result in substantial dilution of the percentage ownership of our stockholders at the time of issuance and substantial dilution of our earnings per share.

We may need additional capital in the future and the raising of additional capital may dilute stockholders' ownership in us.

If we decide to accelerate the growth in our operations in response to new market opportunities, acquire other technologies or companies, our revenue grows more slowly than we anticipate or we incur unexpected costs, we may need to raise additional capital. Additional capital may come from several sources, including proceeds from the exercise of outstanding options and warrants, the incurrence of indebtedness or the issuance of additional common stock, preferred stock, debt (whether convertible or not) or other securities, including the proceeds from this offering. Increased indebtedness could negatively affect our liquidity and operating flexibility. The issuance of any additional securities could, among other things, result in substantial dilution of the percentage ownership of our stockholders at the time of issuance, result in substantial dilution of our earnings per share and adversely affect the prevailing market price for our common stock. In addition, we may not be able to obtain additional financing on terms favorable to us, if at all. If additional funds become necessary and are not available on terms favorable to us, or at all, we may be unable to expand our business or continue to pursue our current acquisition strategy, and our business, results of operations and financial condition may be materially adversely affected.

We do not intend to pay cash dividends.

We have never declared or paid cash dividends on our capital stock. We currently intend to retain all available funds and any future earnings for use in the operation and expansion of our business and do not anticipate paying any cash dividends in the foreseeable future. As a result, capital appreciation, if any, of our common stock will be your sole source of potential gain for the foreseeable future.

If securities or industry analysts publish research or reports about our business, or if they change their recommendations regarding our stock, the price of our stock and trading volume could decline.

Currently, the trading market for our common stock is not covered by research reports and opinions published by securities or industry analysts. However, if analysts begin to cover us, the trading market for our common stock may be influenced by the research reports and opinions that are published about our business. Investors have numerous investment opportunities and may limit their investments to publicly traded companies that receive thorough research coverage. If analysts begin to cover us and fail to publish

[Table of Contents](#)

reports in a regular manner, we could lose visibility in the financial markets, which could cause a significant and prolonged decline in our stock price due to lack of investor awareness. Furthermore, if one or more analysts downgrade our stock or comment negatively about our prospects or the prospects of other companies operating in our industry, our stock price could decline significantly.

We could be the subject of securities class action litigation due to future stock price volatility.

The stock market in general, and market prices for the securities of companies like ours, recently have experienced extreme volatility that often has been unrelated to the operating performance of the underlying companies. These broad market and industry fluctuations may adversely affect the market price of our common stock, regardless of our operating performance. When the market price of a stock declines significantly, holders of that stock have sometimes instituted securities class action litigation against the company that issued the stock. If any of our stockholders brought a lawsuit against us, our defense of the lawsuit could be costly and divert the time and attention of our management.

Investors in this offering will suffer immediate and substantial dilution of their investment.

If you purchase common stock in this offering, you will pay more for your shares than our net tangible book value per share. Based upon the sale by us of 8,000,000 shares of our common stock at a public offering price of \$1.25 per share, you will incur immediate and substantial dilution of \$1.22 per share, representing the difference between our public offering price and our net tangible book value per share as of September 30, 2014, as adjusted to reflect (i) the Preferred Share Exchange, as described under the heading “Prospectus Supplement Summary—Preferred Share Exchange” above, and (ii) the sale of our common stock to investors in this offering. Furthermore, if the underwriters exercise their option to purchase additional shares of our common stock, you could experience further dilution. You will experience additional dilution upon exercise of any warrant, upon exercise of options to purchase common stock under our equity incentive plans, or if we otherwise issue additional shares of our common stock or preferred stock. For a further description of the dilution that you will experience immediately after this offering, see the section entitled “Dilution.”

Provisions in our organizational documents and Delaware law may discourage or prevent a change of control, even if an acquisition would be beneficial to our stockholders, which could adversely affect our stock price and prevent attempts by our stockholders to replace or remove our current management.

Our certificate of incorporation and by-laws contain provisions that could delay or prevent a change of control of our company or changes in our board of directors that our stockholders might consider favorable. Some of these provisions:

- authorize the issuance of preferred stock, which can be created and issued by our board of directors without prior stockholder approval, with rights senior to those of our common stock;
- provide for the removal of a director with or without cause and by the affirmative vote of the holders of a majority or more of the shares then entitled to vote at an election of our directors; and
- require advance written notice of stockholder proposals and director nominations.

In addition, other provisions in our certificate of incorporation, by-laws and Delaware law could make it more difficult for stockholders or potential acquirors to obtain control of our board of directors or initiate actions that are opposed by our then-current board of directors, including a merger, tender offer or proxy contest involving our company. Any delay or prevention of a change of control transaction or changes in our board of directors could cause the market price of our common stock to decline.

Our Loan Agreement contains financial covenants that may limit our operating and strategic flexibility.

Our loan and security agreement with Bank of America, N.A., as amended (which we refer to as the “Loan Agreement”) contains financial covenants and other restrictions that limit our ability to engage in certain types of transactions. For example, these restrictions require that we maintain certain solvency ratios tied to our ability to borrow under the terms of the Loan Agreement. There can be no assurance that we will be in compliance with all covenants in the future or that Bank of America will agree to modify the Loan Agreement, should that become necessary.

[Table of Contents](#)

Events beyond our control could affect our ability to comply with these covenants and restrictions. Failure to comply with any of these covenants and restrictions would result in an event of default under the Loan Agreement. If we do not cure an event of default or obtain necessary waivers within the required time periods, Bank of America would be permitted to accelerate the maturity of the debt under the Loan Agreement, foreclose upon our assets securing the debt, and terminate any further commitments to lend to us. Under these circumstances, we may not have sufficient funds or other resources to satisfy our other obligations. In addition, the limitations imposed by the Loan Agreement may significantly impair our ability to obtain other debt or equity financing.

There can be no assurance that any waivers we request will be received on a timely basis, if at all, or that any waivers obtained will extend for a sufficient period of time to avoid an acceleration event, an event of default, or other restrictions on our business. The failure to obtain any necessary waivers could have a material adverse effect on our business, liquidity, and financial condition.

We will have broad discretion in how we use the proceeds from this offering, and we may not use the proceeds effectively.

We intend to use the net proceeds to us from the sale of common stock under this prospectus supplement for general corporate purposes including working capital and the financing of possible acquisitions. Our management will have significant discretion in the application of the proceeds from this offering and could spend the proceeds in ways that do not necessarily improve our operating results or enhance the value of our common stock. Our failure to use these funds effectively could have a material adverse effect on our business.

In the event that any required approvals are not obtained under applicable NASDAQ rules, we will not be able to consummate the Preferred Stock Exchange and all existing classes of preferred stock will remain outstanding.

The consummation of the Preferred Share Exchange is conditioned on the approval by NASDAQ of the listing of the shares of common stock to be issued in the Preferred Share Exchange and on our compliance, if necessary, with NASDAQ Listing Rule 5635 and Rule 14c-2 under the Exchange Act. RVL has agreed to deliver a written consent, if necessary, approving issuance of common stock in the Preferred Stock Exchange. However, there can be no assurances that such consent would be sufficient under applicable NASDAQ rules, or that NASDAQ would otherwise approve the listing of such shares. Until such approvals are obtained, or in the event that any such approvals are not obtained, all outstanding shares of preferred stock will remain outstanding in accordance with their existing terms.

USE OF PROCEEDS

We estimate that our net proceeds from the sale of common stock by us in this offering will be approximately \$8.9 million (approximately \$10.3 million if the underwriters exercise their overallotment option in full), after deducting underwriting discounts and commissions and estimated offering expenses payable by us.

We intend to use the net proceeds to us from the sale of common stock under this prospectus supplement for general corporate purposes, including working capital and the financing of possible acquisitions. Management will have significant discretion in applying net proceeds from this offering.

We will not receive any cash proceeds from the Preferred Share Exchange, as described under the heading “Prospectus Supplement Summary—Preferred Share Exchange” above.

CAPITALIZATION

The following table sets forth our cash and cash equivalents and capitalization as of September 30, 2014:

- on an actual basis;
- on an as adjusted basis to reflect the Preferred Share Exchange for an aggregate of 36,300,171 shares of common stock, as described under the heading “Prospectus Supplement Summary—Preferred Share Exchange” above; and
- on an as adjusted basis to further reflect our receipt of the net proceeds from our sale of 8,000,000 shares of common stock in this offering at a public offering price of \$1.25 per share, after deducting underwriting discounts and commissions and estimated offering expenses payable by us.

The consummation of the Preferred Share Exchange is conditioned on the approval by NASDAQ of the listing of the shares of common stock to be issued in the Preferred Share Exchange and on our compliance, if necessary, with NASDAQ Listing Rule 5635 and Rule 14c-2 under the Exchange Act. RVL has agreed to deliver a written consent, if necessary, approving issuance of common stock in the Preferred Stock Exchange. However, there can be no assurances that such consent would be sufficient under applicable NASDAQ rules, or that NASDAQ would otherwise approve the listing of such shares. Until such approvals are obtained, or in the event that any such approvals are not obtained, all outstanding shares of preferred stock will remain outstanding in accordance with their existing terms.

You should read this table together with “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and our consolidated financial statements and the related notes appearing in our Annual Report on Form 10-K for the year ended December 31, 2013 and our Quarterly Report on Form 10-Q for the quarter ended September 30, 2014.

The number of shares of our common stock outstanding after the completion of this offering is based on 83,461,844 shares outstanding as of September 30, 2014, and excludes:

- 2,032,320 shares subsequently issued as a subsequent payment in connection with our prior acquisition of Value Lighting, Inc.;
- 289,187 shares of our common stock subject to outstanding warrants with an exercise price of \$4.30 per share;

[Table of Contents](#)

- 451,520 shares of our common stock subject to options granted as of September 30, 2014 with a weighted average exercise price of \$4.33 per share;
- 970,500 additional shares of our common stock reserved for future issuance under our 2013 equity incentive plan; and
- 1,200,000 shares of common stock subject to the underwriters' over-allotment option.

DILUTION

If you invest in our common stock, your interest will be diluted to the extent of the difference between the amount per share paid by purchasers of shares of common stock in this public offering and the as adjusted net tangible book value per share of our common stock immediately after this offering.

At September 30, 2014, our net tangible book value was approximately negative \$5.1 million, or approximately negative \$0.06 per share of common stock. Net tangible book value per share represents the amount of our total tangible assets less our total liabilities, divided by the shares of common stock outstanding at September 30, 2014. Our as adjusted net tangible book value at September 30, 2014 would have been \$3.8 million, or \$0.03 per share of common stock, after giving effect to (i) the Preferred Share Exchange for an aggregate of 36,300,171 shares of common stock, as described under the heading “Prospectus Supplement Summary—Preferred Share Exchange” above, and (ii) our sale of 8,000,000 shares of common stock in this offering at a public offering price of \$1.25 per share, after deducting underwriting discounts and commissions and estimated offering expenses payable by us. This represents an immediate increase in as adjusted net tangible book value of \$0.09 per share to existing stockholders (of which an increase of approximately \$0.02 is attributable to the Preferred Share Exchange and an increase of approximately \$0.07 is attributable to the sale of shares of common stock in this offering), and an immediate dilution of approximately \$1.22 per share to new investors.

The following table illustrates this dilution:

Public offering price per share	\$1.25
Net tangible book value per share as of September 30, 2014	<u>\$(0.06)</u>
Increase per share attributable to the Preferred Share Exchange	<u>0.02</u>
Increase per share attributable to this offering	<u>0.07</u>
Total increase per share	\$ 0.09
As adjusted net tangible book value per share after giving effect to the Preferred Share Exchange and this offering	<u>\$0.03</u>
Net tangible book value dilution per share to investors in this offering	<u>\$1.22</u>

The foregoing calculations are based on 83,461,844 shares of our common stock outstanding as of September 30, 2014, and exclude:

- 2,032,320 shares subsequently issued as a subsequent payment in connection with our prior acquisition of Value Lighting, Inc.;
- 289,187 shares of our common stock subject to outstanding warrants with an exercise price of \$4.30 per share;
- 451,520 shares of our common stock subject to options granted as of September 30, 2014 with a weighted average exercise price of \$4.33 per share;
- 970,500 additional shares of our common stock reserved for future issuance under our 2013 equity incentive plan; and
- 1,200,000 shares of common stock subject to the underwriters’ over-allotment option.

To the extent that outstanding warrants or options are exercised, investors purchasing our common stock in this offering will experience further dilution. In addition, we may choose to raise additional capital due to market conditions or strategic considerations even if we believe we have sufficient funds for our current or future operating plans. To the extent that additional capital is raised through the sale of equity or convertible debt securities, the issuance of these securities could result in further dilution to our stockholders.

MATERIAL U.S. FEDERAL TAX CONSIDERATIONS FOR NON-U.S. HOLDERS

The following is a discussion of the material U.S. federal income and estate tax considerations relating to the purchase, ownership and disposition of our common stock by Non-U.S. Holders (as defined below) that purchase our common stock pursuant to this offering and hold such common stock as a capital asset within the meaning of Section 1221 of the U.S. Internal Revenue Code of 1986, as amended (which we refer to as the “Code”). This discussion is based on the Code, the U.S. Treasury Regulations promulgated thereunder, and administrative and judicial interpretations thereof, all as in effect on the date hereof and all of which are subject to change, possibly with retroactive effect, or to different interpretation. We have not sought any ruling from the Internal Revenue Service (which we refer to as the “IRS”), with respect to the statements made and the conclusions reached in the following summary, and there can be no assurance that the IRS will agree with such statements and conclusions. This discussion does not address all of the U.S. federal tax considerations that may be relevant to specific Non-U.S. Holders in light of their particular circumstances (including the Medicare contribution tax imposed under Section 1411 of the Code) or to Non-U.S. Holders subject to special treatment under U.S. federal income tax law (including, without limitation, United States expatriates, “controlled foreign corporations,” or “passive foreign investment companies”).

This discussion also does not address the tax considerations arising under the laws of any non-U.S., state or local jurisdiction or under U.S. federal gift, generation-skipping and, except to the limited extent set forth below, estate tax laws.

If an entity treated as a partnership for U.S. federal income tax purposes invests in our common stock, the U.S. federal income tax considerations relating to such investment will depend in part upon the status and degree of business activities of such entity and the particular partner owning our stock and upon certain determinations made at the partner level. Any such entity should consult its own tax advisor regarding the U.S. federal tax considerations applicable to it and its partners relating to the purchase, ownership and disposition of our common stock.

PERSONS CONSIDERING AN INVESTMENT IN OUR COMMON STOCK SHOULD CONSULT THEIR OWN TAX ADVISORS REGARDING THE U.S. FEDERAL INCOME TAX LAWS TO THEIR PARTICULAR SITUATION, AS WELL AS ANY TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK ARISING UNDER THE U.S. FEDERAL ESTATE, GENERATION-SKIPPING OR GIFT TAX RULES OR UNDER THE LAWS OF ANY STATE, LOCAL, NON-U.S. OR OTHER TAXING JURISDICTION OR UNDER ANY APPLICABLE TAX TREATY.

Non-U.S. Holder Defined

As used in this discussion, the term “Non-U.S. Holder” means a beneficial owner of our common stock that is for U.S. federal income tax purposes:

- an individual who is neither a citizen nor a resident (as such term is defined for U.S. federal income tax purposes under Section 7701(b) of the Code, including the “green card” or “substantial presence” tests, and by application of any pertinent income tax convention in effect) of the United States;
- a corporation, or any other organization taxable as a corporation for U.S. federal income tax purposes, that is not created or organized in or under the laws of the United States, any state thereof, or the District of Columbia;
- an estate that is not subject to U.S. federal income tax on income from non-U.S. sources which is not effectively connected with the conduct of a trade or business within the United States; or
- a trust unless (i) it is subject to the primary supervision of a court within the United States and one or more United States persons have the authority to control all of its substantial decisions or (ii) it has in effect a valid election under applicable U.S. Treasury Regulations to be treated as a United States person.

Distributions on Common Stock

We do not expect to declare or pay dividends on our common stock in the foreseeable future. If we make a distribution of cash or other property (other than certain pro rata distributions of our common stock) in respect of a share of our common stock, the distribution will be treated as a dividend to the extent it is paid from our current or accumulated earnings and profits (as determined

Table of Contents

under U.S. federal income tax principles). If the amount of a distribution exceeds our current and accumulated earnings and profits, such excess generally will be treated first as a tax-free return of capital to the extent of the Non-U.S. Holder's tax basis in such share of our common stock, and then as gain realized on the sale or other disposition of the common stock and will be treated as described under the section entitled "—Sale, Exchange or Other Disposition of Common Stock" below.

Distributions treated as dividends on our common stock that are paid to or for the account of a Non-U.S. Holder and are not effectively connected with a U.S. trade or business conducted by such Non-U.S. Holder generally will be subject to U.S. federal withholding tax at a rate of 30% of the gross amount of the dividend, or at a lower rate if provided by an applicable income tax treaty and the Non-U.S. Holder provides the necessary documentation on a properly executed IRS Form W-8BEN or IRS Form W-8BEN-E (or other appropriate version of IRS Form W-8 or successor form) required to claim benefits under such tax treaty to the applicable withholding agent prior to the payment of the dividends. Non-U.S. Holders that do not timely provide the applicable withholding agent with the required certification, but that qualify for a reduced treaty rate, may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS.

If, however, a dividend distribution is effectively connected with the conduct of a trade or business in the United States carried on by a Non-U.S. Holder (and, if required by an applicable tax treaty that a Non-U.S. Holder relies upon, is attributable to a permanent establishment maintained by the Non-U.S. Holder in the United States), such dividend generally will not be subject to the 30% U.S. federal withholding tax if such Non-U.S. Holder provides the appropriate documentation (generally, IRS Form W-8ECI, or successor form) to the applicable withholding agent. Instead, such Non-U.S. Holder generally will be subject to U.S. federal income tax on such dividend in substantially the same manner as a U.S. holder would be (except as provided by an applicable tax treaty). In addition, a Non-U.S. Holder that is a corporation, i.e., a foreign entity treated as a foreign corporation for U.S. federal income tax purposes, may be subject to a branch profits tax at the rate of 30% (or a lower rate if provided by an applicable tax treaty) on its effectively connected earnings and profits for the taxable year, subject to certain adjustments.

Non-U.S. Holders are urged to consult their advisors regarding their entitlement to benefits under any applicable income tax treaty.

The discussion above is subject to the discussion below under "—FATCA Withholding" and "—Information Reporting and Backup Withholding."

Sale, Exchange or Other Disposition of Common Stock

A Non-U.S. Holder generally will not be subject to U.S. federal income tax on gain recognized on the sale, exchange or other disposition of our common stock unless:

- such gain is effectively connected with the conduct of a trade or business in the United States by such Non-U.S. Holder, (and, if required by an applicable tax treaty, is attributable to a United States permanent establishment of the Non-U.S. Holder) in which event such Non-U.S. Holder generally will be subject to U.S. federal income tax on such gain in substantially the same manner as a U.S. holder would be (except as provided by an applicable tax treaty) and, if it is a corporation, may also be subject to a branch profits tax at the rate of 30% (or a lower rate if provided by an applicable tax treaty) on all or a portion of its effectively connected earnings and profits for the taxable year, subject to certain adjustments; or
- such Non-U.S. Holder is an individual who is present in the United States for 183 days or more in the taxable year of such sale, exchange or disposition and certain other conditions are met, in which case the Non-U.S. Holder will be subject to a flat 30% tax on the net gain derived from the disposition (which may be offset by U.S.-source capital losses); or
- we are or have been a "United States real property holding corporation" ("USRPHC") for U.S. federal income tax purposes.

We do not believe that we are, and we do not presently anticipate that we will become, a USRPHC.

The discussion above is subject to the discussion below under "—FATCA Withholding" and "—Information Reporting and Backup Withholding."

[Table of Contents](#)

FATCA Withholding

Under the U.S. Foreign Account Tax Compliance Act provisions of the Code, the U.S. Treasury Regulations promulgated thereunder, any intergovernmental agreements entered into between the United States and a foreign jurisdiction (each, an “IGA”) and any implementing rules or legislation in connection therewith (collectively, “FATCA”), a withholding tax of 30% will be imposed on certain payments of (a) dividends on our common stock, and (b) on or after January 1, 2017, gross proceeds from the sale or other disposition of our common stock if the recipient does not comply with FATCA. In the case of payments made to a “foreign financial institution” (as defined in the Code), as a beneficial owner or as an intermediary, the tax generally will be imposed, subject to certain exceptions, unless such institution (i) enters into (or is otherwise subject to) an agreement with the U.S. government (a “FATCA Agreement”) or (ii) is required by applicable foreign law enacted in connection with an IGA, in either case, to, among other things, collect and provide to the U.S. or other relevant tax authorities certain information regarding such foreign financial institution’s United States accounts (as defined in a FATCA Agreement or IGA, as applicable). In the case of payments made to a foreign entity that is not a financial institution (as a beneficial owner), the tax generally will be imposed, subject to certain exceptions, unless such entity provides the withholding agent with a certification that it does not have any “substantial United States owners,” as defined in the Code (generally, any “specified United States person” (as defined in the Code) that directly or indirectly owns more than a specified percentage of such entity) or that identifies its “substantial United States owners”. If our common stock is held through a foreign financial institution that enters into a FATCA Agreement, such foreign financial institution generally will be required to withhold tax on payments of dividends and proceeds described above made to (x) an account holder (including an individual) that fails to comply with certain information requests or (y) a foreign financial institution that has not entered into a FATCA Agreement, unless such foreign financial institution is not required to enter into a FATCA Agreement pursuant to applicable foreign law enacted in connection with an IGA. Each Non-U.S. Holder should consult its own tax advisor regarding the application of FATCA to the ownership and disposition of our common stock.

Information Reporting and Backup Withholding

Amounts treated as dividends on our common stock paid to a Non-U.S. Holder, the name and address of the recipient and the amount of any tax withheld from such payments must be reported annually to the IRS and to such Non-U.S. Holder. Pursuant to applicable income tax treaties or other agreements, the IRS may make these reports available to tax authorities in your country of residence. In addition, separate information reporting and backup withholding rules that apply to payments of dividends to certain U.S. persons generally will not apply to payments of dividends on our common stock to a Non-U.S. Holder if such Non-U.S. Holder certifies under penalties of perjury that it is not a United States person by providing the appropriate IRS Form W-8 or successor form) or otherwise establishes an exemption.

Proceeds from the sale, exchange or other disposition of our common stock by a Non-U.S. Holder effected through a U.S. office of a broker generally will be subject to information reporting and backup withholding unless such Non-U.S. Holder certifies under penalties of perjury that it is not a United States person by providing the appropriate IRS Form W-8 or successor form) or otherwise establishes an exemption. Generally, information reporting and backup withholding will not apply to a payment of disposition proceeds to a Non-U.S. Holder where the transaction is effected outside the United States through a non-U.S. office of a broker. However, for information reporting purposes, dispositions effected through a non-U.S. office of a broker with substantial U.S. ownership or operations generally will be treated in a manner similar to dispositions effected through a U.S. office of a broker. Non-U.S. Holders should consult their own tax advisors regarding the application of the information reporting and backup withholding rules to them.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules generally will be allowed as a refund or a credit against a Non-U.S. Holder’s U.S. federal income tax liability if the required information is furnished by such Non-U.S. Holder on a timely basis to the IRS.

U.S. Federal Estate Tax

Shares of our common stock owned or treated as owned directly by an individual Non-U.S. Holder (as specifically defined for U.S. federal estate tax purposes) at the time of his or her death will be included in his or her gross estate for U.S. federal estate tax purposes and may be subject to U.S. federal estate tax unless an applicable estate tax treaty provides otherwise.

UNDERWRITING

General

We have entered into an underwriting agreement with Roth Capital Partners, LLC, as representative of the several underwriters. Subject to certain conditions, we have agreed to sell to the underwriters, and the underwriters have severally agreed to purchase, the number of shares of common stock provided below opposite their respective names.

Underwriter	Number of Shares
Roth Capital Partners, LLC	6,400,000
Craig-Hallum Capital Group LLC	1,600,000
Total	8,000,000

The underwriters are offering the shares of common stock subject to their acceptance of the shares of common stock from us. The underwriters are obligated to take and pay for all of the shares of common stock if any such shares are taken. However, the underwriters are not required to take or pay for the shares of common stock covered by the underwriters' over-allotment option described below.

Over-Allotment Option

We have granted the underwriters an option, exercisable for 30 days from the date of this prospectus supplement, to purchase up to an aggregate of 1,200,000 additional shares of common stock to cover over-allotments, if any, at the public offering price set forth on the cover page of this prospectus supplement, less the underwriting discount. The underwriters may exercise this option solely for the purpose of covering over-allotments, if any, made in connection with the offering of the shares of common stock offered by this prospectus supplement and the accompanying prospectus. If the underwriters exercise this option, each underwriter will be obligated, subject to certain conditions, to purchase a number of additional shares proportionate to that underwriter's initial purchase commitment as indicated in the table above for which the option has been exercised.

Discount, Commissions and Expenses

The underwriters have advised us that they propose to offer the shares of common stock to the public at the initial public offering price set forth on the cover page of this prospectus supplement and to certain dealers at that price less a concession not in excess of \$0.04375 per share. After this offering, the initial public offering price, concession and reallowance to dealers may be changed by the underwriters. No such change shall change the amount of proceeds to be received by us as set forth on the cover page of this prospectus supplement. The shares of common stock are offered by the underwriters as stated herein, subject to receipt and acceptance by them and subject to their right to reject any order in whole or in part. The underwriters have informed us that they do not intend to confirm sales to any accounts over which they exercise discretionary authority.

The following table shows the underwriting discount payable to the underwriters by us on a per share and aggregate basis in connection with this offering. Such amounts are shown assuming both no exercise and full exercise of the underwriters' over-allotment option to purchase additional shares.

	Per Share	Total Without Exercise of Over- Allotment Option	Total With Full Exercise of Over-Allotment Option
Public offering price	\$ 1.25	\$ 10,000,000	\$ 11,500,000
Underwriting discount	\$ 0.0875	\$ 700,000	\$ 805,000

We estimate that expenses payable by us in connection with this offering, other than the underwriting discounts and commissions referred to above, will be approximately \$400,000. We have agreed to reimburse the underwriters for certain out-of-pocket expenses up to a maximum of \$125,000.

[Table of Contents](#)

Indemnification

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933, as amended, or the Securities Act, and liabilities arising from breaches of representations and warranties contained in the underwriting agreement, or to contribute to payments that the underwriters may be required to make in respect of those liabilities.

Lock-Up Agreements

We and our officers and directors have agreed, subject to limited exceptions (including with respect to issuances to affiliates in an amount not to exceed 8,549,421 shares or in connection with mergers or acquisitions of securities, businesses, property or other assets, joint ventures, strategic alliances, equipment leasing arrangements or debt financing in an amount not to exceed 16,245,899 shares), for a period of 90 days after the date of this prospectus supplement, not to offer, sell, contract to sell, pledge, grant any option to purchase, make any short sale or otherwise dispose of, directly or indirectly any shares of common stock or any securities convertible into or exchangeable for our common stock either owned as of the date of the underwriting agreement or thereafter acquired without the prior written consent of Roth Capital Partners, LLC. The applicable lock-up period may be extended if (1) during the last 17 days of the applicable lock-up period, we issue an earnings release or material news or a material event regarding us occurs or (2) prior to the expiration of the applicable lock-up period, we announce that we will release earnings results during the 16-day period beginning on the last day of the applicable lock-up period, then the period of such extension will be 18 days, beginning on the issuance of the earnings release or the occurrence of the material news or material event. If after any announcement described in clause (2) of the preceding sentence, we announce that we will not release earnings results during the 16-day period, the lock-up period shall expire the later of the expiration of the applicable lock-up period and the end of any extension of such period made pursuant to clause (1) of the preceding sentence. Roth Capital Partners, LLC may, in its sole discretion and at any time or from time to time before the termination of the lock-up period, without notice, release all or any portion of the securities subject to lock-up agreements.

Price Stabilization, Short Positions and Penalty Bids

In connection with the offering the underwriters may engage in stabilizing transactions, over-allotment transactions, syndicate covering transactions and penalty bids in accordance with Regulation M under the Exchange Act:

- Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.
- Over-allotment involves sales by the underwriters of shares in excess of the number of shares the underwriters are obligated to purchase, which creates a syndicate short position. The short position may be either a covered short position or a naked short position. In a covered short position, the number of shares over-allotted by the underwriters is not greater than the number of shares that they may purchase in the over-allotment option. In a naked short position, the number of shares involved is greater than the number of shares in the over-allotment option. The underwriters may close out any covered short position by either exercising their over-allotment option and/or purchasing shares in the open market.
- Syndicate covering transactions involve purchases of the common stock in the open market after the distribution has been completed in order to cover syndicate short positions. In determining the source of shares to close out the short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the over-allotment option. If the underwriters sell more shares than could be covered by the over-allotment option, a naked short position, the position can only be closed out by buying shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there could be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering.
- Penalty bids permit the underwriters to reclaim a selling concession from a syndicate member when the common stock originally sold by the syndicate member is purchased in a stabilizing or syndicate covering transaction to cover syndicate short positions.

These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of the common stock. As a result, the price of our common stock may be higher than the price that might otherwise exist in the open market. Neither we nor the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of our common stock. In addition, neither we nor the underwriters make any representation that the underwriters will engage in these transactions or that any transaction, once commenced, will not be discontinued without notice.

- (a) to legal entities which are authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in securities;
- (b) to any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than €43,000,000 and (3) an annual net turnover of more than €50,000,000, as shown in its last annual or consolidated accounts;

- (d) in any other circumstances falling within Article 3(2) of the Prospectus Directive, provided that no such offer of these securities shall result in a requirement for the publication by the issuer or the underwriter of a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of this provision, the expression an “offer to the public” in relation to any of the securities in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and any such securities to be offered so as to enable an investor to decide to purchase any such securities, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression “Prospectus Directive” means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

Each underwriter has represented, warranted and agreed that:

- (a) it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of section 21 of the Financial Services and Markets Act 2000 (the FSMA)) received by it in connection with the issue or sale of any of the securities in circumstances in which section 21(1) of the FSMA does not apply to the issuer; and
- (b) it has complied with and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the securities in, from or otherwise involving the United Kingdom.

Accordingly, in relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (being the Directive of the European Parliament and of the Council 2003/71/EC and including any relevant implementing measure in each Relevant Member State) (each, a Relevant Member State), with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the Relevant Implementation Date) an offer of securities to the public may not be made in that Relevant Member State prior to the publication of a prospectus in relation to such securities which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, all in accordance with the Prospectus Directive, except that it may, with effect from and including the Relevant Implementation Date, make an offer of securities to the public in that Relevant Member State at any time:

- to legal entities which are authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in securities;

- in any other circumstances which do not require the publication by the Issuer of a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of this provision, the expression an “offer of securities to the public” in relation to any of the securities in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the securities to be offered so as to enable an investor to decide to purchase or subscribe for the securities, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State. This prospectus provides you with a general description of the securities that we may offer and the general manner in which such securities can be offered. Each time we offer securities under this shelf registration process, we will provide a prospectus supplement that will contain specific information about the terms of that offering. We may also authorize one or more free writing prospectuses to be provided to you that may contain material information relating to these offerings. We may also add, update or change in any prospectus supplement (and in any related free writing prospectus) any of the information contained in this prospectus or in the documents that we have incorporated by reference into this prospectus. You should read this prospectus, any applicable prospectus supplement and any related free writing prospectus, together with the information incorporated herein by reference as described under the headings “Where You Can Find More Information” and “Incorporation of Certain Information By Reference,” before buying any of the securities being offered.

You should rely only on the information contained in this prospectus, including the information we are incorporating by reference or in any free writing prospectus prepared by or on behalf of us and delivered or made available to you. This prospectus is not an offer to sell or solicitation of an offer to buy our securities in any circumstances or jurisdiction in which the offer or solicitation is unlawful. The information contained in this prospectus is accurate only as of the date of this prospectus, regardless of the time of delivery of this prospectus, any prospectus supplement or of any sale of our securities.

In this prospectus, unless otherwise stated or the context otherwise requires, the terms “Revolution,” “Revolution Lighting,” “we,” “us,” “our company” or “our” refer to Revolution Lighting Technologies, Inc. and its consolidated subsidiaries, except where it is clear that such terms mean only Revolution Lighting Technologies, Inc. or our subsidiaries, Seesmart Technologies, LLC, Relume Technologies, Inc., Lumificient Corporation, Lighting Integration Technologies, LLC (which we also refer to as “LIT”), Tri-State DE, LLC (which we also refer to as “Tri-State”) and Value Lighting, LLC.

OUR COMPANY

We design, manufacture, market and sell high-performance, commercial grade smart grid control systems, commercial grade light emitting diode, or LED, fixtures for outdoor and indoor applications and LED-based signage, channel-letter and contour lighting products and LED replacement lamps. We sell these products under the Value Lighting, Seesmart, Array, CMG, Lumificient and Relume brand names. Our products incorporate many proprietary and innovative features. Our product offerings and patented designs provide opportunities for significant savings in energy and maintenance costs without compromising the environment. We sell LED lighting products for use in the municipal and commercial markets, which include vertical markets such as industrial, commercial and government facilities, hospitality, institutional, educational, healthcare and signage markets. We market and distribute our products globally, primarily through our network of distributors, independent sales agencies and representatives, electrical supply companies and internal sales forces.

Our operations are comprised of two reportable segments for financial reporting purposes: LED replacement lamps and fixtures and LED signage and lighting strips. The LED replacement lamps and fixtures reportable segment includes the Seesmart business, the Relume business, the LIT business, the Tri-State business and the Value Lighting business. The LED signage and lighting strips segment is comprised of the Lumificient business. Effective January 1, 2014 the media business of Relume, included in the LED replacement lamps and fixtures segment since the acquisition of Relume, was transferred to Lumificient and is now included in the LED signage and lighting strips segment.

We were incorporated in Delaware on December 16, 1993. We are the successor by merger to a Florida corporation named Super Vision International, Inc., which was incorporated in January 1991. In April 2007, we changed our name from Super Vision International, Inc. to Nexxus Lighting, Inc. In November 2012, we changed our name from Nexxus Lighting, Inc. to Revolution Lighting Technologies, Inc. Our principal executive offices are located at 177 Broad Street, 12th Floor, Stamford, CT 06901. Our telephone number is (203) 504-1111 and our website is located at www.rvlti.com. Information contained on our website is not incorporated by reference into, and should not be considered part of, this prospectus.

RISK FACTORS

Investing in our securities involves a high degree of risks. Before deciding to purchase any of our securities, you should carefully consider the risks and other information we include or incorporate by reference in this prospectus and any prospectus supplement, including, in particular the discussion of risks and uncertainties under the heading “Risk Factors” contained in our Annual Report on Form 10-K for the fiscal year ended December 31, 2013, which is incorporated by reference in this prospectus, and under similar headings in our subsequently filed quarterly reports on Form 10-Q and annual reports on Form 10-K, as well as the other risks and uncertainties described in any applicable prospectus supplement or free writing prospectus and in the other documents incorporated by reference in this prospectus, and which may be amended, supplemented or superseded from time to time by other reports we file with the Securities and Exchange Commission, or the SEC, in the future. See the sections entitled “Where You Can Find More Information” and “Incorporation of Certain Information by Reference” in this prospectus. The risks and uncertainties we have described are not the only ones facing our company. Additional risks and uncertainties not currently known to us or that we currently deem immaterial may also affect our business operations. Additional risk factors may be included in a prospectus supplement relating to a particular offering of securities.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus, any applicable prospectus supplement and the documents incorporated by reference herein includes forward-looking statements (as defined in Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act) that involve substantial risks and uncertainties. All statements other than statements of historical facts contained in this prospectus and documents incorporated by reference into this prospectus and any prospectus supplement or free writing prospectus, including statements regarding our future results of operations and financial position, business strategy and plans and our objectives for future operations, are forward-looking statements. Forward-looking statements may be identified by the use of words such as “may,” “expect,” “intend,” “anticipate,” “believe,” “estimate,” “continue,” “plan” and other words or phrases of similar meaning. The forward-looking statements are based on our current views with respect to future events and financial performance. These forward-looking statements are subject to a number of risks, uncertainties and assumptions, including those described in the section entitled “Risk Factors” in this prospectus and any accompanying prospectus supplement or free writing prospectus or in our most recent annual report on Form 10-K and subsequent quarterly reports on Form 10-Q and in our other filings with the SEC that are incorporated by reference in this prospectus or any accompanying prospectus supplement. Although we believe that the assumptions underlying the forward-looking statements are reasonable, any of the assumptions could prove inaccurate and, therefore, there can be no assurance that the forward-looking information will prove to be accurate. In light of the significant uncertainties inherent in the forward-looking information included herein, the inclusion of such information should not be regarded as a representation by us or any other person that the objectives or plans of our company will be achieved. The forward-looking statements relate only to events as of the date on which the statements are made. We do not undertake any obligation to publicly release the results of any revisions to these forward-looking statements. We cannot assure you that actual results will be consistent with these forward-looking statements. These forward-looking statements are subject to risks, uncertainties and assumptions, including, among other factors:

- our history of losses and that we may not be able to remain viable if we are unable to increase revenue, or raise capital, as needed if support from our controlling shareholder does not continue;
- the future issuance of additional shares of common stock and/or preferred stock could dilute existing stockholders;
- a substantial portion of our capital structure consists of convertible preferred stock which has a liquidation preference senior to our common stock and is convertible into shares of our common stock at prices that are less than current market values;
- we are a “controlled company” within the meaning of the rules of NASDAQ and, as a result, are exempt from certain corporate governance requirements that offer protections to stockholders of other NASDAQ-listed companies;
- our majority stockholder controls the outcome of all matters submitted for stockholder action, including the composition of our board of directors and the approval of significant corporate transactions;
- the risk that demand for our LED light bulbs fails to emerge as anticipated and the potential failure to make adjustments to our operating plan necessary as a result of any failure to forecast accurately;
- the risk that we will not be able to successfully integrate our acquisitions, including our recent acquisitions of Tri-State DE LLC, Relume Technologies, Inc., Seesmart Technologies, Inc. and Value Lighting Group, Inc., resulting in losses and impairments;
- competition from larger companies in each of our product areas;
- dependence on suppliers and third-party manufacturers; and
- the risk that we may not be able to adequately protect our intellectual property rights or that infringement claims by others may subject us to significant costs even if the claims are invalid and that an adverse outcome in litigation could subject us to significant liabilities, require us to license disputed rights from others or require us to cease marketing or using certain products or technologies.

USE OF PROCEEDS

Except as described in any applicable prospectus supplement or in any free writing prospectus we have authorized for use in connection with a specific offering, we currently intend to use a portion of the net proceeds to us from the sale of securities under this prospectus, if any, for general corporate purposes including working capital and the financing of possible acquisitions. We will set forth in the prospectus supplement applicable to a specific offering our intended use for the net proceeds received from the sale of any securities in that offering. Management will have significant discretion in applying net proceeds from any offering. Pending their use, we plan to invest the net proceeds from this offering in short- and intermediate-term, interest-bearing obligations, investment-grade instruments, certificates of deposit or direct or guaranteed obligations of the U.S. government.

DEFICIENCY OF EARNINGS TO FIXED CHARGES

AND

DEFICIENCY OF EARNINGS TO COMBINED FIXED CHARGES AND PREFERENCE DIVIDENDS

Our earnings were insufficient to cover fixed charges and preference dividends for each of the periods presented. Accordingly, the following table sets forth the deficiency of earnings to fixed charges and the deficiency of earnings to combined fixed charges and preference dividends for each of the periods presented. Because of the deficiency, ratio information is not applicable.

	Six Months Ended June 30, 2014	Year Ended December 31, 2013	Year Ended December 31, 2012	Year Ended December 31, 2011	Year Ended December 31, 2010	Year Ended December 31, 2009
	(in thousands)					
Deficiency of earnings to fixed charges (1)	\$ 7,124	\$ 16,821	\$ 8,579	\$ 5,425	\$ 6,365	\$ 5,247
Deficiency of earnings to combined fixed charges and preference dividends (1)	\$ 7,124	\$ 16,821	\$ 8,579	\$ 5,425	\$ 6,365	\$ 5,247

- (1) In calculating the foregoing deficiencies, “earnings” consist of pretax income (loss) before adjustment for income or loss from equity investees, plus fixed charges, plus amortization of capitalized interest, plus distributed income of equity investees, plus our share of pre-tax losses of equity investees for which charges arising from guarantees are included in fixed charges, less interest capitalized, less preference security dividend requirements of consolidated subsidiaries, less the noncontrolling interest in pre-tax income of subsidiaries that have no incurred fixed charges. “Fixed charges” represent interest incurred (whether expensed or capitalized), amortization of debt costs (including amortized premiums, discounts and capitalized expenses), an estimate of the interest within rental expense and preference security dividend requirements of consolidated subsidiaries.

SECURITIES TO BE OFFERED

We may offer debt securities, shares of common stock, shares of preferred stock, warrants, subscription rights, stock purchase contracts, stock purchase units or other units from time to time in one or more offerings. We will set forth in the applicable prospectus supplement a description of the securities that may be offered under this prospectus. The terms of the offering of securities, the initial offering price and the net proceeds to us will be contained in the prospectus supplement and/or other offering material relating to such offering.

DESCRIPTION OF DEBT SECURITIES

The following description, together with the additional information we may include in any applicable prospectus supplements and in any related free writing prospectuses, summarizes the material terms and provisions of the debt securities that we may offer under this prospectus. While the terms summarized below will apply generally to any debt securities that we may offer, we will describe the particular terms of any debt securities in more detail in the applicable prospectus supplement. The terms of any debt securities offered under a prospectus supplement may differ from the terms described below.

We may issue debt securities from time to time in one or more distinct series. The debt securities may be senior debt securities or subordinated debt securities. Senior debt securities may be issued under a senior indenture and subordinated debt securities may be issued under a subordinated indenture. If we issue debt securities pursuant to an indenture, in the applicable prospectus supplement we will specify the trustee under such indenture. We will include in a supplement to this prospectus the specific terms of debt securities being offered, including the terms, if any, on which debt securities may be convertible into or exchangeable for common stock or other debt securities. The statements and descriptions in this prospectus or in any prospectus supplement regarding provisions of debt securities and any indentures are summaries of these provisions and are subject to, and are qualified in their entirety by reference to, all of the provisions of the debt securities and the indentures (including any amendments or supplements we may enter into from time to time which are permitted under the debt securities or any indenture).

Unless otherwise specified in a prospectus supplement, the debt securities will be direct unsecured obligations of our company. Any debt securities designated as senior will rank equally with any of our other senior and unsubordinated debt. Any debt securities designated as subordinated will be subordinate and junior in right of payment to any senior indebtedness. There may be subordinated debt securities that are senior or junior to other series of subordinated debt securities.

The applicable prospectus supplement will set forth the terms of the debt securities or any series thereof, including, if applicable:

- the title of the debt securities and whether the debt securities will be senior debt securities or subordinated debt securities;
- any limit upon the aggregate principal amount of the debt securities;
- the date or dates on which the principal amount of the debt securities will mature;
- if the debt securities bear interest, the rate or rates at which the debt securities bear interest and the date or dates from which interest will accrue;
- if the debt securities bear interest, the dates on which interest will be payable and the regular record dates for interest payments;
- the place or places where the payment of principal, any premium and interest will be made, where the debt securities may be surrendered for transfer or exchange and where notices or demands to or upon us may be served;
- the price at which we originally issue the debt security, expressed as a percentage of the principal amount, and the original issue date;
- any optional redemption provisions, which would allow us to redeem the debt securities in whole or in part;
- any sinking fund or other provisions that would obligate us to redeem, repay or purchase the debt securities;
- if the currency in which the debt securities will be issuable is U.S. dollars, the denominations in which any registered securities will be issuable, if other than denominations of \$1,000 and any integral multiple thereof;

We are authorized to issue 150,000,000 shares of common stock, par value \$0.001 per share, and 5,000,000 shares of preferred stock, par value \$0.001 per share. As of October 15, 2014, there were 83,371,844 shares of our common stock and 33,226 shares of our preferred stock issued and outstanding.

Common Stock

The holders of our common stock are entitled to one vote per share. Our Certificate of Incorporation does not provide for cumulative voting. The holders of our common stock are entitled to receive ratably such dividends, if any, as may be declared by the board of directors out of legally available funds. However, the current policy of our board of directors is to retain earnings, if any, for the operation and expansion of the Company. Further, no dividend can be paid on our common stock without consent of the holders of our preferred stock. Upon liquidation, dissolution or winding-up of our company, the holders of our common stock are entitled to share ratably in all assets of our company which are legally available for distribution, after payment of or provision for all liabilities and the liquidation preference of any outstanding preferred stock. The Certificate of Incorporation does not provide for preemptive, subscription, redemption or conversion rights with respect to our common stock. The rights of the holders of our common stock are subject to the rights of the holders of any series of preferred stock ranking senior to the common stock so designated.

Preferred Stock

Our board of directors has authority to issue the preferred stock in one or more series and to fix, by resolution, conditional, full, limited or no voting powers, and such designations, preferences and relative, participating, optional or other special rights, if any, as our board of directors may deem advisable. Our board of directors may also set the qualifications, limitations or restrictions of the preferred stock, if any, including the number of shares in a series (which the board of directors may increase or decrease as permitted by the DGCL), liquidation preferences, dividend rates, conversion or exchange rights, redemption provisions of the shares constituting any series, and such other special rights and protective provisions with respect to any class or series as the board of directors may deem advisable without any further vote or action by the stockholders. Any shares of preferred stock so issued would have priority over the common stock with respect to dividend or liquidation rights or both and could have voting and other rights of stockholders. The issuance of preferred stock with voting or conversion rights may adversely affect the voting rights of the holders of common stock.

Each holder of Series B Stock is entitled to vote, together with our common stock, on an as-converted basis and cast the number of votes equal to the number of whole shares of common stock into which the shares of Series B Stock held by such holder are convertible.

For so long as shares of Series B Stock are outstanding, we will be prohibited from taking certain actions without the consent of the holders of at least a majority of the then outstanding shares of Series B Stock, including, among other things, authorization of additional shares of capital stock, increases in the size of the board of directors, declaration of dividends, consummation of certain business combination transactions, and incurrence of indebtedness and liens.

The Series B Stock has a liquidation preference per share equal to \$10.00 per share and will share ratably on an as-converted basis with our common stock in the payment of dividends and distributions.

Series C Senior Convertible Preferred Stock

Pursuant to our Certificate of Incorporation, our board of directors has authorized the Series C Senior Convertible Preferred Stock (which we refer to as the Series C Stock). The Series C Stock is convertible at any time at the option of the holder into shares of our common stock, at a conversion price per share equal to \$0.6889, subject to certain anti-dilution adjustments (which we refer to as the Series C Conversion Price). As of October 15, 2014, the 10,224 outstanding shares of Series C Stock are convertible into 14,841,050 shares of our common stock at the option of the holder. Each holder of Series C Stock is entitled to vote, together with our common stock, on an as-converted basis and cast the number of votes equal to the number of whole shares of common stock into which the shares of Series C Stock held by such holder are convertible.

The Series C Stock has a liquidation preference per share equal to the greater of (i) \$1,000 (subject to customary adjustments with respect to events affecting the Series C Stock) plus accrued but unpaid dividends and (ii) such amount as would have been received had the Series C Stock converted into common stock immediately prior to the liquidation.

In the event of a change in control of the Company or a merger or recapitalization in which the Series C Stock is converted into property or securities other than shares of common stock, the Series C Stock will be automatically converted into common stock at a premium of 150% (if such event occurs prior to December 20, 2017) or 125% (if such event occurs after December 20, 2017) of \$1,000 per share, subject to certain adjustments, in effect immediately prior to such event. Furthermore, from and after December 20, 2017, if the trading price of a share of common stock exceeds 200% of the Series C Conversion Price then in effect for any twenty (20) trading days in the immediately preceding thirty (30) consecutive trading day period, we shall have the right to automatically convert the Series C Stock into common stock at the Series C Conversion Price.

Each share of Series C Stock is entitled to receive cumulative dividends payable at a rate per annum of 10% of \$1,000 per share, subject to certain adjustments, on the date of issuance. Such dividends shall be payable through the issuance of additional shares of Series C Stock on each anniversary of the date of issuance, shall not be paid in cash, and will accrue and cumulate daily. Additionally, the Series C Stock shall share ratably on an as converted basis with the common stock in the payment of all other dividends and distributions.

Series E Senior Convertible Redeemable Preferred Stock

Pursuant to our Certificate of Incorporation, our board of directors has authorized the Series E Senior Convertible Redeemable Preferred Stock (which we refer to as the Series E Stock). The Series E Stock is convertible into shares of our common stock at a conversion price per share equal to \$1.17, subject to certain anti-dilution adjustments (which we refer to as the Series E Conversion Price). As of October 15, 2014, the 5,000 outstanding shares of Series E Stock are convertible into 4,273,504 shares of our common stock at the option of the holder. Each holder of Series E Stock is entitled to vote, together with our common stock, on an as-converted basis and cast the number of votes equal to the number of whole shares of common stock into which the shares of Series E Stock held by such holder are convertible. Pursuant to the voting rights established in the Certificate of Designations, Preferences and Rights of the Series E Stock, for so long as any Series E Stock holder, or any affiliate thereof, holds outstanding shares of Series E Stock, shares of Series C Stock, shares of Series B Stock and/or other shares of preferred stock convertible or exchangeable for shares of common stock, that, on an as-converted basis, together with any shares of common stock held by such Series E holder, represent the percentages of the outstanding shares of common stock set forth below, after giving effect to the conversion into common stock of all preferred shares and such other preferred stock, the Series E holders, exclusively and as a separate class, shall be entitled to elect the number of directors of our company set forth in the table below:

Ownership Percentage	Series E Directors
Fifty percent (50%) or more	4
Thirty percent (30%) or more, but less than fifty percent (50%)	3
Twenty percent (20%) or more, but less than thirty percent (30%)	2
Five percent (5%) or more, but less than twenty percent (20%)	1

As of October 15, 2014, the Series E Stock holder holds on an as-converted basis more than 50% of the outstanding shares of common stock after giving effect to the conversion of the all of the preferred stock held by the Series E Stock holder, and, accordingly, is entitled to elect four directors to the board of directors.

The Series E Stock has a liquidation preference (the “Series E Liquidation Preference”) per share equal to the greater of (i) \$1,000 (subject to customary adjustments with respect to events affecting the Series E Stock) plus accrued but unpaid dividends and (ii) such amount as would have been received had the Series E Stock converted into common stock immediately prior to the liquidation.

We have the option to redeem all or any part of the Series E Stock for cash at any time subject to the holder’s right to convert and require delivery of shares of common stock. The redemption price to be paid by us is equal to 110% of the Series E Liquidation Preference if the Series E Stock is redeemed on or before the first anniversary of the date of the original issuance of shares of Series E Stock (the “Series E Original Issue Date”), 105% of the Series E Liquidation Preference if the Series E Stock is redeemed after the first anniversary of the Series E Original Issue Date but on or prior to the second anniversary of the Series E Original Issue Date, and the Series E Liquidation Preference if the Series E Stock is redeemed at any time thereafter.

At the option of the holders of two-thirds (2/3) of the then-outstanding shares of Series E Stock, we must redeem the number of shares of Series E Stock so requested for cash at the Series E Liquidation Preference. Such option can only be exercised on or after February 21, 2016, the third anniversary of the Series E Original Issue Date.

Each share of Series E Stock shall be entitled to receive dividends (the “Series E Dividend”) payable at a rate per annum of five percent (5%) of \$1,000 per share, subject to certain adjustments (the “Series E Dividend Rate”). To the extent funds are legally available and we are not contractually prohibited from paying such Series E Dividend, the Series E Dividend must be declared and paid from and including the Series E Original Issue Date on each six-month anniversary of the Series E Original Issue Date. At the holder’s option, such dividends are payable through the issuance of additional shares of Series E Stock or in cash. To the extent that we are unable to pay any Series E Dividend (i.e. in the event funds are not legally available or we are contractually prohibited from making payment), any such unpaid Series E Dividend shall be cumulative and shall accrue and compound on a quarterly basis at the then applicable Series E Dividend Rate. Such unpaid Series E Dividend shall be paid as soon as funds are legally available or as soon as we are no longer contractually prohibited from paying such Series E Dividend, as applicable. Additionally, the Series E Stock shall share ratably on an as-converted basis with the common stock in the payment of all other dividends and distributions.

We have the option to redeem all or any part of the Series G Stock for cash at any time subject to the holder's right to convert and require delivery of shares of common stock. At the option of the holders of two-thirds (2/3) of the then-outstanding shares of Series G Stock, we must redeem the number of shares of Series G Stock so requested for cash at the Series G Liquidation Preference. Such option can only be exercised on or after the third anniversary of the Series G Original Issue Date.

Each share of Series G Stock shall be entitled to receive cumulative dividends payable at a rate per annum of nine percent (9%) of \$1,000 per share, subject to certain adjustments (which we refer to as the Series G Dividend). At the holder's option, such dividends shall be payable either in cash or in kind; provided, we shall not make any Series G dividend payments in kind through the issuance of additional Series G Stock to the extent (and only to the extent) such issuance would require the prior approval of our stockholders pursuant to NASDAQ Listing Rule 5635, and in lieu of such issuance, we will make such Series G dividend payments in cash. To the extent funds are legally available and we are not contractually prohibited from paying such Series G Dividend, the Series G Dividend must be declared and paid from and including the Series G Original Issue Date on each six-month anniversary of the Series G Original Issue Date.

Registration Rights

The following is a description of terms of registration rights by which certain holders of our capital stock can register shares of our common stock and is intended as a summary only. The description of the registration rights is qualified in its entirety by reference to the Registration Rights Agreement between the Company, RVL and Aston, which is included as Exhibit 10.1 to our Current Report on Form 8-K, filed with the SEC on September 26, 2012 (which we refer to as the RVL Registration Rights Agreement).

Under the RVL Registration Rights Agreement, certain holders of our common stock may make a written request that we register their shares on Form S-3, if we are eligible to file a registration statement on Form S-3, so long as the request covers shares with an anticipated aggregate offering price, net of underwriting discounts, commissions and other selling expenses, of at least \$1,000,000. We are obligated to use reasonable best efforts to cause the Form S-3 to be declared effective under the Securities Act as promptly as possible after the filing of such Form S-3, but in any event within 120 days after the date of the Form S-3 (180 days if the Form S-3 is reviewed by the SEC with respect to the availability of Rule 415).

Under the RVL Registration Rights Agreement, in the event that we propose to register any shares of common stock under the Securities Act in connection with the public offering of such shares solely for cash, the holders of registrable securities under the RVL Registration Rights Agreement would be entitled to certain “piggy-back” registration rights allowing them to include their shares in such registration.

We agreed to pay the registration expenses of the holders of the shares registered pursuant to the RVL Registration Rights Agreement other than underwriting discounts, selling commissions, applicable stock transfer taxes and expenses and disbursements of counsel for any holder, except for the fees and disbursements of the selling holder’s counsel borne and paid by us as provided in the RVL Registration Rights Agreement.

The RVL Registration Rights Agreement contains customary cross-indemnification provisions, under which we are obligated to indemnify holders of registrable securities in the event of material misstatements or omissions in the registration statement or any violations of federal and state securities laws, and such holders are obligated to indemnify us for material misstatements or omissions or violations of federal and state securities laws attributable to them.

Certain Anti-Takeover Provisions of our Certificate of Incorporation and Bylaws

Our Certificate of Incorporation and our Bylaws include a number of provisions that may have the effect of delaying, deferring or preventing another party from acquiring control of us and encouraging persons considering unsolicited tender offers or other unilateral takeover proposals to negotiate with our board of directors rather than pursue non-negotiated takeover attempts. These provisions include the items described below.

Controlled Company. RVL, an affiliate of our Chairman and Chief Executive Officer, beneficially owns a majority of our outstanding shares of common stock and preferred stock, including all of the outstanding shares of the Series E Stock. Consequently, RVL controls the outcome of all matters submitted for stockholder action, including the composition of the board of directors and the approval of significant corporate transactions. Through its majority representation on the board of directors, RVL has a controlling influence on our strategic direction, policies and management, including the ability to appoint and remove officers. As a result, RVL may cause us to take actions that may not be aligned with the interests of other stockholders. For example, RVL may prevent, delay or accelerate any transaction involving a change in control or in which our stockholders might receive a premium over the prevailing market price for their shares, or may determine to pursue a transaction not involving a premium.

Series E Senior Convertible Redeemable Preferred Stock. As long as any shares of Series E Stock are outstanding, we shall not, without the affirmative vote or written consent of at least a majority of the then outstanding shares of Series E Stock, among other things, amend, alter or repeal provisions of the Certificate of Incorporation or Bylaws, authorize or create any series of capital stock or securities convertible into capital stock, increase the size of the board of directors to greater than eight members, increase or decrease the number of authorized shares of our capital stock or consummate a business combination that will result in a change of control of the Company.

Undesignated Preferred Stock. Our Certificate of Incorporation authorizes the issuance of preferred stock, which can be created and issued by our board of directors without prior stockholder approval, with rights senior to those of our common stock. The existence of authorized but unissued shares of preferred stock may enable our board of directors to render more difficult or to discourage an attempt to obtain control of us by means of a merger, tender offer, proxy contest or otherwise.

Table of Contents

Advance Notice Requirements. Our Bylaws establish advance notice procedures with regard to stockholder proposals relating to the nomination of candidates for election as directors and other business to be brought before stockholder meetings. The notice must contain information specified in our Bylaws.

Removal of Directors and Director Vacancies. Our Bylaws provide that directors may be removed by stockholders with or without cause, by the affirmative vote of a majority of the votes of the issued and outstanding shares of stock entitled to vote, or by a majority vote of our board of directors, and the vacancy in our board of directors caused by any such removal may be filled by such stockholders or directors, as the case may be.

Transfer Agent and Registrar

The transfer agent for our common stock is American Stock Transfer & Trust Company, 6201 Fifteenth Avenue, Brooklyn, New York 11219.

Listing

Our common stock is quoted on the NASDAQ Capital Market under the symbol “RVLT.”

We may issue other warrants in the future for the purchase of debt securities, common stock or other securities. Warrants may be issued independently or together with debt securities or common stock offered by any prospectus supplement and/or other offering material and may be attached to or separate from any such offered securities. Each series of warrants will be issued under a separate warrant agreement to be entered into between us and a warrant agent, all as will be set forth in the prospectus supplement and/or other offering material relating to the particular issue of warrants. The warrant agent will act solely as our agent in connection with the warrants and will not assume any obligation or relationship of agency or trust for or with any holders of warrants or beneficial owners of warrants.

The following summary of certain provisions of the warrants we may issue in the future does not purport to be complete and is subject to, and is qualified in its entirety by reference to, all provisions of the warrant agreements.

Reference is made to the prospectus supplement and/or other offering material relating to the particular issue of warrants offered pursuant to such prospectus supplement and/or other offering material for the terms of and information relating to such warrants, including, where applicable:

- the designation, aggregate principal amount, currencies, denominations and terms of the series of debt securities purchasable upon exercise of warrants to purchase debt securities and the price at which such debt securities may be purchased upon such exercise;
- the number of shares of common stock purchasable upon the exercise of warrants to purchase common stock and the price at which such number of shares of common stock may be purchased upon such exercise;

- if applicable, a discussion of any material United States federal income tax considerations;
- the amount of warrants outstanding as of the most recent practicable date; and
- any other terms of such warrants.

Warrants will be issued in registered form only. The exercise price for warrants will be subject to adjustment in accordance with the applicable prospectus supplement and/or other offering material.

Each warrant will entitle the holder thereof to purchase such principal amount of debt securities or such number of shares of common stock or other securities at such exercise price as shall in each case be set forth in, or calculable from, the prospectus supplement and/or other offering material relating to the warrants, which exercise price may be subject to adjustment upon the occurrence of certain events as set forth in such prospectus supplement and/or other offering material. After the close of business on the expiration date, or such later date to which such expiration date may be extended by us, unexercised warrants will become void. The place or places where, and the manner in which, warrants may be exercised shall be specified in the prospectus supplement and/or other offering material relating to such warrants.

Prior to the exercise of any warrants to purchase debt securities, common stock or other securities, holders of such warrants will not have any of the rights of holders of debt securities, common stock or other securities, as the case may be, purchasable upon such exercise, including the right to receive payments of principal of, premium, if any, or interest, if any, on the debt securities purchasable upon such exercise or to enforce covenants in the applicable indenture, or to receive payments of dividends, if any, on the common stock purchasable upon such exercise, or to exercise any applicable right to vote.

DESCRIPTION OF SUBSCRIPTION RIGHTS

We may issue subscription rights to purchase debt securities, preferred stock, common stock or other securities. These subscription rights may be issued independently or together with any other security offered hereby and may or may not be transferable by the stockholder receiving the subscription rights in such offering. In connection with any offering of subscription rights, we may enter into a standby arrangement with one or more underwriters or other purchasers pursuant to which the underwriters or other purchasers may be required to purchase any securities remaining unsubscribed after such offering.

The applicable prospectus supplement and/or other offering materials will describe the specific terms of any offering of subscription rights for which this prospectus is being delivered. A holder or prospective holder of subscription rights should refer to the applicable prospectus supplement and/or other offering materials for more specific information.

DESCRIPTION OF STOCK PURCHASE CONTRACTS AND STOCK PURCHASE UNITS

We may issue stock purchase contracts, including contracts obligating holders to purchase from us, and obligating us to sell to the holders, a specified number of shares of common stock or other securities at a future date or dates, which we refer to in this prospectus as “stock purchase contracts.” The price per share of the securities and the number of shares of the securities may be fixed at the time the stock purchase contracts are issued or may be determined by reference to a specific formula set forth in the stock purchase contracts. The stock purchase contracts may be issued separately or as part of units consisting of a stock purchase contract and debt securities, common or preferred stock, warrants, subscription rights, other stock purchase contracts or other securities or debt obligations of third parties, including U.S. treasury securities, securing the holders’ obligations to purchase the securities under the stock purchase contracts, which we refer to herein as “stock purchase units.” The stock purchase contracts may require holders to secure their obligations under the stock purchase contracts in a specified manner. The stock purchase contracts also may require us to make periodic payments to the holders of the stock purchase units or vice versa, and those payments may be unsecured or refunded on some basis.

The stock purchase contracts, and, if applicable, collateral or depositary arrangements, relating to the stock purchase contracts or stock purchase units, will be filed with the SEC in connection with the offering of stock purchase contracts or stock purchase units. The prospectus supplement and/or other offering material relating to a particular issue of stock purchase contracts or stock purchase units will describe the terms of those stock purchase contracts or stock purchase units, including the following:

- if applicable, a discussion of material U.S. federal income tax considerations; and
- any other information we think is important about the stock purchase contracts or the stock purchase units.

DESCRIPTION OF UNITS

As specified in the applicable prospectus supplement, we may issue units consisting of one or more of the following: debt securities, shares of common stock or preferred stock, warrants, subscription rights, stock purchase contracts, stock purchase units, other securities, or any combination of the foregoing.

The applicable prospectus supplement will describe:

- the terms of the units and of any of our senior debt securities, subordinated debt securities, common shares, preferred shares, warrants, subscription rights, stock purchase contracts, stock purchase units or other securities comprising the units, including whether and under what circumstances the securities comprising the units may be traded separately;
- a description of the terms of any unit agreement governing the units;

PLAN OF DISTRIBUTION

We may sell securities in any one or more of the following ways from time to time: (i) through agents; (ii) to or through underwriters; (iii) through brokers or dealers; (iv) directly by us to purchasers, including through a specific bidding, auction or other process; (v) through a combination of any of these methods of sale; or (vi) through any other methods described in a prospectus supplement. The applicable prospectus supplement and/or other offering material will contain the terms of the transaction, name or names of any underwriters, dealers, agents and the respective amounts of securities underwritten or purchased by them, the initial public offering price of the securities, and the applicable agent's commission, dealer's purchase price or underwriter's discount. Any dealers and agents participating in the distribution of the securities may be deemed to be underwriters, and compensation received by them on resale of the securities may be deemed to be underwriting discounts. Any underwriters will be subject to the prospectus delivery requirements of the Securities Act.

Any initial offering price, dealer purchase price, discount or commission may be changed from time to time.

The securities may be distributed from time to time in one or more transactions, at negotiated prices, at a fixed price or fixed prices (that may be subject to change), at market prices prevailing at the time of sale, at various prices determined at the time of sale or at prices related to prevailing market prices.

Offers to purchase securities may be solicited directly by us or by agents designated by us from time to time. Any such agent may be deemed to be an underwriter, as that term is defined in the Securities Act of 1933, of the securities so offered and sold.

If underwriters are utilized in the sale of any securities in respect of which this prospectus is being delivered, such securities will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions, including negotiated transactions, at fixed public offering prices or at varying prices determined by the underwriters at the time of sale. Securities may be offered to the public either through underwriting syndicates represented by managing underwriters or directly by one or more underwriters. If any underwriter or underwriters are utilized in the sale of securities, unless otherwise indicated in the applicable prospectus supplement and/or other offering material, the obligations of the underwriters are subject to certain conditions precedent, and that the underwriters will be obligated to purchase all such securities if any are purchased.

If a dealer is utilized in the sale of the securities in respect of which this prospectus is delivered, we will sell such securities to the dealer, as principal. The dealer may then resell such securities to the public at varying prices to be determined by such dealer at the time of resale. Transactions through brokers or dealers may include block trades in which brokers or dealers will attempt to sell shares as agent but may position and resell as principal to facilitate the transaction or in crosses, in which the same broker or dealer acts as agent on both sides of the trade. Any such dealer may be deemed to be an underwriter, as such term is defined in the Securities Act of 1933, of the securities so offered and sold.

To the extent that we make sales through one or more underwriters or agents in at-the-market offerings, we will do so pursuant to the terms of a sales agency financing agreement or other at-the-market offering arrangement between us and the underwriters or agents. If we engage in at-the-market sales pursuant to any such agreement, we will issue and sell our securities through one or more underwriters or agents, which may act on an agency basis or on a principal basis. During the term of any such agreement, we may sell securities on a daily basis in exchange transactions or otherwise as we agree with the underwriters or agents. The agreement will provide that any securities sold will be sold at prices related to the then prevailing market prices for our securities. Therefore, exact figures regarding proceeds that will be raised or commissions to be paid cannot be determined at this time. Pursuant to the terms of the agreement, we also may agree to sell, and the relevant underwriters or agents may agree to solicit offers to purchase, blocks of our common stock or other securities. The terms of each such agreement will be set forth in more detail in a prospectus supplement to this prospectus. In the event that any underwriter or agent acts as principal, or broker-dealer acts as underwriter, it may engage in certain transactions that stabilize, maintain or otherwise affect the price of our securities. We will describe any such activities in the applicable prospectus supplement and/or other offering material.

Offers to purchase securities may be solicited directly by us and the sale thereof may be made directly to institutional investors or others, who may be deemed to be underwriters within the meaning of the Securities Act of 1933 with respect to any resale thereof.

If so indicated in the applicable prospectus supplement and/or other offering material, we may authorize agents and underwriters to solicit offers by certain institutions to purchase securities at the public offering price set forth in the applicable prospectus supplement and/or other offering material pursuant to delayed delivery contracts providing for payment and delivery on the date or dates stated in the applicable prospectus supplement and/or other offering material. Such delayed delivery contracts will be subject only to those conditions set forth in the applicable prospectus supplement and/or other offering material.

Agents, underwriters and dealers may be entitled under relevant agreements to indemnification against certain liabilities, including liabilities under the Securities Act of 1933, or to contribution with respect to payments which such agents, underwriters and dealers may be required to make in respect thereof. The terms and conditions of any indemnification or contribution will be described in the applicable prospectus supplement and/or other offering material.

We may also sell shares of our common stock through various arrangements involving mandatorily or optionally exchangeable securities, and this prospectus may be delivered in connection with those sales.

Underwriters, broker-dealers or agents may receive compensation in the form of commissions, discounts or concessions from us. Underwriters, broker-dealers or agents may also receive compensation from the purchasers of shares for whom they act as agents or to whom they sell as principals, or both. Compensation as to a particular underwriter, broker-dealer or agent might be in excess of customary commissions and will be in amounts to be negotiated in connection with transactions involving shares. In effecting sales, broker-dealers may arrange for other broker-dealers to participate in the resales.

Each series of any securities offered by us hereunder will be a new issue and, other than the common stock, which is listed on the NASDAQ Capital Market, will have no established trading market. We may elect to list any series of securities on an exchange, and in the case of the common stock, on any additional exchange, but, unless otherwise specified in the applicable prospectus supplement and/or other offering material, we shall not be obligated to do so. No assurance can be given as to the liquidity of the trading market for any of the securities.

Agents, underwriters and dealers may engage in transactions with, or perform services for, us and our respective subsidiaries in the ordinary course of business.

Any underwriter may engage in overallotment, stabilizing transactions, short covering transactions and penalty bids in accordance with Regulation M under the Securities Exchange Act of 1934. Overallotment involves sales in excess of the offering size, which create a short position. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Short covering transactions involve purchases of the securities in the open market after the distribution is completed to cover short positions. Penalty bids permit the underwriters to reclaim a selling concession from a dealer when the securities originally sold by the dealer are purchased in a covering transaction to cover short positions. Those activities may cause the price of the securities to be higher than it would otherwise be. If commenced, the underwriters may discontinue any of the activities at any time. An underwriter may carry out these transactions on the NASDAQ Capital Market, in the over-the-counter market or otherwise.

The place and time of delivery for securities will be set forth in the accompanying prospectus supplement and/or other offering material for such securities.

In compliance with the current guidelines of FINRA, the maximum compensation to be received by any FINRA member or independent broker dealer may not exceed 8% of the aggregate amount of the securities offered pursuant to this prospectus and any applicable prospectus supplement.
